

## HAEMACARE Project Newsletter

**The HAEMACARE project is now online at [www.haemacare.eu](http://www.haemacare.eu)**

The website describes the project and gives details about the activities carried out to implement it. Several links allow consultation of interim reports and downloading of important publications (articles, conference papers, press releases etc) related to the project and its results. Access to other websites with relevant information on the Cancer Registries activities is also possible from the website. We invite you all to visit it and send us your comments/suggestions!

### **International manual for coding Haematological malignancies**

During the recent annual Meeting of GRELL (Group for Epidemiology and registration of cancer in the Latin Language countries, held in Parma (Italy) from the 30<sup>th</sup> of April to the 2<sup>nd</sup> of May 2008, the first draft of the manual was announced to all the meeting attendants. The draft will be available on the website by autumn 2008. The final version of the manual will be disseminated through ENCR (European Network of Cancer Registries) towards the beginning of 2009.

### **Next meeting: Selection of clinical and therapy indicators on Haematological malignancies**

Within the framework of the Work Package 4: "Integration of clinical and population data", an international consensus meeting will be organised on May, 27<sup>th</sup> 2008 in Milan (Italy) in order to select a list of the most suitable indicators useful to describe care procedures for Haematological malignancies.
