The Netherlands' national strategy for digitising industry

European
Commission

- Most **public investments** supporting digital transformation of industry in the Netherlands are distributed over the generic and specific instruments for enterprise policy (**Ministry of Economic Affairs**).
- In total, the budget for **innovation promotion** is about **1,75bn EUR in 2017**.

smart
industry
DUTCH INDUSTRY FIT FOR THE FUTURE

"Smart Industry"

Dutch Industry fit for the Future

- Launched in **2017**, Smart Industry is PPP action program run by the **employers federation for the technology industry** (FME), the **Ministry of Economic Affairs**, the **Chamber of Commerce, Netherlands-ICT** (sector federation for ICT) and **TNO**.

<http://www.smartindustry.nl>

New Digital Agenda 2016-2017

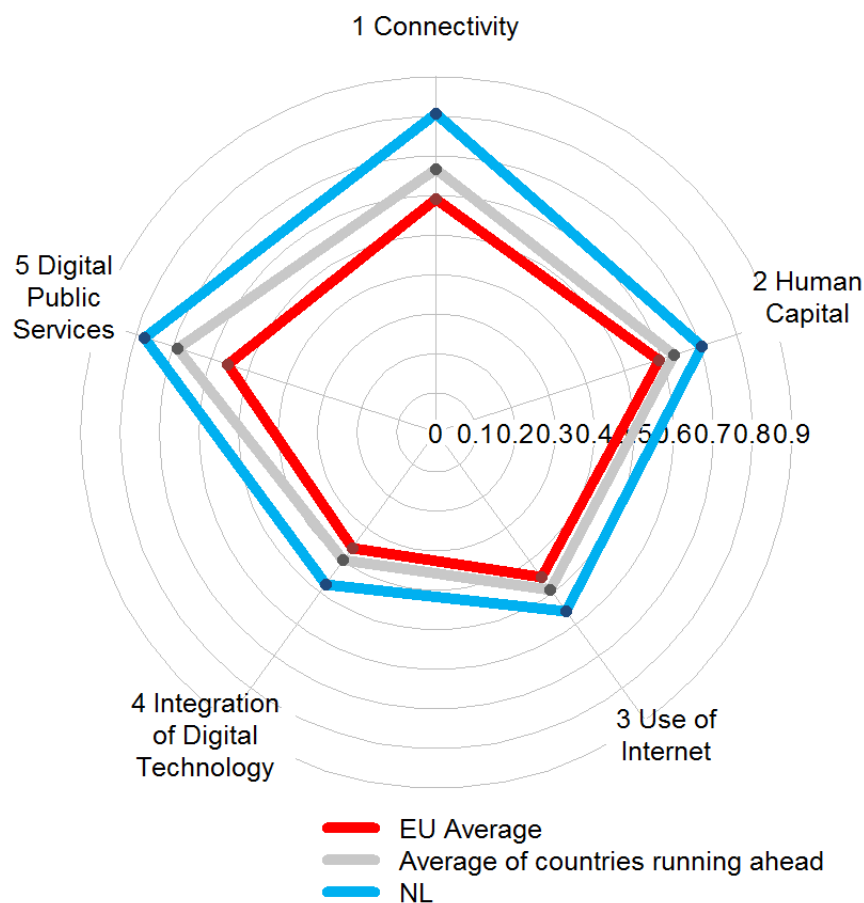

- Published in **2016** by the **Ministry of Economic affairs**
- An integrated approach to **four sector-specific priorities**: smart industry, e-health, ICT in the energy sector and smart mobility
- The Team Smart Industry prepared in summer 2017 a new **implementation agenda 2018-2021**, to be presented to the new government

Field Labs

- The **number of field labs** increased from 9 to 30 (Summer 2017) and it is expected to amount to more than 35
- In March 2017 the Ministry launched a call for application for funding a **third tranch of fieldlabs** with a budget of **14,5m EUR**

For more information please refer to the individual report per Member State on the national and regional initiatives on Digitising European Industry available on <https://ec.europa.eu/futurium/en/implementing-digitising-european-industry-actions/national-initiatives-digitising-industry>

**The Netherlands ranks 2 among EU countries.
It is part of the group of countries that are running ahead.**

In the Netherlands 30% of citizens have basic digital skills (27% in the EU) and 43% have above basic digital skills (28% in the EU).

