THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Articles 82(1), 84 and 87(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee(1),

Having regard to the opinion of the Committee of the Regions (2),

Acting in accordance with the ordinary legislative procedure (3),

Whereas:

(1) The Union’s objective of ensuring a high level of security within an area of freedom, security and justice pursuant to Article 67(3) of the Treaty on the Functioning of the European Union (TFEU) should be achieved, inter alia, through measures to prevent and combat crime as well as through measures for coordination and cooperation between law enforcement authorities and other national authorities of Member States, including with Europol or other relevant Union bodies, and with relevant third countries and international organisations.

(2) To achieve this objective, enhanced actions at Union level should be taken to protect people and goods from increasingly transnational threats and to support the work carried out by Member States’ competent authorities. Terrorism, organised crime, itinerant crime, drug trafficking, corruption, cybercrime, trafficking in human beings and arms, inter alia, continue to challenge the internal security of the Union.

(3) The Internal Security Strategy for the European Union (‘Internal Security Strategy’), adopted by the Council in February 2010, constitutes a shared agenda for tackling these common security challenges. The Commission Communication of 22 November 2010 entitled ‘The EU Internal Security Strategy in Action: Five steps toward a more secure Europe’ translates the strategy’s principles and guidelines into concrete actions by identifying five strategic objectives: to disrupt international crime networks, to prevent terrorism and address radicalisation and recruitment, to raise levels of security for citizens and businesses in cyberspace, to strengthen security through border management and to increase Europe’s resilience in the face of crises and disasters.

(4) Solidarity among Member States, clarity about the division of tasks, respect for fundamental rights and freedoms and the rule of law, a strong focus on the global perspective and on the link and the necessary coherence with external security should be key principles guiding the implementation of the Internal Security Strategy.

(5) To promote the implementation of the Internal Security Strategy and to ensure that it becomes an operational reality, Member States should be provided with adequate Union financial support by setting up and managing an Internal Security Fund (‘the Fund’).

(6) The Fund should reflect the need for increased flexibility and simplification while respecting requirements in terms of predictability, and ensuring a fair and transparent distribution of resources to meet the general and specific objectives laid down in this Regulation.

(7) Efficiency of measures and quality of spending constitute guiding principles in the implementation of the Fund. Furthermore, the Fund should also be implemented in the most effective and user-friendly manner possible.

(8) In times of austerity for Union policies, overcoming economic problems requires renewed flexibility, innovative organisational measures, better use of existing structures, and coordination between the Union’s institutions, agencies and national authorities and with third countries.

(9) There is a need to maximise the impact of Union funding by mobilising, pooling and leveraging public and private financial resources.

(10) The EU policy cycle established by the Council on 8–9 November 2010 aims at tackling the most important serious and organised criminal threats to the Union in a coherent and methodical manner through optimum cooperation between the relevant services. In order to support an effective implementation of this multiannual cycle, funding under the instrument established by this Regulation (the ‘Instrument’) should make use of all possible methods of implementation as set out in Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council (4), including, where appropriate, by indirect management, to ensure the timely and efficient delivery of the activities and projects.

(11) Due to the legal particularities applicable to Title V TFEU, it is not possible to establish the Fund as a single financial instrument. The Fund should therefore be established as a comprehensive framework for Union financial support in the field of internal security comprising the Instrument and the instrument for financial support for external borders and visa established by Regulation (EU) No 515/2014 of the European Parliament and of the Council (5). That comprehensive framework should be complemented by Regulation (EU) No 514/2014 of the European Parliament and of the Council (6).

(12) Cross-border crime such as human trafficking and exploitation of illegal immigration by criminal organisations may be tackled effectively through police cooperation.

(13) The global resources for this Regulation and for Regulation (EU) No 515/2014 jointly lay down the financial envelope for the entire duration of the Fund, which is to constitute the prime reference amount within the meaning of point 17 of the Inter-institutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (?), for the European Parliament and the Council during the annual budgetary procedure.

(14) The European Parliament resolution of 23 October 2013 on organised crime, corruption and money laundering recognised that the fight against organised crime is a European challenge and called for more cooperation between Member States in the law enforcement field, as tackling organised crime effectively is fundamental to protecting the lawful economy from typical criminal activities such as the laundering of the proceeds of crime.

(15) Within the comprehensive framework of the Fund, the financial assistance provided under the Instrument should support police cooperation, exchange of and access to information, crime prevention, the fight against cross-border, serious and organised crime including terrorism, corruption, drug trafficking, trafficking in human beings and arms, exploitation of illegal immigration, child sexual exploitation, distribution of child abuse images and child pornography, cyber-crime, laundering of the proceeds of crime, the protection of people and critical infrastructure against security-related incidents and the effective management of security-related risks and crises, taking into account common policies (strategies, policy cycles, programmes and action plans), legislation and practical cooperation.

(16) Financial assistance in these areas should in particular support actions promoting cross-border joint operations, access to and exchange of information, exchange of best practices, facilitated and secure communication and coordination, training and exchange of staff, analytical, monitoring and evaluation activities, comprehensive threat and risk assessments in accordance with the competencies set out in the TFEU, awareness raising activities, testing and validation of new technology, forensic science research, the acquisition of technical interoperable equipment and cooperation between Member States and relevant Union bodies, including Europol. Financial assistance in these areas should only support actions which are consistent with priorities and initiatives identified at Union level, in particular those that have been endorsed by the European Parliament and the Council.

(17) Within the comprehensive framework of the Union’s anti-drugs strategy that advocates a balanced approach based on a simultaneous reduction in supply and demand, the financial assistance provided under this Instrument should support all actions aimed at preventing and combating trafficking in drugs (supply reduction), and in particular measures targeting the production, manufacture, extraction, sale, transport, importation and exportation of illegal drugs, including possession and purchase, with a view to engaging in drug trafficking activities.

(18) Measures in and in relation to third countries supported through the Instrument

should be adopted in synergy and coherence with other actions outside the Union supported through Union external assistance instruments, both geographic and thematic. In particular, in implementing such actions, full coherence should be sought with the principles and general objectives of Union external action and foreign policy related to the country or region in question, democratic principles and values, fundamental liberties and rights, the rule of law and the sovereignty of third countries. The measures should not be intended to support directly development-oriented actions and should complement, when appropriate, the financial assistance provided through external aid instruments. Coherence should also be sought with Union humanitarian policy, in particular as regards the implementation of emergency measures.

(19) The Instrument should be implemented in full respect for the rights and principles enshrined in the Charter of Fundamental Rights of the European Union and for the Union’s international obligations.

(20) Pursuant to Article 3 of the Treaty on European Union (TEU), the Instrument should support activities which ensure the protection of children against violence, abuse, exploitation and neglect. The Instrument should also support safeguards and assistance for child witnesses and victims, in particular those who are unaccompanied or otherwise in need of guardianship.

(21) The Instrument should complement and reinforce the activities undertaken to develop cooperation between Europol or other relevant Union bodies and Member States in order to achieve the objectives of the Instrument in the field of police cooperation, preventing and combating crime, and crisis management. This means, inter alia, that, when drawing up their national programmes, Member States should take into account the information database, analytical tools and operational and technical guidelines developed by Europol, in particular the Europol information system (EIS), the Europol Secure Information Exchange Network Application (SIENA) and the EU Serious and Organised Crime Threat Assessment (SOCTA).

(22) In order to ensure a uniform implementation of the Fund, the Union budget allocated to the Instrument should be implemented by direct and indirect management in respect of actions of particular interest to the Union (‘Union actions’), emergency assistance and technical assistance, and by shared management in respect of national programmes and actions requiring administrative flexibility.

(23) For the resources implemented under shared management, it is necessary to ensure that the Member States’ national programmes are consistent with Union priorities and objectives.

(24) The resources allocated to Member States for implementation through their national programmes should be established in this Regulation and distributed on the basis of clear, objective and measurable criteria. Those criteria should relate to the public goods to be protected by Member States and the degree of their financial capacity to ensure a high level of internal security, such as the size of their population, their territorial size and their gross domestic product. Moreover, since SOCTA of 2013 points out the prevalent importance of sea and air ports as entry points for criminal organisations for trafficking in human beings and illegal commodities, specific vulnerabilities represented by crime routes at these external crossings should be reflected in the distribution of available resources for actions undertaken by Member States through criteria relating to the number of passengers and weight of
cargo processed through international air and seaports.

(25) To reinforce solidarity and responsibility sharing for common Union policies, strategies and programmes, Member States should be encouraged to use a part of the global resources available for the national programmes to address the strategic Union priorities set out in Annex I to this Regulation. For projects addressing those priorities, the Union contribution to their total eligible cost should be increased to 90%, in accordance with Regulation (EU) No 514/2014.

(26) The ceiling for resources which remain at the disposal of the Union should be complementary to the resources allocated to Member States for the implementation of their national programmes. That will ensure that the Union is able, in a given budget year, to support actions which are of particular interest to the Union, such as studies, testing and validation of new technologies, transnational projects, networking and exchange of best practices, monitoring of the implementation of relevant Union law and Union policies and actions in relation to and in third countries. The actions supported should be in line with the priorities identified in relevant Union strategies, programmes, action plans and risk and threat assessments.

(27) In order to contribute to the achievement of the general objective of the Instrument, Member States should ensure that their national programmes include actions addressing all the specific objectives of the Instrument and that the allocation of resources between the objectives is proportionate to the challenges and needs and ensures that the objectives can be met. Where a national programme does not address one of the specific objectives or the allocation is below the minimum percentages set in this Regulation, the Member State concerned should provide a justification within the programme.

(28) In order to strengthen the Union’s capacity to react immediately to security-related incidents or newly emerging threats to the Union, it should be possible to provide emergency assistance in accordance with the framework set out in Regulation (EU) No 514/2014.

(29) Funding from the Union budget should concentrate on activities where Union intervention can bring added value compared with action by Member States alone. As the Union is in a better position than Member States to address cross-border situations and to provide a platform for common approaches, activities eligible for support under this Regulation should contribute in particular to strengthening national and Union capabilities as well as cross-border cooperation and coordination, networking, mutual trust and the exchange of information and best practices.

(30) In order to supplement or amend provisions in this Regulation regarding the definition of strategic Union priorities, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of amending, adding or deleting strategic Union priorities listed in this Regulation. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.

(31) In the application of this Regulation, including the preparation of delegated acts, the Commission should consult experts from all Member States.
(32) The Commission should monitor the implementation of the Instrument, in accordance with the relevant provisions of Regulation (EU) No 514/2014, with the aid of key indicators for evaluating results and impacts. The indicators, including relevant baselines, should provide the minimum basis for evaluating the extent to which the objectives of the Instrument have been achieved.

(33) In order to measure the achievements of the Fund, common indicators should be established in relation to each specific objective of the Instrument. The measurement of the achievement of the specific objectives by means of common indicators does not render the implementation of actions related to those indicators mandatory.

(34) Council Decision 2007/125/JHA (8) should be repealed, subject to the transitional provisions set out in this Regulation.

(35) Since the objectives of this Regulation, namely strengthening coordination and cooperation between law enforcement authorities, preventing and combating crime, protecting people and critical infrastructure against security-related incidents and enhancing the capacity of Member States and the Union to manage effectively security-related risks and crises, cannot be sufficiently achieved by the Member States but can rather be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 TEU. In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.

(36) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.

(37) In accordance with Article 3 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, and without prejudice to Article 4 of that Protocol, Ireland has notified its wish to take part in the adoption and application of this Regulation.

(38) In accordance with Articles 1 and 2 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, and without prejudice to Article 4 of that Protocol, the United Kingdom is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.

(39) It is appropriate to align the period of application of this Regulation with that of Council Regulation (EU, Euratom) No 1311/2013 (9). Therefore, this Regulation should apply as from 1 January 2014,

HAVE ADOPTED THIS REGULATION:

CHAPTER II  FINANCIAL AND IMPLEMENTATION FRAMEWORK

ARTICLE 5  GLOBAL RESOURCES AND IMPLEMENTATION

1. The global resources for the implementation of the Instrument shall be EUR 1 004 million in current prices.

2. Annual appropriations shall be authorised by the European Parliament and the Council within the limits of the multiannual financial framework.

3. The global resources shall be implemented through the following means:

   (c) technical assistance, in accordance with Article 9;
   (d) emergency assistance, in accordance with Article 10.

4. 5. Without prejudice to the prerogatives of the European Parliament and the Council, the global resources shall be used as follows:
   (a) EUR 662 million for the national programmes of Member States;
   (b) EUR 342 million for Union actions, emergency assistance and technical assistance at the initiative of the Commission.

6. Each Member State shall allocate the amounts for national programmes indicated in Annex III as follows:
   (a) at least 20 % for actions relating to the specific objective referred to in point (a) of the first subparagraph of Article 3(2); and
   (b) at least 10 % for actions relating to the specific objective referred to in point (b) of the first subparagraph of Article 3(2).

Member States may depart from those minimum percentages provided that an explanation is included in the national programmes

as to why allocating resources below that level does not jeopardise the achievement of the relevant objective. That explanation will be assessed by the Commission in the context of its approval of national programmes as referred to in Article 7(2).

7. Jointly with the global resources established for Regulation (EU) No 515/2014, the global resources available for the Instrument, as established in paragraph 1 of this Article, constitute the financial envelope for the Fund and serve as the prime reference, within the meaning of point 17 of the Inter-institutional Agreement between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, for the European Parliament and the Council during the annual budgetary procedure.

2. The reference figures for the data referred to in paragraph 1 shall be the latest statistics produced by the Commission (Eurostat), on the basis of data provided by Member States in accordance with Union law. The reference date is 30 June 2013. The allocations for national programmes calculated on the basis of the criteria referred to in paragraph 1 are set out in Annex III.

That period shall be extended by two months at the initiative of the European Parliament or of the Council.

2. When adopting decisions on co-financing under the Instrument, the Commission shall take account of measures adopted on the basis of Decision 2007/125/JHA before 20 May 2014 which have financial repercussions during the period covered by that co-financing.

3. Sums committed for co-financing approved by the Commission between 1 January 2011 and 31 December 2014 for which the documents required for closure of the operations have not been sent to the Commission by the deadline for submitting the final report shall be automatically decommitted by the Com-
mission by 31 December 2017, giving rise to the repayment of amounts unduly paid.

Amounts relating to operations which have been suspended due to legal proceedings or administrative appeals having suspensive effect shall be disregarded in calculating the amount to be automatically decommitted.

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 78(2), Article 79(2) and (4), Article 82(1), Article 84 and Article 87(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee (1),

Having regard to the opinion of the Committee of the Regions (2),

Acting in accordance with the ordinary legislative procedure (3),

Whereas:

(1) The Union’s home affairs policy is to create an area of freedom, security and justice: an area without internal borders where people may enter, move, live and work freely, confident that their rights are fully respected and their security assured, bearing in mind common challenges such as the development of a comprehensive Union immigration policy to enhance the competitiveness and social cohesion of the Union, the creation of a Common European Asylum System, the prevention of threats of serious and organised crime, and the fight against illegal immigration, human trafficking, cybercrime and terrorism.

(2) It is necessary to adopt an integrated approach to questions arising from the pressure of migration and asylum applications and regarding the management of the external borders of the Union, ensuring full respect for international and human rights law, including as regards actions implemented in third countries, showing solidarity amongst all Member States and demonstrating an awareness of the need to respect national responsibilities in the process of ensuring a clear definition of tasks.

(3) Union funding to support the development of the area of freedom, security and justice should bring added value for the Union and constitute a tangible sign of the solidarity and responsibility-sharing which are indispensable in responding to the common challenges.

(4) The existence of a common framework should ensure the necessary coherence, simplification and uniform implementation of that funding across the policy areas concerned.

(5) The spending of funds in that area should be coordinated in order to assure complementarity, efficiency and visibility, as well as to achieve budgetary synergies.

(6) A common framework should lay down the principles of assistance and identify the responsibilities of the Member States and the Commission in ensuring the application of those principles, including the prevention and detection of irregularities and fraud.

(7) Such Union funding would be more efficient and better targeted if co-financing of eligible actions were based on strategic multiannual programming, drawn up by each Member State in dialogue with the Commission.

(8) Measures in and in relation to third countries supported through the Specific Regulations as defined in this Regulation (‘Specific Regulations’) should be taken in synergy and coherence with other actions outside the Union supported through Union external assistance instruments, both geographic and thematic. In particular, in implementing such actions, full coherence should be sought with the principles and general objectives of the Union’s external action and foreign policy related to the country or region in question. Those measures should not be intended to support actions that are directly oriented towards development and they should complement, when appropriate, the financial assistance provided through external aid instruments. The principle of policy coherence for development, as set out in paragraph 35 of the European consensus on Development, should be respected. It is also important to ensure that the implementation of emergency assistance is consistent with, and, where relevant, complementary to the Union humanitarian policy and respects humanitarian principles as set out in the European Consensus on Humanitarian Aid.

(9) External action should be consistent and coherent, as set out in Article 18(4) of the Treaty on European Union (TEU).

(10) Prior to the preparation of multiannual programmes as a means of achieving the objectives of such Union funding, Member States and the Commission should engage in a policy dialogue and thereby establish a coherent strategy for each individual Member State. Following the completion of the policy dialogue, each Member State should submit to the Commission a national programme describing how it aims to achieve the objectives of the relevant Specific Regulation for the period 2014-20. The Commission should examine whether the national programme is consistent with those objectives and with the outcome of the policy dialogue. Moreover, the Commission should examine whether the distribution of Union funding between the objectives complies with the minimum percentage set per objective in the relevant Specific Regulation. It should be possible for Member States to depart from those minimum percentages, in which case they should state the reasons for the deviation in their national programme. In the event that the reasons given by the Member State concerned were not deemed adequate, the Commission might not approve the national programme. The Commission should regularly inform the European Parliament of the outcome of the policy dialogues, of the full programming process including the preparation of national programmes, covering also compliance with the minimum percentage set per objective in the relevant Specific Regulations as defined in this Regulation, and of the implementation of the national programmes.

(11) The strategy should be subject to a midterm review, to ensure appropriate funding in the period 2018-20.
(12) Member States should establish, in a manner consistent with the principle of proportionality and the need to minimise administrative burden, a partnership with the authorities and bodies concerned to develop and implement their national programmes throughout the entire multiannual period. Member States should ensure that there is no conflict of interest among the partners at the different stages of the programming cycle. Each Member State should set up a committee to monitor the national programme and assist it in reviewing the implementation and the progress made in achieving the programme objectives. Each Member State should be responsible for establishing the practical arrangements for setting up the monitoring committee.

(13) Eligibility of expenditure under the national programmes should be determined by national law, subject to common principles set out in this Regulation. The starting and closing dates for the eligibility of expenditure should be defined so as to provide for uniform and equitable rules applying to the national programmes.

(14) Technical assistance should enable the Member States to support the implementation of their national programmes and assist beneficiaries in complying with their obligations and Union law. Where appropriate, technical assistance could cover the costs incurred by the competent authorities in third countries.

(15) To ensure an adequate framework for providing rapidly emergency assistance, this Regulation should allow support for actions the expenditure of which was incurred before the application for such assistance was made, but not before 1 January 2014, in accordance with the provision in Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council, which allows such flexibility in duly substantiated exceptional cases. The support may constitute 100 % of the eligible expenditure in duly justified cases where this is essential for the action to be carried out, particularly where the beneficiary is an international or non-governmental organisation. Actions supported with emergency assistance should arise directly from the emergency situation and should not replace long-term investments by Member States.

(16) The decisions taken relevant to the contribution from the Union budget should be properly documented to maintain an adequate audit trail.

(17) The financial interests of the Union should be protected through proportionate measures throughout the expenditure cycle, including the prevention, detection and investigation of irregularities, the recovery of funds lost, wrongly paid or incorrectly used and, where appropriate, administrative and financial penalties in accordance with Regulation (EU, Euratom) No 966/2012.

(18) In the context of the protection of the financial interests of the Union, the on-the-spot checks and audits carried out by the Member States, the Commission, the Court of Auditors and the European Anti-Fraud Office established by Commission Decision 1999/352/EC, ECSC, Euratom (‘OLAF’) can be announced as well as unannounced, in accordance with the applicable law.

(19) The new structure of the funding in the field of home affairs aims to simplify the applicable rules and to reduce the administrative burden for the beneficiaries. Nevertheless, the control mechanism should remain efficient, and therefore it is important to recall the applicable rules on the protection of the financial interests of the Union, providing for on-the-spot checks and audits which may be announced as well as unannounced.

(20) Member States should adopt adequate measures to guarantee the proper functioning of the management and control system and the quality of implementation of their national programmes. To this end, it is necessary to establish the general principles and necessary functions which these systems should fulfil.

(21) The obligations on the Member States as regards management and control systems and the prevention, detection and correction of irregularities and infringements of Union law should be specified in order to guarantee the efficient and correct implementation of their national programmes.

(22) In accordance with the principles of subsidiarity and proportionality, Member States should have the primary responsibility, through their management and control systems, for the implementation and control of national programmes. The support provided under the Specific Regulations should be implemented in close cooperation between the Commission and the Member States in accordance with the principle of subsidiarity.

(23) Member States should make full use of the knowledge, expertise and experience gained by public and/or private bodies in implementing earlier funds in the field of home affairs.

(24) Only Responsible Authorities designated by the Member States offer reasonable assurance that the necessary controls have been carried out before granting support from the Union budget to beneficiaries. It should therefore be explicitly laid down that only expenditure effected by designated Responsible Authorities can be reimbursed from the Union budget.

(25) The powers and responsibilities of the Commission to verify the effective functioning of the management and control systems and to require Member State action should be laid down. (26) Union budget commitments should be effected annually. In order to ensure effective programme management, it is necessary to lay down common rules for the payment of the annual balance and the final balance.

(27) The pre-financing payment at the start of programmes ensures that Member States have the means to provide support to beneficiaries in the implementation of the programme once the programme is approved. Therefore, provisions should be made for initial pre-financing amounts. Initial pre-financing should be totally cleared at closure of the programme. The Responsible Authorities should ensure that beneficiaries receive the full amount due promptly.

(28) In addition, annual pre-financing should be provided to ensure that Member States have sufficient means to implement their national programmes. Annual pre-financing should be cleared each year with the payment of the annual balance.

(29) The triennial revision of Regulation (EU, Euratom) No 966/2012 introduces changes in the shared management method which have to be taken into account.
(30) With a view to strengthening accountability for expenditure co-financed by the Union budget in any given year, an appropriate framework should be created for the annual clearance of accounts. Under such framework, the Responsible Authority should submit to the Commission, in respect of a national programme, the documents referred to in the provisions on shared management with Member States of Regulation (EU, Euratom) No 966/2012.

(31) To support the assurance underlying the annual clearance of accounts across the Union, common provisions should be laid down on the nature and level of the controls to be carried out by Member States.

(32) In order to ensure the sound financial management of Union resources, it may be necessary for the Commission to make financial corrections. To ensure legal certainty for the Member States, it is important to define the circumstances under which breaches of applicable Union or national law can lead to financial corrections by the Commission. In order to ensure that any financial corrections which the Commission may impose on Member States are related to the protection of the Union’s financial interests, they should be confined to cases where the breach of Union or national law directly or indirectly concerns the eligibility, regularity, management or control of actions and the corresponding expenditure. To ensure proportionality, it is important that the Commission considers the nature and the gravity of the breach in deciding the amount of financial correction. In this regard, it is appropriate to set out the criteria for applying financial corrections by the Commission and the procedure that may lead to a decision on the financial correction.

(33) In order to establish the financial relationship between the Responsible Authorities and the Union budget, the Commission should clear the accounts of those authorities annually. The decision on the clearance of accounts should cover the completeness, the accuracy and veracity of the accounts but not the conformity of the expenditure with Union law.

(34) As the Commission is responsible for the proper application of Union law under Article 17 TEU, it should decide whether the expenditure incurred by the Member States complies with Union law. Member States should be given the right to justify their decisions to make payments. In order to give Member States legal and financial assurances as to expenditure effected in the past, a maximum period should be set for the Commission to decide which financial consequences should follow from non-compliance.

(35) It is important to ensure sound financial management and effective implementation, while also ensuring transparency, legal certainty, accessibility of funding and equal treatment of beneficiaries.

(36) With a view to simplifying the use of funding and reducing the risk of error, while providing for differentiation where needed to reflect the specificities of policy, it is appropriate to define the forms of support and the harmonised conditions for the eligibility of expenditure grants, including simplified costs options. In accordance with the principle of subsidiarity, Member States should adopt national rules on the eligibility of expenditure.

(37) In order to encourage financial discipline, it is appropriate to define the arrangements for decommitment of any part of the budget commitment in a national programme, in particular where an amount may be excluded from the decommitment, notably when delays in the implementation result from legal proceedings or an administrative
appeal having suspensive effect or from reasons of force majeure.

(38) To ensure the appropriate application of the general rules on decommitment, the rules established should detail how the deadlines for decommitment are established and how the respective amounts are calculated.

(39) It is important to bring the achievements of Union funding to the attention of the general public. Citizens have a right to know how the Union’s financial resources are spent. The responsibility to ensure that the appropriate information is communicated to the public should lie with the Commission, the Responsible Authorities and the beneficiaries. To ensure more efficiency in communication to the public at large and stronger synergies between the communication activities undertaken at the initiative of the Commission, the budget allocated to communication actions under this Union funding should also contribute to covering corporate communication of the political priorities of the Union, provided that those are related to the general objectives of Union funding in the field of home affairs.

(40) For the purpose of ensuring a wide dissemination of information about Union funding in the field of home affairs, and to inform potential beneficiaries about funding opportunities, detailed rules relating to information and communication measures, as well as certain technical characteristics of such measures, should be defined on the basis of this Regulation and each Member State should, at least, establish a website or website portal with the necessary information. Member States should undertake more direct forms of communication campaigns in order to properly inform the potential beneficiaries by, inter alia, organising regular public events, so-called information days and training sessions.

(41) The effectiveness of actions supported also depends on their evaluation and the dissemination of their results. The responsibilities of the Member States and the Commission in this regard and the arrangements to ensure the reliability of evaluation and the quality of the related information should be formalised.

(42) In order to amend provisions of this Regulation on the common principles on the eligibility of expenditure, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union (TFEU) should be delegated to the Commission. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.

(43) In the application of this Regulation, including the preparation of delegated acts, the Commission should consult experts from all Member States.

(44) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No

(45) The examination procedure should be used for implementing acts that lay down common obligations on Member States, in particular on the provision of information to the Commission, and the advisory procedure should be used for the adoption of implementing acts relating to the model forms for the provision of information to the Commission, given their purely technical nature.

(46) Since the objective of this Regulation, namely to lay down general provisions for the implementation of the Specific Regulations, cannot be sufficiently achieved by the Member States but can rather, by reason of the scale and effects of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 TEU. In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.

(47) Insofar as this Regulation lays down general rules necessary for enabling the implementation of Specific Regulations which provide for its applicability to these Specific Regulations and which constitute acts building upon the Schengen acquis in relation to countries to which these Specific Regulations are applicable on the basis of relevant Protocols annexed to the TEU and to the TFEU or on the basis of the relevant Agreements, this Regulation should be applied together with these Specific Regulations. To that extent, this implies that this Regulation can establish a link with and can have a direct impact on the provisions of the Specific Regulations developing the Schengen acquis, thus affecting the latter’s legal framework.

(48) In accordance with Article 3 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, those Member States have notified their wish to take part in the adoption and application of this Regulation.

(49) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.

(50) It is appropriate to align the period of application of this Regulation with that of Council Regulation (EU, Euratom) No 1311/2013 (7). Therefore, this Regulation should apply as from 1 January 2014,

HAVE ADOPTED THIS REGULATION:

CHAPTER II PRINCIPLES OF ASSISTANCE

ARTICLE 3 GENERAL PRINCIPLES

1. The Specific Regulations shall provide support, through national programmes, Union actions and emergency assistance, which complements national, regional and local intervention, pursuing the objectives of the Union and resulting in added value for the Union.

2. The Commission and the Member States shall ensure that the support provided under the Specific Regulations and by the Member States is consistent with the relevant activities, policies and priorities of the Union and is complementary to other Union instruments, while taking into account the specific context of each Member State.

3. The support provided under the Specific Regulations shall be implemented in close cooperation between the Commission and the Member States.

4. In accordance with their respective responsibilities, the Commission and the Member States, together with the European External Action Service (‘EEAS’) as regards actions in and in relation to third countries, shall ensure coordination between this Regulation and the Specific Regulations, and with other relevant Union policies, strategies and instruments, including those in the framework of the Union’s external action.

5. The Commission and the Member States, together with the EEAS where appropriate, shall ensure that actions in and in relation to third countries are carried out in synergy and in coherence with other actions outside the Union supported through Union instruments. They shall, in particular, ensure that those actions:

(a) are coherent with the Union’s external policy, respect the principle of policy coherence for development and are consistent with the strategic programming documents for the region or country in question;

(b) focus on non-development-oriented measures;

(c) serve the interests of the Union’s internal policies and are consistent with activities undertaken inside the Union.

