Austria's national strategies for digitising industry

Industrie 4.0 Österreich

- Launched in 2015 by the **Ministry for Transport, Innovation and Technology (bmvit)**
- Aims to secure and create highly innovative industrial production and boost quality employment, thus strengthening Austria's future competitiveness
- Funding: - Tax incentives for RDI activities of private companies;
- Support programmes for high-tech start-ups;
- Subsidies for SME investing in Industry 4.0 technologies

<http://plattformindustrie40.at/>

"Produktion der Zukunft"

- An independent funding program installed by **bmvit**, that promotes national and translational cooperative research and development projects
- Funding: **20-25M EUR per year**

Digital Roadmap for Austria

- Published in 2017 foreseeing strategies and topics on security, R&I, infrastructure, economy, mobility, health, work 4.0, education and inclusion
- **Responsible ministries:** Federal Ministry for Transport, Innovation and Technology and the Federal Ministry of Science, Research and Economy
- Concrete plans to set up a **network of Digital Innovation Hubs** in Austria; based on **COMET projects**

<https://www.digitalroadmap.gv.at/>

For more information please refer to the individual report per Member State on the national and regional initiatives on Digitising European Industry available on

<https://ec.europa.eu/futurium/en/implementing-digitising-european-industry-actions/national-initiatives-digitising-industry>

**Austria ranks 15 among EU countries.
It is part of the group of countries that are catching up.**

In Austria 31% of citizens have basic digital skills (27% in the EU) and 33% have above basic digital skills (28% in the EU).

Digital Skills (2015)

■ Above basic digital skills ■ Basic digital skills ■ Low or no digital skills, or do not use the internet

% of individuals

In Austria ICT Specialists account for 3.8% of the workforce (3.7% in the EU).

ICT Specialists in the workforce (2014)

Human Capital: Graduates in STEM (Science, Technology and Mathematics)

