EU Platform on Food Losses and Food Waste (FLW): Digital communications tools

Anne-Laure Gassin
European Commission, DG Health and Food Safety Unit E1, Food information and composition, food waste

EU Platform on Food Losses and Food Waste
14 June 2017
Digital tools to support cooperation

1) Specific to Platform's work, provided and maintained by the European Commission

2) REFRESH Community of Experts – to facilitate sharing of best practice between all interested stakeholders
Digital Tool of the EU FLW Platform: main objectives

- Facilitate the on-going exchange of information, initiatives, news on food losses and food waste developments and mutual learning between Platform members
- Simplify communication between the Commission and Platform members and support meeting preparation and follow-up (both Plenary and subgroup meetings)
Main features:

Authorised users

Agora = the "market place" for all Platform members

Thematic Networks = collaborative spaces on specific topics

Experts networks = dedicated collaborative spaces for subgroups
Registration via EU Login

Join the EU Platform on Food Losses and Food Waste!
Follow two simple steps!

WITHOUT AN ECAS ACCOUNT?
You need to open an ECAS account to enter the EU Platform on FLW. Click below to open your account.

Draft Statement on Health Inequalities Coming Up!

31 May 2016 by Ingred TSENMA (EuroHealthNet) in the Health inequalities and Wellbeing network.

EuroHealthNet is currently in the process of developing a draft statement on the importance of consistent attention and action on health inequalities in our societies.

Our aim is to feed the Statement, that we hope will be endorsed by a broad range of health and social actors active at EU level. ...read more
