ESTABLISHMENTS**

Presented at the meeting of the Standing Committee on the Food Chain and
Animal Health on 1 February 2018.

TECHNICAL SPECIFICATIONS IN RELATION TO THE MASTER LIST OF LISTS AND THE LISTS OF APPROVED FOOD ESTABLISHMENTS

In accordance with Regulation (EC) No 852/2004¹, establishments preparing foodstuffs must be registered in each Member State. Furthermore, a number of establishments, mainly handling products of animal origin for which hygiene conditions are laid down in Regulation (EC) No 853/2004², must be approved by the competent authority of each Member State. According to Regulation (EC) No 882/2004³, Member States must make up-to-date lists of approved establishments available to other Member States and to the public.

The Commission created a web page with the objective of providing an easy and central access to the different lists of approved food establishments in Member States and certain other countries. It also presented in 2005 to the Standing Committee on Food Safety and Animal Health technical specifications to harmonize and codify the presentation of such lists. The presentation of such lists took full account of data protection legislation.

The objective of this working paper is to set down and update the above mentioned specifications.

Annex I to this document sets down the food establishment sections, requiring approval, in the sequence of the sections in Annex III to Regulation (EC) No 853/2004. Secondly, other establishments requiring approval were added. Finally, certain establishments, not subject to approval according to EU requirements, but for which intra-EU trade may benefit from the publication of a list, were added for voluntary listing.

Annex II lists the categories of establishments in each section.

Annex III lists activities performed in the main food sectors.

Annex IV provides a model layout for the listing of establishments.

Annex V sets down codes and legends to be used when completing a list of establishments.

'EU APPROVED FOOD ESTABLISHMENTS AND CERTAIN OTHER SPECIFIED FOOD ESTABLISHMENTS

Establishments handling, preparing or producing products of animal origin for which requirements are laid down in Regulation (EC) No 853/2004, must be approved by the competent authority in accordance with Article 3 of Regulation (EC) No 854/2004⁴. In addition, approval may be required for certain other establishments in accordance with Article 6(3)(c) of Regulation (EC) No 852/2004. This legal basis was used to impose approval of establishments producing sprouts in accordance with Regulation (EU) No 210/2013⁵.

For ease of reference, the lists of approved food establishments are published in the order of Annex III to Regulation (EC) No 853/2004. A Section 0 has been added to cover establishments with general activity and which cannot be placed under one of the other specific Sections mentioned below.
