1. Maria and Johan download the official apps of Member State A and Member State B respectively.

2. Maria travels to Member State B where the app detects her proximity with Johan.

3. Maria travels back to her Member State A.

4. Johan feels sick. He tests positive for COVID-19, he contacts his health authorities and inserts a confirmation code on the app.

5. Maria gets a notification that she has been in proximity to an infected person. She seeks advice and consults her health authorities.

6. Maria is informed by her health authorities what to do next.
