Digitally-Signed Credentials

Mock-Ups of Issue via Spreadsheet, View and Verify Functionalities

Digitally-Signed Credentials

Digitally-signed credentials are electronic records given to a person to certify the learning they have received. They can be awarded for formal education, a training, an online course, a volunteering experience and more.

Credentials for Issuers

Issue Digitally Signed Credentials

Using this free online tool, any organisation can issue degrees, diplomas, certificates of participation or other learning credential. Credentials will be secured using the organisation's e-Seal, and securely delivered to the students.

Create Credentials

Prepare

To create credentials, select the type of credential you would like to create, and then download the **Excel template** which will allow you to enter the data. Alternatively, you may use our online editor.
To ensure that you will be able to seal the credentials later on in the process, you can use the test function.

Diploma in Sociology

Course in Introductory Sociology

Elective Course in Sociology of 20th Century

Course in Sociology of Globalisation

Awarded by: University of Gozo
On: 12/05/2019
Grade: magna cum laude

The diploma represents a thorough training in the systematic study of society and the social and economic policies utilised in different countries. Holders have achieved both a general sociological understanding and specific expertise in various contemporary policy issues.

Learning Outcomes

- Apply social science theories and social research evidence to the critical analysis and evaluation of contemporary social issues and policies.
- Implement documentary, quantitative and qualitative research techniques and methods in the analysis of social issues, policies and problems.

Activity Type: Coursework
Grade: 85%

Description

What is society? How can we understand it? What is the role of the individual in society, and how does society affect individual lives? We examine common-sense assumptions about culture, politics, history, and psychology, and empower students to replace them with evidence-based reasoning. By emphasizing reading, writing, and critical thinking skills, this course helps students build the foundation for a deeper understanding of theory and methods in the social sciences.

PART I. FOUNDATIONS OF SOCIOLOGY

Class 1. Introduction

Class 2: Theoretical Inspirations

Class 3: Conceptualizing Power, Culture & Society

PART II. THE NATION-STATE AND ITS CHALLENGERS