6. The Commission and the Member States shall apply the principle of sound financial management in accordance with Regulation (EU, Euratom) No 966/2012, in particular in accordance with the principles of economy, efficiency and effectiveness as provided for in Article 30 of that Regulation.

7. The Commission and the Member States shall ensure the effectiveness of the support provided under the Specific Regulations, including through monitoring, reporting and evaluation.

8. The Commission and the Member States shall carry out their respective roles in relation to this Regulation and the Specific Regulations with the aim of reducing the administrative burden for beneficiaries, the Member States and the Commission, taking into account the principle of proportionality.

ARTICLE 4 COMPLIANCE WITH UNION AND NATIONAL LAW

Actions financed by the Specific Regulations shall comply with applicable Union and national law.
ARTICLE 5  PROTECTION OF THE FINANCIAL INTERESTS OF THE UNION

1. The Commission shall take appropriate measures ensuring that, when actions financed under this Regulation and the Specific Regulations are implemented, the financial interests of the Union are protected by the application of preventive measures against fraud, corruption and any other illegal activities, by effective checks, by the recovery of the amounts wrongly paid if irregularities are detected, and, where appropriate, by effective, proportionate and dissuasive administrative and financial penalties.

2. Member States shall prevent, detect and correct irregularities and shall recover amounts unduly paid together with any interest on late payments. They shall notify those to the Commission and shall keep it informed of any significant progress in the related administrative and legal proceedings.

3. When amounts unduly paid to a beneficiary, as a result of fault or negligence on the part of a Member State cannot be recovered, that Member State shall be responsible for reimbursing the relevant amounts to the Union budget.

4. Member States shall offer effective prevention against fraud, especially as regards areas with a higher level of risk. Such prevention shall act as a deterrent, having regard to the benefits as well as the proportionality of the measures.

5. The Commission shall be empowered to adopt delegated acts in accordance with Article 58 concerning the obligations of Member States specified in paragraphs 2 and 3 of this Article.

6. The Commission shall set out, by way of implementing acts, the frequency of the reporting of irregularities and the reporting format to be used. Those implementing acts shall be adopted in accordance with the advisory procedure referred to in Article 59(2).

7. The Commission or its representatives and the Court of Auditors shall have the power of audit, on the basis of documents and on the spot, over all grant beneficiaries, contractors and subcontractors who have received Union funds in accordance with this Regulation and the Specific Regulations.

8. OLAF may carry out investigations, including on-the-spot checks and inspections, in accordance with the provisions and procedures laid down in Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council (10) and Council Regulation (Euratom, EC) No 2185/96 (11), with a view to establishing whether there has been fraud, corruption or any other illegal activity affecting the financial interests of the Union in connection with a grant agreement, grant decision or a contract funded in accordance with this Regulation and the Specific Regulations.

9. Without prejudice to paragraphs 1, 7 and 8, cooperation agreements with third countries and international organisations, contracts, grant agreements and grant decisions resulting from the implementation of this Regulation and the Specific Regulations shall contain provisions expressly empowering the Commission, the Court of Auditors and OLAF to conduct such audits and investigations, in accordance with their respective competences.

CHAPTER III  FINANCIAL FRAMEWORK FOR UNION ACTIONS, EMERGENCY AND TECHNICAL ASSISTANCE

ARTICLE 6  IMPLEMENTATION FRAMEWORK

1. The Commission shall establish the overall amount made available for Union actions, emergency assistance and technical assistance at the initiative of the Commission under the annual appropriations of the Union budget.

2. The Commission shall adopt, by way of implementing acts, the work programme for Union actions and emergency assistance. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

ARTICLE 7  EMERGENCY ASSISTANCE

1. In response to an emergency situation as defined in the Specific Regulations, the Commission may decide to provide emergency assistance. In such cases, it shall inform the European Parliament and the Council in a timely manner.

2. Within the limits of the available resources, the emergency assistance may amount to 100 % of the eligible expenditure.

3. Emergency assistance may consist of assistance in Member States and in third countries in accordance with the objectives and actions defined in the Specific Regulations.

4. Emergency assistance may support expenditure which was incurred prior to the date of submission of the grant application or the request for assistance, but not prior to 1 January 2014, when necessary for the implementation of the action.

5. Emergency assistance may take the form of grants awarded directly to Union agencies.

ARTICLE 8  UNION ACTIONS AND EMERGENCY ASSISTANCE IN OR IN RELATION TO THIRD COUNTRIES

1. The Commission may decide to finance Union actions and emergency assistance in or in relation to third countries in accordance with the objectives and actions defined in the Specific Regulations.

2. Where such actions are implemented directly, the following entities shall be allowed to submit grant applications:

(a) Member States;
(b) third countries, in duly justified cases where a grant is necessary to achieve the objectives of this Regulation and the Specific Regulations;
(c) joint bodies set up by third countries and the Union or by Member States;
(d) international organisations, including regional organisations, UN bodies, depart-
ments and missions, international financial institutions and development banks and institutions of international jurisdiction in so far as they contribute to the objectives of the Specific Regulation(s) concerned;
(e) the ICRC and International Federation of National Red Cross and Red Crescent Societies;
(f) non-governmental organisations established and registered in the Union and in the countries associated with the implementation, application and development of the Schengen acquis;
(g) Union agencies for emergency assistance.

1. At the initiative of or on behalf of the Commission, the Specific Regulations may support the preparatory, monitoring, administrative and technical assistance, evaluation, audit and control measures and activities necessary for the implementation of this Regulation and the Specific Regulations.

2. The measures and activities referred to in paragraph 1 may include:
(a) assistance for project preparation and appraisal;
(b) support for institutional strengthening and administrative capacity building for the effective management of this Regulation and the Specific Regulations;
(c) measures related to the analysis, management, monitoring, information exchange and implementation of this Regulation and the Specific Regulations, as well as measures relating to the implementation of control systems and technical and administrative assistance;
(d) evaluations, expert reports, statistics and studies, including those of a general nature concerning the operation of the Specific Regulations;
(e) actions to disseminate information, support networking, carry out communication activities, raise awareness and promote cooperation and exchanges of experience, including with third countries. To bring about greater efficiency in communication to the public at large and stronger synergies between the communication activities undertaken at the initiative of the Commission, the resources allocated to communication actions under this Regulation shall also contribute to covering the corporate communication of the political priorities of the Union, provided that those are related to the general objectives of this Regulation and the Specific Regulations;
(f) the installation, updating, operation and interconnection of computerised systems for management, monitoring, audit, control and evaluation;
(g) the design of a common framework for evaluation and monitoring, as well as a system of indicators, taking into account, where appropriate, national indicators;
(h) actions to improve evaluation methods and the exchange of information on evaluation practices;
(i) conferences, seminars, workshops and other common information and training measures on the implementation of this Regulation and the Specific Regulations for competent authorities and beneficiaries;
(j) actions related to fraud detection and prevention;
(k) actions related to audit.

3. The measures and activities referred to in paragraph 1 may also concern the preceding and subsequent financial frameworks.
CHAPTER IV NATIONAL PROGRAMMES

SECTION 1: Programming and Implementation framework

ARTICLE 10 PROGRAMMING

The objectives of the Specific Regulations shall be pursued within the framework of the multiannual programming for the period 2014-20, subject to a mid-term review in accordance with Article 15.

ARTICLE 11 SUBSIDIARY AND PROPORTIONATE INTERVENTION

1. Member States and their competent authorities as specified in Article 25 shall be responsible for implementing programmes and carrying out their tasks under this Regulation and the Specific Regulations at the appropriate level, in accordance with the institutional, legal and financial framework of the Member State concerned and subject to compliance with this Regulation and the Specific Regulations.

2. Arrangements for the implementation and use of the support provided under the Specific Regulations, and in particular the financial and administrative resources required in relation to reporting, evaluation, management and control, shall take into account the principle of proportionality having regard to the level of support allocated, thereby reducing the administrative burden and facilitating efficient implementation.

ARTICLE 12 PARTNERSHIP

1. Each Member State shall, in accordance with its national rules and practices and subject to any applicable security requirements, organise a partnership with relevant authorities and bodies to perform the role set out in paragraph 3. The partnership shall be drawn from relevant public authorities at national, regional and local level, where applicable. It shall also, where deemed appropriate, include relevant international organisations, non-governmental organisations and social partners.

2. The partnership shall be conducted in full compliance with the respective institutional, legal and financial jurisdiction of each partner category.

3. The Member State shall involve the partnership in the preparation, implementation, monitoring and evaluation of national programmes. The composition of the partnership may vary at different stages of the programme.

4. Each Member State shall set up a monitoring committee to support the implementation of national programmes.

5. The Commission may provide guidance on the monitoring of national programmes and, where necessary and in agreement with the Member State concerned, may participate in the work of the monitoring committee in an advisory capacity.

ARTICLE 13 POLICY DIALOGUE

1. In order to facilitate the preparation of the national programmes, each Member State and the Commission shall hold a dialogue at the level of senior officials, taking into account the relevant indicative timeframes laid down in Article 14. The dialogue shall focus on the overall results to be achieved by means of the national programmes in order to address the needs and priorities of the
Member States in the areas of intervention covered by the Specific Regulations, taking account of the baseline situation in the Member State concerned and the objectives of the Specific Regulations. The dialogue shall also serve as an opportunity for an exchange of views on Union actions. The outcome of the dialogue shall serve as a guide for the preparation and approval of the national programmes and shall include an indication of the expected date of submission of the Member State’s national programmes to the Commission, which shall allow the timely adoption of the programme. That outcome shall be recorded in agreed minutes.

2. In the case of actions to be implemented in and in relation to third countries, such actions shall not be directly development-oriented and the policy dialogue shall seek full coherence with the principles and general objectives of the Union’s external action and foreign policy as regards the country or region concerned.

3. After the conclusion of the policy dialogues, the Commission shall inform the European Parliament of the overall outcome.

4. If deemed appropriate by a Member State and by the Commission, the policy dialogue may be repeated after the mid-term review referred to in Article 15, in order to reassess the needs of that Member State and the priorities of the Union.

**ARTICLE 14 PREPARATION AND APPROVAL OF NATIONAL PROGRAMMES**

1. Each Member State shall propose, on the basis of the outcome of the policy dialogue referred to in Article 13(1), a multiannual national programme in accordance with the Specific Regulations.

2. Each proposed national programme shall cover the financial years of the period from 1 January 2014 to 31 December 2020, and shall consist of the following elements:

(a) a description of the baseline situation in the Member State, completed with the necessary factual information to assess the requirements correctly;

(b) an analysis of requirements in the Member State and the national objectives designed to meet those requirements during the period covered by the programme;

(c) an appropriate strategy identifying the objectives to be pursued with the support of the Union budget, with targets for their achievement, an indicative time-table and examples of actions envisaged to meet those objectives;

(d) a description of how the objectives of the Specific Regulations are covered;

(e) the mechanisms that ensure coordination between the instruments established by the Specific Regulations and other Union and national instruments;

(f) information on the monitoring and evaluation framework to be put in place and the indicators to be used to measure progress in the implementation of the objectives pursued in relation to the baseline situation in the Member State;

(g) implementing provisions for the national programme containing the identification of the competent authorities, and a summary description of the envisaged management and control system;

(h) a summary description of the approach chosen for the implementation of the partnership principle laid down in Article 12;
(i) a draft financing plan indicatively broken down by each financial year of the period, including an indication of technical assistance expenditure;

(j) the mechanisms and methods to be used to publicise the national programme.

3. Member States shall submit the proposed national programmes to the Commission not later than three months after the conclusion of the policy dialogue referred to in Article 13.

4. The Commission shall adopt, by way of implementing acts, the model according to which the national programmes shall be drawn up. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

5. Before approving a proposed national programme, the Commission shall examine:

(a) its consistency with the objectives of the Specific Regulations and the outcome of the policy dialogue referred to in Article 13(1);

(b) the distribution of Union funding between objectives in the light of the requirements of the Specific Regulations and, where relevant, the justification for any deviation from the minimum shares set in the Specific Regulations;

(c) the relevance of the objectives, targets, indicators, the time-table and examples of actions envisaged in the proposed national programme in the light of the strategy proposed by Member States;

(d) the relevance of the implementing provisions referred to in point (g) of paragraph 2 in the light of the actions envisaged;

(e) the compliance of the proposed programme with Union law;

(f) the complementarity with support provided by other Union funds, including the European Social Fund;

(g) where applicable under a Specific Regulation, for objectives and examples of actions in or in relation to third countries, coherence with the principles and general objectives of the Union’s external action and foreign policy related to the country or region concerned.

6. The Commission shall make observations within three months of the date of submission of the proposed national programme. Where the Commission considers that a proposed national programme is inconsistent with the objectives of the Specific Regulation, in the light of the national strategy, or that the Union funding to be allocated to those objectives is insufficient or that the programme does not comply with Union law, it shall invite the Member State concerned to provide all necessary additional information and, where appropriate, to modify the proposed national programme.

7. The Commission shall approve each national programme not later than six months following the formal submission by the Member State, provided that any observations made by the Commission have been adequately taken into account.

8. Without prejudice to paragraph 7, the Commission shall inform the European Parliament of the overall outcome of the application of paragraphs 5 and 6, including compliance with or derogation from the minimum percentages set per objective in the relevant Specific Regulations.

9. In the light of new or unforeseen circumstances, at the initiative of the Commission
or the Member State concerned, an approved national programme may be re-examined and, if necessary, revised for the rest of the programming period.

**ARTICLE 15  MID-TERM REVIEW**

1. In 2018 the Commission and each Member State shall review the situation, in the light of the interim evaluation reports submitted by the Member States in accordance with point (a) of Article 57(1), and in the light of developments in Union policies and in the Member State concerned.

2. Following the review referred to in paragraph 1, and in the light of its outcome, national programmes may be revised.

3. The rules laid down in Article 14 on the preparation and approval of national programmes shall apply mutatis mutandis to the preparation and approval of the revised national programmes.

4. After the completion of the mid-term review, and as part of the interim evaluation referred to in point (a) of Article 57(2), the Commission shall report on the mid-term review to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions.

**ARTICLE 16  FINANCING STRUCTURE**

1. Financial contributions provided under the national programmes shall take the form of grants.

2. Actions supported under the national programmes shall be co-financed by public or private sources, shall be of a non-profit nature and shall not be subject to funding from other sources covered by the Union budget.

3. The contribution from the Union budget shall not exceed 75% of the total eligible expenditure of a project.

4. The contribution from the Union budget may be increased to 90% under specific actions or strategic priorities as defined in the Specific Regulations.

5. The contribution from the Union budget may be increased to 90% in exceptional duly justified circumstances, for example when, due to economic pressure on the national budget, projects would otherwise not be implemented and the objectives of the national programme would not be achieved.

6. The contribution from the Union budget to the technical assistance at the initiative of Member States may amount to 100% of the total eligible expenditure.

**ARTICLE 17  GENERAL PRINCIPLES OF ELIGIBILITY**

1. The eligibility of expenditure shall be determined on the basis of national rules, except where specific rules are laid down in this Regulation or in the Specific Regulations.

2. In accordance with the Specific Regulations, for expenditure to be eligible, it must be:

   (a) within the scope of the Specific Regulations and their objectives;

   (b) needed to carry out the activities covered by the project concerned;

   (c) reasonable and comply with the principles of sound financial management, in particular value for money and cost-effectiveness.

3. Expenditure shall be eligible for support under the Specific Regulations if:
(a) it has been incurred by a beneficiary between 1 January 2014 and 31 December 2022; and

(b) it has been disbursed by the designated Responsible Authority between 1 January 2014 and 30 June 2023.

4. By way of derogation from paragraph 3, expenditure paid in 2014 shall also be eligible where it has been paid by the Responsible Authority before its formal designation in accordance with Article 26, provided that the management and controls systems applied before the formal designation are essentially the same as the ones in force after the formal designation of the Responsible Authority.

5. Expenditure included in payment requests from the beneficiary to the Responsible Authority shall be supported by invoices or accounting documents of equivalent probative value, except for forms of support under points (b), (c) and (d) of Article 18(1). For such forms of support, by way of derogation from paragraph 3 of this Article, the amounts included in the payment request shall be the cost reimbursed to the beneficiary by the Responsible Authority.

6. Net revenue directly generated by a project during its implementation which has not been taken into account at the time of approval of the project shall be deducted from the eligible expenditure of the project at the latest in the final payment request submitted by the beneficiary.

ARTICLE 18 ELIGIBLE EXPENDITURE

1. Eligible expenditure may be reimbursed in the following ways:

(a) reimbursement of eligible costs actually incurred and paid, together with, where applicable, depreciation;

(b) standard scales of unit costs;

(c) lump sums;

(d) flat-rate financing determined by the application of a percentage to one or more defined categories of costs.

2. The options referred to in paragraph 1 may be combined where each option covers different categories of costs, or where they are used for different projects forming a part of an action or for successive phases of an action.

3. Where a project is implemented exclusively through the public procurement of works, goods or services, only point (a) of paragraph 1 shall apply. Where the public procurement within a project is limited to certain categories of costs, all the options referred to in paragraph 1 may apply.

4. The amounts referred to in points (b), (c) and (d) of paragraph 1 shall be established in one of the following ways:

(a) a fair, equitable and verifiable calculation method based on:

(i) statistical data or other objective information;

(ii) the verified historical data of individual beneficiaries; or

(iii) the application of the usual cost accounting practices of individual beneficiaries;

(b) in accordance with the rules for application of corresponding scale of unit costs, lump sums and flat rates applicable in Union
policies for a similar type of project and beneficiary;

(c) in accordance with the rules for application of corresponding scale of unit costs, lump sums and flat rates applied under schemes for grants funded entirely by the Member State concerned for a similar type of project and beneficiary.

5. The document setting out the conditions for support for each project shall set out the method to be applied for determining the costs of the project and the conditions for the payment of the grant.

6. Where the implementation of a project gives rise to indirect costs, they may be calculated as a flat rate in one of the following ways:

(a) a flat rate of up to 25% of eligible direct costs, provided that the rate is calculated on the basis of a fair, equitable and verifiable calculation method or a method applied under schemes for grants funded entirely by the Member State concerned for a similar type of project and beneficiary;

(b) a flat rate of up to 15% of eligible direct staff costs without there being a requirement for the Member State concerned to perform a calculation to determine the applicable rate;

(c) a flat rate applied to eligible direct costs based on existing methods and corresponding rates, applicable in Union policies for a similar type of project and beneficiary.

7. For the purposes of determining staff costs relating to the implementation of a project, the hourly rate applicable may be calculated by dividing the latest documented annual gross employment costs by 1,720 hours.

8. In addition to the methods laid down in paragraph 4, where the contribution from the Union budget does not exceed 100,000 EUR, the amounts referred to in points (b), (c) and (d) of paragraph 1 may be established on a case-by-case basis by reference to a draft budget agreed *ex ante* by the Responsible Authority.

9. Depreciation costs may be considered as eligible where the following conditions are met:

(a) the eligibility rules of the national programme allow for it;

(b) the amount of the expenditure is duly justified by supporting documents having equivalent probative value to invoices for eligible costs where reimbursed in the form referred to in point (a) of paragraph 1;

(c) the costs relate exclusively to the period of support for the project;

(d) support from the Union budget has not contributed towards the acquisition of the depreciated assets.

10. Without prejudice to Article 43, for the purpose of paragraph 8 of this Article the Member States whose currency is not the euro may use the euro conversion rate fixed on the date of project approval or project agreement signature based on the monthly accounting exchange rate published electronically by the Commission. The euro conversion rate shall not be subject to modification in course of the project.

**ARTICLE 19  INELIGIBLE EXPENDITURE**

The following costs shall not be eligible for a contribution from the Union budget under the Specific Regulations:
(a) interest on debt;

(b) the purchase of land not built upon;

(c) the purchase of land built upon, where the land is necessary for the implementation of the project, in an amount exceeding 10% of the total eligible expenditure for the project concerned;

(d) value added tax (VAT), except where it is non-recoverable under national VAT law.

**ARTICLE 20  TECHNICAL ASSISTANCE AT THE INITIATIVE OF THE MEMBER STATES**

1. At the initiative of a Member State for each national programme, the Specific Regulations may support actions for preparation, management, monitoring, evaluation, information and communication, networking, control and audit, as well as measures for the reinforcement of the administrative capacity for the implementation of this Regulation and the Specific Regulations.

2. The measures referred to in paragraph 1 may include:

   (a) expenditure relating to the preparation, selection, appraisal, management and monitoring of the programme, actions or projects;
   (b) expenditure relating to audits and on-the-spot controls of actions or projects;
   (c) expenditure relating to evaluations of the programme, actions or projects;

   (e) expenditure on the acquisition, installation and maintenance of computerised systems for the management, monitoring and evaluation of this Regulation and the Specific Regulations;
   (f) expenditure on meetings of monitoring committees and sub-committees relating to the implementation of actions; including the costs of experts and other participants in those committees and including third-country participants, where their presence is essential to the effective implementation of programmes, actions or projects;
   (g) expenditure for the reinforcement of the administrative capacity for the implementation of this Regulation and the Specific Regulations.

3. The appropriations may be used by the Member States to support actions for the reduction of administrative burden for the beneficiaries and competent authorities referred to in Article 25, including electronic data exchange systems, and actions to reinforce the capacity of Member State authorities and beneficiaries to administer and to use the support provided for under the Specific Regulations.

4. The actions may also concern the preceding and subsequent financial frameworks.

5. When one or more competent authorities are common to more than one national programme, the appropriations for the technical assistance expenditure on each of the programmes concerned may be merged, either partly or entirely.
SECTION 2: Management and Control

ARTICLE 21  GENERAL PRINCIPLES OF MANAGEMENT AND CONTROL SYSTEMS

For the implementation of its national programme, each Member State shall set up management and control systems, which shall provide for:

(a) a description of the functions of each authority involved in management and control, and the allocation of functions within each authority;

(b) compliance with the principle of separation of functions between and within such authorities;

(c) procedures for ensuring the correctness and regularity of expenditure declared;

(d) computerised systems for accounting, for the storage and transmission of financial data and data on indicators, for monitoring and for reporting;

(e) systems for reporting and monitoring where the Responsible Authority entrusts the execution of tasks to another body;

(f) arrangements for auditing the functioning of the management and control systems;

(g) systems and procedures to ensure an adequate audit trail;

(h) the prevention, detection and correction of irregularities, including fraud, and the recovery of amounts unduly paid, together with any interest on late payments.

ARTICLE 22  RESPONSIBILITIES UNDER SHARED MANAGEMENT

In accordance with the principle of shared management, Member States and the Commission shall be responsible for the management and control of national programmes in accordance with their respective responsibilities laid down in this Regulation and the Specific Regulations.

ARTICLE 23  RESPONSIBILITIES OF BENEFICIARIES

Beneficiaries shall fully cooperate with the Commission and competent authorities when they carry out their functions and tasks in relation to this Regulation and the Specific Regulations.

ARTICLE 24  RESPONSIBILITIES OF MEMBER STATES

1. Member States shall fulfil the management, control and audit obligations and assume the resulting responsibilities, which are laid down in the rules on shared management set out in Regulation (EU, Euratom) No 966/2012 and this Regulation.

2. Member States shall ensure that their management and control systems for national programmes are set up in accordance with this Regulation and that those systems function effectively.

3. Member States shall allocate adequate resources for each competent authority to carry out their functions throughout the programming period.

4. Member States shall set up transparent rules and procedures for the selection
and implementation of projects in accordance with this Regulation and the Specific Regulations.

5. All official exchanges of information between the Member State and the Commission shall be carried out using an electronic data exchange system. The Commission shall establish, by way of implementing acts, the terms and conditions with which that electronic data exchange system is to comply. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

ARTICLE 25 COMPETENT AUTHORITIES

1. For the purposes of this Regulation and the Specific Regulations, the competent authorities are:

(a) a Responsible Authority: a public sector body of the Member State concerned, which is the designated body within the meaning of Article 59(3) of Regulation (EU, Euratom) No 966/2012 and which shall be solely responsible for the proper management and control of the national programme and shall handle all communication with the Commission;

(b) an Audit Authority: a national public authority or body, which is functionally independent of the Responsible Authority and which shall be responsible for issuing annually the opinion referred to in the second subparagraph of Article 59(5) of Regulation (EU, Euratom) No 966/2012;

(c) where appropriate, one or more Delegated Authorities: any public or private body which carries out certain tasks of the responsible authority under the responsibility of the Responsible Authority.

2. Each Member State shall lay down rules governing the relations between the authorities referred to in paragraph 1 and their relations with the Commission.

ARTICLE 26 DESIGNATION OF RESPONSIBLE AUTHORITIES

1. Member States shall notify the Commission of the formal designation, in accordance with Article 59(3) of Regulation (EU, Euratom) No 966/2012, at ministerial level of the Responsible Authorities in Member States responsible for the management and control of expenditure under this Regulation, as soon as possible after the approval of the national programme.

2. The designation referred to in paragraph 1 shall be made subject to the body complying with the designation criteria on internal environment, control activities, information and communication, and monitoring laid down in or on the basis of this Regulation.

3. The designation of a Responsible Authority shall be based on an opinion of an audit body, which may be the Audit Authority, that assesses the Responsible Authority’s compliance with the designation criteria. That body may be the autonomous public institution responsible for monitoring, evaluating and auditing the administration. The audit body shall function independently of the Responsible Authority and shall carry out its work in accordance with internationally accepted audit standards. In accordance with Article 59(3) of Regulation (EU, Euratom) No 966/2012, Member States may base their decision on designation on whether the management and control systems are essentially the same as those in place for the previous period and whether they have functioned effectively. If the existing audit and control results show that the designated bodies no longer comply with the designation criteria, Member States
shall take the necessary measures to ensure that deficiencies in the implementation of the tasks of those bodies are remedied, including by ending the designation.

4. To ensure the sound operation of this system, the Commission shall be empowered to adopt delegated acts in accordance with Article 58 concerning:

(a) minimum conditions for the designation of the Responsible Authorities with regard to the internal environment, control activities, information and communication, and monitoring, as well as rules on the procedure for making and ending the designation;

(b) rules relating to supervision and the procedure for reviewing the designation of Responsible Authorities;

(c) the obligations of the Responsible Authorities as regards public intervention, as well as on the content of their management and control responsibilities.

ARTICLE 27 GENERAL PRINCIPLES ON CONTROLS BY RESPONSIBLE AUTHORITIES

1. Responsible Authorities shall carry out a systematic administrative control and shall supplement such a control by on-the-spot controls, including, where appropriate, unannounced on-the-spot controls of the expenditure related to the final payment requests from the beneficiaries that are declared in the annual accounts with a view to obtaining a sufficient level of assurance.

2. As regards on-the-spot controls, the Responsible Authority shall draw its control sample from the entire population of beneficiaries comprising, where appropriate, a random part and a risk-based part, in order to obtain a representative error rate and a minimum confidence level, while targeting also the highest errors.

3. The Responsible Authority shall draw up a control report on each on-the-spot control.

4. Where problems detected appear to be systemic in nature and may therefore entail a risk to other projects, the Responsible Authority shall ensure that a further examination is carried out, including additional controls where necessary, to establish the scale of such problems and whether the error rate is above the acceptable level. The necessary preventive and corrective measures shall be taken by the Responsible Authority and shall be communicated to the Commission in the summary referred to in point (b) of the first subparagraph of Article 59(5) of Regulation (EU, Euratom) No 966/2012.

5. The Commission shall adopt, by way of implementing acts, the necessary rules aiming at achieving a uniform application of this Article. Those rules may in particular relate to the following:

(a) the rules concerning administrative and on-the-spot controls including unannounced on-the-spot controls, to be conducted by the Responsible Authority with regard to compliance with obligations, commitments and eligibility rules resulting from the application of this Regulation and the Specific Regulations, including the rules relating to the period of time for which supporting documents should be kept;

(b) the rules on the minimum level of on-the-spot controls necessary for an effective management of the risks, as well as the conditions under which Member States have to increase such controls, or may reduce them where the management and control systems function properly and the error rates are at an acceptable level;
(c) the rules and methods on the reporting of the controls and verification carried out and their results.

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

ARTICLE 28  PAYMENT TO BENEFICIARIES

Responsible Authorities shall ensure that the beneficiaries receive the total amount of the public support as quickly as possible and in full. No amount shall be deducted or withheld and no specific charge or other charge with equivalent effect shall be levied that would reduce those amounts for the beneficiaries.