European
Commission

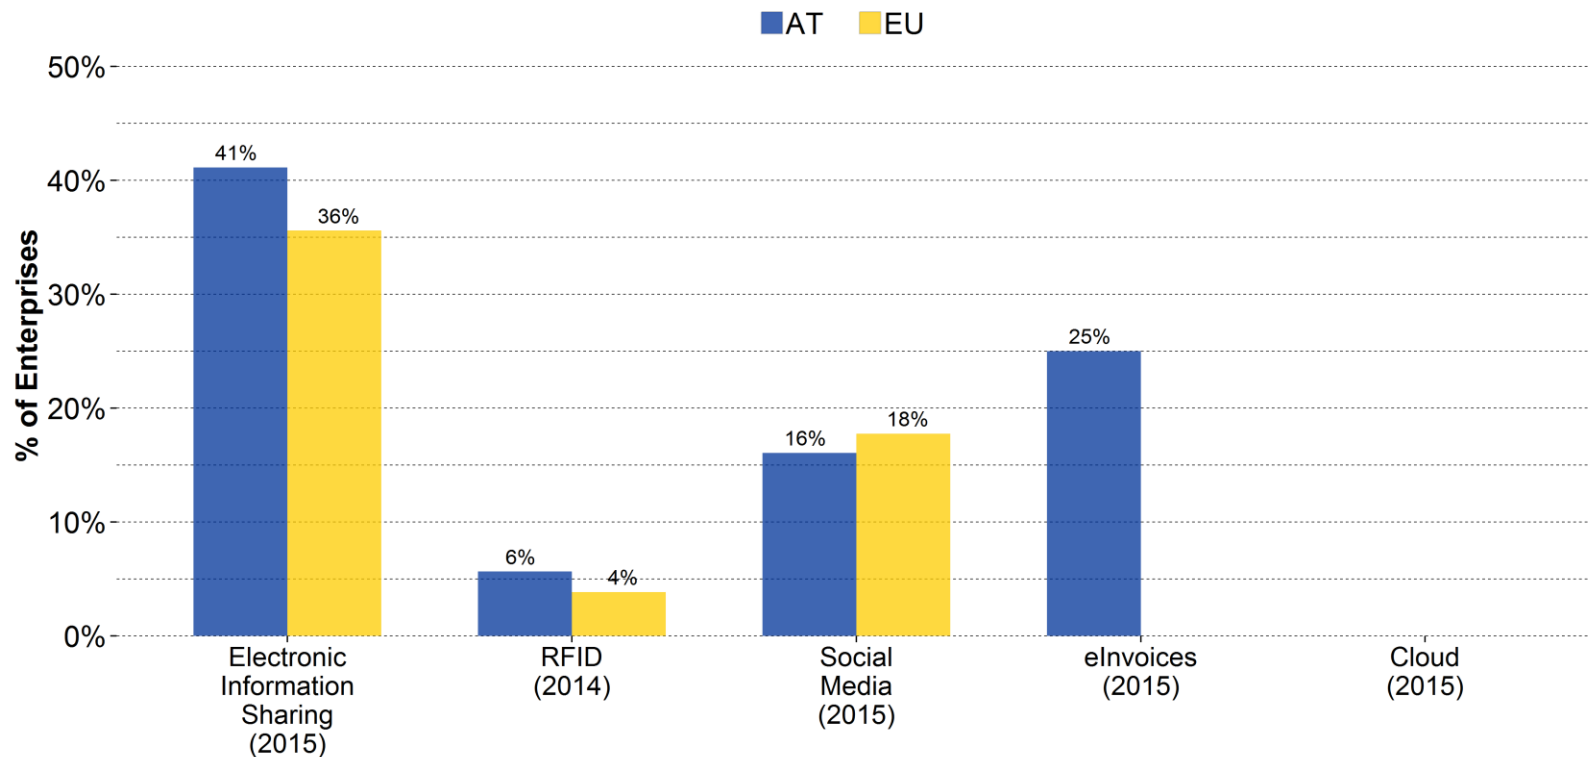

**Austria has 22 graduates in STEM per each 1000 people aged
20-29 years old (18 in the EU).**

Graduates in Science, Technology and Mathematics (2013)

Businesses in Austria are adopting different digital technologies to enhance productivity, such as sharing internal information electronically or using RFID, eInvoicing, Social Media and Cloud.

