La Nouvelle France Industrielle strategy

- Launched in 2013 with the aim to modernise **France's industrial fabric** by engaging all companies on the road for the modernisation of their production instruments and the transformation of their business models **through digitalisation.**

Alliance Industrie du Futur

- Launched in April 2015 by the **Ministry of Economy** with the aim of modernising French Industry, help companies anticipate the digital transformation of the economy and secure coordination with stakeholders through a bottom-up approach.
 - The steering committee is chaired by the **Secretary of State for Industry.**
- Financial support : - **2.5B EUR** in tax incentives (over one year);
- **2.1B EUR** in loans for SMEs (over two years) investing in Industry of the Future projects (digitization, robotics, energy efficiency, etc.)

<http://www.industrie-dufutur.org>

Transition Numérique

- A programme launched in **2012** by the government to support **SMEs** in using digital technologies with the aid of a network of consultants from the public and private sector with an established direct contact to the companies.

www.transition-numerique.fr

Funding

- **305M EUR** is available in subsidies and repayable loans under the PIAVE (**promising industrial projects**) initiative and **425M EUR** from the SPI (**industrial project companies**) fund.

For more information please refer to the individual report per Member State on the national and regional initiatives on Digitising European Industry available on <https://ec.europa.eu/futurium/en/implementing-digitising-european-industry-actions/national-initiatives-digitising-industry>

**France ranks 16 among EU countries.
It is part of the group of countries that are falling behind.**

In France 30% of citizens have basic digital skills (27% in the EU) and 27% have above basic digital skills (28% in the EU).

Digital Skills (2015)

■ Above basic digital skills ■ Basic digital skills ■ Low or no digital skills, or do not use the internet

