GFOSS Commitment 7948

Theodoros Karounos - Panagiotis Kranidiotis
karounos@eellak.gr - panagiotis.kranidiotis@eellak.gr

Η Ευρωπαϊκή Στρατηγική στην Ψηφιακή Ενιαία Αγορά, 29 Ιουνίου 2015

Participants

- Greek Free Open Source Society
- National Technical University of Athens
- Athens, Thessaloniki, Heraclion - Crete Municipalities
- Hellenic Association of Mobile Applications Companies (HAMAC)

Objective

- A platform for the coordination of open activities in the city (particularly FabLabs and Collaboration Spaces).
- A number of data sets of different kinds open (over 20 per city)
- Seminars and events on open technologies (at least two per city within the commitment period including Hachathons and Creative Walks)
- Legislative changes where necessary (adoption of the PSI directive at the local level)
- Creating a platform (Agora) where the open technologies and data meet the entrepreneurs

- Defined the 20 datasets per city
- First draft of opendata strategy
- Created a group of companies specialized on municipalities backoffice systems
- Promoted commitment to other public and private sector future participants

# Contribution to Policy Formulation and Legislation

- Contribution to the transposition of Directive 2013/37/EU to the Greek legal system (Law 4305/2011 on Open Data)
- Participation to the consultation process for the drafting of the Greek Open Government Partnership commitments for 2014-2015
- Contribution to the drafting of the statutory regulations of Law 3979/2011 (eGovernment Law)
- Training of civil servants at the National School of Public Administration (course "From open government to open data")

Our platform strategy

- Homogenize the datasets fields
- Create a common api combining different datasources
- Bring more participants from public and private sector

Our technical proposal

Our open vision

- Engage Local IT Market with Open Standards, Open Source, Open Data
- Move to a Datacentric Europe
- Create sustainable structures and bussines models
- Combine the EU funding with Open Technologies
- Create European Organization's like Apache Foundation and promote a Open Projects for Europe Initiative
