Third webinar organized on 27 April by the “COVID-19 Clinical Management Support System” on “COVID-19 and anti-epileptic drugs”

*Four experts will hold the seminar, which will take place on 27 April from 17.00 to 18.30 (CET). The purpose of the webinar is to provide clinicians with the most updated knowledge on anti-seizure drug interactions and COVID-19, and rescue drugs for prolonged epileptic seizures and COVID-19 patients.*

The webinar will give the floor primarily to Prof. Alexis Arzimanoglou, Coordinator of ERN EpiCARE, professor in the University Hospitals of Lyon and HSJD Research coordinator in Barcelona, Prof. Emilio Perucca, professor in the National Neurological Hospital, the Casimiro Mondino National Neurological Institute Foundation, and the Department of Internal Medicine and Therapeutics in University of Pavia, Italy, then Prof. Cecilie Landmark, professor in the National Center for Epilepsy and Department of Pharmacology at Oslo University Hospital, Norway. Second part of this webinar will be give the floor to Prof. Eugen Trinka from the Department of Neurology in Christian-Doppler-Klinik (CDK) at the University Hospital, Paracelsus Medical University in Salzburg, Austria. Attendees will then be able to ask questions to the speakers. The webinar will be recorded and available for off line vision afterwards.

In the context of the “COVID-19 Clinical Management Support System” launched by the European Commission, DG SANTE will organise a series of webinars to support clinicians and other healthcare professionals at the frontline of the care of COVID-19 patients. These webinars will bring the expertise and recommendations of several experts from the 24 ERNs in the management of challenging cases of patients suffering at the same time of COVID-19 and a rare or complex disease or conditions.