FR

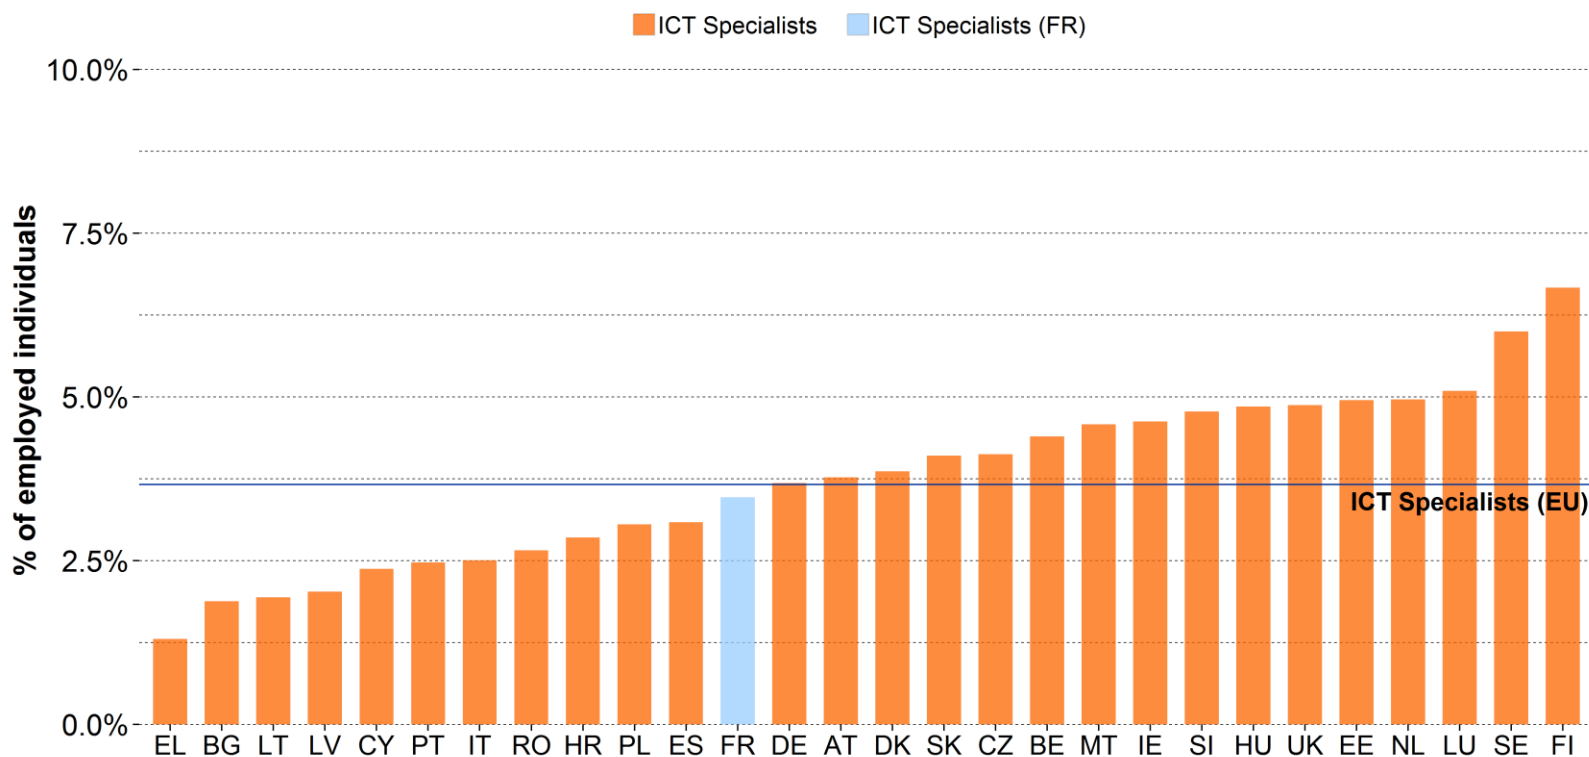

EU

% of individuals

In France ICT Specialists account for 3.5% of the workforce (3.7% in the EU).

ICT Specialists in the workforce (2014)

Human Capital: Graduates in STEM (Science, Technology and Mathematics)