Digital Skills (2015)

■ Above basic digital skills ■ Basic digital skills ■ Low or no digital skills, or do not use the internet

NL

EU

% of individuals

Human Capital: ICT Specialists in the workforce

In the Netherlands ICT Specialists account for 5% of the workforce (3.7% in the EU).

ICT Specialists in the workforce (2014)

Human Capital: Graduates in STEM (Science, Technology and Mathematics)

The Netherlands has 9.5 graduates in STEM per each 1000 people aged 20-29 years old (18 in the EU).

Graduates in Science, Technology and Mathematics (2013)

Businesses in the Netherlands are adopting different digital technologies to enhance productivity, such as sharing internal information electronically or using RFID, eInvoicing, Social Media and Cloud.

Adoption of Digital Technology by Businesses

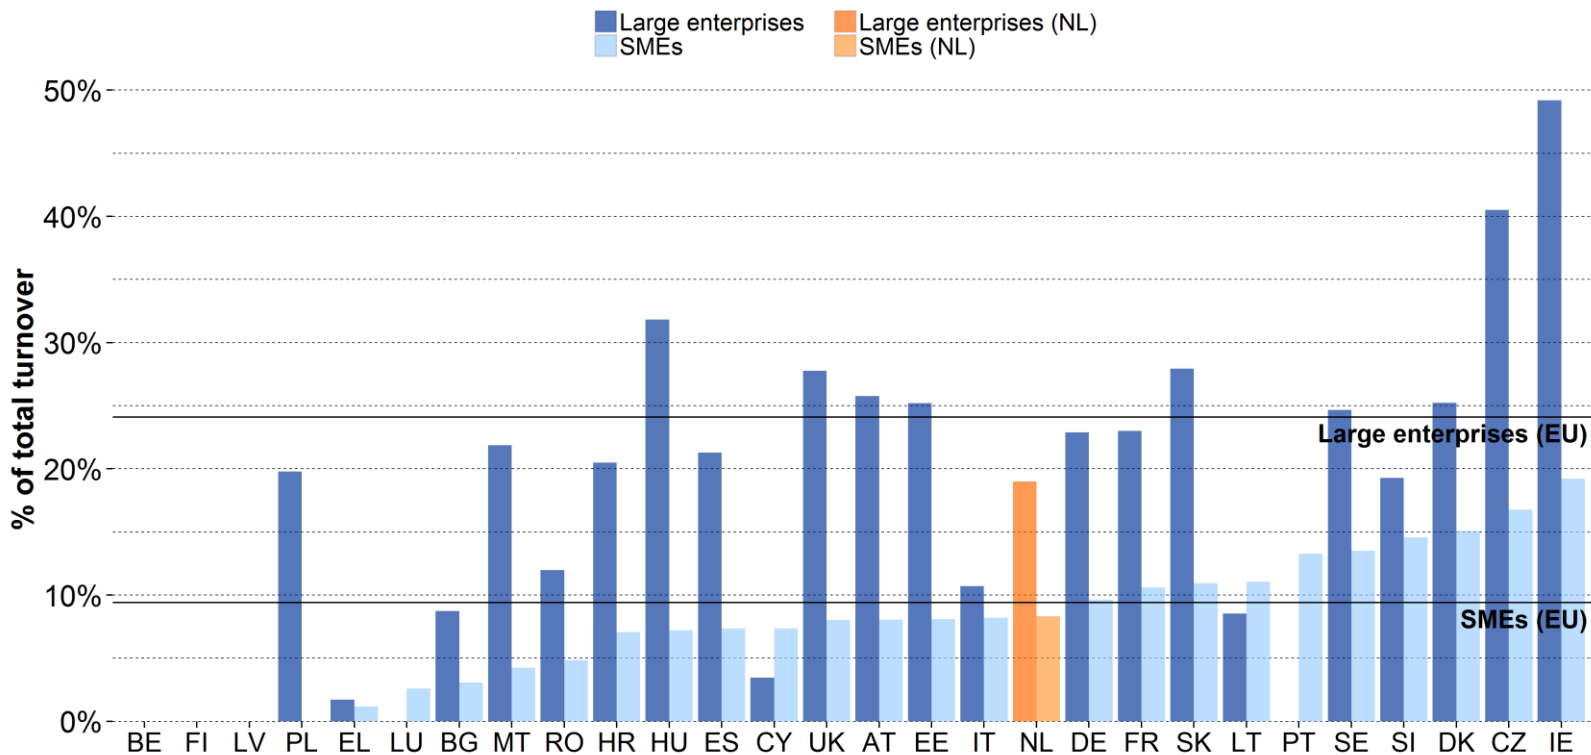

**In the Netherlands 17% of SMEs sell online (16% in the EU).
10% of Dutch SMEs sell online to other EU countries (7.5% in the EU).**

