

Curriculum Vitae

Name: Wojciech Hanke

Gender: male

Nationality: Polish

Pre-/Postdoctoral Education:

Medical School: Medical Academy, Lodz, Poland, 1979

Post-graduate training: Specialist in occupational-medicine (1990); public health (2004)

Research fellowship: Visiting Scientist, Division of Respiratory Diseases Studies, Epidemic Intelligence Services (EIS); National Institute of Occupational Safety and Health (NIOSH), Morgantown, WV, USA (1981-1983)

Degrees:

PhD thesis (1986) - Factors influencing the effectiveness of respiratory surveillance of workers exposed to health hazards in Polish industry; Nofer Institute of Occupational Medicine, Lodz

Doctoral habilitus degree (1999)- Socio-economic and environmental risk factors for intrauterine growth retardation and preterm delivery

Title: MD, PhD

Current Position:

Associate Professor, Head, Environmental Reproductive Hazards Unit, Occupational and Environmental Epidemiology Dept., Nofer Institute of Occupational Medicine, Lodz

Research Director, Nofer Institute of Occupational Medicine, Lodz

Employment:

Postgraduate fellow in occupational epidemiology, Nofer Institute of Occupational Medicine, Lodz	September 1979 - July 1981
Visiting Scientist, Division of Respiratory Diseases Studies, Epidemic Intelligence Services (EIS); National Institute of Occupational Safety and Health (NIOSH), Morgantown, WV, USA	July 1981 - June 1983
Assistant Professor, Department of Health Care Organisation, Institute of Occupational Medicine, Lodz	July 1983 - March 1990
Assistant Professor, Department of Epidemiology and Statistics, Nofer Institute of Occupational Medicine, Lodz	April 1990 - January 2000
Associate Professor, Head, Environmental Reproductive Hazards Unit, Occupational and Environmental Epidemiology Dept., Nofer Institute of Occupational Medicine, Lodz	January 2000 - up till now
Research Director, Nofer Institute of Occupational Medicine, Lodz	January 2000 - up till now

Research Interests:

environmental and occupational risk factors of low birth weight and preterm delivery (maternal smoking, exposure to ETS and other environmental pollutants, pesticides; biomarkers of exposure to tobacco smoke in epidemiological studies), risk assessment for reproductive hazards.

Areas of Expertise: environmental epidemiology, reproductive health, environmental tobacco smoke

Memberships in Learned Societies:

International Society for Prevention of Tobacco Induced Diseases (Winnipeg, Canada) - board member, treasury (since 2001)

Polish Society of Occupational Medicine – member

Polish Society of Environmental Epidemiology – member

Member of Scientific Advisory Committees: Scientific Committee on Health and Environmental Risks