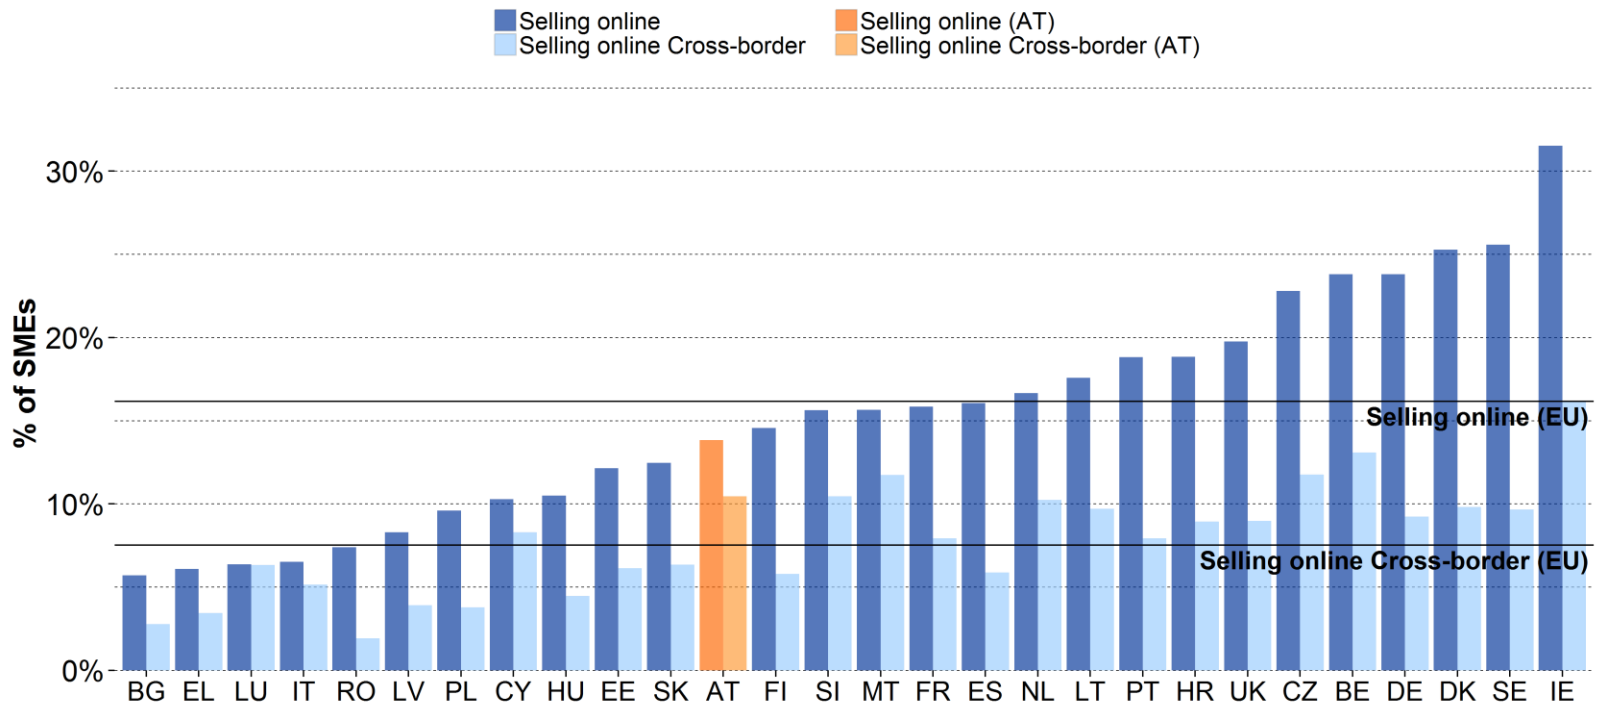

Adoption of Digital Technology by Businesses

In Austria 14% of SMEs sell online (16% in the EU).

10% of Austrian SMEs sell online to other EU countries (7.5% in the EU).

SMEs selling online Overall (2015) vs. Cross-border (2015)

**SMEs in Austria obtain on average 8% of their turnover from eCommerce (9.4% in the EU).
Large enterprises derive on average 26% of their turnover from eCommerce (24% in the EU).**

Turnover from eCommerce (2015)

Austria scores 500 out of 700 in the European Public Sector Information scoreboard, against an overall score of 351 out of 700 for the European Union.

Open Data (2015)

Enterprises with high level of Digital Intensity by economic sectors in Austria

European Commission

Enterprises with High levels of Digital Intensity, by Economic sectors (17 Nace groups)
Year: 2016

Legend

- Manufacture: food, beverages, tobacco, textile, leather, wood, paper; publishing and printing 10+
- Manufacture: coke, petroleum, chemical, plastics, other non-metallic mineral products 10+
- Manufacture: basic metals & fabricated metal products excluding machines & equipments 10+
- Manufacture: computers, electric & optical, motor vehicles, transport equipment, furniture, repair 10+
- Electricity, gas, steam, air conditioning; water supply, sewerage, waste management & remediation 10+
- Construction 10+
- Trade of motor vehicles and motorcycles 10+
- Wholesale trade, except of motor vehicles and motorcycles 10+
- Retail trade, except of motor vehicles and motorcycles 10+
- Transport and storage 10+
- Accommodation and food service activities 10+
- Publishing activities; films & television, sound & music publishing; broadcasting 10+
- Telecommunications 10+
- Computer programming, consultancy and related activities, information services 10+
- Real estate activities 10+
- Professional, scientific and technical activities 10+
- Administrative and support service activities 10+
- Repair of computers and communication equipment

Sectors where less than 30% of the companies have a high level of digital intensity

- Manufacture: food, beverages, tobacco, textile, leather, wood, paper; publishing and printing 10+

Services provided and types of customers supported by DIHs in Austria - Analysis

Types of services provided (%)

- Concept validation and prototyping
- Awareness creation
- Commercial infrastructure
- Ecosystem building, scouting, brokerage, networking
- Incubator/accelerator support
- Mentoring
- Other (description)
- Testing and validation
- Voice of the customer, product consortia
- Access to Funding and Investor Readiness Services
- Collaborative Research
- Digital Maturity Assessment
- Education and skills development
- Market intelligence
- N/A
- Pre-competitive series production
- Visioning and Strategy Development for Businesses

Types of customers supported (%)

- Large companies, multi-nationals
- N/A
- SMEs (<250 employees)
- MidCaps (between €2-10 billion turnover)
- Research organisations
- Start-up companies

The analysis of the data presented was conducted by TNO, the detailed data is provided in the Catalogue of DIHs available on: <http://s3platform.jrc.ec.europa.eu/digital-innovation-hubs-tool>

