

Standard declaration of interests (DOI) form for individuals applying to be appointed as members or experts of Scientific Committees and their Working Groups in a personal capacity

Legal basis:

Commission Decision C(2015)5383 on establishing Scientific Committees in the field of public health, consumer safety and the environment, Article 16, and Commission Decision C(2016)3301 establishing horizontal rules on the creation and operation of Commission expert groups, Articles 2(4) and 11.

Definitions:

"Conflict of interest" means any situation where an individual has an interest that may compromise or be reasonably perceived to compromise the individual's capacity to act independently and in the public interest when providing advice to the Commission in relation to the subject of the work performed by the Scientific Committees and their working groups in question.

"Immediate family member" means the individual's spouse, children and parents. "Spouse" includes a partner with whom the individual has a registered non marital regime. "Children" means the child(ren) the individual and the spouse have in common, the own child(ren) of the individual and the own child(ren) of the spouse.

"Legal entity" means any commercial business, industry association, consultancy, research institution or other enterprise whose funding is significantly derived from commercial sources. It also includes independent own commercial businesses, law offices, consultancies or similar.

"Body" means a governmental, international or non-profit organisation.

"Meeting" includes a series or cycle of meetings.

Please answer each of the questions below. If the answer to any of the questions is "yes", please briefly describe relevant interests and circumstances, as appropriate.

If you do not describe relevant interests, your DOI form will be considered incomplete and, therefore, your application to be appointed as a member of an expert group or subgroup in a personal capacity shall be rejected.

Supervisor of ECHA Tender Mapping Study on Academic courses relevant to REACH and CLP	2011 (1Year)	ECHA	
Project Leader of "Toxicity of biomass combustion generated ultrafine particles(TOBICUP)", Cariplo Foundation	2013-2016 (3Years)	FONDAZIONE CARIPLO	<p>The increased use of biomass as fuel for heat generation raises the question of the potential toxic effects of particulate matter generated during combustion. As fine (< 2.5 µm) and nanoparticles or ultrafine particles (< 0.1 µm) are associated with stronger health effects than larger particles, the goals of this project have been:</p> <ol style="list-style-type: none"> 1. to collect ultrafine particles generated from wood combustion from commercially available appliances (logwood stove and wood pellet stove). 2. to characterize the physical-chemical properties of ultrafine particles generated from

			<p>logwood and pellet combustion, including their chemical composition, the number, concentration levels and related size distribution, and to assess the emission factors for the investigated appliances.</p> <p>3. to sample and chemically characterize ultrafine particles in the atmosphere of a natural meso-environment characterized by relevant particulate emissions from biomass burning.</p> <p>4. to characterize the toxicological properties of ultrafine particles generated from wood combustion by assessing cell damage, genotoxicity and production of inflammatory mediators as biological markers of cell activation in relevant human cells.</p>