ARTICLE 29  FUNCTIONS OF THE AUDIT AUTHORITY

1. To support the opinion given in accordance with Article 59 of Regulation (EU, Euratom) No 966/2012, the audit authority shall ensure that audits are carried out on the management and control systems, and on an appropriate sample of the expenditure included in the annual accounts. The Commission shall be empowered to adopt delegated acts in accordance with Article 58 of this Regulation on the status of the Audit Authorities and the conditions which their audits shall fulfil.

2. Where audits are carried out by a body other than the Audit Authority, the Audit Authority shall ensure that any such body has the necessary specialist expertise and functional independence.

3. The Audit Authority shall ensure that audit work meets internationally accepted auditing standards.

ARTICLE 30  COOPERATION WITH AUDIT AUTHORITIES

1. The Commission shall cooperate with audit authorities to coordinate their respective audit plans and methods and shall as soon as possible exchange the results of audits carried out on management and control systems in order to make the best possible and proportionate use of control resources, and to avoid unjustified duplication of work.

2. The Commission and the audit authorities shall meet on a regular basis to exchange views on issues relating to the improvement of the management and control systems.

ARTICLE 31  CONTROLS AND AUDITS BY THE COMMISSION

1. The Commission shall rely on available information, including the designation procedure, the request for payment of the annual balance as referred to in Article 44, annual implementation reports and audits carried out by national and Union bodies, to assess whether the Member States have set up management and control systems that comply with this Regulation, and whether those systems function effectively during the implementation of national programmes.

2. Without prejudice to audits carried out by Member States, Commission officials or authorised Commission representatives may carry out on-the-spot audits or controls subject to giving at least 12 working days notice to the competent national authority, except in urgent cases. The Commission shall respect the principle of proportionality by taking into account the need to avoid unjustified duplication of audits or controls carried out by Member States, the level of risk to the Union budget and the need to minimise the administrative burden on beneficiaries. Officials or
authorised representatives of the Member State may take part in such audits or controls.

3. The scope of the audits or controls may include, in particular:

(a) the verification of the effective functioning of management and control systems in a national programme or a part thereof;

(b) the compliance of administrative practices with Union rules;

(c) the existence of the required supporting documents and their correlation with the actions supported under the national programmes;

(d) the terms on which the actions have been undertaken and controlled;

(e) an assessment of the sound financial management of actions and/or the national programme.

4. Commission officials or authorised Commission representatives, duly empowered to carry out on-the-spot audits or controls, shall have access to all necessary records, documents and metadata, irrespective of the medium in which they are stored, relating to projects and technical assistance or to management and control systems. Member States shall provide copies of such records, documents and metadata to the Commission upon request. The powers set out in this paragraph shall not affect the application of national provisions which reserve certain acts for agents specifically designated by national legislation. Commission officials and authorised representatives shall not take part, inter alia, in home visits or the formal questioning of persons within the framework of national legislation. However, they shall have access to the information thus obtained without prejudice to the competences of national courts and in full respect for the fundamental rights of the legal subjects concerned.

5. At the request of the Commission and with the agreement of the Member State concerned, additional controls or inquiries into the actions covered by this Regulation shall be undertaken by the competent bodies of that Member State. Commission agents or persons delegated by the Commission may take part in such controls. In order to improve controls, the Commission may, with the agreement of the Member States concerned, request the assistance of the authorities of those Member States for certain controls or inquiries.

6. The Commission may require a Member State to take the actions necessary to ensure the effective functioning of its management and control systems or the correctness of expenditure in accordance with the applicable rules.
SECTION 3: Financial Management

ARTICLE 32  BUDGET COMMITMENTS

1. The budget commitments of the Union in respect of each national programme shall be made in annual instalments during the period from 1 January 2014 to 31 December 2020.

2. The decision of the Commission approving a national programme shall constitute a financing decision within the meaning of Article 84 of Regulation (EU, Euratom) No 966/2012 and, once notified to the Member State concerned, a legal commitment within the meaning of that Regulation.

3. For each national programme, the budget commitment for the first instalment shall follow the approval of the national programme by the Commission.

4. The budget commitments for subsequent instalments shall be made by the Commission before 1 May of each year, on the basis of the decision referred to in paragraph 2 of this Article, except where Article 16 of Regulation (EU, Euratom) No 966/2012 applies.

1. The total of the initial pre-financing payment and the payments of the annual balance shall not exceed 95 % of the contribution from the Union budget to the national programme concerned.

2. When the ceiling of 95 % is reached, the Member States may continue transmitting requests for payment to the Commission.

ARTICLE 35  PRE-FINANCING ARRANGEMENTS

1. Following the Commission decision approving the national programme, an initial pre-financing amount for the whole programming period shall be paid within four months by the Commission to the designated Responsible Authority. That initial pre-financing amount shall represent 4 % of the total contribution from the Union budget to the national programme concerned. It may be split into two instalments, depending on budget availability.

2. An annual pre-financing amount of 3 % of the total contribution from the Union budget to the national programme concerned shall be paid before 1 February 2015. For the years in the period 2016-22, it shall be 5 % of the total contribution from the Union budget to the national programme concerned.

3. If a national programme is approved in 2015 or later, the initial pre-financing and annual pre-financing shall be paid not later
than 60 days after the approval of the national programme, depending on budget availability.

4. In the case of amendments to the total contribution from the Union budget to a national programme, the initial as well as the annual pre-financing amounts shall be revised accordingly and reflected in the financing decision.

5. Pre-financing shall be used for making payments to beneficiaries implementing the national programme as well as for competent authorities for expenditure relating to technical assistance. It shall be made available without delay to the Responsible Authority for those purposes.

**ARTICLE 36  CLEARANCE OF PRE-FINANCING**

1. The amount paid as initial pre-financing shall be totally cleared from the Commission accounts in accordance with Article 40, at the latest when the national programme is closed.

2. The amount paid as annual pre-financing shall be cleared from the Commission accounts in accordance with Article 39.

3. The total amount paid as pre-financing shall be reimbursed to the Commission if no payment request in accordance with Article 44 is sent within 36 months of the date on which the Commission pays the first instalment of the initial pre-financing amount.

4. Interest generated on the initial pre-financing shall be posted to the national programme concerned and shall be deducted from the amount of public expenditure indicated on the final payment request.

**ARTICLE 37  INTERNAL ASSIGNMENT OF REVENUE**

1. The following shall be regarded as internal assigned revenue within the meaning of Article 21 of Regulation (EU, Euratom) No 966/2012:

   (i) sums which, under Articles 45 and 47 of this Regulation, are paid to the Union budget, including interest;

   (ii) sums which, following the closure of programmes under the preceding multiannual financial framework, are paid to the Union budget, including interest.

2. The sums referred to in paragraph 1 shall be paid to the Union budget and, in the event of reuse, shall be used in the first instance to finance expenditure under the Specific Regulations.

**ARTICLE 38  DEFINITION OF THE FINANCIAL YEAR**

For the purpose of this Regulation, the financial year, as referred to in Article 59 of Regulation (EU, Euratom) No 966/2012, shall cover expenditure paid and revenue received and entered into the accounts of the Responsible Authority in the period commencing on 16 October of year ‘N-1’ and ending on 15 October of year ‘N’.

3. Depending on budget availability, the annual balance shall be paid not later than six months after the information and documents referred to in Article 44(1) and Article 54 are considered admissible by the Commission and the latest annual accounts have been cleared.

ARTICLE 40 Closure of the Programme

1. Member States shall submit the following documents by 31 December 2023:

   (a) the information required for the last annual accounts, in accordance with Article 44(1);

   (b) a request for payment of the final balance; and

   (c) the final implementation report for the national programme as referred to in Article 54(1).

2. The payments made by the Responsible Authority from 16 October 2022 to 30 June 2023 shall be included in the last annual accounts.

3. After receiving the documents listed in paragraph 1, the Commission shall pay the final balance, on the basis of the financial plan in force, the last annual accounts and the corresponding clearance decision.

4. Depending on budget availability, the final balance shall be paid not later than three months after the date of clearance of accounts of the final financial year, or one month after the date of acceptance of the final implementation report, whichever date is later. The amounts still committed after the balance is paid shall, without prejudice to Article 52, be decommitted by the Commission within a period of six months.

ARTICLE 41 Interruption of the Payment Deadline

1. The payment deadline following a request for payment may be interrupted by the authorising officer by delegation within the meaning of Regulation (EU, Euratom) No 966/2012 for a maximum period of six months, when at least one of the following conditions is met:

   (a) further to information provided by a national or Union audit body, there is clear evidence to suggest a significant deficiency in the functioning of the management and control system;

   (b) the authorising officer by delegation has to carry out additional verifications following information brought to his attention alerting him that expenditure in a payment request is linked to an irregularity having serious financial consequences;

   (c) one or more documents required under Article 44(1) were not submitted.

The Member State concerned may agree to an extension of the interruption period for an additional three months.

2. The authorising officer by delegation shall limit the interruption to the part of the expenditure covered by the payment request affected by the elements referred to in the first subparagraph of paragraph 1, unless it is not possible to identify the part of expenditure affected. The authorising officer by dele-
ation shall inform the Member State and the Responsible Authority immediately in writing of the reason for the interruption and shall ask them to remedy the situation. The interruption shall be ended by the authorising officer by delegation as soon as the necessary measures have been taken.

ARTICLE 42   SUSPENSION OF PAYMENTS

1. All or part of the annual balance may be suspended by the Commission where:

(a) there is a serious deficiency in the effective functioning of the management and control system of the national programme which has put at risk the Union contribution to the national programme, and for which corrective measures have not been taken;

(b) expenditure in the annual accounts is linked to an irregularity having serious financial consequences which has not been corrected; or

(c) the Member State has failed to take the necessary action to remedy the situation giving rise to an interruption under Article 41.

2. The Commission may decide to suspend all or part of an annual balance after having given the Member State concerned the opportunity to present its observations.

3. The Commission shall end the suspension of all or part of an annual balance where the Member State concerned has taken the necessary measures to enable the suspension to be lifted.

ARTICLE 43   USE OF THE EURO

1. Amounts set out in national programmes submitted by Member States, forecasts of expenditure, statements of expenditure, requests for payments, annual accounts and expenditure mentioned in the annual and final implementation reports shall be denominated in euro.

2. Member States whose currency is not the euro on the date of a payment request shall convert the amounts of expenditure incurred in national currency into euro. Those amounts shall be converted into euro using the monthly accounting exchange rate of the Commission in the month during which the expenditure was registered in the accounts of the Responsible Authority of the national programme concerned. The exchange rate shall be published electronically by the Commission each month.

3. In cases where the euro becomes the currency of a Member State, the conversion procedure set out in paragraph 2 shall continue to apply to all expenditure recorded in the accounts by the Responsible Authority before the date of entry into force of the fixed conversion rate between the national currency and the euro.
SECTION 4: Clearance of accounts and financial corrections

ARTICLE 44  REQUEST FOR PAYMENT OF THE ANNUAL BALANCE

1. By 15 February of the year following the financial year, each Member State shall submit to the Commission the documents and information required under Article 59(5) of Regulation (EU, Euratom) No 966/2012. The documents submitted shall serve as the request for payment of the annual balance. The deadline of 15 February may be exceptionally extended by the Commission to 1 March at the latest upon communication from the Member State concerned. Member States may, at the appropriate level, publish that information.

2. The Commission may ask a Member State to provide further information for the purpose of the annual clearance of the accounts. If a Member State does not provide the requested information by the deadline for its submission set by the Commission, the Commission may take its decision on the clearance of the accounts on the basis of the information in its possession.

3. The Commission shall adopt, by way of implementing acts, the models according to which the documents referred to in paragraph 1 shall be drawn up. Those implementing acts shall be adopted in accordance with the advisory procedure referred to in Article 59(2).

ARTICLE 45  ANNUAL CLEARANCE OF ACCOUNTS

1. By 31 May of the year following the financial year, the Commission shall decide on the clearance of the annual accounts for each national programme. The clearance decision shall cover the completeness, accuracy and veracity of the annual accounts submitted and shall be without prejudice to any subsequent financial corrections.

2. The Commission shall, by way of implementing acts, lay down the arrangements for the implementation of the annual clearance of accounts procedure, as regards the measures to be taken in connection with the adoption of the decision and its implementation, including on the exchange of information between the Commission and the Member States and the deadlines to be respected. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

ARTICLE 46  FINANCIAL CORRECTIONS BY MEMBER STATES

Member States shall make the financial corrections required in connection with individual or systemic irregularities detected under the national programmes. Financial corrections shall consist of cancelling all or part of the contribution from the Union budget concerned. The Member States shall take into account the nature and gravity of the irregularities and the financial loss to the Union budget and shall apply a proportionate correction. Amounts cancelled and amounts recovered, as well as the interest thereon, shall be reallocated to the national programme concerned, excluding the amounts resulting from irregularities identified by the Court of Auditors and the Commission services, including OLAF. After the closure of the national programme, the Member State concerned shall refund the sums recovered to the Union budget.
ARTICLE 47  CONFORMITY CLEARANCE AND FINANCIAL CORRECTIONS BY THE COMMISSION

1. The Commission shall make financial corrections by cancelling all or part of the Union contribution to a national programme and effecting recovery from the Member State concerned in order to exclude from Union financing any expenditure which is in breach of applicable law, including in relation to deficiencies in the management and control systems of Member States which have been detected by the Commission or the Court of Auditors.

2. A breach of applicable law shall lead to a financial correction only in relation to expenditure which has been declared to the Commission and where one of the following conditions is met:

(a) the breach has affected the selection of a project under the national programme, or, in cases where, due to the nature of the breach, it is not possible to establish that impact, there is a substantiated risk that the breach has had such an effect;

(b) the breach has affected the amount of expenditure declared for reimbursement by the Union budget, or in cases where, due to the nature of the breach, it is not possible to quantify its financial impact, but there is a substantiated risk that the breach has had such an effect.

3. When deciding on a financial correction under paragraph 1, the Commission shall respect the principle of proportionality by taking account of the nature and gravity of the breach of applicable law and its financial implications for the Union budget.

4. Before the adoption of any decision to refuse financing, the findings from the Commission and the Member State’s replies shall be notified in writing, following which the two parties shall attempt to reach agreement on the action to be taken.

5. Financing may not be refused for:

(a) expenditure which is incurred by the Responsible Authority more than 36 months before the Commission notifies the Member State in writing of its findings;

(b) expenditure on multiannual actions within the scope of the national programmes, where the final obligation on the beneficiary occurs more than 36 months before the Commission notifies the Member State in writing of its findings;

(c) expenditure on actions in national programmes, other than those referred to in point (b), for which the payment or, as the case may be, the final payment, by the Responsible Authority, is made more than 36 months before the Commission notifies the Member State in writing of its findings.

6. The Commission shall, by way of implementing acts, lay down the arrangements for the implementation of the conformity clearance as regards the measures to be taken in connection with the adoption of the decision and its implementation, including the information exchange between the Commission and the Member States and the deadlines to be respected. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 59(3).

ARTICLE 48  OBLIGATIONS OF MEMBER STATES

A financial correction by the Commission shall not prejudice the Member State’s obligation to pursue recoveries under point (h) of Article 21 of this Regulation and to recover
State aid within the meaning of Article 107(1) TFEU and under Article 14 of Council Regulation (EC) No 659/1999⁽¹⁾.

**ARTICLE 49 REPAYMENT**

1. Any repayment due to be made to the Union budget shall be made before the due date indicated in the order for recovery drawn up in accordance with Article 80 of Regulation (EU, Euratom) No 966/2012. That due date shall be the last day of the second month following the issuing of the order.

2. Any delay in making repayment shall give rise to interest on account of late payment, starting on the due date and ending on the date of actual payment. The rate of such interest shall be one-and-a-half percentage points above the rate applied by the European Central Bank in its main refinancing operations on the first working day of the month in which the due date falls.

**SECTION 5: Decommitment**

**ARTICLE 50  PRINCIPLES**

1. National programmes shall be submitted to a decommissioning procedure established on the basis that amounts linked to a commitment which are not covered by the initial and annual pre-financing referred to in Article 35 and a request for payment in accordance with Article 44 by 31 December of the second year following that of the budget commitment shall be decommissioned. For the purpose of the decommissioning, the Commission shall calculate the amount by adding one sixth of the annual budget commitment related to the 2014 total amount contribution to each of the 2015-20 budget commitments.

2. By way of derogation from paragraph 1, the deadlines for decommissioning shall not apply to the annual budget commitment related to the 2014 total annual contribution of 2015. In such cases, the Commission shall calculate the amount under paragraph 1 by adding one fifth of the annual budget commitment related to the 2015 total amount contribution to each of the 2016-20 budget commitments.

4. The commitment related to the last year of the period shall be decommissioned in accordance with the rules followed for the closure of the programmes.

5. Any commitment still open on the latest date for expenditure to be eligible, as referred to in Article 17(3), and for which a payment request has not been made by the Responsible Authority within six months after that date shall be automatically decommissioned.

**ARTICLE 51  EXCEPTIONS TO DECOMMITMENT**

1. The amount concerned by decommissioning shall be reduced by the amounts that the Responsible Authority has not been able to declare to the Commission because of:
(a) actions suspended by legal proceedings or by an administrative appeal having suspensive effect; or

(b) reasons of force majeure seriously affecting the implementation of all or part of the national programme. Responsible Authorities claiming force majeure shall demonstrate the direct consequences of the force majeure on the implementation of all or part of the national programme.

The reduction may be requested once if the suspension or force majeure lasted up to one year. If the suspension or force majeure lasted more than one year, the reduction may be requested several times, corresponding to the duration of the force majeure or the number of years between the date of the legal or administrative decision suspending the implementation of the action and the date of the final legal or administrative decision.

2. The Member State shall send to the Commission information on the exceptions referred to in paragraph 1 by 31 January, in order for the amount to be declared by the end of the preceding year.

3. The part of the budget commitments for which a payment request has been made, but payment of which has been reduced or suspended by the Commission on 31 December of year N + 2, shall be disregarded in calculating the automatic decommitment.

ARTICLE 52  PROCEDURE

1. Whenever there is a risk of application of decommitment under Article 50, the Commission shall inform the Member States as soon as possible.

2. On the basis of the information in its possession on 31 January, the Commission shall inform the Responsible Authority of the amount of the decommitment resulting from the information in its possession.

3. The Member State concerned shall have two months to agree to the amount to be decommitted or to submit its observations.

4. The Commission shall carry out the automatic decommitment no later than nine months after the last time-limit resulting from the application of paragraphs 1 to 3.

5. In the event of automatic decommitment, the contribution from the Union budget to the national programme concerned shall be reduced, for the year in question, by the amount automatically decommitted. The Union contribution in the financing plan will be reduced pro rata, unless the Member State produces a revised financing plan.
CHAPTER V  INFORMATION, COMMUNICATION, MONITORING, EVALUATION AND REPORTING

ARTICLE 53  INFORMATION AND PUBLICITY

1. Member States and Responsible Authorities shall be responsible for:
   
(a) a website or a website portal providing information on and access to the national programmes in that Member State;

(b) informing potential beneficiaries about funding opportunities under the national programmes;

(c) publicising to Union citizens the role and achievements of the Specific Regulations, through information and communication actions on the results and impact of the national programmes.

2. Member States shall ensure transparency of the implementation of the national programmes and shall maintain a list of actions supported by each national programme which shall be accessible through the website or the website portal. The list of actions shall include updated information on the final beneficiaries, the names of the projects and the amount of Union funding allocated to them.

3. As a rule, information shall be made public, except where it is restricted due to its confidential nature, particularly concerning security, public order, criminal investigations and the protection of personal data.

4. The Commission shall be empowered to adopt by delegated acts in accordance with Article 58 to lay down rules concerning the information and publicity measures for the public and information measures for beneficiaries.

5. The Commission shall, by way of implementing acts, define the technical characteristics of information and publicity measures. Those implementing acts shall be adopted by the Commission in accordance with the examination procedure referred to in Article 59(3).

ARTICLE 54  IMPLEMENTATION REPORTS

1. By 31 March 2016 and by 31 March of each subsequent year until and including 2022, the Responsible Authority shall submit to the Commission an annual report on the implementation of each national programme in the previous financial year and may, at the appropriate level, publish that information. The report submitted in 2016 shall cover the financial years 2014 and 2015. The Member State shall submit a final report on the implementation of the national programmes by 31 December 2023.

2. Annual implementation reports shall set out information on:
   
(a) the implementation of the national programme by reference to the financial data and the indicators;

(b) any significant issues which affect the performance of the national programme.

3. In the light of the mid-term review as referred to in Article 15, the annual implementation report submitted in 2017 shall set out and assess:
   
(a) the information referred to in paragraph 2;
(b) the progress towards achieving the objectives in the national programmes pursued with the contribution from the Union budget;

(c) the involvement of relevant partners as referred to in Article 12.

4. The annual implementation report submitted in 2020 and the final implementation report shall, in addition to the information and assessment set out in paragraph 2, include information on and assess the progress towards achieving the objectives of the national programme, bearing in mind the outcome of the policy dialogue referred to in Article 13(1).

5. The annual implementation reports referred to in paragraphs 1 to 4 shall be admissible if they contain all the information required by those paragraphs. The Commission shall inform the Member State concerned within 15 working days from the date of receipt of the annual implementation report if it is not admissible, failing which it shall be deemed admissible.

6. The Commission shall inform the Member State concerned of its observations on the annual implementation report within two months from the date of receipt of the annual implementation report. If the Commission does not provide observations within this deadline, the reports shall be deemed to be accepted.

7. The Commission may make observations on issues in the Responsible Authority’s annual implementation report which affect the implementation of the national programme. Where such observations are made, the Responsible Authority shall provide necessary information with regard to those observations and, where appropriate, inform the Commission of the measures taken. The Commission shall be informed not later than three months after it has made such observations.

8. The Commission shall adopt, by way of implementing acts, the models according to which the annual and final implementation reports shall be drawn up. Those implementing acts shall be adopted in accordance with the advisory procedure referred to in Article 59(2).

ARTICLE 55  THE COMMON MONITORING AND EVALUATION FRAMEWORK

1. The Commission shall carry out regular monitoring of this Regulation and the Specific Regulations, where appropriate, in cooperation with the Member States.

2. The implementation of the Specific Regulations shall be evaluated by the Commission in partnership with the Member States in accordance with Article 57.

3. A common monitoring and evaluation framework shall be established with a view to measuring the relevance, effectiveness, efficiency, added value and sustainability of the actions and the simplification and the reduction of administrative burden, in the light of the objectives of this Regulation and the Specific Regulations and the performance of this Regulation and the Specific Regulations as instruments contributing to the development of the area of freedom, security and justice.

4. The Commission shall be empowered to adopt delegated acts in accordance with Article 58 to develop further the common monitoring and evaluation framework.

5. Member States shall provide the Commission with the necessary information to permit the monitoring and evaluation of this Regulation and the Specific Regulations.
6. The Commission shall also consider the complementarity between the actions implemented under the Specific Regulations and those pursued under other relevant Union policies, instruments and initiatives.

7. The Commission shall pay particular attention to the monitoring and evaluation of actions and programmes related to third countries, in accordance with Article 8.

**ARTICLE 56 EVALUATION OF NATIONAL PROGRAMMES BY MEMBER STATES**

1. Member States shall carry out the evaluations referred to in Article 57(1). The evaluation to be carried out in 2017 shall contribute to improving the quality of the design and the implementation of national programmes, in accordance with the common monitoring and evaluation framework.

2. Member States shall ensure that procedures are in place to produce and collect the data necessary for the evaluations referred to in paragraph 1, including data related to indicators in the common monitoring and evaluation framework.

3. The evaluations referred to in Article 57(1) shall be carried out by experts who are functionally independent of the Responsible Authorities, the Audit Authorities and the Delegated Authorities. Those experts may be affiliated to an autonomous public institution responsible for the monitoring, evaluation and audit of the administration. The Commission shall provide guidance on how to carry out evaluations.

4. The evaluations referred to in Article 57(1) shall be made public in their entirety, except where information is restricted due to its confidential nature, particularly concerning security, public order, criminal investigations and the protection of personal data.

**ARTICLE 57 EVALUATION REPORTS BY THE MEMBER STATES AND THE COMMISSION**

1. In accordance with the common monitoring and evaluation framework, the Member States shall submit to the Commission:
   (a) an interim evaluation report on the implementation of actions and progress towards achieving the objectives of their national programmes by 31 December 2017;
   (b) an ex-post evaluation report on the effects of actions under their national programmes by 31 December 2023.

2. On the basis of the reports referred to in paragraph 1, the Commission shall submit to the European Parliament, to the Council, to the European Economic and Social Committee and to the Committee of the Regions:
   (a) an interim evaluation report on the implementation of this Regulation and the Specific Regulations at the level of the Union by 30 June 2018. That interim evaluation report shall include an assessment of the mid-term review carried out in accordance with this Regulation and the Specific Regulations;
   (b) an ex-post evaluation report on the effects of this Regulation and the Specific Regulations, following the closure of the national programmes, by 30 June 2024.

3. The ex-post evaluation of the Commission shall also examine the impact of the Specific Regulations on the development of the area of freedom, security and justice in terms of their contribution to the following objectives:
(a) the development of a common culture of border security, law enforcement cooperation and crisis management;

(b) the effective management of migration flows into the Union;

(c) the development of the Common European Asylum System;

(d) the fair and equal treatment of third-country nationals;

(e) solidarity and cooperation between Member States in addressing migration and internal security issues;

(f) a common approach by the Union on migration and security towards third countries.

4. All evaluation reports pursuant to this Article shall be published in their entirety, except where information is restricted due to its confidential nature, particularly concerning security, public order, criminal investigations and protection of personal data.

1. The power to adopt delegated acts is conferred on the Commission subject to the conditions laid down in this Article.

2. The power to adopt delegated acts referred to in Articles 5(5), 26(4), 29(1), 53(4) and 55(4) shall be conferred on the Commission for a period of seven years from 21 May 2014. The Commission shall draw up a report in respect of the delegation of power not later than nine months before the end of the seven-year period. It shall take effect the day following the publication of the decision in the Official Journal of the European Union or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.

4. As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.

5. A delegated act adopted pursuant to Articles 5(5), 26(4), 29(1), 53(4) and 55(4) shall enter into force only if no objection has been expressed either by the European Parliament or by the Council within a period of two months of notification of that act to the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or the Council.

ARTICLE 59  COMMITTEE PROCEDURE

1. The Commission shall be assisted by the Asylum, Migration and Integration and Internal Security Funds Committee. That commit-
tee shall be a committee within the meaning of Regulation (EU) No 182/2011.

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 77(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee (1),

Having regard to the opinion of the Committee of the Regions (2),

Acting in accordance with the ordinary legislative procedure (3),

Whereas:

(1) The Union’s objective of ensuring a high level of security within an area of freedom, security and justice pursuant to Article 67(3) of the Treaty on the Functioning of the Union (TFEU) should be achieved, inter alia, through common measures on the crossing of internal borders by persons and on border controls at external borders and the common visa policy as part of a convergent multi-layer system, which would allow the exchange of data and a complete situation awareness and which aims to facilitate legitimate travel and to tackle illegal immigration.

(2) The Union needs a more coherent approach to the internal and external aspects of migration management and internal security, and should establish a correlation between the fight against illegal immigration and the improvement of the security of the external borders of the Union, and better cooperation and dialogue with third countries for the purposes of dealing with illegal immigration and promoting legal migration.

(3) It is necessary to develop an integrated approach to issues arising from the pressure of migration and asylum applications and for the management of the external borders of the Union, and to provide a budget and adequate resources to cope with emergencies in a spirit of respect for human rights and solidarity between all Member States, while remaining aware of national responsibilities and ensuring a clear division of tasks.

ives: to disrupt international crime networks, to prevent terrorism and address radicalisation and recruitment, to raise levels of security for citizens and businesses in cyberspace, to strengthen security through border management and to increase Europe’s resilience in the face of crises and disasters.

(5) According to the Internal Security Strategy, freedom, security and justice are objectives that should be pursued in parallel, and in order to achieve freedom and justice, security should always be pursued in accordance with the principles of the Treaties, the rule of law and the Union’s fundamental rights obligations.

(6) Solidarity among Member States, clarity about the division of tasks, respect for fundamental freedoms and human rights and the rule of law, a strong focus on the global perspective and the link with external security, and consistency and coherence with the Union foreign policy objectives, as laid down in Article 21 of the Treaty on European Union (TEU), should be key principles guiding the implementation of the Internal Security Strategy.

(7) To promote the implementation of the Internal Security Strategy and to ensure that it becomes an operational reality, Member States should be provided with adequate Union financial support by setting up an Internal Security Fund (‘the Fund’).

(8) Due to the legal particularities applicable to Title V TFEU, it is not legally possible to establish the Fund as a single financial instrument. The Fund should therefore be established as a comprehensive framework for Union financial support in the field of internal security comprising the instrument for financial support for external borders and visa (‘the Instrument’) established by this Regulation as well as the instrument for financial support for police cooperation, preventing and combating crime, and crisis management established by Regulation (EU) No 513/2014 of the European Parliament and of the Council (4). This comprehensive framework should be complemented by Regulation (EU) No 514/2014 of the European Parliament and of the Council (5) to which this Regulation should refer as regards rules on programming, financial management, management and control, clearance of accounts, closure of programmes and reporting and evaluation.

