

3 August 2021

The three #2021Thematic Networks have now been selected!

Thanks to the interest shown by the health stakeholder community of the EU Health Policy Platform, the following three organisations will be leading the 2021 Thematic Networks on three different topics:

- "Climate action through public health education and training" by the Association of Schools of Public Health in the European Region
- "Health as a fundamental value. Towards an inclusive and equitable pharmaceutical strategy for the EU" by the European Association of Health Law's Interest Group on Supranational Biolaw
- "Integrated Nutrition Cancer Care: We can start today!" by the European Nutrition for Health Alliance

The Thematic Networks will be made available in the Platform in September. Contact the leaders if you wish to contribute to the Joint Statements!

Live webinars will be organised from October onwards to present and discuss the latest developments of these position papers.

Check out the initial proposals in the Agora network of the [EU Health Policy Platform](#). Use your EU login and fill in the registration form, if you aren't registered yet!
