

**EUROPEAN COMMISSION**  
HEALTH AND CONSUMERS DIRECTORATE-GENERAL

Safety of the Food Chain  
**Innovation and Sustainability**

Brussels, 28 January 2014

**15<sup>TH</sup> UPDATE OF THE REGISTER OF VALID APPLICATIONS FOR AUTHORISATION OF  
RECYCLING PROCESSES TO PRODUCE RECYCLED PLASTIC MATERIALS AND ARTICLES  
INTENDED TO COME INTO CONTACT WITH FOODS SUBMITTED UNDER ARTICLE 13 OF  
REGULATION (EC) No 282/2008**

## **Explanatory Note:**

- This register is made available to the public under Article 13(3) of Regulation (EC) No 282/2008<sup>1</sup> on recycled plastic materials and articles intended to come into contact with foods (“the Regulation”). Article 13 of the Regulation lays down transitional measures for the 'initial authorisation phase of recycling processes'. This register is therefore part of the initial authorisation phase.
- This register only contains recycling processes for which a competent authority of a Member State received a valid application<sup>2</sup> before the deadline on 31 December 2009 provided in Article 13(2) of the Regulation.
- The purpose of this register is to ensure that all processes received before the deadline will be authorised at the same moment. In addition, these processes will be authorised before processes not included in this register<sup>3</sup>. This register therefore determines the order in which recycling processes will be authorised.
- Authorisation of recycling processes takes place via individual Commission Decisions granting or refusing authorisation of each recycling process. These Decisions will be prepared after all EFSA opinions on the processes included in this register have been published.
- All recycling processes may continue to be used, but national legislation shall apply until the Commission has adopted these Decisions. Please consult the national authorities in Member States in order to verify their legal status.
- When the Register of authorised recycling processes under Article 9 of Regulation (EC) No 282/2008 is established, this register of valid applications under Article 13 of the regulation will be deleted.

### **Recycling processes included in this register**

- A listing in this register only reflects that an application for authorisation of a recycling process has been received by 31 December 2009.
- These recycling processes are not yet authorised at Union level and have not necessarily been evaluated by EFSA. For the present status of the safety evaluation, please check the EFSA register of questions (see below).

---

<sup>1</sup> Commission Regulation (EC) No 282/2008 of 27 March 2008 on recycled plastic materials and articles intended to come into contact with foods and amending Regulation (EC) No 2023/2006 (OJ L 86, 28.3.2008, p. 9).

<sup>2</sup> Applications are considered as 'valid' when EFSA has accepted the application according to their administrative acceptance procedure ('AAP positive'). A valid application contains the information specified in the EFSA guidelines for the safety assessment of a recycling process for plastics. On the basis on this information, EFSA will assess the safety of the process and publish an opinion on its safety.

<sup>3</sup> In practice, processes for which the application was received after the deadline of 31 December 2009 may be authorised at the same time as processes which are included in this register, but they cannot be authorised earlier. The purpose of the initial authorisation phase is to avoid disturbing the existing recycled plastic food contact materials market by the transition to the Union authorisation procedure from the current national authorisation regime.

- According to Article 13(4) of the Regulation, the deadline of six months for EFSA issuing the opinion after receiving the application shall not apply to processes included in this register. EFSA thus has more time to evaluate these processes.
- Within six months of receiving all EFSA opinions on these processes, the Commission shall submit for opinion draft Decisions granting or refusing authorisation for opinion to the Standing Committee on the Food Chain and Animal Health, pursuant to Article 13(6) of the Regulation.

### **Recycling processes not included in this register**

- Applications which have been received by a national competent authority after the deadline of 31 December 2009 are not included in this register. These applications are not part of the initial authorisation phase.
- EFSA determines the validity of these new applications and evaluates them in the same manner as the applications included in this register. However, EFSA shall give an opinion within six months of receipt of a valid application. This deadline can be extended by six months.
- The Commission will also consider these processes for authorisation in the same manner. However, the Commission is not obliged to present them to the Standing Committee on the Food Chain and Animal Health at the same time as the processes included in this register. Therefore, a Decision granting or refusing authorisation of these recycling processes may be taken at a later time than for the processes included in this register.

### **Checking the present EFSA evaluation status of a specific process**

- This register does not reflect the present evaluation status of a recycling process.
- This status can be checked by either entering the correct EFSA question number (EFSA-Q-20XX-XXXXX), the recycling process number (RECYCXXX) or the name of the process in the keyword field on EFSA's Register of Questions: <http://registerofquestions.efsa.europa.eu/roqFrontend/questionsList.jsf>.
- The EFSA register of Questions gives information on the evaluation status. It can be used to verify whether the application is in progress (or waiting for further information), or is finalised (in which case, a link to the final opinion is given). Also the register makes clear whether an application has been withdrawn.

## Privacy statement

### **Purpose and scope of personal data processing:**

The legal basis for the publication of the document "15<sup>th</sup> UPDATE OF THE REGISTER OF VALID APPLICATIONS FOR AUTHORISATION OF RECYCLING PROCESSES TO PRODUCE RECYCLED PLASTIC MATERIALS AND ARTICLES INTENDED TO COME INTO CONTACT WITH FOODS SUBMITTED UNDER ARTICLE 13 OF REGULATION (EC) NO 282/2008" is Article 13 of Regulation (EC) No 282/2008.

This document is published on the *Europa* website of food contact materials in the section EUROPA > European Commission > DG Health and Consumers > Overview > Food and Feed Safety > Food Contact Materials > Documents. The link to this section is [[http://ec.europa.eu/food/food/chemicalsafety/foodcontact/documents\\_en.htm](http://ec.europa.eu/food/food/chemicalsafety/foodcontact/documents_en.htm)].

### **The information collected, the purpose and the way of data collection**

The personal data collected in this document is the name of the business holder of the recycling process. Collection of personal data was done on the basis of the application for authorisation of the recycling process. An application that is compliant to the note on guidance for submission of applications for evaluation of a recycling process to produce recycled plastics by the European Food Safety Authority (EFSA) (The EFSA Journal (2008) 717, 1-12), contains the name of the business holder in the administrative part of the application.

DG Health and Consumers will record and further process the personal data only for the purpose of this register. The purpose of this register is described on the first page of this document.

Personal data are recorded and stored as long as follow-up actions are needed.

Your data will be handled in conformity with Regulation (EC) N° 45/2001 on the protection of individuals with regard to the processing of personal data by Community institutions and bodies and on the free movement of such data. ([http://ec.europa.eu/geninfo/legal\\_notices\\_en.htm#personaldata](http://ec.europa.eu/geninfo/legal_notices_en.htm#personaldata)).

### **Right of rectification & personal data controller:**

Should you require further information concerning the processing of your personal data or exercise your rights (e.g. access or rectify any inaccurate or incomplete data), please contact SANCO CONSULT-E6 ([sanco-consult-e6@ec.europa.eu](mailto:sanco-consult-e6@ec.europa.eu)).

You have the right of recourse at any time to the European Data Protection Supervisor at [edps@edps.europa.eu](mailto:edps@edps.europa.eu).