(9) The new two-pillar structure of funding in the field of home affairs should contribute to the simplification, rationalisation, consolidation and transparency of funding in that field. Synergies, consistency and complementarity should be sought with other funds and programmes, including with a view to allocating funding to common objectives. However, overlap between the different funding instruments should be avoided.

(10) The Fund should reflect the need for increased flexibility and simplification while respecting requirements in terms of predictability, and ensuring a fair and transparent distribution of resources to meet the general and specific objectives laid down in this Regulation.

(11) Efficiency of measures and quality of spending constitute guiding principles in the implementation of the Fund. Furthermore, the Fund should also be implemented in the most effective and user-friendly manner possible.

(12) The Fund should take special account of those Member States which are facing disproportionate burdens from migratory flows due to their geographical location.

(13) Solidarity and responsibility-sharing between Member States and the Union is a fundamental component of the common policy for the management of the external borders.

(14) The Fund should express solidarity through financial assistance to those Member States that fully apply the Schengen provisions on external borders as well as to those which are preparing for full participation in Schengen, and should be used by the Member States in the interests of the Union’s common policy for the management of the external borders.

(15) In order to contribute to the achievement of the general objective of the Fund, Member States should ensure that their national programmes address the specific objectives of the Instrument and that the allocation of resources between objectives is proportionate to the challenges and needs and ensures that the objectives can be met. Where a national programme does not address one of the specific objectives or the allocation is below the minimum percentages for some objectives of the national programmes set in this Regulation, the Member State concerned should provide a justification within the programme.

(16) In order to measure the achievements of the Fund, common indicators should be established in relation to each specific objective of the Instrument. The measurement of the achievement of the specific objectives by means of common indicators does not render the implementation of actions related to those indicators mandatory.

(17) Participation by a Member State should not coincide with its participation in a temporary financial instrument of the Union which supports the beneficiary Member States to finance, inter alia, actions at new external borders of the Union for the implementation of the Schengen acquis on borders and visas and external border control.

(18) The Instrument should build on the capacity-building process developed with the assistance of the External Borders Fund for the period 2007-2013, established by Decision No 574/2007/EC of the European Parliament and of the Council (6), and should extend it to take into account new developments.

(19) When executing tasks at external borders and consulates in accordance with the Schengen acquis on borders and visas, Member States carry out activities in the interests of and on behalf of all other Member States in the Schengen area, thus performing a public service for the Union. The Instrument should contribute to supporting operating costs related to border control and visa policy and enable Member States to maintain capabilities which are crucial for that service for all. Such support consists of full reimbursement of a choice of specific costs related to the objectives under the Instrument and should form an integral part of the national programmes.

(20) The Instrument should complement and reinforce the activities undertaken to develop operational cooperation under the aegis of the European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union (‘the Frontex Agency’) as established by Council Regulation (EC) No 2007/2004, including the new activities resulting from the amendments introduced by Regulation (EU) No 1168/2011 of the European Parliament and of the Council, and thereby further reinforce solidarity between those Member States controlling external borders in the interests and on behalf of the Schengen area as a whole. This means, inter alia, that, when drawing up their national programmes, Member States should take into account the analytical tools and operational and technical guidelines developed by the Frontex Agency as well as the training curricula developed, namely the common core curricula for the training of border guards, including its components with regard to fundamental rights and access to international protection. In order to develop complementarity between its mission and the responsibilities of the Member States for the control and surveillance of external borders as well as to ensure consistency and to avoid cost inefficiency, the Frontex Agency should be consulted by the Commission on draft national programmes submitted by the Member States, and in particular on the activities financed under the operating support.

(21) The Instrument should be implemented in full compliance with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union and with the Union’s international obligations, and without prejudice to the application of special provisions concerning the right to asylum and to international protection.

(22) Uniform and high-quality external border control is essential for strengthening the area of freedom, security and justice. In accordance with common Union standards, the Instrument should support measures relating to the management of external borders, to be implemented in accordance with the four-tier access control model which comprises measures in third countries, cooperation with neighbouring countries, border control measures and control measures within the area of free movement in order to prevent illegal immigration and cross-border crime inside the Schengen area.

(23) Pursuant to Article 3 TEU, the Instrument should support activities which ensure the protection of children at risk of harm at the external borders. In particular, when implementing actions in relation to the identification, immediate assistance and referral to protection services, Member States should, wherever possible, give special attention to vulnerable persons, in particular children and unaccompanied minors.

(24) To ensure a uniform and high-quality external border control and to facilitate legitimate travel across external borders within the framework of the Internal Security Strategy, the Instrument should contribute to the development of a European common integrated border management system. That system includes all the measures involving policy, law, systematic cooperation, burden sharing, assessment of the situation and changing circumstances regarding crossing points for irregular migrants, personnel, equipment and...
technology taken at different levels by the competent authorities of the Member States, acting in cooperation with the Frontex Agency, with third countries and, where necessary, with other actors, in particular Europol and the Agency for the Operational Management of Large-Scale IT-Systems, utilising, inter alia, the four-tier border security model and integrated risk analysis of the Union.

(25) In accordance with Protocol No 5 to the 2003 Act of Accession on the transit of persons by land between the region of Kaliningrad and other parts of the Russian Federation, the Instrument should bear any additional cost incurred in implementing the specific provisions of the Union acquis covering such transit, i.e. Council Regulation (EC) No 693/2003 (9) and Council Regulation (EC) No 694/2003 (10). The need for continued financial support for foregone fees, however, should be dependent upon the visa regime of the Union in force with the Russian Federation.

(26) The Instrument should include support for national measures and cooperation between Member States in the area of visa policy and other pre-frontier activities that take place prior to external border controls and should make full use of the Visa Information System (VIS). The efficient management of activities organised by the services of the Member States in third countries is in the interests of the common visa policy as part of a multi-layered system aimed at facilitating legitimate travel and tackling illegal immigration into the Union, and constitutes an integral part of the common integrated border management system.

(27) Moreover, the Instrument should support measures in the territory of the Schengen countries as part of the development of a common integrated border management system which strengthens the overall functioning of the Schengen area.

(28) The Instrument should also support the development by the Union of IT systems, based on existing and/or new IT systems, which would equip Member States with the tools to manage the movement of third-country nationals across borders more efficiently and to ensure a better identification and verification of travellers, thereby facilitating travel and enhancing border security. To that end, a programme, in keeping with the Information Management Strategy for EU internal security, should be established with the aim of covering costs for the development of both the central and national components of such systems, ensuring technical consistency, interoperability with other Union IT systems, cost savings and a smooth implementation in the Member States. Those IT systems should comply with fundamental rights, including the protection of personal data.

(29) Member States should devote the necessary funding to the European Border Surveillance System (Eurosur), established by Regulation (EU) No 1052/2013 of the European Parliament and the Council (11), in order to ensure the good functioning of that system.

(30) To address immediately unforeseen migratory pressure and risks to border security, it should be possible to provide emergency assistance in accordance with the framework set out in Regulation (EU) No 514/2014.

(31) Moreover, in the interests of enhanced solidarity in the Schengen area as a whole, where weaknesses or possible risks are identified, in particular following a Schengen evaluation, the Member State concerned should follow the matter up adequately by using resources under its national programme by priority, where applicable, complementing emergency assistance measures.

(32) To reinforce solidarity and responsibility-sharing, Member States should be encouraged to use part of the resources available under their national programmes for specific priorities defined by the Union, such as the purchase of technical equipment needed by the Frontex Agency and the development of consular cooperation for the Union. There is a need to maximise the impact of Union funding by mobilising, pooling and leveraging public and private financial resources. Utmost transparency, accountability and democratic scrutiny should be ensured for innovative financial instruments and mechanisms that involve the Union budget.

(33) To safeguard the application of the Schengen acquis throughout the Schengen area, the implementation of Council Regulation (EU) No 1053/2013 (12) should also be supported under the Instrument, as an essential tool to facilitate the implementation of Union policies in the area of freedom, justice and security by ensuring a high level of external border protection and the absence of border controls within the Schengen area.

(34) In light of the experience gained with the External Borders Fund and the development of the SIS II and VIS, it is considered appropriate to allow for a certain degree of flexibility regarding possible transfers of resources between the different means of implementation of the objectives pursued under the Instrument, without prejudice to the principle of ensuring from the start a critical mass and financial stability for the programmes and the operating support for Member States and without prejudice to the scrutiny by the European Parliament and the Council.

(35) In the same vein, the scope of the actions and the ceiling for resources which remain available to the Union (‘Union actions’) should be increased to enhance the capacity of the Union to carry out, in a given budget year, multiple activities for the management of external borders and the common visa policy in the interests of the Union as a whole, when and insofar as the needs arise. Such Union actions include studies and pilot projects to further the management of external borders and the common visa policy and their application, the training of border guards in the protection of human rights, measures or arrangements in third countries addressing migratory pressures from those countries in the interests of an optimal management of migration flows into the Union and of an efficient organisation of the related tasks at external borders and consulates.

(36) Measures in, and in relation to, third countries supported through the Instrument should be taken in synergy and coherence with other actions outside the Union, supported through geographic and thematic Union external assistance instruments. In

(12) Council Regulation (EU) No 1053/2013 of 7 October 2013 establishing an evaluation and monitoring mechanism to verify the application of the Schengen acquis and repealing the Decision of the Executive Committee of 16 September 1998 setting up a Standing Committee on the evaluation and implementation of Schengen (OJ L 295, 6.11.2013, p. 27)
particular, in implementing such actions, full coherence should be sought with the principles and general objectives of the Union’s external action and foreign policy related to the country or region in question. They should not be intended to support actions which are directly development-oriented and they should complement, when appropriate, the financial assistance provided through external aid instruments. Coherence will also be sought with the Union’s humanitarian policy, in particular as regards the implementation of emergency measures.

(37) Funding from the Union budget should concentrate on activities where Union intervention can bring added value compared with action by Member States alone. As the Union is in a better position than Member States to provide a framework for expressing Union solidarity in border control, visa policy and the management of migration flows, and to provide a platform for the development of common IT systems underpinning those policies, financial support provided under this Regulation will contribute in particular to strengthening national and Union capabilities in those areas.

(38) This Regulation should establish the allocation of basic amounts to Member States. The basic amount for each Member State should be calculated on the basis of the External Borders Fund allocations for each Member State in the years 2010-2012 and by dividing the figure obtained by the total of the appropriations available for shared management for those three years. The calculations were made in accordance with the distribution criteria laid down in Decision No 574/2007/EC.

(39) The Commission should monitor the implementation of the Instrument, in accordance with the relevant provisions of Regulation (EU) No 514/2014, with the aid of key indicators for evaluating results and impacts. The indicators, including relevant baselines, should provide the minimum basis for evaluating the extent to which the objectives of the Instrument have been achieved.

(40) In order to supplement or amend provisions in this Regulation regarding the definition of specific actions under the national programmes, the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing-up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.

(41) In the application of this Regulation, including the preparation of delegated acts, the Commission should consult experts from all Member States.

(42) In order to ensure a uniform, efficient and timely application of the provisions on operating support laid down in this Regulation, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council (\textsuperscript{13}).

(43) Since the objective of this Regulation, namely to provide for solidarity and responsibility sharing between Member States and the Union in the management of external

borders and visa policy, cannot be sufficiently achieved by the Member States but can rather be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 TEU. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.

(44) Decision No 574/2007/EC should be repealed, subject to the transitional provisions set out in this Regulation.

(45) As regards Iceland and Norway, this Regulation constitutes a development of the Schengen acquis within the meaning of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the latters’ association with the implementation, application and development of the Schengen acquis (14) which fall within the areas referred to in Article 1, Points A and B of Council Decision 1999/437/EC (15).

ARTICLE 6 RESOURCES FOR ELIGIBLE ACTIONS IN THE MEMBER STATES

1. EUR 1 551 million shall be allocated to the Member States indicatively as follows:

(a) EUR 1 276 million, as indicated in Annex I;

(b) EUR 147 million, based on the results of the mechanism referred to in Article 7;

(c) in the framework of the mid-term review referred to in Article 8 and for the period as of budget year 2018, EUR 128 million, the remainder of the available appropriations under this Article or another amount, as determined pursuant to paragraph 4, based

on the results of the risk analysis and the mid-term review.

2. Each Member State shall allocate the basic amounts for national programmes indicated in Annex I as follows:

(a) at least 10% for actions relating to point (a) of Article 9(2);

(b) at least 25% for actions relating to point (b) of Article 9(2);

(c) at least 5% for actions relating to points (c), (d), (e) and (f) of Article 9(2).

Member States may depart from those minimum percentages provided that an explanation is included in the national programme as to why allocating resources below those minima does not jeopardise the achievement of the relevant objective. That explanation will be assessed by the Commission in the context of its approval of national programmes as referred to in Article 9(2).

3. Member States shall devote the necessary funding to Eurosur in order to ensure its good functioning.

4. To address properly the objectives of the Instrument in the event of unforeseen or new circumstances and/or to ensure the effective implementation of funding available under the Instrument, the Commission shall be empowered to adopt delegated acts in accordance with Article 17 to adjust the indicative amount laid down in point (c) of paragraph 1 of this Article.

5. Member States which accede to the Union in the period 2012-2020 shall not benefit from allocations for national programmes under the Instrument as long as they benefit from a temporary instrument of the Union which supports the beneficiary Member States to finance actions at new external borders for the implementation of the Schengen acquis on borders and visas and external border control.

**ARTICLE 7  RESOURCES FOR SPECIFIC ACTIONS**

1. Member States may, in addition to their allocation calculated in accordance with point (a) of Article 6(1), receive an additional amount, provided that it is earmarked as such in the national programme and is to be used to achieve specific actions listed in Annex II.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 17 for the revision of the specific actions listed in Annex II, if deemed appropriate, including in the context of the mid-term review. On the basis of the new specific actions, Member States may receive an additional amount as laid down in paragraph 1 of this Article, subject to available resources.

3. The additional amounts under this Article shall be allocated to the Member States concerned in the individual financing decision approving or revising their national programme in accordance with the procedure laid down in Article 14 of Regulation (EU) No 514/2014.

**ARTICLE 8  RESOURCES IN THE FRAMEWORK OF THE MID-TERM REVIEW**

1. In order to allocate the amount indicated in point (c) of Article 6(1), by 1 June 2017 the Commission shall take into account the burden of Member States in border management, including search and rescue activities which may arise during border surveillance operations at sea and assessment reports drawn up as part of the Schengen evaluation
and monitoring mechanism, and threat levels at the external borders for the period 2017-2020, as well as factors that affected security at the external borders in 2014-2016. That amount shall be distributed between Member States on the basis of the weighing of the following categories of borders, taking into account paragraph 6 of this Article:

(a) 45 % for external maritime borders;
(b) 38 % for external land borders;
(c) 17 % for airports.

2. For the external maritime and land borders the calculation of the amount shall be based on the length of sections of the external border multiplied by a threat level (minimum, normal, medium, high) for each border section, as follows:

(a) coefficient 0,5 for minimum threat;
(b) coefficient 1 for normal threat;
(c) coefficient 3 for medium threat;
(d) coefficient 5 for high threat.

3. For the airports, the allocation shall be calculated for each Member State as follows:

(a) 50 % on the basis of the number of persons crossing the external borders;
(b) 50 % on the basis of the number of third-country nationals refused entry at the external borders.

4. In accordance with the Frontex Agency’s risk analysis report and in consultation with the Frontex Agency, and, where relevant, other Union agencies, the Commission shall determine threat levels for each external border section of the Member States for the period 2017-2020. The threat levels shall be based on the following factors:

(a) burden in border management at the external borders;
(b) factors that affected security at the external borders of the Member States in the period 2014-2016;
(c) changes in Union policies, for example visa policies;
(d) possible future trends in migratory flows and risks of unlawful activities related to the irregular crossing of persons of the external borders; and
(e) likely political, economic and social developments in third countries, and in particular, neighbouring countries.

Before issuing its report determining the threat levels, the Commission shall hold an exchange of views with the Member States.

5. For the purpose of the distribution of resources under paragraph 1:

(a) the line between the areas referred to in Article 1 of Council Regulation (EC) No 866/2004 (29), but not the maritime border north of that line, shall be taken into account even though it does not constitute an external land border for as long as Article 1 of Protocol No 10 on Cyprus to the 2003 Act of Accession remains applicable;
(b) the expression ‘external maritime borders’ shall mean the outer limit of the territorial sea of the Member States as defined in

accordance with Articles 4 to 16 of the United Nations Convention on the Law of the Sea. However, in cases where long range operations are required on a regular basis in order to prevent unauthorised border crossings, that expression shall mean the outer limit of high threat areas. Those outer limits shall be determined by taking into account the relevant data on these operations in 2014-2016 as provided by the Member States in question.

6. Moreover, following invitation from the Commission by 1 June 2017, Member States may receive an additional allocation, provided that it is earmarked as such in the national programme and is to be used to achieve specific actions to be established in the light of the priorities of the Union at that time.

7. The additional amounts under this Article shall be allocated to the Member States concerned in an individual financing decision approving or revising their national programme in accordance with the procedure laid down in Article 14 of Regulation (EU) No 514/2014.

ARTICLE 9 NATIONAL PROGRAMMES

1. The national programme to be prepared, taking into account the outcome of the policy dialogue referred to in Article 13 of Regulation (EU) No 514/2014, under the Instrument and the one to be prepared under Regulation (EU) No 513/2014 shall be proposed to the Commission as one single national programme for the Fund and in accordance with Article 14 of Regulation (EU) No 514/2014.

2. Under the national programmes to be examined and approved by the Commission pursuant to Article 14 of Regulation (EU) No 514/2014, Member States shall, within the objectives referred to in Article 3 of this Regulation and taking into account the outcome of the policy dialogue referred to in Article 13 of Regulation (EU) No 514/2014, pursue in particular objectives from the following:

(a) developing Eurosur in accordance with Union law and guidelines;

(b) supporting and expanding the existing capacity at national level in visa policy and in the management of the external borders, as well as supporting and expanding measures within the area of free movement relating to the management of external borders, bearing in mind in particular, new technology, developments and/or standards in relation to the management of migration flows;

(c) supporting the further development of the management of migration flows by consular and other services of the Member States in third countries, including the setting up of consular cooperation mechanisms with a view to facilitating legitimate travel in accordance with Union law or the law of the Member State concerned and preventing illegal immigration into the Union;

(d) reinforcing integrated border management by testing and introducing new tools, interoperable systems and working methods which aim to enhance information exchange within the Member State or to improve inter-agency cooperation;

(e) developing projects with a view to ensuring a uniform and high level of control of the external border in accordance with common Union standards and aiming at increased interoperability of border management systems between Member States;

(f) supporting actions, after consulting the Frontex Agency, aimed at promoting further harmonisation of border management and
in particular technological capabilities, in accordance with common Union standards;

(g) ensuring the correct and uniform application of the Union acquis on border control and visas in response to weaknesses identified at Union level, as shown by results established in the framework of the Schengen evaluation and monitoring mechanism;

(h) building the capacity to face upcoming challenges, including present and future threats and pressures at the external borders, taking into account in particular the analyses carried out by relevant Union agencies.

3. In pursuit of the objectives referred to in paragraph 2, Member States may support actions in, and in relation to, third countries under their national programmes, including through information-sharing and operational cooperation.

4. The Commission shall consult the Frontex Agency on draft national programmes, in particular on the activities financed under the operating support, submitted by the Member States in order to develop complementarity between the mission of the Frontex Agency and the responsibilities of the Member States for the control and surveillance of external borders as well as to ensure consistency and to avoid cost inefficiency.

ARTICLE 10 OPERATING SUPPORT UNDER THE NATIONAL PROGRAMMES OF THE MEMBER STATES

1. A Member State may use up to 40 % of the amount allocated under the Instrument to its national programme to finance operating support to the public authorities responsible for accomplishing the tasks and services which constitute a public service for the Union.

2. Operating support shall be provided when the following conditions are met by the Member State concerned:

(a) compliance with the Union acquis on borders and visas;

(b) compliance with the objectives of the national programme;

(c) compliance with common Union standards in order to enhance coordination between Member States and avoid duplication, fragmentation and cost inefficiency in the border control domain.

3. To that end, before the approval of the national programme, the Commission shall assess the baseline situation in Member States which have indicated their intention to request operating support, taking into account, where relevant, the Schengen evaluation reports.

The findings of the Commission shall be the subject of an exchange of views with the Member State concerned.

Following the exchange of views, the acceptance by the Commission of budget support within the national programme of a Member State may be made conditional upon the programming and completion of a number of actions aiming to ensure that the conditions laid down in paragraph 2 are fully met by the time the budget support is provided.

4. Operating support shall be concentrated on specific tasks and/or services and shall be focused on the objectives as laid down in Annex III. It shall entail full reimbursement of the expenditure incurred to accomplish the tasks and/or services defined in the national programme, within the financial limits set by the programme and the ceiling laid down in paragraph 1.
5. Operating support shall be the subject of monitoring and exchange of information between the Commission and the Member State concerned in relation to the baseline situation in that Member State, the objectives and targets to be accomplished and the indicators to measure progress.

6. The Commission shall set out, by means of implementing acts, reporting procedures on the application of this provision and any other practical arrangements to be made between Member States and the Commission to comply with this Article. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 18(2).

**ARTICLE 11 OPERATING SUPPORT FOR THE SPECIAL TRANSIT SCHEME**

The Instrument shall provide support to compensate for foregone fees from visas issued for the purpose of transit and additional costs incurred in implementing the Facilitated Transit Document (FTD) and the Facilitated Rail Transit Document (FRTD) scheme in accordance with Regulation (EC) No 693/2003 and Regulation (EC) No 694/2003.

1. The resources allocated to Lithuania pursuant to paragraph 1 shall not exceed EUR 1 54 million for the period 2014-2020 and shall be made available as additional specific operating support for Lithuania.

2. For the purpose of paragraph 1, additional costs means costs which result directly from the specific requirements of implementing the operation of the Special Transit Scheme and which are not generated as a result of the issuing of visas for the purpose of transit or other purposes.

The following types of additional cost shall be eligible for financing:

(a) investment in infrastructures;
(b) training of staff implementing the special transit scheme;
(c) additional operational costs, including salaries of staff specifically implementing the special transit scheme.

3. The foregone fees referred to in paragraph 1 of this Article shall be calculated on the basis of the level of visa fees and the visa fee waivers established by the Agreement between the European Community and the Russian Federation on the facilitation of the issuance of visas to the citizens of the European Union and the Russian Federation (**30**), within the financial framework set out in paragraph 2 of this Article.

4. The Commission and Lithuania shall review the application of this Article in the event of changes which have an impact on the existence and/or functioning of the Special Transit Scheme.

5. The Commission shall set out, by means of implementing acts, reporting procedures on the application of this provision and any financial and other practical arrangements to be made between Lithuania and the Commission to comply with this Article. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 18(2).

ARTICLE 15  ESTABLISHING A PROGRAMME ON THE DEVELOPMENT OF IT SYSTEMS

The programme on the development of the IT systems, based on existing and/or new IT systems, shall be implemented subject to adoption of the Union legislative acts defining those IT systems and their communication infrastructure with the aim, in particular, of improving the management and control of travel flows at the external borders by reinforcing checks while speeding up border crossings for regular travellers. Where appropriate, synergies with existing IT systems shall be sought in order to avoid double-spending.

The breakdown of the amount referred to in point (b) of Article 5(5) shall be made either in the relevant Union legislative acts or, following the adoption of those legislative acts, through a delegated act in accordance with Article 17.

The Commission shall inform the European Parliament and the Council of progress in developing those IT systems at least once a year and whenever appropriate.

ARTICLE 16  TECHNICAL ASSISTANCE

The amount set aside for technical assistance shall not exceed, for the period 2014-2020, 5 % of the total amount allocated to a Member State plus EUR 500 000.
CHAPTER III FINAL PROVISIONS

The Commission shall draw up a report in respect of the delegation of power no later than nine months before the end of the seven year period. The delegation of power shall be tacitly extended for a period of three years, unless the European Parliament or the Council opposes such extension not later than three months before the end of the seven-year period.

3. The delegation of power referred to in point (b) of Article 5(5) and Articles 6(4), 7(2) and 15 may be revoked at any time by the European Parliament or by the Council. A decision to revoke shall put an end to the delegation of the power specified in that decision. It shall take effect the day following the publication of the decision in the Official Journal of the European Union or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.

4. As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.

5. A delegated act adopted pursuant to point (b) of Article 5(5) and Articles 6(4), 7(2) and 15 shall enter into force only if no objection has been expressed either by the European Parliament or by the Council within a period of two months of notification of that act to the European Parliament and the Council or, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or of the Council.

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 78(2) and Article 79(2) and (4) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee (1),

Having regard to the opinion of the Committee of the Regions (2),

Acting in accordance with the ordinary legislative procedure (3),

Whereas:

(1) The Union’s objective to constitute an area of freedom, security and justice should be achieved, inter alia, through common measures framing a policy on asylum and immigration, based on solidarity between Member States, which is fair towards third countries and their nationals. The European Council of 2 December 2009 recognised that financial resources within the Union should be made increasingly flexible and coherent, in terms of both scope and applicability, to support policy developments in the field of asylum and migration.

(2) In order to contribute to the development of the common Union policy on asylum and immigration and to the strengthening of the area of freedom, security and justice in the light of the application of the principles of solidarity and responsibility-sharing between the Member States and cooperation with third countries, this Regulation should establish the Asylum, Migration and Integration Fund (‘the Fund’).

(3) The Fund should reflect the need for increased flexibility and simplification, while respecting requirements in terms of predictability, and ensuring a fair and transparent distribution of resources to meet the general and specific objectives laid down in this Regulation.

(4) Efficiency of measures and quality of spending constitute guiding principles in the implementation of the Fund. Furthermore, the Fund should also be implemented in the most effective and user-friendly manner possible.

(5) The new two-pillar structure of funding in the field of home affairs should contribute to the simplification, rationalisation, consolidation and transparency of funding in that field. Synergies, consistency and complementarity should be sought between different funds and programmes, including with a view to allocating funding to common objectives. However, any overlap between the different funding instruments should be avoided.

(6) The Fund should create a flexible framework allowing Member States to receive financial resources under their national programmes to support the policy areas under the Fund according to their specific situation and needs, and in the light of the general and specific objectives of the Fund, for which the financial support would be the most effective and appropriate.

(7) The Fund should express solidarity through financial assistance to Member States. It should enhance the effective management of migration flows to the Union in areas where the Union adds maximum value, in particular by sharing responsibility between Member States and by sharing responsibility and strengthening cooperation with third countries.

(8) In order to contribute to the achievement of the general objective of the Fund, Member States should ensure that their national programmes include actions addressing the specific objectives of this Regulation, and that the allocation of resources between objectives ensures that the objectives can be met. In the unusual event that a Member State wishes to derogate from the minimum percentages laid down in this Regulation, the Member State concerned should provide a detailed justification within its national programme.

(9) To ensure a uniform and high-quality asylum policy and apply higher standards of international protection, the Fund should contribute to the effective functioning of the Common European Asylum System, which encompasses measures relating to policy, legislation, and capacity-building, while acting in cooperation with other Member States, Union agencies and third countries.

(10) It is appropriate to support and improve the efforts made by Member States to fully and properly implement the Union asylum acquis, in particular to grant appropriate reception conditions to displaced persons and applicants for, and beneficiaries of, international protection, to ensure the correct determination of status, in accordance with Directive 2011/95/EU of the European Parliament and of the Council (4), to apply fair and effective asylum procedures and to promote good practice in the field of asylum, so as to protect the rights of persons requiring international protection and enable Member States’ asylum systems to work efficiently.

(11) The Fund should offer adequate support to joint efforts by Member States to identify, share and promote best practices and establish effective cooperation structures in order to enhance the quality of decision-making in the framework of the Common European Asylum System.

(12) The Fund should complement and reinforce the activities undertaken by the European Asylum Support Office (‘EASO’) established by Regulation (EU) No 439/2010

of the European Parliament and of the Council (5), with a view to coordinating practical cooperation between Member States on asylum, supporting Member States subject to particular pressure on their asylum systems and contributing to the implementation of the Common European Asylum System. The Commission may make use of the possibility offered by Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council (6) to entrust EASO with the implementation of specific, ad hoc tasks, such as the coordination of Member States’ actions on resettlement in accordance with Regulation (EU) No 439/2010.

(13) The Fund should support the efforts by the Union and the Member States relating to the enhancement of the Member States’ capacity to develop, monitor and evaluate their asylum policies in the light of their obligations under existing Union law.

