- ✓ 18,5 million granted for R&D projects
- ✓ 32,8 for investments (machinery)

3

ONLINE CATALOGUE

- ✓ 277 Technological infrastructures profiled and mapped (expertise in research & development, analysis, prototyping etc.)
- ✓ 746 professors and university researchers with i4.0 expertise

WHAT WE DO TO SUPPORT COMPANIES?

2

Three levels of analysis

to test the level of maturity and orient the business strategies in an Industry 4.0 context

1st

level

first

self-assessment test

This is done online and represents an initial snapshot of the company with regard to its level of maturity in terms of Industry 4.0

2nd

level

Assessment

a more detailed questionnaire that provides insight with regard to the company's status in terms of Industry 4.0

3th

level

Audit

A more in-depth level managed by a business consultant, who provides a better perspective and directs the company's choices and the investments to be carried out

To what extent is your company a 4.0 company?

THANKS FOR YOUR ATTENTION!
