European Union Comments

CODEX COMMITTEE ON PESTICIDE RESIDUES
48th Session
Chongqing P.R., China, 25 – 30 April 2016

AGENDA ITEMS 8 (g)

Proposed draft tables 2 and 3 – Examples of selection of representative commodities
(vegetable and other commodity groups)
(for inclusion in the principle and guidance for the selection of representative commodities for the extrapolation of maximum residue limits for pesticides to commodity groups)

(CX/PR 16/48/12)

European Union Competence

European Union Vote

The European Union (EU) would like to thank the Electronic Working Group led by the United States of America and co-chaired by the Netherlands for the preparation of the proposed draft tables 2 and 3 – Examples of selection of representative commodities (vegetable and other commodity groups).

The EU extrapolation rules allow the replacement of trials of 'beans' commodities (with pods, without pods, dry (pulses)) with trials of 'peas' commodities (with pods, without pods, dry (pulses), and vice versa. Therefore, the EU would like to propose to indicate in the second column of Table 2, in both the groups 14 and 15, the 'beans' commodities (with pods, without pods, dry (pulses)) as alternative representative commodities to the 'peas' commodities (with pods, without pods, dry (pulses), and vice versa.

The EU would like to underline that this approach is partially already applied in document CX/PR 16/48/12, but only to the subgroup 14B and to the group 15. EU proposes to use the same approach for all subgroups of the two groups 14 and 15.

In details, the EU would suggest the following changes in Table 2:

- Line 25: Group 14 Legume vegetables, second column: "(Garden pea or podded pea)" should be replaced by (Pisum spp.).

- Line 25: Group 14 Legume vegetables, second column: "and/or Succulent peas without pods (Pisum spp.)" should be added.

- Line 25: Group 14 Legume vegetables, second column: "and Garden pea" should be replaced by "and Bambara groundnut".
- Line 25: Group 14 Legume vegetables, third column: "Ben moringa" and "Peanut (immature)" should be added.

- Line 26: Group 14A Beans with pods, second column: "and/or Peas with pods (Pisum spp.)" should be added.

- Line 27: Group 14 Legume vegetables, second column: "(Garden pea or podded pea)" should be replaced by (Pisum spp.).

- Line 27: Group 14B Peas with pods, third column: "Chi-pea" should be corrected in "Chick-pea".

- Line 28: Group 14C Succulent beans without pods, second column: "and/or Succulent peas without pods (Pisum spp.)" should be added.

- Line 29: Subgroup 14D Succulent peas without pods, second column: "Garden pea" should be deleted.

- Line 29: Subgroup 14D Succulent peas without pods, second column: "Succulent peas without pods (Pisum spp.) and/or Succulent beans without pods (Phaseolus spp.)" should be added.

- Line 30: Subgroup 14E Underground beans and peas, second column: the EU agrees to choose "Bambara groundnut" as example of representative commodities.

- Line 31: Group 15 Pulses, second column: "and Bambara groundnut" should be added.

- Line 34: Subgroup 15C Dry underground legumes, second column: "Bambara groundnut" should be added as example of representative commodities.

Taking into consideration the suggestions listed above, the Table 2 for the groups 14 ad 15 would look as follows (the changes to document CX/PR 16/48/12 are highlighted in yellow):

<p>| 25 | <strong>Group 14 Legume vegetables</strong> | Beans with pods (Phaseolus spp.) and/or Peas with pods (Pisum spp.) (Garden pea or podded pea) and Succulent beans without pods (Phaseolus spp.) and/or Succulent peas without pods (Pisum spp.) and Garden pea and Bambara groundnut | Legume vegetables (VP 0060): Beans (Phaseolus spp.); Beans (Vigna spp.); Beans, shelled (Phaseolus spp.); Beans, shelled (Vigna spp.); Ben Moringa; Bambara groundnut; Broad bean; Catjang; Chick-pea; Common bean; Cowpea; Garden pea; Goa bean; Grass pea; Guar; Jack bean; Lablab bean; Lentil; Lima bean; Lupin; Moth bean; Mung bean; Peanut (immature); Peas; Peas, shelled; Pigeon pea; Potted pea; Rice bean; Scarlet runner bean; Soya bean; Stink bean; Sword bean; Urd bean; Velvet bean; Winged pea; Yard-long bean |</p>

| Subgroup 15B | Dry peas | Peas (dry) (*Pisum* spp.) and/or Beans (*Phaseolus* spp.) (dry) | Dry peas (VD 2066): Peas; Chick-pea; Field pea; Grass-pea; Lentil; Pigeon pea |
| Subgroup 15C | Dry underground legumes | **Bambara groundnut** | Dry underground legumes (VD 2067): Bambara groundnut; Kersting's groundnut |

The EU would like to make also the following specific comment to **Table 3**:

- Line 7, 8, 9: Group 021 Grasses for sugar production and grasses and other plants for syrup production. The three lines under this group make reference to a division of the group into two subgroups ("sugar cane" and "Any crop belonging to GC...") which does not correspond to the proposal of classification of the group 021, as it is presented in CX/PR 16/48/10.

Finally, the EU would like also to note that the lines of the representative commodities of the group 024 'Seeds for beverage and sweets' are missing. These lines should be included in a new **Table 4**, covering the representative commodities for the Type 4: "Nuts and seeds", which has not yet been provided.