(14) The Fund should support the efforts made by Member States to provide international protection and a durable solution in their territories to refugees and displaced persons identified as eligible for resettlement by the United Nations High Commissioner for Refugees (‘UNHCR’), such as the assessment of the resettlement needs and transfer of the persons concerned to their territories, with a view to granting them a secure legal status and to promoting their effective integration.

(15) The Fund should provide support for new approaches concerning access to asylum procedures in a safer manner, in particular by targeting main countries of transit such as protection programmes for particular groups or certain procedures for examination of applications for asylum.

(16) It is in the nature of the Fund that it should be able to provide support to voluntary burden-sharing operations agreed between Member States and consisting of the transfer of beneficiaries of international protection, and of applicants for international protection, from one Member State to another.

(17) Partnerships and cooperation with third countries to ensure the adequate management of inflows of persons applying for asylum or other forms of international protection are an essential component of Union asylum policy. With the aim of providing access to international protection and durable solutions at the earliest possible stage, including in the framework of Regional Protection Programmes, the Fund should include a strong Union resettlement component.

(18) To improve and reinforce the integration process in European societies, the Fund should facilitate legal migration to the Union in accordance with the economic and social needs of Member States and anticipate the preparation of the integration process already in the country of origin of the third-country nationals coming to the Union.

(19) In order to be efficient and achieve the greatest added value, the Fund should pursue a more targeted approach, in support of consistent strategies specifically designed to promote the integration of third-country nationals at national, local and/or regional level, where appropriate. Those strategies should be implemented mainly by local or

---

regional authorities and non-state actors, while not excluding national authorities, in particular where the specific administrative organisation of a Member State would so require, or where, in a Member State, integration actions fall within a competence shared between the State and decentralised administration. The implementing organisations should choose the measures most appropriate to their particular situation from a range of measures available.

(20) The implementation of the Fund should be consistent with the Union’s Common Basic Principles on Integration, as specified in the Common Programme for Integration.

(21) The scope of the integration measures should also include beneficiaries of international protection in order to ensure a comprehensive approach to integration, taking into account the specificities of those target groups. Where integration measures are combined with reception measures, actions should, where appropriate, also allow applicants for international protection to be included.

(22) To ensure the consistency of the Union’s response to the integration of third-country nationals, actions financed under the Fund should be specific and complementary to actions financed under the European Social Fund. In this context, the authorities of the Member States responsible for the implementation of the Fund should be required to establish cooperation and coordination mechanisms with the authorities designated by Member States for the purpose of the management of the interventions of the European Social Fund.

(23) For practical reasons, some actions may concern a group of people which can be more efficiently addressed as a whole, without distinguishing between its members. It would therefore be appropriate to provide for the possibility for those Member States that would so wish to provide in their national programmes that integration actions may include immediate relatives of third-country nationals, to the extent that it is necessary for the effective implementation of such actions. The term ‘immediate relative’ would be understood as meaning spouses, partners, and any person having direct family links in descending or ascending line with the third-country national targeted by the integration action, and who would otherwise not be covered by the scope of the Fund.

(24) The Fund should support Member States in setting up strategies organising legal migration, enhancing their capacity to develop, implement, monitor and evaluate in general all immigration and integration strategies, policies and measures for third-country nationals, including Union legal instruments. The Fund should also support the exchange of information, best practices and cooperation between different departments of administration as well as with other Member States.

(25) The Union should continue and expand the use of Mobility Partnerships as the main strategic, comprehensive and long-term cooperation framework for migration management with third countries. The Fund should support activities in the framework of Mobility Partnerships taking place either in the Union or in third countries and aimed at pursuing Union needs and priorities, in particular actions ensuring the continuity of funding encompassing both the Union and third countries.

(26) It is appropriate to continue supporting and encouraging efforts by the Member States to improve the management of the return of third-country nationals in all its dimensions, with a view to the continuous,
fair and effective implementation of common standards on return, in particular as set out in Directive 2008/115/EC of the European Parliament and of the Council (7). The Fund should promote the development of return strategies at national level within the concept of integrated return management, and also measures supporting their effective implementation in third countries.

(27) As regards the voluntary return of persons, including persons who wish to be returned even though they are under no obligation to leave the territory, incentives for such returnees, such as preferential treatment in the form of enhanced return assistance, should be envisaged. This kind of voluntary return is in the interests of both returnees and the authorities in terms of its cost-effectiveness. Member States should be encouraged to give preference to voluntary return.

(28) However, from a policy point of view, voluntary and enforced return are interlinked and have a mutually reinforcing effect, and Member States should therefore be encouraged in their return management to reinforce the complementarities of the two forms. There is a need to carry out removals in order to safeguard the integrity of the immigration and asylum policy of the Union and the immigration and asylum systems of the Member States. Thus, the possibility of removals is a prerequisite for ensuring that this policy is not undermined and for enforcing the rule of law, which itself is essential to the creation of an area of freedom, security and justice. The Fund should therefore support actions of Member States to facilitate removals in accordance with the standards laid down in Union law, where applicable, and with full respect for the fundamental rights and dignity of returnees.

(29) It is essential for the Fund to support specific measures for returnees in the country of return, in order to ensure their effective return to their town or region of origin under good conditions and to enhance their durable reintegration into their community.

(30) Union readmission agreements are an integral component of the Union return policy and a central tool for the efficient management of migration flows, as they facilitate the swift return of irregular migrants. Those agreements are an important element in the framework of the dialogue and cooperation with third countries of origin and transit of irregular migrants, and their implementation in third countries should be supported in the interests of effective return strategies at national and Union level.

(31) The Fund should complement and reinforce the activities undertaken by the European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union, established by Council Regulation (EC) No 2007/2004 (8), part of the tasks of which are to provide Member States with the necessary support for organising joint return operations and identifying best practices on the acquisition of travel documents and the removal of illegally staying third-country nationals in the territories of the Member States, as well as to assist Member States in circumstances requiring increased technical assistance.

and operational assistance at the external borders, taking into account that some situations may involve humanitarian emergencies and rescue at sea.

(32) In addition to supporting the return of persons as provided for in this Regulation, the Fund should also support other measures to combat illegal immigration or the circumventing of existing legal migration rules, thereby safeguarding the integrity of Member States’ immigration systems.

(33) The Fund should be implemented in full respect for the rights and principles enshrined in the Charter of Fundamental Rights of the European Union and for the fundamental rights enshrined in the relevant international instruments, including the relevant case-law of the European Court of Human Rights. Eligible actions should take account of the human rights-based approach to the protection of migrants, refugees and asylum seekers and should, in particular, ensure that special attention is paid to, and a dedicated response is provided for, the specific situation of vulnerable persons, in particular women, unaccompanied minors and other minors at risk.

(34) The terms ‘vulnerable persons’ and ‘family members’ are defined differently in different acts relevant for this Regulation. They should therefore be understood in the meaning of the relevant act, bearing in mind the context in which they are used. In the context of resettlement, Member States that resettle should closely consult the UNHCR in relation to the term ‘family members’ in their resettlement practices and actual resettlement processes.

(35) Measures on and in relation to third countries supported through the Fund should be adopted in sympathy and in coherence with other actions outside the Union supported through Union external assistance instruments, both geographic and thematic. In particular, in implementing such actions, full coherence should be sought with the principles and general objectives of Union’s external action and foreign policy related to the country or region in question. The measures should not be intended to support actions that are directly oriented towards development and should complement, when appropriate, the financial assistance provided through external aid instruments. The principle of policy coherence for development, as set out in paragraph 35 of the European Consensus on Development, should be respected. It is also important to ensure that the implementation of emergency assistance is consistent with and, where relevant, complementary to the Union’s humanitarian policy and respects humanitarian principles as set out in the European Consensus on Humanitarian Aid.

(36) A large part of the available resources under the Fund should be allocated proportionately to the responsibility borne by each Member State through its efforts in managing migration flows on the basis of objective criteria. For that purpose, the latest available statistical data collected by Eurostat under Regulation (EC) No 862/2007 of the European Parliament and of the Council (9) relating to the migration flows, such as the number of first asylum applications, the number of positive decisions granting refugee or subsidiary protection status, the number of resettled refugees, the number of legally residing third-country nationals, the number of third-country nationals who have obtained an authorisation issued by a Member State to reside, the number of return decisions issued

by national authorities and the number of effected returns, should be used.

(37) The allocation of basic amounts to Member States is laid down by this Regulation. The basic amount is composed of a minimum amount and an amount calculated on the basis of the average of 2011, 2012 and 2013 allocations for each Member State under the European Refugee Fund, established by Decision No 573/2007/EC of the European Parliament and of the Council (\(^{10}\)), the European Fund for the Integration of third-country nationals established by Council Decision 2007/435/EC (\(^{11}\)) and the European Return Fund established by Decision No 575/2007/EC of the European Parliament and of the Council (\(^{12}\)). The calculation of allocations was made in accordance with the distribution criteria laid down in Decision No 573/2007/EC, Decision 2007/435/EC and Decision No 575/2007/EC. In the light of the European Council conclusions of 7-8 February 2013, which underlined that particular emphasis should be given to insular societies who face disproportional migration challenges, it is appropriate to increase the minimum amounts for Cyprus and Malta.

(38) Whilst it is appropriate for an amount to be allocated to each Member State on the basis of the latest available statistical data, part of the available resources under the Fund should also be distributed for the implementation of specific actions which require cooperative effort amongst Member States and generate significant added value for the Union, as well as for the implementation of a Union Resettlement Programme and the transfer of beneficiaries of international protection from one Member State to another.

(39) For that purpose, this Regulation should establish a list of specific actions eligible for resources from the Fund. Additional amounts should be allocated to those Member States which make a commitment to implement such actions.

(40) In the light of the progressive establishment of a Union Resettlement Programme, the Fund should provide targeted assistance in the form of financial incentives (lump sums) for each resettled person. The Commission, in cooperation with the EASO and in accordance with their respective competences, should monitor the effective implementation of resettlement operations supported under the Fund.

(41) With a view to increasing the impact of the Union’s resettlement efforts in providing protection to persons in need of international protection and maximising the strategic impact of resettlement through a better targeting of those persons who are in greatest need of resettlement, common priorities with respect to resettlement should be formulated at Union level. Those common priorities should be amended only where there is a clear justification for doing so, or in the light of any recommendations from the UNHCR, on the basis of the general categories specified in this Regulation.
(42) Given their particular vulnerability, some categories of persons in need of international protection should always be included in the common Union resettlement priorities.

(43) Taking into account the resettlement needs set out in the common Union resettlement priorities, it is also necessary that additional financial incentives are provided for the resettlement of persons with respect to specific geographic regions and nationalities, as well as to the specific categories of persons to be resettled, where resettlement is determined to be the most appropriate response to their special needs.

(44) To enhance the solidarity and better share the responsibility between the Member States, in particular towards those most affected by asylum flows, a similar mechanism based on financial incentives should also be established for the transfer of beneficiaries of international protection from one Member State to another. Such a mechanism should reduce the pressure on Member States receiving higher numbers of asylum seekers and beneficiaries of international protection, either in absolute or proportionate terms.

(45) The support provided by the Fund will be more efficient and bring greater added value if a limited number of compulsory objectives are identified in this Regulation, to be pursued in the programmes drawn up by each Member State and taking into account its specific situation and needs.

(46) It is important for enhanced solidarity that the Fund provides, in coordination and in synergy with the humanitarian assistance managed by the Commission where appropriate, additional support to address emergency situations of heavy migratory pressure in Member States or third countries, or in the event of mass influx of displaced persons, pursuant to Council Directive 2001/55/EC (13), through emergency assistance. Emergency assistance should also include support to ad hoc humanitarian admission programmes aimed at allowing temporary stay on the territory of a Member State in the event of an urgent humanitarian crisis in third countries. However, such other humanitarian admission programmes are without prejudice to, and should not undermine, the Union’s resettlement programme that explicitly aims as from the start to provide a durable solution to persons in need of international protection transferred to the Union from third countries. To that end, Member States should not be entitled to receive additional lump sums in respect of persons granted temporary stay on the territory of a Member State under such other humanitarian admission programmes.

(47) This Regulation should provide financial assistance for the activities of the European Migration Network established by Council Decision 2008/381/EC (14), in accordance with its objectives and tasks.

(48) Decision 2008/381/EC should therefore be amended to align procedures and to facilitate the provision of appropriate and timely financial support to the National Contact Points that are referred to in that Decision.

(49) In the light of the purpose of financial incentives allocated to the Member States for resettlement and/or the transfer of benefi-

---

ciaries of international protection from one Member State to another in the form of lump sums, and because they represent a small fraction of the actual costs, this Regulation should provide for certain derogations from the rules on the eligibility of expenditure.

(50) In order to supplement or amend provisions of this Regulation on lump sums for resettlement and transfer of beneficiaries of international protection from one Member State to another and on the definition of specific actions and of common Union resettlement priorities, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union (TFEU) should be delegated to the Commission. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.

(51) In the application of this Regulation, including the preparation of delegated acts, the Commission should consult experts from all Member States.

(52) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council (15).

(53) Funding from the Union budget should concentrate on activities where the Union intervention can bring additional value compared to the action of Member States alone. As the Union is in a better position than Member States to provide a framework for expressing Union solidarity in the management of migration flows, financial support provided under this Regulation should contribute, in particular, to strengthening national and Union capabilities in this area.

(54) There is a need to maximise the impact of Union funding by mobilising, pooling and leveraging public and private financial resources.

(55) The Commission should monitor the implementation of the Fund in accordance with Regulation (EU) No 514/2014 of the European Parliament and of the Council (16), with the aid of common indicators for evaluating results and impacts. Those indicators, including relevant baselines, should provide the minimum basis for evaluating the extent to which the objectives of the Fund have been achieved.

(56) In order to measure the achievements of the Fund, common indicators should be established in relation to each of its specific objectives. The common indicators should not affect the optional or mandatory nature of the implementation of related actions as laid down in this Regulation.

(57) For the purpose of its management and implementation, the Fund should form

part of a coherent framework consisting of this Regulation and Regulation (EU) No 513/2014 of the European Parliament and of the Council (17). For the purposes of the Fund, the partnership provided for in Regulation (EU) No 514/2014 should include relevant international organisations, non-governmental organisations and social partners. Each Member State should be responsible for establishing the composition of the partnership and the practical arrangements concerning its implementation.

(58) Since the objective of this Regulation, namely contributing to the efficient management of migration flows and to the implementation, strengthening and development of the common policy on asylum, subsidiary protection and temporary protection and the common immigration policy, cannot be sufficiently achieved by the Member States but can rather be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union (TEU). In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.

(59) Pursuant to Articles 8 and 10 TFEU, the Fund should take account of the mainstreaming of equality between women and men and anti-discrimination principles.

(61) In accordance with Article 3 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, and without prejudice to Article 4 of that Protocol, those Member States have notified their wish to take part in the adoption and application of this Regulation.

(62) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.

(63) It is appropriate to align the period of application of this Regulation with that of Council Regulation (EU, Euratom) No 1311/2013 (18). Therefore, this Regulation should apply as from 1 January 2014,

HAVE ADOPTED THIS REGULATION:

3. National programmes may allow for the inclusion in the actions referred to in paragraph 1 of immediate relatives of persons covered by the target group referred to in that paragraph, to the extent that it is necessary for the effective implementation of such actions.

4. For the purpose of programming and implementation of the actions referred to in paragraph 1 of this Article, the partnership referred to in Article 12 of Regulation (EU) No 514/2014 shall include the authorities designated by Member States for the purpose of the management of the interventions of the European Social Fund.
ARTICLE 10  PRACTICAL COOPERATION AND CAPACITY-BUILDING MEASURES

(a) building up strategies promoting legal migration with a view to facilitating the development and implementation of flexible admission procedures;

(b) supporting cooperation between third countries and the recruitment agencies, the employment services and the immigration services of Member States, as well as supporting Member States in their implementation of Union migration law, consultation processes with relevant stakeholders and expert advice or information exchanges on approaches which target specific nationalities or categories of third-country nationals with respect to the needs of the labour markets;

(c) reinforcing the capacity of Member States to develop, implement, monitor and evaluate their immigration strategies, policies and measures across the different levels and departments of administrations, in particular enhancing their capacity to collect, analyse and disseminate detailed and systematic data and statistics on migration procedures and flows and residence permits, and develop monitoring tools, evaluation schemes, indicators and benchmarking for measuring the achievement of those strategies;

(d) training of beneficiaries as defined in point (g) of Article 2 of Regulation (EU) No 514/2014 and of staff providing public and private services, including educational institutions, promoting the exchange of experiences and best practices, cooperation and networking, and intercultural capacities, as well as improving the quality of services provided;

(e) building sustainable organisational structures for integration and diversity management, in particular through cooperation between different stakeholders enabling officials at various levels of national administrations to swiftly acquire information about experiences and best practices elsewhere and, where possible, to pool resources between relevant authorities as well as between governmental and non-governmental bodies to provide services to third-country nationals more effectively, inter alia, through one-stop-shops (i.e. coordinated integration-support centres);

(f) contributing to a dynamic two-way process of mutual interaction, underlying integration strategies at local and regional level by developing platforms for the consultation of third-country nationals, exchanges of information among stakeholders and intercultural and religious dialogue platforms between third-country nationals’ communities, between those communities and the receiving society and/or between those communities and policy and decision-making authorities;

(g) actions to promote and reinforce the practical cooperation between the relevant authorities of Member States, with a focus

COMMISSION DELEGATED REGULATION (EU) NO 1042/2014
OF 25 JULY 2014 SUPPLEMENTING REGULATION (EU)
NO 514/2014 WITH REGARD TO THE DESIGNATION AND
MANAGEMENT AND CONTROL RESPONSIBILITIES OF
RESPONSIBLE AUTHORITIES AND WITH REGARD TO STATUS AND
OBLIGATIONS OF AUDIT AUTHORITIES

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management (1), and in particular Articles 26(4) and 29(1) thereof,

Whereas:

(1) To ensure the continuity between the implementation of the previous Funds under the General Programme ‘Solidarity and Management of Migrations Flows’ 2007-2013 framework and of the Specific Regulations under the 2014-2020 framework, Regulation (EU) No 514/2014 has largely been modelled on the rules in force for the previous Funds, but taking into account the changes introduced in the shared management by Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council (2).

(2) To ensure that the bodies implementing the national programmes have the capacity to fulfil their task efficiently and in line with the objectives and priorities set out in the Specific Regulations referred to in Article 2(a) of Regulation (EU) No 514/2014, rules should be laid down for designating them, supervising their designation and ending it where necessary.

(3) To ensure that the scope of their responsibilities enable them to implement the national programme, it is necessary to lay down rules defining the management and control responsibilities of the Responsible Authorities, in particular the conditions under which they may delegate or outsource some of their tasks.

(4) The selection and award procedure for granting the Union contribution under national programmes should comply with the principles of transparency, non discrimination and equal treatment. It is therefore necessary to lay down the conditions under which Member States should implement the actions under the national programmes, in particular to identify under which circumstances the Responsible Authority may implement projects directly.

(5) In all Member States, the audits should be effective, have the appropriate scope and be carried out in accordance with the International Standards on Auditing. For this purpose, the status and auditing standards

---

(1) OJ L 150, 20.05.2014, p. 112.
of the Audit Authorities should be clearly defined.

(6) To ensure that the audit activities of the Audit Authorities allow them to support their audit opinions, the different types of audit activities should be defined.

(7) It is important that the results of the Audit Authority’s activity are timely and adequately reported to the designating authority as well as to the European Commission. In particular, it is important that the management declaration and the annual summary of the final audit reports and of controls carried out transmitted as part of the annual request for payment reflects well the result of the Audit Authority’s work and conclusions. Therefore, the Audit Authority should, as part of its audit work, ensure that information related to its audit activity is adequately reported in these documents.

(8) In order to allow for the prompt application of the measures provided for in this Regulation and not delay the approval and implementation of the national programmes, the Regulation should enter into force on the day following that of its publication in the Official Journal of the European Union.

(9) The United Kingdom and Ireland are bound by Regulation (EU) No 514/2014 and are as a consequence bound by this Regulation.

(10) Denmark is not bound by Regulation (EU) No 514/2014 nor by this Regulation.

HAS ADOPTED THIS REGULATION:
CHAPTER I GENERAL PROVISIONS

In such cases, the designating authority shall draw up a remedial plan for the Responsible Authority to implement within a period commensurate with the seriousness of the non-compliance or deficiency. This period shall not exceed 12 months from the start of the probation period.

5. If Responsible Authority designation is ended, the designating authority shall promptly designate another Responsible Authority in accordance with Article 26 of Regulation (EU) No 514/2014 and Article 2 of this Regulation to ensure that payments to beneficiaries continue uninterrupted.

6. Where the Commission finds that a Member State has not complied with its obligation to draw up a remedial plan pursuant to para-
graph 3, or that the Responsible Authority retains its designation while failing to implement the remedial plan within the imposed time-limit, the Commission shall address any remaining deficiencies through the conformity clearance procedure provided for in Article 47 of Regulation (EU) No 514/2014.

3. Financial audits shall be performed to provide reasonable assurance that the annual accounts give a true and fair view of the expenditure declared by the Responsible Authority.

The Audit Authority shall in particular, on the basis of these accounts:

Verifications referred to in points (a), (b) and (c) may be carried out on a sample basis.

4. As part of its system and financial audits, the Audit Authority shall re-perform some of the administrative or on-the-spot controls that were carried out by the Responsible Authority. The Audit Authority shall determine the extent of re-performance audit work based on its risk assessment.

5. If the Audit Authority’s system or financial audits identify material weaknesses in the effective functioning of the Responsible Authority’s management and control systems, the Audit Authority shall:

(a) assess the financial and operational impact of these weaknesses;

(b) make appropriate recommendations to the Responsible Authority for corrective and preventive measures;

6. Upon completing its audit activities referred to in paragraphs 1, 2 and 3, the Audit Authority shall report its findings to the designating authority, including whether, in its opinion, the Responsible Authority continues to comply with the designation criteria.

7. The Audit Authority shall ensure that all information related to its audit activities referred to in paragraphs 1, 2 and 3 is adequately reported by the Responsible Authority to the European Commission.

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management, and in particular Article 27(5) thereof,

Whereas:

(1) Responsible Authorities are responsible for the management and control of expenditure under Regulation (EU) No 514/2014. For that purpose they are to carry out administrative and on-the-spot controls.

(2) Efficient administrative controls carried out by Responsible Authorities should firstly consist in analysing financial declarations sent by beneficiaries. More detailed checking of individual supporting documents should only be carried out when that analysis reveals inconsistencies or irregularities. In order to ensure a sufficient level of assurance while reducing the administrative burden, it is also important to clarify the circumstances under which the Responsible Authority can rely on an audit certificate.

(3) On-the-spot controls should cover both financial and operational aspects and may need to be performed at different stages of a project. It is therefore necessary to define the scope of each type of on-the-spot control, in order to ensure that they are carried out in the most efficient way.

(4) Operational on-the-spot controls should take place while projects are being implemented, so that timely corrective measures can be taken. Such controls should apply both to a sample of projects that are still in progress on the first day of the relevant financial year and to projects that start during that financial year.

(5) With the aim of ensuring a sufficient level of assurance while reducing the administrative burden, the circumstances should be defined in which the risk of error is considered immaterial and as a consequence the number of financial on-the-spot controls can be reduced. However, it is also necessary to specify the action to be taken where there is a material error rate, in order to obtain sufficient assurance about the legality and regularity of the Union expenditure.

(6) The main elements of financial on-the-spot controls should be clarified. In particular, Responsible Authorities must verify the non-profit nature of the projects supported by the national programmes. They should check that those projects do not receive double financing of expenditure under the national programmes and other Union programmes, in respect of all programming periods, including funding provided by agencies.

(7) Supporting documents should be kept for a specified period after the completion of each project, in order to allow the Responsible Authorities, the Commission (including OLAF) and the European Court of Auditors to carry out their controls.

(8) In order to allow for the application of this Regulation as soon as the national programmes are approved, this Regulation should enter into force on the day following that of its publication in the Official Journal of the European Union.

(9) The United Kingdom and Ireland are bound by Regulation (EU) No 514/2014 and are as a consequence bound by this Regulation.

(10) Without prejudice to Recital 47 of Regulation (EU) No 514/2014, Denmark is not bound by Regulation (EU) No 514/2014 or by this Regulation.

(11) The measures provided for in this Regulation are in accordance with the opinion of the ‘Asylum, Migration and Integration and Internal Security Funds’ Committee,

HAS ADOPTED THIS REGULATION:

ARTICLE 1  ADMINISTRATIVE CONTROLS

1. The Responsible Authority shall carry out administrative controls on all financial declarations sent by the beneficiaries with the aim of receiving Union funding, in accordance with the grant agreements defined in point (d) of Article 1 of Commission Delegated Regulation (EU) No 1042/2014 (2) (‘financial declarations’). These controls shall, as a minimum, include the following elements:

(a) checks designed to confirm the formal correctness and the arithmetic accuracy of the financial declarations;

(b) checks to confirm that the project has achieved the objectives set out in the grant agreement or that progress is being made towards achieving those objectives;

(c) an analytical review to assess the relevance of the declared expenditure in the financial declarations and its compliance with the requirements set out in the grant agreement and the applicable Union and national rules.

2. Where administrative controls reveal inconsistencies or irregularities, the Responsible Authority shall carry out detailed checks in order to assess the legality and regularity of the expenditure, in particular by reviewing a targeted sample of supporting documents.

3. The Responsible Authority may require the beneficiary to obtain an audit certificate

and an audit report covering all the aspects referred to in points (a) and (c) of paragraph 1, issued by an independent auditor. In that case, the Responsible Authority shall set out the scope of the controls to be performed by the independent auditor as well as the template of the audit report.

**ARTICLE 2  GENERAL PRINCIPLES REGARDING ON-THE-SPOT CONTROLS**

The Responsible Authority shall carry out financial and operational on-the-spot controls.

On-the-spot controls shall be carried out on the basis of documentation and records held by the project beneficiaries.

Unannounced on-the-spot controls may be carried out in accordance with the national law where the level of assurance could be undermined if prior notice was given.

**ARTICLE 3  FINANCIAL ON-THE-SPOT CONTROLS**

1. Financial on-the-spot controls shall aim at providing a sufficient level of assurance as to the legality and regularity of the transactions and contracts underlying the financial declarations.

2. The Responsible Authority shall verify that:

   (a) the expenditure in relation to the financial declarations corresponds to the accounting records and supporting documents held by the project beneficiaries;

   (b) the expenditure in relation to the financial declarations satisfies the eligibility requirements set out in the grant agreement and the applicable Union and national rules;

   (c) the sources of financing comply with Article 16(2) of Regulation (EU) No 514/2014.

   (b) the financial on-the-spot controls carried out since the start of the national programme cover a minimum of 10 % of the cumulated Union contribution to all the projects declared as finalised in the annual accounts since the start of the programme.

3. Where the error rate is greater than or equal to 2 % of the Union contribution controlled in the annual accounts for financial year N, the Responsible Authority shall analyse the significance of this error rate in order to establish the scale and effect of the errors and to determine whether the error rate is representative of the entire population of payments declared. The Responsible Authority shall take the necessary preventive and corrective measures, including additional controls, and shall set out the results of such analysis in the annual summary referred to in point (b) of the first subparagraph of Article 59(5) of Regulation (EU, Euratom) No
966/2012 of the European Parliament and of the Council (3).

The financial on-the-spot controls for the following financial year (N+1) shall cover a percentage of the cumulated Union contribution to the projects declared as finalised in the annual accounts for the financial year N+1 that is higher than the corresponding percentage in financial year N. This higher percentage shall not be lower than 10 %. Additionally, up to financial year N+1 the financial on-the-spot controls carried out since the start of the national programme shall cover a minimum of 10 % of the cumulated Union contribution to all the projects declared as finalised in the annual accounts since the start of the programme.

Where the error rate resulting from the increased controls carried out in year N+1 falls below 2 %, the Responsible Authority shall, in the next financial year (N+2) carry out financial on-the-spot controls on a minimum of 10 % of the cumulated Union contribution to the projects declared as finalised in the annual accounts for financial year N+2.

ARTICLE 5 OPERATIONAL ON-THE-SPOT CONTROLS

1. When carrying out operational on-the-spot controls, the Responsible Authority shall verify that the project in question is being implemented in accordance with the grant agreement. In particular, it shall check that the indicators reported by the beneficiaries are reliable and the project is proceeding without undue delays.

2. Operational on-the-spot controls carried out in financial year N shall cover a minimum of 20 % of the number of projects being implemented during that financial year, as declared in the corresponding annual accounts referred to in Article 39 of Regulation (EU) No 514/2014.