European
Commission

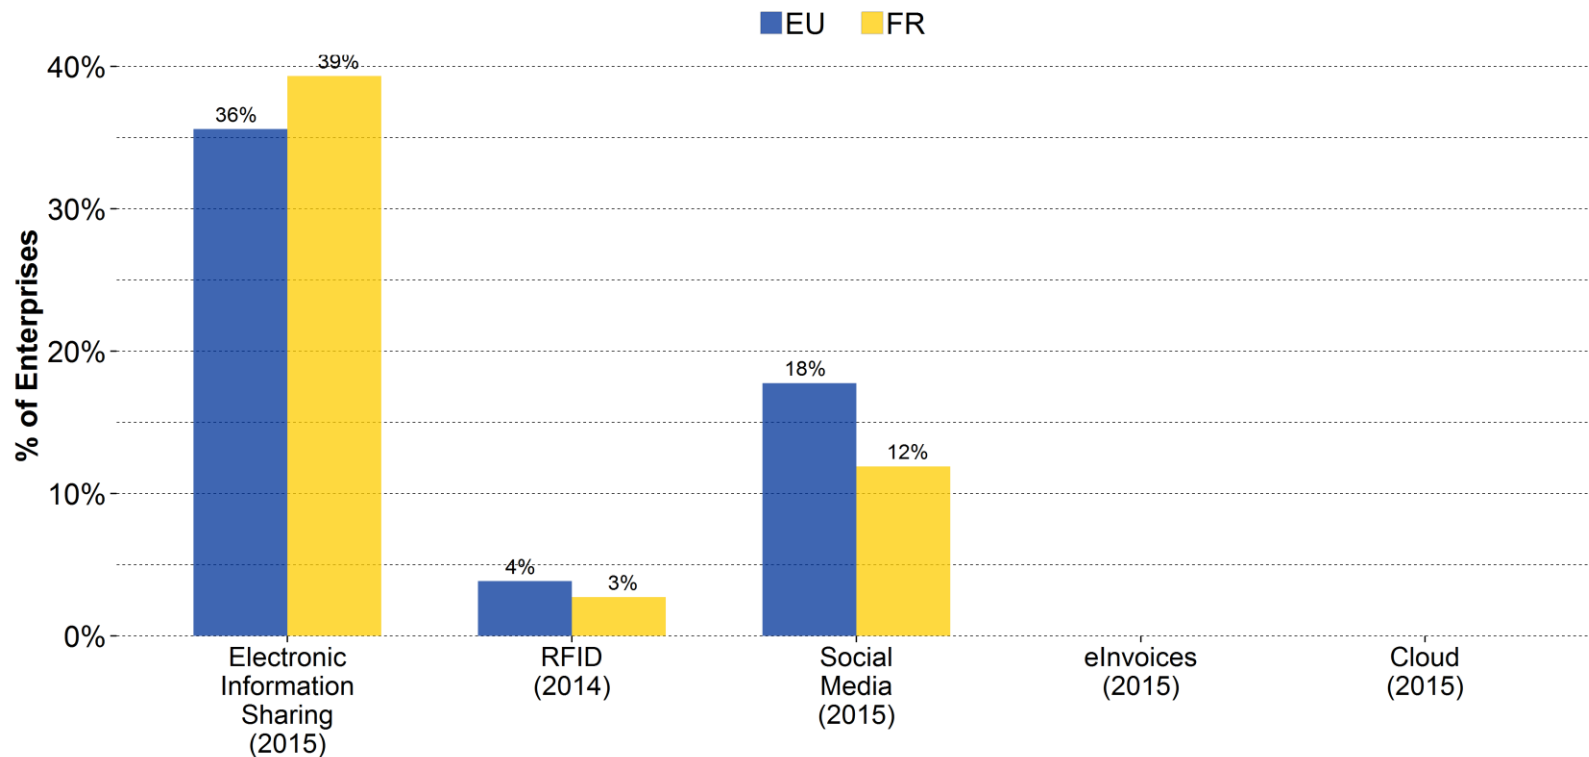

France has 23 graduates in STEM per each 1000 people
aged 20-29 years old (18 in the EU).

Graduates in Science, Technology and Mathematics (2013)

Businesses in France are adopting different digital technologies to enhance productivity, such as sharing internal information electronically or using RFID, eInvoicing, Social Media and Cloud.

Adoption of Digital Technology by Businesses

In France 16% of SMEs sell online (16% in the EU).

7.9% of French SMEs sell online to other EU countries (7.5% in the EU).

SMEs selling online Overall (2015) vs. Cross-border (2015)

