SMEs' Access to Key Enabling Technologies

What is the objective of the map below?

To allow SMEs, wherever located in Europe, to find Technology Centres which can help to innovate through Key Enabling Technologies (KETs).

The Technology centres are selected according to criteria demonstrating their capacity to collaborate with SMEs on close-to-market research and innovation (Technology Readiness Levels 3 to 8, not necessarily the whole range).

How to use the map?

Filters at the right-side of the map allow to refine the search.

More details, including the SME contact person, can be seen by clicking on the marker for each centre.
