

SCIENTIFIC COMMITTEE ON CONSUMER PRODUCT (SCCP)

Request for a scientific opinion: **Hair dye 2,3-Diaminodihydropyrazolopyrazolone dimethosulfonate (CAS 857035-95-1) Submission I**

1. Background

Submission I for the new hair dye substance 2,3-Diaminodihydropyrazolopyrazolone dimethosulfonate (CAS 857035-95-1) was submitted in January 2008 by COLIPA¹.

According to the submission the intended use is as an oxidative hair dye substance with a final concentration on the scalp of up to max 2.0%

2. Terms of reference

- 1. Does SCCP consider 2,3-Diaminodihydropyrazolopyrazolone dimethosulfonate safe for use as an oxidative hair dye with a concentration on-head of maximum 2.0 % taken into account the scientific data provided?*
- 2. And/or does the SCCP have any further scientific concerns with regard to the use 2,3-Diaminodihydropyrazolopyrazolone dimethosulfonate in oxidative hair dye formulations?*
