

Ingredient: TITANIUM DIOXIDE

INCI Name	TITANIUM DIOXIDE
Description	Titanium Dioxide is the inorganic oxide. To identify the colourant meeting the requirements for labelling purposes in the EU, the INCI Name 77891 must be used. It conforms generally to the formula:
INN Name	titanium dioxide
Ph. Eur. Name	titanii dioxidum
CAS #	13463-67-7
EC #	236-675-5
Chemical/IUPAC Name	Titanium dioxide (CI 77891)
Cosmetic Restriction	IV 143 VI 27 VI 27a (nano)
Other Restriction(s)	
Functions	COLORANT OPACIFYING UV ABSORBER UV FILTER
SCCS opinions	1539/14 - Opinion for clarification of the meaning of the term "sprayable applications/products" for the nano forms of Carbon Black CI 77266, Titanium Oxide and Zinc Oxide 1580/16 - OPINION ON Titanium Dioxide (nano form) coated with Cetyl Phosphate, Manganese Dioxide or Triethoxycaprylylsilane as UV-filter in dermally applied cosmetic 1583/17 - OPINION ON Titanium Dioxide (nano form) as UV-Filter in sprays 0005/98 - Opinion on Titanium Dioxide