ARTICLE 6 SAMPLE METHODOLOGY FOR ON-THE-SPOT CONTROLS

The Responsible Authority shall carry out on-the-spot controls on a sample of projects representing an appropriate mix of types and sizes of projects, transactions, beneficiaries and implementing modes. The sample shall take into account any risk factors as well as cost-benefit aspects of the controls.

ARTICLE 7 CONTROL REPORTS

1. The Responsible Authority shall draw up a report on each administrative and on-the-spot control, giving the following information:

(a) full identification of the project and its corresponding grant agreement;

(b) the name and signature of the controller;

(c) the beneficiary’s name;

(d) the type of controls (administrative, financial or operational on-the-spot or a combination);

(e) where necessary, the scope of the control;

(f) the expenditure falling within the scope of the control and the expenditure (sample) actually verified;

(g) the amount of expenditure considered ineligible; and

(h) a description of the major findings, weaknesses, errors and irregularities, additional controls and analysis carried out, recommendations and corrective measures proposed and the reaction of the beneficiary.

2. The control report may be presented as a checklist.

**ARTICLE 9  RETENTION OF SUPPORTING DOCUMENTS**

1. The Responsible Authority shall ensure that all records, documents and metadata regarding the expenditure declared and the assigned revenues and audits and controls performed are kept at the Commission's (including OLAF) and the European Court of Auditors' disposal for at least four years following the financial year in which the final payment was declared.

To that end, the Responsible Authority shall lay down rules regarding the retention of records, documents and metadata by the beneficiaries.

2. Where irregularities are identified by the Responsible Authority concerned, the supporting documents referred to in paragraph 1 shall be kept at the Commission’s disposal for at least three years following the year in which the amounts in question were entirely recovered from the beneficiary and credited to the national programme.

3. Where a conformity clearance procedure as referred to in Article 47 of Regulation (EU) No 514/2014 is launched, the supporting documents referred to in paragraph 1 of this Article shall be kept at the Commission’s disposal for at least one year following the year in which that procedure has been concluded.

4. If a conformity decision is the subject of legal proceedings before the Court of Justice of the European Union, the relevant supporting documents shall be kept at the Commission's disposal for at least one year following the year in which those proceedings have been concluded.

5. The supporting documents referred to in paragraphs 1, 2, 3 and 4 shall be kept at the Commission's disposal in paper form or in electronic form.

Documents may be kept exclusively in electronic form only if the national law of the Member State concerned permits the use of electronic documents as evidence of the underlying transactions in national court proceedings.

6. The Member States may prescribe longer periods for the retention of supporting documents.

Member States shall adopt national, regional or local information technology security policies covering access to SFC2014 and automatic input of data into it, ensuring a minimum set of security requirements. These national, regional or local IT security policies may refer to other security documents. Each Member State shall ensure that

these IT security policies apply to all authorities using SFC2014.

Having regard to Regulation (EU) No 516/2014 of the European Parliament and of the Council of 16 April 2014 establishing the Asylum, Migration and Integration Fund (1), in particular Article 17(8) thereof,

After consulting the Asylum, Migration and Integration and Internal Security Funds Committee established by Article 59(1) of Regulation (EU) No 514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management (2),

Whereas:

(1) In addition to the amounts allocated pursuant to Article 15(1)(a) of Regulation (EU) No 516/2014, Member States receive an additional amount, every two years, for each resettled person.

(2) The periods to be taken into account for the calculation of the additional amount should be specified. It is appropriate to establish three resettlement periods, in respect of each of which an additional amount may be allocated to a Member State.

(3) If, in 2017, it appears necessary to provide for a revision in 2019 of the common Union resettlement priorities referred to in Article 17(2) of Regulation (EU) No 516/2014, the third resettlement period, covering the years 2018 to 2020, may be limited to the years 2018 and 2019. If so, this Regulation will be amended to provide for an additional resettlement period for the year 2020.

(4) In order for the Commission to establish the additional amount to be allocated in respect of resettlement in any given resettlement period, each Member State should submit to the Commission an estimate of the number of persons it plans to resettle during that period. (5) Regulation (EU) No 516/2014 provides that the additional amounts for resettlement are to be allocated to the Member States for the first time in the individual financing decisions approving the national programmes referred to in Article 14 of Regulation (EU) No 514/2014. For the resettlement period covering the years 2014 and 2015, the national programmes to be submitted to the Commission should therefore contain an estimate of the number of persons the Member State plans to resettle during that period. For the other resettlement periods, each Member State should submit an estimate by 15 September of the year preceding the resettlement period concerned.

(6) The additional amount for resettlement allocated to each Member State is based on an estimate of the number of persons it plans to resettle. To qualify for payment of the additional amount, the persons concerned should have been effectively resettled from the beginning of the period concerned and up to six months following the end of that period.

(7) In order to be paid the additional amount, which is based on a lump sum for each resettled person, Member States should report to the Commission the number of persons qualifying for payment. They should keep the evidence of these persons qualifying for payment.

(8) The United Kingdom and Ireland are bound by Regulation (EU) No 516/2014 and are as a consequence bound by this Regulation.

(9) Denmark is not bound by Regulation (EU) No 516/2014 nor by this Regulation.

**SECTION B: ACCOUNTING DATA**

Financial data may be completed at any time to record the events of a single financial year. The financial year consists of 16/10/N-1 to 15/10/N. Once the data has been entered, validated (signed) and sent to the Commission each year (by 15 February or extended to 1 March), the data and the summaries will be fixed and can no longer be changed.

The Responsible Authority of the Member States which have not adopted the euro shall keep accounts covering the amounts expressed in the currency in which the expenditure was incurred and the revenue received. However, to enable all their expenditure and revenue to be consolidated, they shall be able to provide the corresponding data in national currency and in euro in accordance with Article 43(2) of Regulation (EU) No 514/2014.
There is a line for each payment made. There should not be more than 13 payments per year per project. If necessary payments may be grouped in monthly batches to limit the total number of payments made in a year.
For pledges, payments should be recorded in monthly batches (i.e. all the payments made during a month are recorded in SFC2014 as a single payment made at the end of the month). Recovery orders or financial penalties are to be recorded as negative payments. Some closure payments may also be made as zero payments.

**AUDIT OPINION ON THE ANNUAL ACCOUNTS**

To the European Commission, Directorate-General for Home Affairs

I, the undersigned, representing the [name of the authority], Audit Authority for the Asylum, Migration and Integration Fund/Internal Security Fund in [Member State] have examined the functioning of the management and control systems of the [AMIF/ISF] as well as the documents and information drawn-up by the Responsible Authority under Article 44 of Regulation (EU) No 514/2014 and Article 59(5) of Regulation (EU, Euratom) No 966/2012 that serve as the request for payment of the annual balance for the financial year N in order to issue an audit opinion in accordance with Article 29 of Regulation (EU) No 514/2014 and Article 59(5) of Regulation...
(EU, Euratom) No 966/2012. I have reached the following conclusions here-below.

**A: OPINION: UNQUALIFIED, QUALIFIED OR ADVERSE (SELECT 1 OPINION)**

**Unqualified opinion on the validation of the accounts**

Based on the examination referred to above, it is my opinion that the accounts for financial year N give a true and fair view and the Union expenditure for which reimbursement has been requested from the Commission is legal and regular.

**Qualified opinion on the validation of the accounts**

Based on the examination referred to above, it is my opinion that the accounts for financial year N give a true and fair view and the Union expenditure for which reimbursement has been requested from the Commission is legal and regular, except with regard to the following points:

A  [500 characters]
B  [500 characters]
C  [500 characters]
D  [500 characters]
E  [500 characters]

Therefore I estimate the impact of the qualification(s) is [limited]/[significant]. This impact corresponds to [amount in EUR] and [%] of the total Union contribution declared.

**Adverse opinion on the validation of the accounts**

Based on the examination referred to above, it is my opinion that the accounts for financial year N do not give a true and fair view and the Union expenditure for which reimbursement has been requested from the Commission is not legal and regular.

This adverse opinion is based on:

[900 characters]

**OPINION ON THE FUNCTIONING OF THE MANAGEMENT AND CONTROL SYSTEMS**

**Scope of the examination**

The examination in respect of this programme was carried out in accordance with my audit strategy in respect of this national programme and taking into account internationally accepted auditing standards, with reference to the financial year N, and reported in the audit report [include reference — do not attach].

**B: OPINION: UNQUALIFIED, QUALIFIED OR ADVERSE (SELECT 1 OPINION)**

**Unqualified opinion**

Based on the examination referred to above and with regard to the programme, I have reasonable assurance that the management and control systems put in place function properly.

**Qualified opinion**

Based on the examination referred to above and with regard to the programme, I have reasonable assurance that the management and control systems put in place function properly except in the following respect(s):

A  [500 characters]
B  [500 characters]
C  [500 characters]
D  [500 characters]
E  [500 characters]

In case the management and control systems are affected, indicate the body or bodies and the aspect(s) of their systems that did not comply with requirements and did not operate effectively.
My reasons for considering that this (these) aspect(s) of the systems did not comply with the requirements or did not operate effectively are as follows:

<tr>
<td>E</td>
<td></td>
</tr>
</tbody>
</table>

Therefore I estimate the impact of the qualification(s) is [limited]/[significant]. This impact corresponds to [amount in EUR] and [%] of the total Union expenditure declared.

Adverse opinion

Based on the examination referred to above and with regard to the programme, I do not have reasonable assurance that the management and control systems put in place comply with the requirements of Articles 21, 24 and 27 of Regulation (EU) No 514/2014 and function properly.

This adverse opinion is based on:

The Audit Authority may also include emphasis of subject matter, not affecting their opinion, as established by internationally accepted auditing standards. After consulting the Asylum, Migration and Integration and Internal Security Funds Committee established by Article 59(1) of Regulation (EU) No 514/2014,

Whereas:

(1) Regulation (EU) No 514/2014 together with the Specific Regulations referred to in Article 2(a) of Regulation (EU) No 514/2014, constitute a framework for Union funding to support the development of the area of freedom, security and justice.

for determining the level of financial correc-
tion that the Commission can apply pursuant
to Article 47 of Regulation (EU) No 514/2014
following the completion of that procedure.

(3) To ensure legal certainty and equal treat-
ment of all Member States, it is essential to
clarify the criteria for determining deficien-
cies in the effective functioning of the man-
agement and control systems, define the
main types of such deficiencies and set out
the criteria for determining the level of finan-
cial correction.

(4) Implementing Regulation (EU) 2015/378
should therefore be amended.

(5) The measures provided for in this Regula-
tion are in accordance with the opinion of the
‘Asylum, Migration and Integration and Internal
Security Funds’ Committee,

HAS ADOPTED THIS REGULATION:

ARTICLE 1

Implementing Regulation (EU) 2015/378 is
amended as follow:

(1) Article 1 is amended as follows:

---

(2) Commission Implementing Regulation (EU)
2015/378 of 2 March 2015 laying down rules for
the application of Regulation (EU) No 514/2014 of
the European Parliament and of the Council with
regard to the implementation of the annual clear-
ance of accounts procedure and the implementa-
tion of the conformity clearance (OJ L 64, 7.3.2015,
p. 30).
(a) paragraph 6 is replaced by the following:

‘6. Where the amount accepted by the Commission in the decision on the clearance of annual accounts for financial year N is lower than the annual pre-financing amount for financial year N, the latter amount shall be cleared against the former. Any outstanding pre-financing amount shall be cleared in the course of subsequent clearance exercises.

The first subparagraph shall apply also in cases where a Member State submits annual accounts reporting zero payment.’;

(b) paragraph 7 is deleted;

(2) the following articles are inserted:

‘ARTICLE 3A

Criteria for determining deficiencies in the effective functioning of the management and control system

1. The Commission shall base its assessment of the effective functioning of the management and control system on the results of all available audits carried out by the Member States, the Commission services and the Court of Auditors, the results of investigations carried out by European Anti-Fraud Office or any other information on compliance with the designation criteria referred to in Article 2(1) of Commission Delegated Regulation (EU) No 1042/2014 (*1).

The Commission’s assessment shall cover the internal control environment of the national programme, the management and control activities of the Responsible Authority, and the control and audit activities of the Audit Authority and shall be based on verification of compliance with the key requirements set out in Table 1 of the Annex.

2. Compliance with the key requirements referred to in paragraph 1 according to the categories set out in Table 2 of the Annex shall be used to assess the effective functioning of each competent authority and to reach an overall conclusion on the management and control system. Any mitigating or aggravating factors shall be taken into account in the overall conclusion on the management and control system.

3. Wherever it is assessed that any of the key requirements 2, 4, 5, 8, 11, 12 or 14 in Table 1 of the Annex, or two or more of the other key requirements in that Table fall into categories 3 or 4 set out in Table 2 of the Annex, it shall be considered as a type of serious deficiency in the effective functioning of the management and control system.

ARTICLE 3B

Criteria for applying and determining the level of financial corrections

1. The Commission shall apply financial corrections where it identifies one or more individual or systemic irregularities or one or more deficiencies in the effective functioning of the management and control system (‘system deficiencies’).

For the purpose of this Regulation, an irregularity means any infringement of Union or national law or any infringement

of national rules resulting from an act or omission by a beneficiary or beneficiaries which has, or would have, the effect of prejudicing the general budget of the European Union by charging to it an unjustified item of expenditure.

The amount of the financial correction shall be determined on a case-by-case basis wherever possible and shall be equal to the exact amount of expenditure wrongly charged to the general budget of the Union.

Where the Commission identifies irregularities in a representative sample of expenditure in all or part of a national programme, but it is not cost-effective to verify the regularity of the other expenditure, the correction may be determined by extrapolating the results of the examination of the sample to the rest of the population from which it was drawn.

Where the Commission identifies systemic irregularities or system deficiencies but where it is not possible, even by extrapolation, to quantify the correction precisely, a flat-rate financial correction shall be applied to the expenditure declared for the part of the system affected in accordance with the indicative criteria and scales set out in paragraphs 2 and 3.

Flat-rate corrections may also be applied in respect of individual irregularities.

2. The level of flat-rate correction shall be determined taking into account the following factors:

(a) the degree of seriousness of the irregularity or of the system deficiency in relation to the overall system or part of it, or to the types of expenditure declared;

(b) the degree of risk of loss to which the Union budget was exposed as a result of the irregularity or system deficiency;

(c) the vulnerability of the expenditure to fraud due to the irregularity or system deficiency;

(d) any mitigating or aggravating factors.

3. The level of correction shall be determined as follows:

(a) where the irregularity or irregularities or the system deficiency or deficiencies is/are so fundamental, frequent or widespread that it/they represent(s) a complete failure of the system that puts at risk the legality and regularity of all the expenditure concerned, a flat rate of 100 % shall be applied;

(b) where the irregularity or irregularities or the system deficiency or deficiencies is/are so frequent and widespread that it/they represent(s) an extremely serious failure of the system that puts at risk the legality and regularity of a very high proportion of the expenditure concerned, a flat rate of 25 % shall be applied;

(c) where the irregularity or irregularities or the system deficiency or deficiencies is/are due to the system functioning poorly or infrequently so as to put at risk the legality and regularity of a high proportion of the expenditure concerned, a flat rate of 10 % shall be applied;

(d) where the irregularity or irregularities or the system deficiency or deficiencies is/are due to the system functioning inconsistently so as to put at risk the legality and regularity of a significant proportion of the expenditure concerned, a flat rate of 5 % shall be applied.
In accordance with the principle of proportionality, the rate may be reduced to 2 % where the nature and gravity of the irregularity or system deficiency are not considered to justify a 5 % correction rate.

4. Where, due to a competent authority’s failure to take adequate corrective measures following the application of a financial correction in a financial year, the same irregularity or irregularities or deficiency or deficiencies is/are identified in a subsequent financial year, the rate of flat rate correction may, due to the persistence of the irregularity or irregularities or deficiency or deficiencies, be raised to a level not exceeding the next level in the scale set out in paragraph 3.’

(3) a new annex is added as set out in the Annex to this Regulation.

ARTICLE 2

This Regulation shall enter into force on the twentieth day following that of its publication in the Official Journal of the European Union.

This Regulation shall be binding in its entirety and directly applicable in the Member States in accordance with the Treaties.

Done at Brussels, 5 April 2017.

For the Commission
The President
Jean-Claude JUNCKER
COUNCIL DECISION (EU) 2015/1523 OF 14 SEPTEMBER 2015
ESTABLISHING PROVISIONAL MEASURES IN THE AREA
OF INTERNATIONAL PROTECTION FOR THE BENEFIT OF ITALY
AND OF GREECE

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 78(3) thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the European Parliament,

Whereas:

(1) According to Article 78(3) of the Treaty on the Functioning of the European Union ('TFEU'), in the event of one or more Member States being confronted by an emergency situation characterised by a sudden inflow of nationals of third countries, the Council, on a proposal from the Commission and after consulting the European Parliament, may adopt provisional measures for the benefit of the Member State(s) concerned.

(2) According to Article 80 TFEU, the policies of the Union in the area of border checks, asylum and immigration and their implementation are to be governed by the principle of solidarity and fair sharing of responsibility between the Member States, and Union acts adopted in this area are to contain appropriate measures to give effect to this principle.

(3) The recent crisis situation in the Mediterranean prompted the Union institutions to immediately acknowledge the exceptional migratory flows in this region and call for concrete measures of solidarity towards the frontline Member States. In particular, at a joint meeting of Foreign and Interior Ministers on 20 April 2015, the Commission presented a ten-point plan of immediate action to be taken in response to this crisis, including a commitment to consider options for an emergency relocation mechanism.

(4) At its meeting of 23 April 2015, the European Council decided, inter alia, to reinforce internal solidarity and responsibility and committed itself in particular to increasing emergency assistance to frontline Member States and to considering options for organising emergency relocation between Member States on a voluntary basis, as well as to deploying European Asylum Support Office (EASO) teams in frontline Member States for the joint processing of applications for international protection, including registration and fingerprinting.

(5) In its resolution of 28 April 2015, the European Parliament reiterated the need for the Union to base its response to the latest tragedies in the Mediterranean on solidarity and fair sharing of responsibility and to step up its efforts in this area towards those Member States which receive the highest number of refugees and applicants for international protection in either absolute or relative terms.

(6) At its meeting of 25 and 26 June 2015, the European Council decided, inter alia, that three key dimensions should be advanced in parallel: relocation/resettlement, return/readmission/reintegration, and cooperation with countries of origin and transit. The European
Council agreed in particular, in the light of the current emergency situation and the commitment to reinforce solidarity and responsibility, on the temporary and exceptional relocation, over two years, from Italy and from Greece to other Member States of 40,000 persons in clear need of international protection. It called on the rapid adoption of a Council decision to that effect and concluded that, to that end, Member States should agree by consensus on the distribution of such persons, reflecting the specific situations of Member States.

(7) The specific situations of the Member States result in particular from migratory flows in other geographical regions, such as the Western Balkans migratory route.

(8) Several Member States were confronted with a significant increase in the total number of migrants, including applicants for international protection, arriving on their territories in 2014 and some continue to be so in the first months of 2015. Emergency financial assistance by the Commission and operational support by EASO were provided to several Member States to help them cope with this increase.

(9) Among the Member States witnessing situations of considerable pressure and in light of the recent tragic events in the Mediterranean, Italy and Greece in particular have experienced unprecedented flows of migrants, including applicants for international protection who are in clear need of international protection, arriving on their territories, generating a significant pressure on their migration and asylum systems.

(10) According to data of the European Agency for the Management of Operational Cooperation at the External Borders (Frontex), the Central and Eastern Mediterranean routes were the main areas for irregular border crossing into the Union in 2014. In 2014, more than 170,000 migrants arrived in Italy alone in an irregular manner, representing an increase of 277% compared to 2013. A steady increase was also witnessed by Greece with more than 50,000 irregular migrants reaching the country, representing an increase of 153% compared to 2013. The overall numbers further increased in the course of 2015. In the first six months of 2015, Italy witnessed a 5% increase of irregular border crossings as compared to the same period last year. Greece faced a sharp increase in the number of irregular border crossings during the same period, corresponding to a six-fold increase over the first six months of 2014 (over 76,000 in the period January-June 2015 compared to 11,336 in the period January-June 2014). A significant proportion of the total number of irregular migrants detected in these two regions included migrants of nationalities which, based on the Eurostat data, meet a high Union-level recognition rate.

(11) According to Eurostat, 64,625 persons applied for international protection in Italy in 2014, compared to 26,920 in 2013 (which represents an increase of 143%). A lesser increase in the number of applications was witnessed by Greece with 9,430 applicants (which represents an increase of 15%). In the first quarter of 2015, 15,250 persons applied for international protection in Italy (which represents an increase of 47% compared to the first quarter of 2014) and 2,615 persons applied in Greece (which represents an increase of 28% compared to the first quarter of 2014).

(12) Many actions have been taken so far to support Italy and Greece in the framework of the migration and asylum policy, including by providing them with substantial emergency assistance and EASO operational support. Italy and Greece were the second and third largest beneficiaries of funding disbursed during the period 2007-2013 under the General Programme ‘Solidarity and Management
of Migration Flows’ (SOLID) and, in addition, received substantial emergency funding. Italy and Greece will likely continue to be the main beneficiaries of the Asylum, Migration and Integration Fund (AMIF) over 2014-2020.

(13) Due to the ongoing instability and conflicts in the immediate neighbourhood of Italy and Greece, it is very likely that a significant and increased pressure will continue to be put on their migration and asylum systems, with a significant portion of the migrants who may be in need of international protection. This demonstrates the critical need to show solidarity towards Italy and Greece and to complement the actions taken so far to support them with provisional measures in the area of asylum and migration.

(14) At the same time, Italy and Greece should provide structural solutions to address exceptional pressures on their asylum and migration systems. The measures laid down in this Decision should therefore go hand in hand with the establishment by Italy and by Greece of a solid and strategic framework for responding to the crisis situation and intensifying the ongoing reform process in these areas. In this respect, Italy and Greece should, on the date of entry into force of this Decision, each present a roadmap to the Commission which should include adequate measures in the area of asylum, first reception and return, enhancing the capacity, quality and efficiency of their systems in these areas, as well as measures to ensure appropriate implementation of this Decision with a view to allowing them to better cope, after the end of the application of this Decision, with a possible increased inflow of migrants on their territories.

(15) Bearing in mind that the European Council agreed on a set of interlinked measures, the Commission should be entrusted with the power to suspend, where appropriate and having given the State concerned the opportunity to present its views, the application of this Decision for a limited period where Italy or Greece does not respect its commitments in this regard.

(16) If any Member State should be confronted with a similar emergency situation characterised by a sudden inflow of nationals of third countries, the Council, on a proposal from the Commission and after consulting the European Parliament, may adopt provisional measures for the benefit of the Member State concerned, on the basis of Article 78(3) TFEU. Such measures may include, where appropriate, a suspension of the obligations of that Member State provided for in this Decision.

(17) In accordance with Article 78(3) TFEU, the measures envisaged for the benefit of Italy and of Greece should be of a provisional nature. A period of 24 months is reasonable in view of ensuring that the measures provided for in this Decision have a real impact in respect of supporting Italy and Greece in dealing with the significant migration flows on their territories.

(18) The measures to relocate from Italy and from Greece, as set out in this Decision, entail a temporary derogation from the rule laid down in Article 13(1) of Regulation (EU) No 604/2013 of the European Parliament and of the Council (1) according to which Italy and Greece would have been otherwise responsible for the examination of an application for international protection based on the criteria set

(1) Regulation (EU) No 604/2013 of the European Parliament and of the Council of 26 June 2013 establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person (OJ L 180, 29.6.2013, p. 31).
out in Chapter III of that Regulation, as well as a temporary derogation from the procedural steps, including the time-limits, laid down in Articles 21, 22 and 29 of that Regulation. The other provisions of Regulation (EU) No 604/2013, including the implementing rules laid down in Commission Regulation (EC) No 1560/2003 (2) and Commission Implementing Regulation (EU) No 118/2014 (3), remain applicable, including the rules contained therein on the obligation for the transferring Member States to meet the costs necessary to transfer an applicant to the Member State of relocation and on the cooperation on transfers between Member States, as well as on transmission of information through the DubliNet electronic communication network.

This Decision also entails a derogation from the consent of the applicant for international protection as referred to in Article 7(2) of Regulation (EU) No 516/2014 of the European Parliament and of the Council (4).

(19) Relocation measures do not absolve Member States from applying in full Regulation (EU) No 604/2013, including the provisions related to family reunification, special protection of unaccompanied minors, and the discretionary clause on humanitarian grounds.

(20) A choice had to be made in respect of the criteria to be applied when deciding which and how many applicants are to be relocated from Italy and from Greece, without prejudice to decisions at national level on asylum applications. A clear and workable system is envisaged based on a threshold of the average rate at Union level of decisions granting international protection in the procedures at first instance, as defined by Eurostat, out of the total number at Union level of decisions on asylum applications for international protection taken at first instance, based on the latest available statistics. On the one hand, this threshold would have to ensure, to the maximum extent possible, that all applicants in clear need of international protection would be in a position to fully and swiftly enjoy their protection rights in the Member State of relocation. On the other hand, it would have to prevent, to the maximum extent possible, applicants who are likely to receive a negative decision on their application from being relocated to another Member State, and therefore from prolonging unduly their stay in the Union. A threshold of 75 %, based on the latest available updated Eurostat quarterly data for first instance decisions, should be used in this Decision.

(21) The provisional measures are intended to relieve the significant asylum pressure on Italy and on Greece, in particular by relocating a significant number of applicants in clear need of international protection who have arrived in the territory of Italy or Greece following the date on which this Decision becomes applicable. Based on the overall number of third-country nationals who have

entered irregularly Italy or Greece in 2014
and the number of those who are in clear
need of international protection, a total of
40 000 applicants in clear need of interna-
tional protection should be relocated from
Italy and from Greece. This number corre-
sponds to approximately 40 % of the total
number of third-country nationals in clear
need of international protection who have
entered irregularly in Italy or Greece in 2014.
Thus, the relocation measure proposed in
this Decision constitutes fair burden sharing
between Italy and Greece on the one hand
and the other Member States on the other.
Based on the same overall available figures
in 2014 and in the first four months of 2015,
in Italy compared to Greece, 60 % of these
applicants should be relocated from Italy and
40 % from Greece.

(22) On 20 July 2015, reflecting the specific
situations of Member States, a Resolution of
the representatives of the Governments of
the Member States, meeting within the Coun-
cil, on relocating from Italy and from Greece
40 000 persons in clear need of international
protection, was adopted by consensus. Over
a period of two years, 24 000 persons should
be relocated from Italy and 16 000 persons
should be relocated from Greece.

(23) The Asylum, Migration and Integra-
tion Fund (AMIF) set up by Regulation (EU)
No 516/2014 provides support to burden-
sharing operations agreed between Member
States and is open to new policy develop-
ments in that field. Article 7(2) of Regulation
(EU) No 516/2014 provides for the possibil-
ity for Member States to implement actions
related to the transfer of applicants for inter-
national protection as part of their national
programmes, while Article 18 of Regulation
(EU) No 516/2014 provides for the possibility
of a lump sum of EUR 6 000 for the transfer
of beneficiaries of international protection
from another Member State.

(24) With a view to implementing the principle
of solidarity and fair sharing of responsibil-
ity, and taking into account that this Decision
constitutes a further policy development in
this field, it is appropriate to ensure that the
Member States that relocate applicants who
are in clear need of international protection
from Italy or Greece pursuant to this Decision
receive a lump sum for each relocated person
which is identical to the lump sum foreseen
in Article 18 of Regulation (EU) No 516/2014,
namely EUR 6 000, and implemented by
applying the same procedures. This entails
a limited, temporary derogation from Article
18 of Regulation (EC) No 516/2014 because
the lump sum should be paid in respect of
relocated applicants rather than beneficiar-
ies of international protection. Such a tem-
porary extension of the scope of potential
recipients of the lump sum appears indeed to
be an integral part of the emergency scheme
set up by this Decision.

(25) It is necessary to ensure that a swift
relocation procedure is put in place and to
accompany the implementation of the pro-
visional measures by close administrative
cooperation between Member States and
operational support provided by EASO.

(26) National security and public order should
be taken into consideration throughout the
relocation procedure, until the transfer of
the applicant is implemented. In full respect
to the fundamental rights of the applicant,
including the relevant rules on data protec-
tion, where a Member State has reasonable
grounds for regarding an applicant as a dan-
ger to its national security or public order,
it should inform the other Member States
thereof.

(27) When deciding which applicants in clear
need of international protection should be
relocated from Italy and from Greece, prior-
ity should be given to vulnerable applicants
within the meaning of Articles 21 and 22 of Directive 2013/33/EU of the European Parliament and of the Council (5). In this respect, any special needs of applicants, including health, should be of primary concern. The best interests of the child should always be a primary consideration.