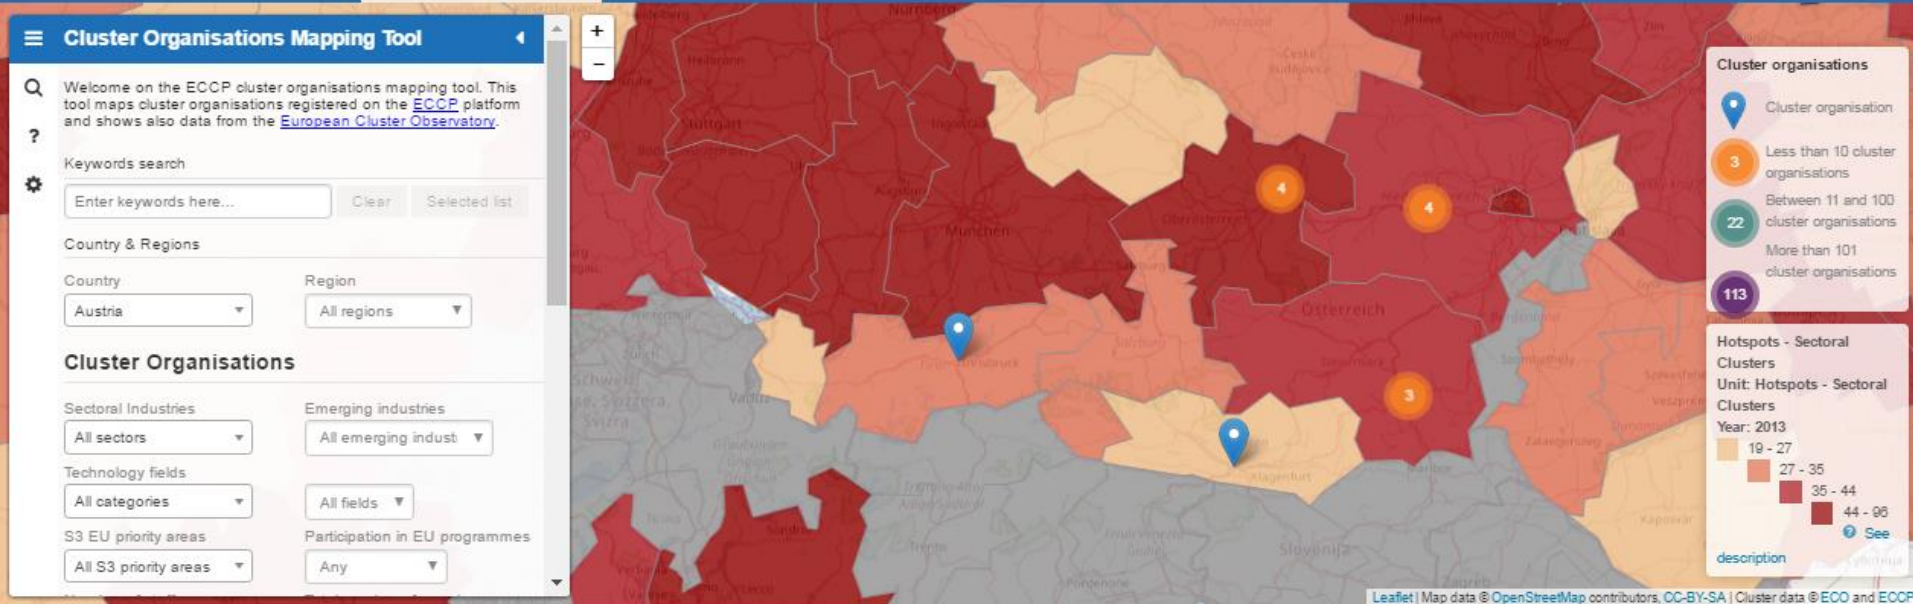

Competence centers/DIHs funded by EU projects in Austria in H2020

SMEs' Access to Key Enabling Technologies

What is the objective of the map below?

To allow **SMEs**, wherever located in Europe, to **find Technology Centres which can help to innovate through Key Enabling Technologies (KETs)**.

The Technology centres are selected according to **criteria** demonstrating their capacity to collaborate with **SMEs** on close-to-market research and innovation (Technology Readiness Levels 3 to 8, not necessarily the whole range).

How to use the map?

Filters at the right-side of the map allow to refine the search.

More details, including the **SME** contact person, can be seen by clicking on the marker for each centre.

Map | List

Map showing Austria with several blue location markers indicating Technology Centres. The map includes labels for major cities like Linz, Salzburg, and Innsbruck, and regions like Oberösterreich and Steiermark.

https://ec.europa.eu/growth/tools-databases/kets-tools/kets-tc/map?field_postal_address_country%5B0%5D=AT

Co-Location Centres are meeting places, melting pots, hubs, where planned, as well as ad hoc, meetings and events take place.

They bring together talents, ideas, technologies and investments that turn the Co-Location Centres into vibrant hot spots where students, researchers, engineers and business developers cross-pollinate to succeed in the market.