SMEs selling online Overall (2015) vs. Cross-border (2015)

SMEs in the Netherlands obtain on average 8.3% of their turnover from eCommerce (9.4% in the EU). Large enterprises derive on average 19% of their turnover from eCommerce (24% in the EU).

Turnover from eCommerce (2015)

The Netherlands scores 505 out of 700 in the European Public Sector Information scoreboard, against an overall score of 351 out of 700 for the European Union.

Open Data (2015)

Enterprises with high level of Digital Intensity by economic sectors in the Netherlands

European
Commission

Enterprises with High levels of Digital Intensity, by Economic sectors (17 Nace groups)

Legend

- Manufacture: food, beverages, tobacco, textile, leather, wood, paper; publishing and printing 10+
- Manufacture: coke, petroleum, chemical, plastics, other non-metallic mineral products 10+
- Manufacture: basic metals & fabricated metal products excluding machines & equipments 10+
- Manufacture: computers, electric & optical, motor vehicles, transport equipment, furniture, repair 10+

Please see [WG1 report](#)

The screenshot displays the GROWTH website interface. At the top, the European Commission logo and the text 'GROWTH Internal Market, Industry, Entrepreneurship and SMEs' are visible. Below this is a navigation bar with tabs for 'Single Market and Standards', 'Industry' (selected), 'Entrepreneurship and SMEs', 'Access to finance for SMEs', and 'Sectors'. A search bar is located on the left side of the navigation bar.

The main content area is titled 'SMEs' Access to Key Enabling Technologies'. It includes a section 'What is the objective of the map below?' which states: 'To allow SMEs, wherever located in Europe, to find Technology Centres which can help to innovate through Key Enabling Technologies (KETs)'. Below this, it explains that technology centres are selected based on criteria demonstrating their capacity to collaborate with SMEs on close-to-market research and innovation (Technology Readiness Levels 3 to 8, not necessarily the whole range).

A 'How to use the map?' section follows, stating: 'Filters at the right-side of the map allow to refine the search. More details, including the SME contact person, can be seen by clicking on the marker for each centre.' Below the text are two buttons: 'Map' and 'List'.

The map shows a geographical view of the Netherlands and surrounding regions, with several blue location markers. A green circle with the number '4' is visible on the map.

On the right side, there is a 'Filters' panel with a 'Countries' section. It includes a 'Select All' option and a list of countries with checkboxes. The 'Netherlands' checkbox is checked, while others are unchecked.

On the left side, there is a 'KETs Tools' sidebar with a dropdown menu for 'KETs Technology Centres' and a 'Contacts' link. Below this is an 'Industry - links' section with various links like 'News', 'Events', 'Tools and Databases', 'Contracts and grants', 'Public consultations', and 'Publications'.

eit Digital Co-Location Centre in Eindhoven

Home / About us / Locations / Eindhoven Node

Eindhoven Node

EIT Digital Eindhoven, in the Netherlands is an ecosystem of universities, research institutes, companies, valorisation centres and SME associations. The current core partners are: Philips, 3TU.NIRICT, CWI, TNO and Océ. The affiliated partners are: Holst Centre, Utrecht University, NXP, Bosch, TomTom and High Tech NL. Associated partner is iMINDS.

EIT Digital Eindhoven is located at the [High Tech Campus Eindhoven](#) in the heart of the Brainport region.

In line with the aim of EIT Digital to turn Europe into a global leader in ICT Innovation, the partners who collaborate in the Eindhoven node want to make a lasting contribution to society through Innovation and Education in ICT. The partnership focuses on ICT innovations for Health & Wellbeing, new business creation, lifelong learning, Master School and Doctoral Programme. Innovation is accelerated by exploiting the wide use of shared living lab facilities to integrate and synergise education, research and business. EIT Digital partners agree in a common way-of-working from the two-fold strategy:

- speed-up the go-to-market of ICT innovations
- breeding a new generation of entrepreneurial ICT