(28) In addition, in order to decide which specific Member State should be the Member State of relocation, specific account should be given to the specific qualifications and characteristics of the applicants concerned, such as their language skills and other individual indications based on demonstrated family, cultural or social ties which could facilitate their integration into the Member State of relocation. In the case of particularly vulnerable applicants, consideration should be given to the capacity of the Member State of relocation to provide adequate support to those applicants and to the necessity of ensuring a fair distribution of those applicants among Member States. With due respect for the principle of non-discrimination, Member States of relocation may indicate their preferences for applicants based on the above information on the basis of which Italy and Greece, in consultation with EASO and, where applicable, liaison officers, may compile lists of possible applicants identified for relocation to that Member State.

(29) The appointment by Member States of liaison officers in Italy and in Greece should facilitate the effective implementation of the relocation procedure, including the appropriate identification of the applicants who could be relocated, taking into account in particular their vulnerability and qualifications. As regards both the appointment of liaison officers in Italy and in Greece and the fulfilment of their tasks, the Member State of relocation and Italy and Greece should exchange all relevant information and continue cooperating closely throughout the relocation procedure.

(30) The legal and procedural safeguards set out in Regulation (EU) No 604/2013 remain applicable in respect of applicants covered by this Decision. In addition, applicants should be informed of the relocation procedure set out in this Decision and be notified with the relocation decision which constitutes a transfer decision within the meaning of Article 26 of Regulation (EU) No 604/2013. Considering that an applicant does not have the right under EU law to choose the Member State responsible for his or her application, the applicant should have the right to an effective remedy against the relocation decision in line with Regulation (EU) No 604/2013, only in view of ensuring respect for his or her fundamental rights. In line with Article 27 of that Regulation, Member States may provide in their national law that the appeal against the transfer decision does not automatically suspend the transfer of the applicant but that the person concerned has the opportunity to request a suspension of the implementation of the transfer decision pending the outcome of his or her appeal.

(31) Before and after being transferred to the Member States of relocation, applicants enjoy the rights and guarantees set up in Directive 2013/32/EU of the European Parliament and of the Council (6) and Directive 2013/33/EU, including in relation to their special reception and procedural needs. In addition, Regulation (EU) No 603/2013 of the

---

European Parliament and of the Council (7) remains applicable in respect of applicants covered by this Decision.

(32) Measures should be taken in order to avoid secondary movements of relocated persons from the Member State of relocation to other Member States which could hamper the efficient application of this Decision. In particular, applicants should be informed of the consequences of onward irregular movement within the Member States and of the fact that, if the Member State of relocation grants them international protection, in principle, they are only entitled to the rights attached to international protection in that Member State.

(33) Additionally, in line with the objectives set out in Directive 2013/33/EU, the harmonisation of reception conditions amongst Member States should help to limit secondary movements of applicants for international protection influenced by the variety of conditions for their reception. With a view to reaching the same objective, Member States should consider imposing reporting obligations and providing applicants for international protection with material reception conditions that include housing, food and clothing only in kind, as well as, where appropriate, ensuring that applicants are directly transferred to the Member State of relocation. Likewise, during the period of the examination of applications for international protection, as provided in the asylum and Schengen acquis, except for serious humanitarian reasons, Member States should neither provide applicants with national travel documents, nor give them other incentives, such as financial ones, which could facilitate their irregular movements to other Member States. In the event of irregular movements to other Member States, applicants should be sent back to the Member State of relocation pursuant to the rules set out in Regulation (EU) No 604/2013.

(34) In order to avoid secondary movements of beneficiaries of international protection, Member States should also inform the beneficiaries about the conditions under which they may legally enter and stay in another Member State and should be able to impose reporting obligations. Pursuant to Directive 2008/115/EC of the European Parliament and of the Council (8), Member States should require a beneficiary of international protection who is staying irregularly on their territories to go back immediately to the Member State of relocation. In case the person refuses to return voluntarily, return to the Member State of relocation should be enforced.

Furthermore, if provided for in national law, in the case of enforced return to the Member State of relocation, the Member State which enforced the return may decide to issue a national entry ban that would prevent the beneficiary, for a certain period of time, from re-entering the territory of that specific Member State.

(7) Regulation (EU) No 603/2013 of the European Parliament and of the Council of 26 June 2013 on the establishment of ‘Eurodac’ for the comparison of fingerprints for the effective application of Regulation (EU) No 604/2013 establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person and on requests for the comparison with Eurodac data by Member States’ law enforcement authorities and Europol for law enforcement purposes, and amending Regulation (EU) No 1077/2011 establishing a European Agency for the operational management of large-scale IT systems in the area of freedom, security and justice (OJ L 180, 29.6.2013, p. 1).

(35) As the purpose of this Decision is to address an emergency situation and to support Italy and Greece in reinforcing their asylum systems, it should allow them to make, with the assistance of the Commission, bilateral arrangements with Iceland, Liechtenstein, Norway and Switzerland on the relocation of persons falling within the scope of this Decision. Such arrangements should also reflect the core elements of this Decision, in particular those relating to the relocation procedure and the rights and obligations of applicants as well as those relating to Regulation (EU) No 604/2013.

(36) The specific support provided to Italy and to Greece through the relocation scheme should be complemented by additional measures, from the arrival of third-country nationals on the territory of Italy or of Greece until the completion of all applicable procedures, coordinated by EASO and other relevant Agencies, such as Frontex coordinating the return of third-country nationals not having the right to remain on the territory, in accordance with Directive 2008/115/EC.

(37) Since the objectives of this Decision cannot be sufficiently achieved by the Member States but can rather, by reason of the scale and effects of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union (‘TEU’). In accordance with the principle of proportionality, as set out in that Article, this Decision does not go beyond what is necessary in order to achieve those objectives.

(38) This Decision respects the fundamental rights and observes the principles recognised by the Charter of Fundamental Rights of the European Union.

(39) In accordance with Articles 1 and 2 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, and without prejudice to Article 4 of that Protocol, those Member States are not taking part in the adoption of this Decision and are not bound by it or subject to its application.

(40) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Decision and is not bound by it or subject to its application.

(41) In view of the urgency of the situation, this Decision should enter into force on the date following that of its publication in the Official Journal of the European Union,

HAS ADOPTED THIS DECISION:

ARTICLE 1 SUBJECT-MATTER

This Decision establishes provisional measures in the area of international protection for the benefit of Italy and of Greece in view of supporting them in better coping with an emergency situation characterised by a sudden inflow of nationals of third countries in those Member States.

ARTICLE 2 DEFINITIONS

For the purposes of this Decision, the following definitions apply:

(a) ‘application for international protection’ means an application for international protection as defined in point (h) of Article 2 of
Directive 2011/95/EU of the European Parliament and of the Council (ª);

(b) ‘applicant’ means a third-country national or a stateless person who has made an application for international protection in respect of which a final decision has not yet been taken;

(c) ‘international protection’ means refugee status and subsidiary protection status as defined in points (e) and (g), respectively, of Article 2 of Directive 2011/95/EU;

(d) ‘family members’ means family members as defined in point (g) of Article 2 of Regulation (EU) No 604/2013 of the European Parliament and of the Council;

(e) ‘relocation’ means the transfer of an applicant from the territory of the Member State which the criteria laid down in Chapter III of Regulation (EU) No 604/2013 indicate as responsible for examining his or her application for international protection to the territory of the Member State of relocation;

(f) ‘Member State of relocation’ means the Member State which becomes responsible for examining the application for international protection pursuant to Regulation (EU) No 604/2013 of an applicant following his or her relocation in the territory of that Member State.

ARTICLE 3 SCOPE

1. Relocation pursuant to this Decision shall only take place in respect of an applicant who has lodged his or her application for international protection in Italy or in Greece and for whom those States would have otherwise been responsible pursuant to the criteria for determining the Member State responsible set out in Chapter III of Regulation (EU) No 604/2013.

2. Relocation pursuant to this Decision shall only be applied in respect of an applicant belonging to a nationality for which the proportion of decisions granting international protection among decisions taken at first instance on applications for international protection as referred to in Chapter III of Directive 2013/32/EU is, according to the latest available updated quarterly Union-wide average Eurostat data, 75 % or higher. In the case of stateless persons, the country of former habitual residence shall be taken into account. Quarterly updates shall only be taken into account in respect of applicants who have not already been identified as applicants who could be relocated in accordance with Article 5(3) of this Decision.

ARTICLE 4 RELOCATION OF APPLICANTS TO MEMBER STATES

Following agreement reached between Member States through the Resolution of 20 July 2015 of the Representatives of the Governments of the Member States meeting within the Council on relocating from Italy and from Greece 40,000 persons in clear need of international protection:

(a) 24,000 applicants shall be relocated from Italy to the territory of the other Member States;

(b) 16,000 applicants shall be relocated from Greece to the territory of the other Member States.

ARTICLE 5 RELOCATION PROCEDURE

1. For the purpose of the administrative cooperation required to implement this Decision, each Member State shall appoint a national contact point, whose address it shall communicate to the other Member States and to EASO. Member States shall, in liaison with EASO and other relevant agencies, take all the appropriate measures to establish direct cooperation and an exchange of information between the competent authorities, including about the grounds referred to in paragraph 7.

2. Member States shall, at regular intervals, and at least every three months, indicate the number of applicants who can be relocated swiftly to their territory and any other relevant information.

3. Based on this information, Italy and Greece shall, with the assistance of EASO and, where applicable, of Member States’ liaison officers referred to in paragraph 8 of this Article, identify the individual applicants who could be relocated to the other Member States and, as soon as possible, submit all relevant information to the contact points of those Member States. Priority shall be given for that purpose to vulnerable applicants within the meaning of Articles 21 and 22 of Directive 2013/33/EU.

4. Following approval of the Member State of relocation, Italy and Greece shall, as soon as possible, take a decision to relocate each of the identified applicants to a specific Member State of relocation, in consultation with EASO, and shall notify the applicant in accordance with Article 6(4). The Member State of relocation may decide not to approve the relocation of an applicant only if there are reasonable grounds as referred to in paragraph 7 of this Article.

5. Applicants whose fingerprints are required to be taken pursuant to the obligations set out in Article 9 of Regulation (EU) No 603/2013 may only be proposed for relocation if their fingerprints have been taken and transmitted to the Central System of Eurodac, pursuant to that Regulation.

6. The transfer of the applicant to the territory of the Member State of relocation shall take place as soon as possible following the date of the notification to the person concerned of the transfer decision referred to in Article 6(4). Italy and Greece shall transmit to the Member State of relocation the date and time of the transfer as well as any other relevant information.

7. Member States retain the right to refuse to relocate an applicant only where there are reasonable grounds for regarding him or her as a danger to their national security or public order or where there are serious reasons for applying the exclusion provisions set out in Articles 12 and 17 of Directive 2011/95/EU.

8. For the implementation of all aspects of the relocation procedure described in this Article, Member States may, after exchanging all relevant information, decide to appoint liaison officers to Italy and to Greece.

9. In line with the EU acquis, Member States shall fully implement their obligations. Accordingly, identification, registration and fingerprinting for the relocation procedure shall be guaranteed by Italy and by Greece and the necessary facilities shall be put in place. Applicants that elude the relocation procedure shall be excluded from relocation.

10. The relocation procedure provided for in this Article shall be completed as swiftly as possible and not later than two months from the time of the indication given by the Mem-
ber State of relocation as referred to in paragraph 2, unless the approval by the Member State of relocation referred to in paragraph 4 takes place less than two weeks before the expiry of this two-month period. In such case, the time-limit for completing the relocation procedure may be extended for a period not exceeding a further two weeks. In addition, this time-limit may also be extended, for a further four-week period, as appropriate, where Italy or Greece show objective practical obstacles that prevent the transfer from taking place.

Where the relocation procedure is not completed within these time-limits and unless Italy and Greece agree with the Member State of relocation to a reasonable extension of the time-limit, Italy and Greece shall remain responsible for examining the application for international protection pursuant to Regulation (EU) No 604/2013.

11. Following the relocation of the applicant, the Member State of relocation shall take, and transmit to the Central System of Eurodac, the fingerprints of the applicant in accordance with Article 9 of Regulation (EU) No 603/2013 and update the data sets in accordance with Article 10 of, and where applicable, Article 18 of, that Regulation.

ARTICLE 6   RIGHTS AND OBLIGATIONS OF APPLICANTS FOR INTERNATIONAL PROTECTION COVERED BY THIS DECISION

1. The best interests of the child shall be a primary consideration for Member States when implementing this Decision.

2. Member States shall ensure that family members who fall within the scope of this Decision are relocated to the territory of the same Member State.

3. Prior to the decision to relocate an applicant, Italy and Greece shall inform the applicant in a language which the applicant understands or is reasonably supposed to understand of the relocation procedure as set out in this Decision.

4. When the decision to relocate an applicant has been taken and before the actual relocation, Italy and Greece shall notify the person concerned of the decision to relocate him in writing. That decision shall specify the Member State of relocation.

5. An applicant or beneficiary of international protection who enters the territory of a Member State other than the Member State of relocation without fulfilling the conditions for stay in that other Member State shall be required to return immediately. The Member State of relocation shall take back the person.

ARTICLE 7   OPERATIONAL SUPPORT TO ITALY AND TO GREECE

1. In order to support Italy and Greece to better cope with the exceptional pressure on their asylum and migration systems caused by the current increased migratory pressure at their external borders, Member States shall increase their operational support in cooperation with Italy and Greece in the area of international protection through relevant activities coordinated by EASO, Frontex and other relevant Agencies, in particular by providing, as appropriate, national experts for the following support activities:

(a) the screening of the third-country nationals arriving in Italy and in Greece, including their clear identification, fingerprinting and registration, and, where applicable, the registration of their application for international protection and, upon request by Italy or Greece, their initial processing;
(b) the provision to applicants or potential applicants that could be subject to relocation pursuant to this Decision of information and specific assistance that they may need;

(c) the preparation and organisation of return operations for third-country nationals who either did not apply for international protection or whose right to remain on the territory has ceased.

2. In addition to the support provided under paragraph 1 and for the purpose of facilitating the implementation of all steps of the relocation procedure, specific support shall be provided, as appropriate, to Italy and to Greece through relevant activities coordinated by EASO, Frontex and other relevant Agencies.

ARTICLE 8  COMPLEMENTARY MEASURES TO BE TAKEN BY ITALY AND BY GREECE

1. Italy and Greece shall each, on 16 September 2015, present a roadmap to the Commission which shall include adequate measures in the area of asylum, first reception and return, enhancing the capacity, quality and efficiency of their systems in these areas, as well as measures to ensure appropriate implementation of this Decision. Italy and Greece shall fully implement this roadmap.

2. If Italy or Greece does not comply with the obligations referred to in paragraph 1 of this Article, the Commission may decide, having given the State concerned the opportunity to present its views, to suspend the application of this Decision with regard to that Member State for a period of up to three months. The Commission may decide once to extend such suspension for a further period of up to three months. Such suspension shall not affect the transfers of applicants that are pending following approval of the Member State of relocation pursuant to Article 5(4).

ARTICLE 9  FURTHER EMERGENCY SITUATIONS

In the event of an emergency situation characterised by a sudden inflow of nationals of third countries in a Member State, the Council, on a proposal from the Commission and after consulting the European Parliament, may adopt provisional measures for the benefit of the Member State concerned, pursuant to Article 78(3) TFEU. Such measures may include, where appropriate, a suspension of the participation of that Member State to the relocation as provided for in this Decision as well as possible compensatory measures for Italy and for Greece.

ARTICLE 10  FINANCIAL SUPPORT

The Member State of relocation shall receive a lump sum of EUR 6 000 for each relocated person pursuant to this Decision. This financial support shall be implemented by applying the procedures laid down in Article 18 of Regulation (EU) No 516/2014.

ARTICLE 11  COOPERATION WITH ASSOCIATED STATES

With the assistance of the Commission, bilateral arrangements may be made between Italy and, respectively, Iceland, Liechtenstein, Norway and Switzerland, and between Greece and, respectively, Iceland, Liechtenstein, Norway and Switzerland, on the relocation of applicants from the territory of Italy and of Greece to the territory of the latter States. The core elements of this Decision, in particular those relating to the relocation procedure and the rights and obligations of applicants, shall be duly taken into account in those arrangements.
ARTICLE 12  REPORTING

On the basis of the information provided by the Member States and by the relevant agencies, the Commission shall report to the Council every six months on the implementation of this Decision.

On the basis of the information provided by Italy and by Greece, the Commission shall also report to the Council every six months on the implementation of the roadmaps, referred to in Article 8.

ARTICLE 13  ENTRY INTO FORCE

1. This Decision shall enter into force on the day following that of its publication in the Official Journal of the European Union.

2. It shall apply until 17 September 2017.

3. It shall apply to persons arriving on the territory of Italy or Greece as from 16 September 2015 until 17 September 2017, as well as to applicants having arrived on the territory of those Member States from 15 August 2015 onwards.

For the Council
The President
J. ASSELBORN
COMMISSION RECOMMENDATION OF 8.6.2015 ON A EUROPEAN RESETTLEMENT SCHEME

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union and in particular Article 292 fourth sentence thereof,

Whereas:

(1) The European Council meeting in extraordinary session on 23 April 2015 recalled the seriousness of the situation in the Mediterranean and expressed its determination that the Union should mobilise all efforts at its disposal to prevent further loss of life at sea and to tackle the root causes of the humanitarian emergency. The European Council further committed to set up a first voluntary pilot project on resettlement across the Union, offering places to persons qualifying for protection (1).

(2) In its resolution of 29 April 2015, the European Parliament called upon the Member States to make greater contributions to existing resettlement programmes and stressed the need to ensure safe and legal access to the Union asylum system (2).

(3) There is currently a significant imbalance between Member States as regards the commitment to resettle persons. Only fifteen Member States and three Associated States have a resettlement programme (with one further Member State announcing the start of a resettlement programme), three Member States and one Associated State have carried out resettlement on an ad hoc basis, while the others do not engage in resettlement at all.

(4) In 2014, the number of asylum applicants in the Union reached a peak of 626 000, while 6 380 third country nationals in need of international protection were resettled in the Union (3). The number of refugees, asylum-seekers and internally displaced people worldwide in 2013 exceeded 50 million people, for the first time since World War II (4).

(5) The Justice and Home Affairs Council Conclusions of 10 October 2014 acknowledged that “[…] while taking into account the efforts carried out by Member States affected by migratory flows, all Member States should give their contribution to [resettlement] in a fair and balanced manner.” (5)

(6) On 13 May 2015, the Commission presented a comprehensive European Agenda on Migration (6) that, inter alia, defines a set of immediate measures tailored to respond to the human tragedy in the whole of the Mediterranean.

(7) To avoid displaced persons in need of protection having to resort to the criminal networks of smugglers and traffickers, the Agenda calls the European Union to step up its resettlement efforts. Accordingly, the

Commission is making this Recommendation proposing for an EU-wide resettlement scheme to offer 20,000 places on the basis of a distribution key.

(8) In case Associated States decide to participate, the distribution key and allocations per each Member State and participating Associated State would be adapted accordingly.

(9) In the light of previous discussions during a dedicated meeting of the Resettlement and Relocation Forum on 25 November 2014, the distribution key should be based on:

a) the size of the population (40% weighting),
b) the total GDP (40% weighting),
c) the average number of spontaneous asylum applications and the number of resettled refugees per one million inhabitants over the period 2010-2014 (10% weighting), and
d) the unemployment rate (10% weighting).

(10) A total of 20,000 persons should be admitted to the Union during a two-year period of implementation of this scheme by the Member States. The responsibility for hosting such persons should lie solely with the participating States, in line with the relevant Union and international rules. This corresponds to the call by the United Nations High Commissioner for Refugees (UNHCR) who urged European countries to make larger commitments to receive refugees through sustainable resettlement programmes, endorsing the campaign led by the International Organisation for Migration and five non-governmental organisations.

(11) In identifying the priority regions, the situation in the neighbourhood and the current migratory flows should be taken into account, in particular the link with the Regional Development and Protection Programmes in the Middle East, North Africa and the Horn of Africa.

(12) The experience and expertise of the UNHCR and other relevant bodies, including the European Asylum Support Office, should be called upon to assist in the implementation of the resettlement scheme.

(13) Measures should be taken in order to avoid secondary movements of resettled persons from the State of resettlement to other Member States and participating Associated States.

(14) The Commission envisages contributing to the scheme by making available an extra EUR 50 million in the years 2015 and 2016 under the Union Resettlement Programme, set out in Article 17 of Regulation (EU) No 516/2014 of the European Parliament and of the Council. In order to optimise the use of the financial incentives, the Commission will adjust the lump sums and resettlement priorities provided for in that programme through a delegated act, in accordance with Article 17 (4) and (10) of Regulation (EU) No 516/2014. In case the Associated States decide to participate in the resettlement scheme, they could not benefit from lump sums under Regulation (EU) No 516/2014 in compensation for their pledges.

HAS ADOPTED THIS RECOMMENDATION:

EUROPEAN RESETTLEMENT SCHEME

1. The Commission recommends that Member State resettle 20,000 people in need of international protection on the basis of the conditions and the distribution key laid down in this Recommendation.
DEFINITION AND SCOPE OF THE RESETTLEMENT SCHEME

2. ‘Resettlement’ means the transfer of individual displaced persons in clear need of international protection, on request of the United Nations High Commissioner for Refugees, from a third country to a Member State, in agreement with the latter, with the objective of protecting against refoulement and admitting and granting the right to stay and any other rights similar to those granted to a beneficiary of international protection.

3. The European resettlement scheme should cover all Member States.

CONTENT OF THE RESETTLEMENT SCHEME

4. The scheme should consist of a single European pledge of 20 000 resettlement places for persons to be resettled. The duration of the scheme should be two years from the date of the adoption of the Recommendation.

5. The overall pledged resettlement places should be allocated to Member States in accordance with the distribution key in the Annex. In case Associated States decide to participate in the scheme, the distribution key would be adapted accordingly.

6. The priority regions for resettlement should include North Africa, the Middle East, and the Horn of Africa, focusing in particular on the countries where the Regional Development and Protection Programmes are implemented.

7. Member States and the participating Associated States should remain responsible for individual admission decisions, following adequate medical and security checks, while the United Nations High Commissioner for Refugees should be responsible for the assessment of candidates for resettlement in the priority regions and submitting proposals for resettlement to the Member States and the participating Associated States.

2013/32/EU (\(^{(12)}\)) and 2013/33/EU of the European Parliament and of the Council (\(^{(13)}\)).

9. After this process, where international protection or national protection status is granted by a Member State to a resettled person, that person should enjoy, in the resettling Member State, the rights guaranteed to beneficiaries of international protection by Directive 2011/95/EU or similar rights guaranteed by national law. In that context, free movement within the Union should be submitted to the same conditions and restrictions applicable to other third country nationals legally resident in the Member States. In the case of participating Associated States, equivalent national legislation should apply.

10. Candidates for resettlement should be informed of their rights and obligations, under the resettlement scheme as well as under relevant Union and national asylum legislation, prior to their admission to the territory of the Member States or of participating Associated States, in particular of the consequences of onward movement within the Union and/or participating Associated States and of the fact that they are only entitled to the rights attached to international protection or national protection status in the State of resettlement.

11. Resettled persons who enter into the territory of a Member State or of a participating Associated State other than the State of resettlement without authorisation, either pending the completion of the formal international protection procedure or after granting of international protection, should be sent back to the State of resettlement, pursuant to the rules laid down in Regulation (EU) No 604/2013 and Directive 2008/115/EC of the European Parliament and of the Council (\(^{(14)}\)).

12. Practical involvement of the European Asylum Support Office in the implementation of the scheme should be ensured, in particular, to provide special support to Member States and to participating Associated States, especially those which have no prior experience with resettlement. The European Asylum Support Office should monitor the implementation of the scheme and report regularly on the implementation.

13. Member States should be entitled to receive a financial allocation in proportion of the number of persons resettled in their territory in accordance with the lump sums set out in Article 17 of Regulation (EU) No 516/2014, as adjusted by Commission Delegated Regulation (EU) No xxx/2015 (\(^{(15)}\)).

The key is based on the following criteria (16) (17):

a) The size of the population (2014 figures, 40% weighting). This criterion reflects the capacity of a Member State to absorb a certain number of refugees;

b) Total GDP (2013 figures, 40% weighting). This criterion reflects the absolute wealth of country and is indicative for the capacity of an economy to absorb and integrate refugees;

c) Average number of spontaneous asylum applications and the number of resettled refugees per 1 million inhabitants over the period 2010-2014 (10% weighting). This criterion reflects the efforts made by Member States in the recent past;

d) Unemployment rate (2014 figures, 10% weighting). This criterion reflects the capacity to integrate refugees.

COUNCIL DECISION (EU) 2015/1601 OF 22 SEPTEMBER 2015
ESTABLISHING PROVISIONAL MEASURES IN THE AREA
OF INTERNATIONAL PROTECTION FOR THE BENEFIT OF ITALY
AND GREECE

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 78(3) thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the European Parliament (\(^1\))

Whereas:

(1) According to Article 78(3) of the Treaty on the Functioning of the European Union (TFEU), in the event of one or more Member States being confronted by an emergency situation characterised by a sudden inflow of nationals of third countries, the Council, on a proposal from the Commission and after consulting the European Parliament, may adopt provisional measures for the benefit of the Member State(s) concerned.

(2) According to Article 80 TFEU, the policies of the Union in the area of border checks, asylum and immigration and their implementation are to be governed by the principle of solidarity and fair sharing of responsibility between the Member States, and Union acts adopted in this area are to contain appropriate measures to give effect to this principle.

(3) The recent crisis situation in the Mediterranean prompted the Union institutions to immediately acknowledge the exceptional migratory flows in that region and call for concrete measures of solidarity towards the frontline Member States. In particular, at a joint meeting of Foreign and Interior Ministers on 20 April 2015, the Commission presented a ten-point plan of immediate action to be taken in response to the crisis, including a commitment to consider options for an emergency relocation mechanism.

(4) At its meeting of 23 April 2015, the European Council decided, inter alia, to reinforce internal solidarity and responsibility and committed itself in particular to increasing emergency assistance to frontline Member States and to considering options for organising emergency relocation between Member States on a voluntary basis, as well as to deploying European Asylum Support Office (EASO) teams in frontline Member States for the joint processing of applications for international protection, including registration and fingerprinting.

(5) In its resolution of 28 April 2015, the European Parliament reiterated the need for the Union to base its response to the latest tragedies in the Mediterranean on solidarity and fair sharing of responsibility and to step up its efforts in this area towards those Member States which receive the highest number of refugees and applicants for international protection in either absolute or relative terms.

(\(^1\)) Opinion of 17 September 2015 (not yet published in the Official Journal).
(6) Besides measures in the area of asylum, Member States at the frontline should increase their efforts to set up measures to cope with mixed migration flows at the external borders of the European Union. Such measures should safeguard the rights of those in need of international protection and prevent irregular migration.

(7) At its meeting of 25 and 26 June 2015, the European Council decided, inter alia, that three key dimensions should be advanced in parallel: relocation/resettlement, return/readmission/reintegration and cooperation with countries of origin and transit. The European Council agreed in particular, in the light of the current emergency situation and the commitment to reinforce solidarity and responsibility, on the temporary and exceptional relocation over 2 years, from Italy and from Greece to other Member States of 40 000 persons in clear need of international protection, in which all Member States would participate.

(8) The specific situations of the Member States result in particular from migratory flows in other geographical regions, such as the Western Balkans migratory route.

(9) Several Member States were confronted with a significant increase in the total number of migrants, including applicants for international protection, arriving on their territories in 2014 and some continue to be so confronted in 2015. Emergency financial assistance by the Commission and operational support by EASO were provided to several Member States to help them cope with this increase.

(10) Among the Member States witnessing situations of considerable pressure and in light of the recent tragic events in the Mediterranean, Italy and Greece in particular have experienced unprecedented flows of migrants, including applicants for international protection who are in clear need of international protection, arriving on their territories, generating significant pressure on their migration and asylum systems.

(11) On 20 July 2015, reflecting the specific situations of Member States, a Resolution of the representatives of the Governments of the Member States meeting within the Council on relocating from Greece and Italy 40 000 persons in clear need of international protection was adopted by consensus. Over a period of 2 years, 24 000 persons will be relocated from Italy and 16 000 persons will be relocated from Greece. On 14 September 2015, the Council adopted Decision (EU) 2015/1523 (2), which provided for a temporary and exceptional relocation mechanism from Italy and Greece to other Member States of persons in clear need of international protection.

(12) During recent months, the migratory pressure at the southern external land and sea borders has again sharply increased, and the shift of migration flows has continued from the central to the eastern Mediterranean and towards the Western Balkans route, as a result of the increasing number of migrants arriving in and from Greece. In view of the situation, further provisional measures to relieve the asylum pressure from Italy and Greece should be warranted.