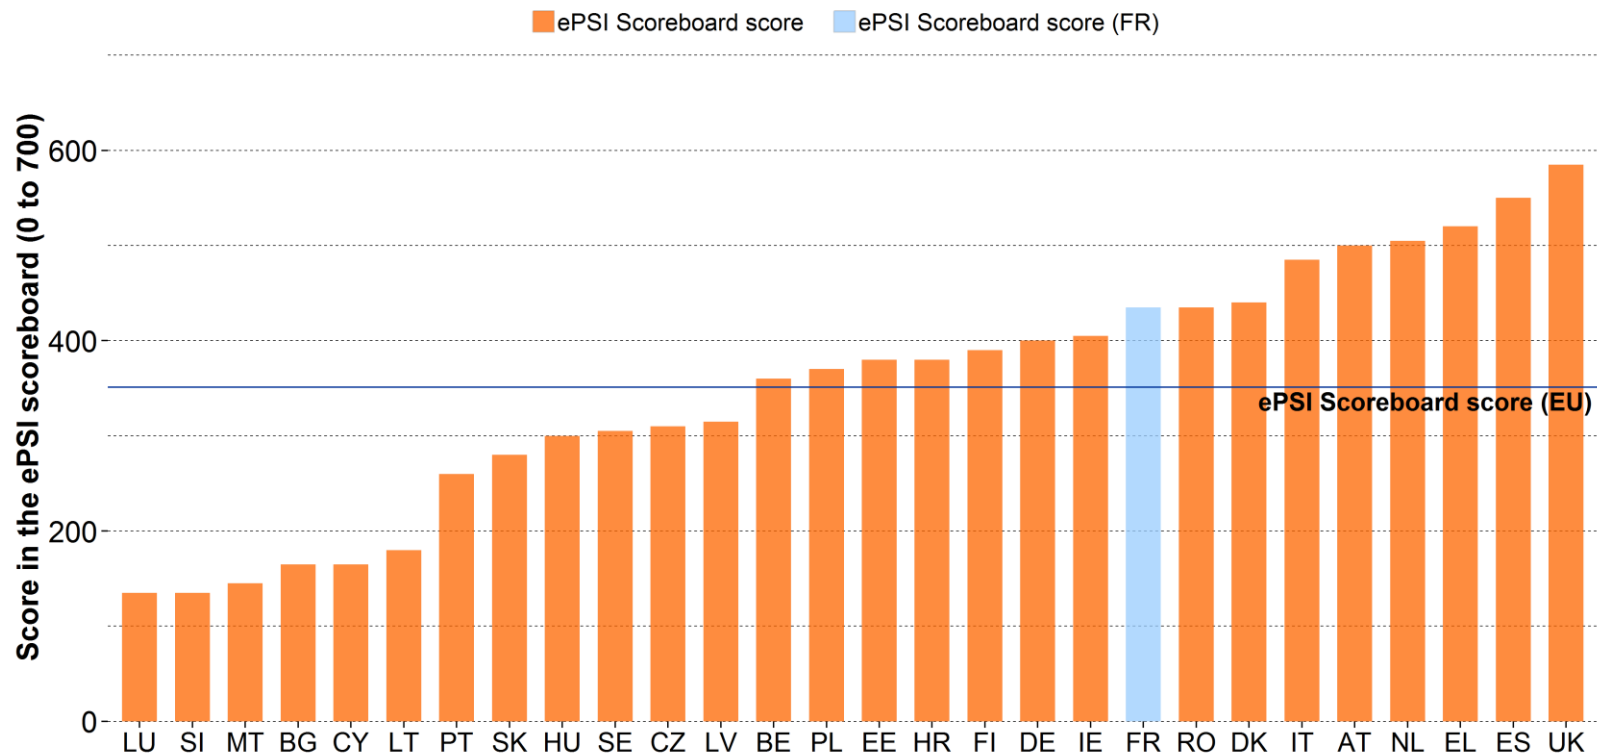

SMEs in France obtain on average 11% of their turnover from eCommerce (9.4% in the EU). Large enterprises derive on average 23% of their turnover from eCommerce (24% in the EU).

Turnover from eCommerce (2015)

