JPIAMR: coordination research agendas

JPIAMR Goals:
• Align national and international research programs.
• Support and coordinate transformative research.
• Bridge the gap between research and policy.
• Support and coordinate the JPIAMR Virtual Research Institute.

The European Commission (DG Research) is a full non-voting member.
• **1,189 projects** were funded across 19 JPIAMR member countries. From which **806 on Therapeutics** (64%)

• Total national investment **€679.6 million** from which **€441.1 million** to Therapeutics

**Total number of AMR projects by Strategic Research Agenda priority topics at National level from 2007-2013**
JPIAMR JOINT FUNDING 2014-2017

Approx. € 53 M supporting 39 projects on AMR research

- Therapeutics: 29%
- Diagnostics: 0%
- Surveillance: 4%
- Transmission: 49%
- Environment: 9%
- Interventions: 9%

Approx. € 0.5 M supporting 13 AMR networks/working groups

- Therapeutics: 27%
- Diagnostics: 14%
- Transmission: 14%
- Environment: 9%
- Surveillance: 27%
- Interventions: 9%
In February of 2017 the WHO released their global priority pathogen list of antibiotic resistant bacteria to guide research, discovery, and development of new antibiotics.

The 6th joint call from JPIAMR is a direct response to the list supporting new targets, compounds and tools against antibiotic resistance.

**Publication of call**
January 11, 2018

**Deadline preproposals**
March 7, 2018

**Deadline full proposals**
June 14, 2018

**No. of participating countries**
16

**Budget**
Approx. 14.4 million Euro
Our 6th call
New targets, compounds and tools

The Call is Open

Submission deadline for pre-proposals: March 7, 2018.
Network Call Pre-announcement
AMR Surveillance Network

Preliminary scope of call
Improvement, integration, standardisation and impact of surveillance. Methods, integration and impact.

Publication of call
2018

Budget
Approx. 50,000 €/network up to a year.

Participating countries, to date.
Argentina, France, Germany, Ireland, Italy, Japan, Norway, Sweden, The Netherlands, UK.
The objective of the JPIAMR-VRI is to facilitate enhanced interactions, and globalise AMR research.
JPIAMR KEY COMMITMENTS 2018

1. Two joint research calls with a preliminary budget of €15M
   • New targets, new therapies, and tools addressing the WHO pathogens priority list
   • Surveillance, and we will build on our recent success and support Research Networks across international borders.

2. In response to this growing AMR challenge the JPIAMR will launch a groundbreaking AMR Virtual Research Institute.
   • International Workshop, Concept paper,
   • Pilot call

3. JPIAMR commits to increasing activities to prioritise research within the Strategic Research and Innovation Agenda to develop roadmaps, identify gaps and needs for research and actions. Series of scoping scientific workshops

4. To map AMR research funding as well as research centres/facilities and infrastructures

5. To develop an interface with all the mapping data
THANK YOU!
