

Vote now to select the Thematic Networks of 2020!

All members of the Agora Network are invited [to take part in this poll](#).

Every year, the EU Health Policy Platform hosts at least three Thematic Networks led by health stakeholders. These temporary networks are set up to produce a Joint Statement within a year's time in a policy area of common interest. The new Thematic Networks are chosen among five selected proposals received from the Health Policy Platform users and evaluated by the Commission.

This year's five Thematic Network finalists, listed in alphabetical order of the organisation, are:

1. "Colorectal Cancer Screening in the European Union", led by Digestive Cancers Europe
2. "Digital skills for future-proof doctors (Digital Doc)", led by Erasmus MC, University Medical Center Rotterdam
3. "Profiling and training the health care workers of the future", led by Health First Europe and the European Health Management Association (EHMA)
4. "Interprofessional Education for Digital Skills", led by the International Network of Health Workforce Education (INHWE)
5. "A human rights-based approach to task-shifting: the role of peer workers", led by Mental Health Europe (MHE)

The three proposals with the most votes will win the poll and might go on to become the Thematic Networks of 2020. The leaders of the selected Thematic Networks will guide the discussion and interact closely with other stakeholders and the Commission in the following months, via webinars and through their dedicated network in the Platform. The leaders will then present the Joint Statement resulting from this collaboration at the EU Health Policy Platform Annual meeting in 2020. Spread the word and help choose the poll winners!

Every user will only be able to vote once. Changing your vote is not possible. This is an anonymous multiple-choice poll. Please note you need to be [registered in the EU Health Policy Platform](#) in order to vote. Requests for access to the Agora network will only be granted until **6 November 15.00 CET**. Only registered users will be able to vote for the Thematic Networks 2020 poll until 23:59 that day, when the poll will close, so please vote early and invite your colleagues to do the same!