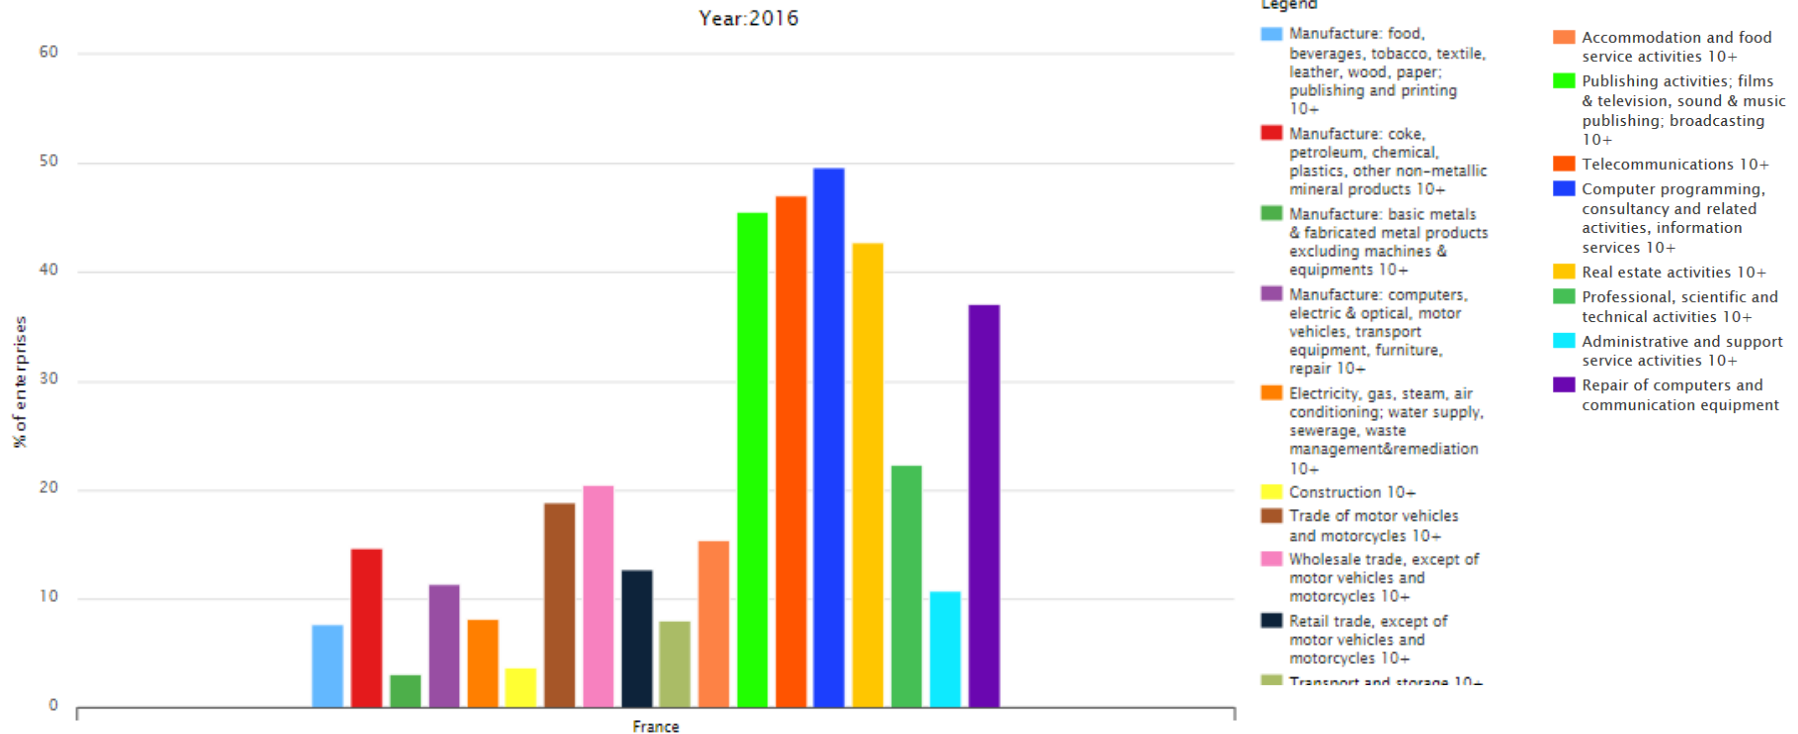

France scores 435 out of 700 in the European Public Sector Information scoreboard, against an overall score of 351 out of 700 for the European Union.

Open Data (2015)

Enterprises with high level of Digital Intensity by economic sectors in France

Enterprises with High levels of Digital Intensity, by Economic sectors (17 Nace groups)

European Commission, Digital Scoreboard

Sectors where less than 30% of the companies have a high level of digital intensity

- Manufacture: food, beverages, tobacco, textile, leather, wood, paper; publishing and printing 10+
- Manufacture: coke, petroleum, chemical, plastics, other non-metallic mineral products 10+
- Manufacture: basic metals & fabricated metal products excluding machines & equipment 10+
- Manufacture: computers, electric & optical, motor vehicles, transport equipment, furniture, repair 10+
- Electricity, gas, steam, air conditioning; water supply, sewerage, waste management & remediation 10+
- Construction 10+
- Retail trade, except of motor vehicles and motorcycles 10+
- Transport and storage 10+
- Administrative and support service activities 10+
- Trade of motor vehicles and motorcycles 10+
- Wholesale trade, except of motor vehicles and motorcycles 10+
- Accommodation and food service activities 10+
- Professional, scientific and technical activities 10+

Sectors where more than 30% of the companies have a high level of digital intensity:

- Publishing activities; films & television, sound & music publishing; broadcasting 10+
- Telecommunications 10+
- Computer programming, consultancy and related activities, information services 10+
- Real estate activities 10+
- Repair of computers and communication equipment

SMEs' Access to Key Enabling Technologies

What is the objective of the map below?

To allow **SMEs**, wherever located in Europe, to **find Technology Centres which can help to innovate through Key Enabling Technologies (KETs)**.

The Technology centres are selected according to **criteria** demonstrating their capacity to collaborate with **SMEs** on close-to-market research and innovation (Technology Readiness Levels 3 to 8, not necessarily the whole range).

How to use the map?

Filters at the right-side of the map allow to refine the search.

More details, including the **SME** contact person, can be seen by clicking on the marker for each centre.

In France, EIT Digital is co-located in the 3 main French ICT innovation hubs: Ile de France (with a site in Paris downtown), Brittany (with a site in [Rennes](#)) and [Sophia Antipolis](#) (the first technology park established in France, in 1969) close to its partners (see map below).

In each of the 3 regions covered by EIT Digital in France, Co-Location Centres are hosted by local partners: INRIA in Paris, University of Rennes 1 in Rennes and University of Nice-Sophia Antipolis in Sophia Antipolis. They are unique and vibrant places where students, start-ups and partners meet and work together.

EU Payments

Achievements

Programmes

France, through 70 national, interregional and regional programmes, benefits from ESIF funding of EUR 26.7 billion. This represents an average of 406 euro per person from the EU budget over the period 2014-2020. This page includes visualizations on the planning and implementation of the finances available, the EU payments to France and achievements at country level. You can explore further the ESI Funds programmes of the country in the "Programmes" section, where we list also the relevant Interreg programmes for France.

The planned EU financing, national co-financing and total financing are visible using the filters provided in the blue bar above. Based on the filter chosen the planned financing over the period 2014-2020 is presented below 1) by fund and 2) broken down by major theme. (The source dataset is available on the link "Explore and share this dataset").
