Pact of Amsterdam – Urban Agenda for the EU

COMUNE DI POTENZA

CLIMATE ADAPTATION Specific objectives

Introduce and define the content of specific **Climate Adaptation Better Regulation Actions** to gather the urban needs for better actions, recommendations and policies improvements.

Introduce and define the content of specific **Climate Adaptation Better Funding Actions** to suggest how the Urban Area could benefit from the funding policies consistent with their real needs.

Introduce and define the content of specific **Climate Adaptation Better Knowledge Exchange Actions** to suggest both traditional and not conventional communication models among the institutional bodies, communities and stakeholders.

CLIMATE ADAPTATION Working Groups

The Partnership Working Groups will deal with the main topic and issue of Climate Adaptation to find **bottlenecks/potentials** to choose and assess the actions to reach the objectives.

GOVERNANCE

Topics: political cycle, mandate, integrated strategic planning, decision-making, experienced staff.

RESOURCES

Topics: funding, people, cost-benefits analysis, climate adaptation monetizing.

KNOWLEDGE

Topics: data, expertise, methodologies, tools, risk assessment, indicators, capacity building, hazard/exposure, vulnerability analysis.

CROSS-CUTTING ISSUES

MONITORING/INDICATORS

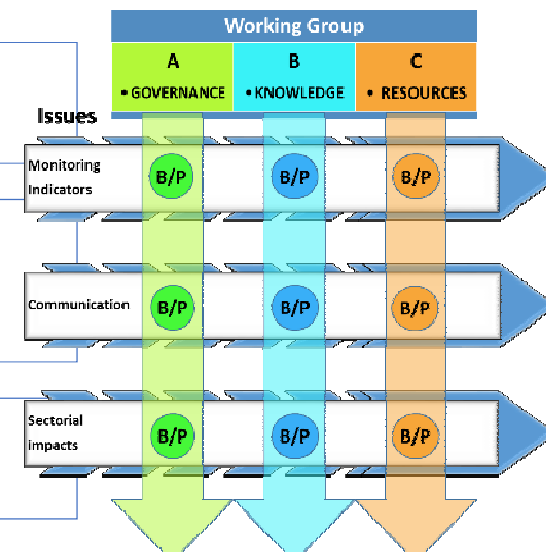

- **Parameters:** model uncertainty, high resolution climate scenario, local level indicator.

COMMUNICATION

- **Parameters:** R&I stakeholders' engagement, dissemination and public education, local action groups communities involvement.

SECTORIAL IMPACT

- **Parameter:** sector related to the biosphere and the anthropic systems.

CLIMATE ADAPTATION Actions

Action Nr. K4

National municipality associations: facilitators for Covenant of Mayors for Climate and Energy

- small and medium cities potential to be committed on long term strategy concerning climate adaptation has also to face lack of resources and the preponderance of different priorities in urban management
- **Action needed:**
 - To stimulate COM in order to address National municipality associations and networks with additional procurements and specific competence in order to play a more effective role of facilitators in the new COM implementation
 - To engage National municipality associations and networks as case study in order to verify their capacities in playing COM facilitator role and evaluate effects in terms of municipalities commitment and accuracy of delivered SECAPs.
- **Indicators:**
 - N° of municipalities applying in the new COM through National municipality associations
 - N° of SECAPs delivered

Action Nr. K7

To enhance citizens and stakeholders' involvement at regional and local level as a compulsory action for climate adaptation urban agenda

- Climate adaptation need for long term strategy and this is not the main dimension of political will and decision making; citizens engagement could represent a strong factor to encourage local governments in strategic decision making on climate adaptation policies and investments
- **Action needed:**
 - To reinforce the role of participatory processes in decision making at local level.
 - To increase the awareness and commitment of citizens in climate adaptation policies and actions.
- **Indicators:**
 - N° of regulations including citizens participation as mandatory in strategic development planning
 - Amount of resources reserved for the implementation of active participatory processes
 - N° of plans, strategies, investments delivered under citizens' participation approach