(13) According to data of the European Agency for the Management of Operational Cooperation at the External Borders (Frontex), the central and eastern Mediterranean routes were the main areas for irregular border crossing into the Union in the first

8 months of 2015. Since the beginning of 2015, approximately 116 000 migrants arrived in Italy in an irregular manner, (including approximately 10 000 irregular migrants who have been registered by local authorities, but have yet to be confirmed in Frontex data). During May and June 2015, 34 691 irregular border crossings were detected by Frontex and during July and August, 42 356, an increase of 20 %. A strong increase was also witnessed by Greece in 2015, with more than 211 000 irregular migrants reaching the country (including approximately 28 000 irregular migrants who have been registered by local authorities, but have yet to be confirmed in Frontex data). During May and June 2015, 53 624 irregular border crossings were detected by Frontex and during July and August 137 000, an increase of 250 %). A significant proportion of the total number of irregular migrants detected in those two regions included migrants of nationalities which, based on the Eurostat data, meet a high Union-level recognition rate.

(14) According to Eurostat and EASO figures, 39 183 persons applied for international protection in Italy between January and July 2015, compared to 30 755 in the same period of 2014 (an increase of 27 %). A similar increase in the number of applications was witnessed by Greece with 7 475 applicants (an increase of 30 %).

(15) Many actions have been taken so far to support Italy and Greece in the framework of the migration and asylum policy, including by providing them with substantial emergency assistance and EASO operational support. Italy and Greece were the second and third largest beneficiaries of funding disbursed during the period 2007-2013 under the General Programme ‘Solidarity and Management of Migration Flows’ (SOLID), and, in addition, received substantial emergency funding.

Italy and Greece will likely continue to be the main beneficiaries of the Asylum, Migration and Integration Fund (AMIF) in 2014-2020.

(16) Due to the ongoing instability and conflicts in the immediate neighbourhood of Italy and Greece, and the repercussions in migratory flows on other Member States, it is very likely that a significant and increased pressure will continue to be put on their migration and asylum systems, with a significant proportion of the migrants who may be in need of international protection. This demonstrates the critical need to show solidarity towards Italy and Greece and to complement the actions taken so far to support them with provisional measures in the area of asylum and migration.

(17) On 22 September 2015, the Council noted the willingness and readiness of Member States to take part, in accordance with the principles of solidarity and fair sharing of responsibility between the Member States, which govern the Union policy on asylum and migration, in the relocation of 120 000 persons in clear need of international protection. The Council therefore decided to adopt this Decision.

(18) It should be recalled that Decision (EU) 2015/1523 sets out an obligation for Italy and Greece to provide structural solutions to address exceptional pressures on their asylum and migration systems, by establishing a solid and strategic framework for responding to the crisis situation and intensifying the ongoing reform process in these areas. The roadmaps which Italy and Greece have presented to that end should be updated to take this Decision into account.

(19) Bearing in mind that the European Council agreed on a set of interlinked measures, the Commission should be entrusted with the power to suspend, where appropri-
ate and having given the Member State concerned the opportunity to present its views, the application of this Decision for a limited period where Italy or Greece does not respect its commitments in this regard.

(20) As of 26 September 2016, 54 000 applicants should be proportionally relocated from Italy and Greece to other Member States. The Council and the Commission should keep under constant review the situation regarding massive inflows of third country nationals into Member States. The Commission should submit, as appropriate, proposals to amend this Decision in order to address the evolution of the situation on the ground and its impact upon the relocation mechanism, as well as the evolving pressure on Member States, in particular frontline Member States. In doing so, it should take into account the views of the likely beneficiary Member State.

Should this Decision be amended for the benefit of another Member State, that Member State should, on the date of entry into force of the relevant Council amending Decision, present a roadmap to the Council and the Commission which should include adequate measures in the area of asylum, first reception and return, enhancing the capacity, quality and efficiency of its systems in those areas, as well as measures to ensure appropriate implementation of this Decision with a view to allowing it better to cope, after the end of the application of this Decision, with a possible increased inflow of migrants on its territory.

(21) If any Member State should be confronted with a similar emergency situation characterised by a sudden inflow of nationals of third countries, the Council, on a proposal from the Commission, and after consulting the European Parliament, may adopt provisional measures for the benefit of the Member State concerned, on the basis of Article 78(3) TFEU. Such measures may include, where appropriate, a suspension of the obligations of that Member State provided for in this Decision.

(22) In accordance with Article 78(3) TFEU, the measures envisaged for the benefit of Italy and of Greece should be of a provisional nature. A period of 24 months is reasonable in view of ensuring that the measures provided for in this Decision have a real impact in respect of supporting Italy and Greece in dealing with the significant migration flows on their territories.

(23) The measures to relocate from Italy and from Greece, provided for in this Decision, entail a temporary derogation from the rule set out in Article 13(1) of Regulation (EU) No 604/2013 of the European Parliament and of the Council (3) according to which Italy and Greece would otherwise have been responsible for the examination of an application for international protection based on the criteria set out in Chapter III of that Regulation, as well as a temporary derogation from the procedural steps, including the time limits, laid down in Articles 21, 22 and 29 of that Regulation. The other provisions of Regulation (EU) No 604/2013, including the implementing rules set out in Commis-

(3) Regulation (EU) No 604/2013 of the European Parliament and of the Council of 26 June 2013 establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person (OJ L 180, 29.6.2013, p. 31).
sion Regulation (EC) No 1560/2003 (4) and Commission Implementing Regulation (EU) No 118/2014 (5), remain applicable, including the rules contained therein on the obligation for the transferring Member States to meet the costs necessary to transfer an applicant to the Member State of relocation and on the cooperation on transfers between Member States, as well as on transmission of information through the DubliNet electronic communication network. This Decision also entails a derogation from the consent of the applicant for international protection as referred to in Article 7(2) of Regulation (EU) No 516/2014 of the European Parliament and of the Council (6).

(24) Relocation measures do not absolve Member States from applying Regulation (EU) No 604/2013 in full, including the provisions related to family reunification, the special protection of unaccompanied minors, and the discretionary clause on humanitarian grounds.

(25) A choice had to be made in respect of the criteria to be applied when deciding which and how many applicants are to be relocated from Italy and from Greece, without prejudice to decisions at national level on asylum applications. A clear and workable system is envisaged based on a threshold of the average rate at Union level of decisions granting international protection in the procedures at first instance, as defined by Eurostat, out of the total number at Union level of decisions on applications for international protection taken at first instance, based on the latest available statistics. On the one hand, this threshold would have to ensure, to the maximum extent possible, that all applicants in clear need of international protection would be in a position to fully and swiftly enjoy their protection rights in the Member State of relocation. On the other hand, it would have to prevent, to the maximum extent possible, applicants who are likely to receive a negative decision on their application from being relocated to another Member State, and therefore from prolonging unduly their stay in the Union. A threshold of 75 %, based on the latest available updated Eurostat quarterly data for decisions at first instance, should be used in this Decision.

(26) The provisional measures are intended to relieve the significant asylum pressure on Italy and on Greece, in particular by relocating a significant number of applicants in clear need of international protection who will have arrived in the territory of Italy or Greece following the date on which this Decision becomes applicable. Based on the overall number of third-country nationals who have entered Italy and Greece irregularly in 2015, and the number of those who are in clear need of international protection, a total of 120 000 applicants in clear need of international protection should be relocated from Italy and Greece. This number corresponds to approximately 43 % of the total

---

number of third-country nationals in clear need of international protection who have entered Italy and Greece irregularly in July and August 2015. The relocation measure foreseen in this Decision constitutes fair burden sharing between Italy and Greece on the one hand and the other Member States on the other, given the overall available figures on irregular border crossings in 2015. Given the figures at stake, 13% of these applicants should be relocated from Italy, 42% from Greece and 45% should be relocated as provided for in this Decision.

(27) Within 3 months of the entry into force of this Decision, a Member State may, in exceptional circumstances and giving duly justified reasons compatible with the fundamental values of the Union enshrined in Article 2 of the Treaty on European Union, notify the Council and the Commission that it is unable to take part in the relocation process of up to 30% of applicants allocated to it in accordance with this Decision. Such exceptional circumstances include, in particular, a situation characterised by a sudden and massive inflow of nationals of third countries of such a magnitude as to place extreme pressure even on a well prepared asylum system otherwise functioning in line with the relevant Union acquis on asylum or a risk of sudden and massive inflow of nationals of third countries of such a high probability that it warrants an immediate action. Following an assessment, the Commission should submit proposals to the Council for an implementing decision regarding a temporary suspension of the relocation of up to 30% of applicants allocated to the Member State concerned. Where justified, the Commission may propose to extend the time limit for relocation of the remaining allocation by up to 12 months beyond the duration of this Decision.

(28) In order to ensure uniform conditions for the implementation of the relocation in the case of proportional relocation of 54,000 applicants from Italy and Greece to the other Member States, in the case where the participation of one or more Member States in the relocation of applicants should be suspended, or in the case where, following relevant notifications to the Council, other Member State(s) or Associated States take part in the relocation, implementing powers should be conferred on the Council.

The conferral of those powers upon the Council is justified in view of the politically sensitive nature of such measures, which touch on national powers regarding the admission of third country nationals on the territory of the Member States and the need to be able to adapt swiftly to rapidly evolving situations.

(29) The Asylum, Migration and Integration Fund (AMIF) set up by Regulation (EU) No 516/2014 provides support to burden-sharing operations agreed between Member States, and is open to new policy developments in that field. Article 7(2) of Regulation (EU) No 516/2014 provides for the possibility for Member States to implement actions related to the transfer of applicants for international protection as part of their national programmes, while Article 18 of that Regulation provides for the possibility of a lump sum payment of EUR 6,000 for the transfer of beneficiaries of international protection from another Member State.

(30) With a view to implementing the principle of solidarity and fair sharing of responsibility, and taking into account that this Decision constitutes a further policy development in this field, it is appropriate to ensure that the Member States that relocate, pursuant to this Decision, applicants from Italy and Greece who are in clear need of international protection, receive a lump sum for each relocated person which is identical to the lump sum provided for in Article 18 of Regulation
(EU) No 516/2014, namely EUR 6 000, and
is implemented by applying the same pro-
cedures. This entails a limited, temporary
derogation from Article 18 of that Regula-
tion because the lump sum should be paid in
respect of relocated applicants rather than in
respect of beneficiaries of international pro-
tection. Such a temporary extension of the
scope of potential recipients of the lump sum
appears indeed to be an integral part of the
emergency scheme set up by this Decision.
Moreover, with regard to the costs for the
transfer of persons relocated pursuant to this
Decision, it is appropriate to provide that Italy
and Greece receive a lump sum of at least
EUR 500 for each person relocated from their
respective territories, taking into account
the actual costs necessary to transfer an
applicant to the Member State of relocation.
Member States should be entitled to receive
additional pre-financing to be paid in 2016
following the revision of their national pro-
grammes under the Asylum, Migration and
Integration Fund to implement actions under
this Decision.

(31) It is necessary to ensure that a swift
relocation procedure is put in place and to
accompany the implementation of the pro-
visional measures by close administrative
cooperation between Member States and
operational support provided by EASO.

(32) National security and public order
should be taken into consideration through-
out the relocation procedure, until the trans-
fer of the applicant is implemented. In full
respect of the fundamental rights of the
applicant, including the relevant rules on
data protection, where a Member State has
reasonable grounds for regarding an appli-
cant as a danger to its national security or
public order, it should inform the other Mem-
ber States thereof.

(33) When deciding which applicants in
clear need of international protection should
be relocated from Italy and from Greece, pri-
ority should be given to vulnerable applicants
within the meaning of Articles 21 and 22 of
Directive 2013/33/EU of the European Parlia-
ment and of the Council (7). In this respect,
any special needs of applicants, including
health, should be of primary concern. The
best interests of the child should always be
a primary consideration.

(34) The integration of applicants in clear
need of international protection into the host
society is the cornerstone of a properly func-
tioning Common European Asylum System.
Therefore, in order to decide which specific
Member State should be the Member State of
relocation, specific account should be given
to the specific qualifications and characteris-
tics of the applicants concerned, such as their
language skills and other individual indica-
tions based on demonstrated family, cultural
or social ties which could facilitate their inte-
gration into the Member State of relocation.
In the case of particularly vulnerable appli-
cants, consideration should be given to the
capacity of the Member State of relocation
to provide adequate support to those appli-
cants and to the necessity of ensuring a fair
distribution of those applicants among Mem-
ber States. With due respect for the princi-
ple of non-discrimination, Member States
of relocation may indicate their preferences
for applicants based on the above informa-
tion on the basis of which Italy and Greece,
in consultation with EASO and, where appli-
cable, liaison officers, may compile lists of
possible applicants identified for relocation
to that Member State.

(7) Directive 2013/33/EU of the European Parliament
and of the Council of 26 June 2013 laying down
standards for the reception of applicants for inter-
(35) The legal and procedural safeguards set out in Regulation (EU) No 604/2013 remain applicable in respect of applicants covered by this Decision. In addition, applicants should be informed of the relocation procedure set out in this Decision and be notified with the relocation decision which constitutes a transfer decision within the meaning of Article 26 of Regulation (EU) No 604/2013. Considering that an applicant does not have the right under Union law to choose the Member State responsible for his or her application, the applicant should have the right to an effective remedy against the relocation decision in line with Regulation (EU) No 604/2013, only in view of ensuring respect for his or her fundamental rights. In line with Article 27 of that Regulation, Member States may provide in their national law that the appeal against the transfer decision does not automatically suspend the transfer of the applicant but that the person concerned has the opportunity to request a suspension of the implementation of the transfer decision pending the outcome of his or her appeal.

(36) Before and after being transferred to the Member States of relocation, applicants enjoy the rights and guarantees provided for in Directive 2013/32/EU (8) and Directive 2013/33/EU (9) of the European Parliament and of the Council, including in relation to their special reception and procedural needs. In addition, Regulation (EU) No 603/2013 of the European Parliament and of the Council (10) remains applicable in respect of applicants covered by this Decision, and Directive 2008/115/EC of the European Parliament and of the Council (11) is applicable for the returning of third-country nationals not having the right to remain on the territory. The above is subject to the limitations in the application of those Directives.

(37) In line with the Union acquis, a robust mechanism of identification, registration and fingerprinting for the relocation procedure should be ensured by Italy and Greece so as to quickly identify the persons in need of international protection who are eligible for relocation and to identify the migrants who do not qualify for international protection and should therefore be returned. This should also apply to persons who arrived on the territory of Italy or Greece between 24 March and 25 September 2015 in order for them to be eligible for relocation. When voluntary return is not practicable and other measures provided for in Directive 2008/115/EC are not adequate to prevent secondary movements, detention measures in line with Chapter IV of that Directive should be applied urgently and

(10) Regulation (EU) No 603/2013 of the European Parliament and of the Council of 26 June 2013 on the establishment of ‘Eurodac’ for the comparison of fingerprints for the effective application of Regulation (EU) No 604/2013 establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person and on requests for the comparison with Eurodac data by Member States’ law enforcement authorities and Europol for law enforcement purposes, and amending Regulation (EU) No 1077/2011 establishing a European Agency for the operational management of large-scale IT systems in the area of freedom, security and justice (OJ L 180, 29.6.2013, p. 1).

effectively. Applicants that elude the relocation procedure should be excluded from relocation.

(38) Measures should be taken in order to avoid secondary movements of relocated persons from the Member State of relocation to other Member States which could hamper the efficient application of this Decision. In particular, Member States should take the necessary preventive measures in the field of access to social benefits and legal remedies, in accordance with Union law. In addition, applicants should be informed of the consequences of irregular onward movement within the Member States and of the fact that, if the Member State of relocation grants them international protection, they are entitled to the rights attached to international protection only in that Member State.

(39) Additionally, in line with the objectives set out in Directive 2013/33/EU, the harmonisation of reception conditions amongst Member States should help to limit secondary movements of applicants for international protection influenced by the variety of conditions for their reception. With a view to reaching the same objective, Member States should consider imposing reporting obligations, and providing applicants for international protection with material reception conditions that include housing, food and clothing only in kind, as well as, where appropriate, ensuring that applicants are directly transferred to the Member State of relocation. Likewise, during the period of the examination of applications for international protection, as provided for in the asylum and Schengen acquis, except for serious humanitarian reasons, Member States should neither provide applicants with national travel documents, nor give them other incentives, such as financial ones, which could facilitate their irregular movements to other Member States. In case of irregular movements to other Member States, applicants for or beneficiaries of international protection should be required to go back to the Member State of relocation, and that Member State should take those persons back without delay.

(40) In order to avoid secondary movements of beneficiaries of international protection, Member States should also inform the beneficiaries about the conditions under which they may legally enter and stay in another Member State, and should be able to impose reporting obligations. Pursuant to Directive 2008/115/EC, Member States should require a beneficiary of international protection who is staying irregularly on their territories to go back immediately to the Member State of relocation. In case the person refuses to return voluntarily, return to the Member State of relocation should be enforced.

(41) Furthermore, if provided for in national law, in the case of enforced return to the Member State of relocation, the Member State which enforced the return may decide to issue a national entry ban that would prevent the beneficiary, for a certain period of time, from re-entering the territory of that specific Member State.

(42) As the purpose of this Decision is to address an emergency situation and to support Italy and Greece in reinforcing their asylum systems, it should allow them to make, with the assistance of the Commission, bilateral arrangements with Iceland, Liechtenstein, Norway and Switzerland on the relocation of persons falling within the scope of this Decision. Such arrangements should also reflect the core elements of this Decision, in particular those relating to the relocation procedure and the rights and obligations of applicants as well as those relating to Regulation (EU) No 604/2013.
(43) The specific support provided to Italy and to Greece through the relocation scheme should be complemented by additional measures, from the arrival of third-country nationals on the territory of Italy or of Greece until the completion of all applicable procedures, coordinated by EASO and other relevant Agencies, such as Frontex coordinating the return of third-country nationals not having the right to remain on the territory, in accordance with Directive 2008/115/EC.

(44) Since the objectives of this Decision cannot be sufficiently achieved by the Member States but can rather, by reason of the scale and effects of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union (TEU). In accordance with the principle of proportionality, as set out in that Article, this Decision does not go beyond what is necessary in order to achieve those objectives.

(45) This Decision respects the fundamental rights and observes the principles recognised by the Charter of Fundamental Rights of the European Union.

(46) In accordance with Articles 1 and 2 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, and without prejudice to Article 4 of that Protocol, the United Kingdom is not taking part in the adoption of this Decision and is not bound by it or subject to its application.

(48) In case where, following a notification made pursuant to Article 4 of Protocol No 21 by a Member State covered by that Protocol, the Commission confirms in accordance with Article 331(1) TFEU the participation of that Member State in this Decision, the Council should fix the number of applicants to be relocated to that Member State. The Council should also accordingly adapt the allocations of other Member States by reducing them in proportion.

(49) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Decision and is not bound by it or subject to its application.

(50) In view of the urgency of the situation, this Decision should enter into force on the date following that of its publication in the Official Journal of the European Union, HAS ADOPTED THIS DECISION:

**ARTICLE 1 SUBJECT MATTER**

1. This Decision establishes provisional measures in the area of international protection for the benefit of Italy and of Greece, in view of supporting them in better coping with an emergency situation characterised by a sudden inflow of nationals of third countries in those Member States.

2. The Commission shall keep under constant review the situation regarding massive inflows of third country nationals into Member States.

The Commission will submit, as appropriate, proposals to amend this Decision in order to
take into account the evolution of the situation on the ground and its impact upon the relocation mechanism, as well as the evolving pressure on Member States, in particular frontline Member States.

**ARTICLE 2 DEFINITIONS**

For the purposes of this Decision, the following definitions apply:

(a) ‘application for international protection’ means an application for international protection as defined in point (h) of Article 2 of Directive 2011/95/EU of the European Parliament and of the Council (12);

(b) ‘applicant’ means a third-country national or a stateless person who has made an application for international protection in respect of which a final decision has not yet been taken;

(c) ‘international protection’ means refugee status and subsidiary protection status as defined in points (e) and (g), respectively, of Article 2 of Directive 2011/95/EU;

(d) ‘family members’ means family members as defined in point (g) of Article 2 of Regulation (EU) No 604/2013;

(e) ‘relocation’ means the transfer of an applicant from the territory of the Member State which the criteria laid down in Chapter III of Regulation (EU) No 604/2013 indicate as responsible for examining his or her application for international protection to the territory of the Member State of relocation;

(f) ‘Member State of relocation’ means the Member State which becomes responsible for examining the application for international protection pursuant to Regulation (EU) No 604/2013 of an applicant following his or her relocation in the territory of that Member State.

**ARTICLE 3 SCOPE**

1. Relocation pursuant to this Decision shall take place only in respect of an applicant who has lodged his or her application for international protection in Italy or in Greece and for whom those States would have otherwise been responsible pursuant to the criteria for determining the Member State responsible set out in Chapter III of Regulation (EU) No 604/2013.

2. Relocation pursuant to this Decision shall be applied only in respect of an applicant belonging to a nationality for which the proportion of decisions granting international protection among decisions taken at first instance on applications for international protection as referred to in Chapter III of Directive 2013/32/EU of the European Parliament and of the Council (13) is, according to the latest available updated quarterly Union-wide average Eurostat data, 75 % or higher. In the case of stateless persons, the country of former habitual residence shall be taken into account. Quarterly updates shall be taken into account only in respect of applicants who have not already been identified as applicants who could be relocated in accordance with Article 5(3) of this Decision.

ARTICLE 4  RELOCATION OF 120 000 APPLICANTS TO MEMBER STATES

1. 120 000 applicants shall be relocated to the other Member States as follows:

(a) 15 600 applicants shall be relocated from Italy to the territory of the other Member States in accordance with the table set out in Annex I;

(b) 50 400 applicants shall be relocated from Greece to the territory of the other Member States in accordance with the table set out in Annex II;

(c) 54 000 applicants shall be relocated to the territory of the other Member States, proportionally to the figures laid down in Annexes I and II, either in accordance with paragraph 2 of this Article or through an amendment of this Decision, as referred to in Article 1(2) and in paragraph 3 of this Article.

2. As of 26 September 2016, 54 000 applicants, referred to in point (c) of paragraph 1, shall be relocated from Italy and Greece, in proportion resulting from points (a) and (b) of paragraph 1, to the territory of other Member States and proportionally to the figures laid down in Annexes I and II. The Commission shall submit a proposal to the Council on the figures to be allocated accordingly per Member State.

3. If by 26 September 2016, the Commission considers that an adaptation of the relocation mechanism is justified by the evolution of the situation on the ground or that a Member State is confronted with an emergency situation characterised by a sudden inflow of nationals of third countries due to a sharp shift of migration flows and taking into account the views of the likely beneficiary Member State, it may submit, as appropriate, proposals to the Council, as referred to in Article 1(2).

Likewise, a Member State may, giving duly justified reasons, notify the Council and the Commission that it is confronted with a similar emergency situation. The Commission shall assess the reasons given and submit, as appropriate, proposals to the Council, as referred to in Article 1(2).

4. In case where, following a notification made pursuant to Article 4 of Protocol No 21 by a Member State covered by that Protocol, the Commission confirms in accordance with Article 331(1) TFEU the participation of that Member State in this Decision, the Council shall, on a proposal from the Commission, fix the number of applicants to be relocated to the Member State concerned. In the same implementing decision, the Council shall also accordingly adapt the allocations of other Member States by reducing them in proportion.

5. A Member State may, in exceptional circumstances, by 26 December 2015, notify the Council and the Commission that it is temporarily unable to take part in the relocation process of up to 30 % of applicants allocated to it in accordance with paragraph 1, giving duly justified reasons compatible with the fundamental values of the Union enshrined in Article 2 of the Treaty on European Union. The Commission shall assess the reasons given and submit proposals to the Council regarding a temporary suspension of the relocation of up to 30 % of applicants allocated to the Member State concerned in accordance with paragraph 1. Where justified, the Commission may propose to extend the time limit for relocating the applicants in the remaining allocation by up to 12 months beyond the date referred to in Article 13(2).
6. The Council shall, within 1 month, decide on the proposals referred to in paragraph 5.

7. For the purpose of application of paragraphs 2, 4 and 6 of this Article, and of Article 11(2), the Council shall, on a proposal from the Commission, adopt an implementing decision.

**ARTICLE 5 RELOCATION PROCEDURE**

1. For the purpose of the administrative cooperation required to implement this Decision, each Member State shall appoint a national contact point, whose address it shall communicate to the other Member States and to EASO. Member States shall, in liaison with EASO and other relevant agencies, take all the appropriate measures to establish direct cooperation and an exchange of information between the competent authorities, including about the grounds referred to in paragraph 7.

2. Member States shall, at regular intervals, and at least every 3 months, indicate the number of applicants who can be relocated swiftly to their territory and any other relevant information.

3. Based on this information, Italy and Greece shall, with the assistance of EASO and, where applicable, of Member States' liaison officers referred to in paragraph 8, identify the individual applicants who could be relocated to the other Member States and, as soon as possible, submit all relevant information to the contact points of those Member States. Priority shall be given for that purpose to vulnerable applicants within the meaning of Articles 21 and 22 of Directive 2013/33/EU.

4. Following approval of the Member State of relocation, Italy and Greece shall, as soon as possible, take a decision to relocate each of the identified applicants to a specific Member State of relocation, in consultation with EASO, and shall notify the applicant in accordance with Article 6(4). The Member State of relocation may decide not to approve the relocation of an applicant only if there are reasonable grounds as referred to in paragraph 7 of this Article.

5. Applicants whose fingerprints are required to be taken pursuant to the obligations set out in Article 9 of Regulation (EU) No 603/2013 may be proposed for relocation only if their fingerprints have been taken and transmitted to the Central System of Eurodac, pursuant to that Regulation.

6. The transfer of the applicant to the territory of the Member State of relocation shall take place as soon as possible following the date of the notification to the person concerned of the transfer decision referred to in Article 6(4) of this Decision. Italy and Greece shall transmit to the Member State of relocation the date and time of the transfer as well as any other relevant information.

7. Member States retain the right to refuse to relocate an applicant only where there are reasonable grounds for regarding him or her as a danger to their national security or public order or where there are serious reasons for applying the exclusion provisions set out in Articles 12 and 17 of Directive 2011/95/EU.

8. For the implementation of all aspects of the relocation procedure described in this Article, Member States may, after exchanging all relevant information, decide to appoint liaison officers to Italy and to Greece.

9. In line with the Union *acquis*, Member States shall fully implement their obligations. Accordingly, identification, registration
and fingerprinting for the relocation procedure shall be guaranteed by Italy and by Greece. To ensure that the process remains efficient and manageable, reception facilities and measures shall be duly organised so as to temporarily accommodate people, in line with the Union acquis, until a decision is quickly taken on their situation. Applicants that elude the relocation procedure shall be excluded from relocation.

10. The relocation procedure provided for in this Article shall be completed as swiftly as possible and not later than 2 months from the time of the indication given by the Member State of relocation as referred to in paragraph 2, unless the approval by the Member State of relocation referred to in paragraph 4 takes place less than 2 weeks before the expiry of that 2-month period. In such case, the time limit for completing the relocation procedure may be extended for a period not exceeding a further 2 weeks. In addition, the time limit may also be extended, for a further 4-week period, as appropriate, where Italy or Greece show objective practical obstacles that prevent the transfer from taking place.

Where the relocation procedure is not completed within these time limits and unless Italy and Greece agree with the Member State of relocation to a reasonable extension of the time limit, Italy and Greece shall remain responsible for examining the application for international protection pursuant to Regulation (EU) No 604/2013.

11. Following the relocation of the applicant, the Member State of relocation shall take and transmit to the Central System of Eurodac the fingerprints of the applicant in accordance with Article 9 of Regulation (EU) No 603/2013 and update the data sets in accordance with Article 10 of, and, where applicable, Article 18 of that Regulation.

ARTICLE 6 RIGHTS AND OBLIGATIONS OF APPLICANTS FOR INTERNATIONAL PROTECTION COVERED BY THIS DECISION

1. The best interests of the child shall be a primary consideration for Member States when implementing this Decision.

2. Member States shall ensure that family members who fall within the scope of this Decision are relocated to the territory of the same Member State.

3. Prior to the decision to relocate an applicant, Italy and Greece shall inform the applicant in a language which the applicant understands or is reasonably supposed to understand of the relocation procedure as set out in this Decision.

4. When the decision to relocate an applicant has been taken and before the actual relocation, Italy and Greece shall notify the person concerned of the decision to relocate him in writing. That decision shall specify the Member State of relocation.

5. An applicant or beneficiary of international protection who enters the territory of a Member State other than the Member State of relocation without fulfilling the conditions for stay in that other Member State shall be required to return immediately. The Member State of relocation shall take back the person without delay.

ARTICLE 7 OPERATIONAL SUPPORT TO ITALY AND TO GREECE

1. In order to support Italy and Greece better to cope with the exceptional pressure on their asylum and migration systems caused by the current increased migratory pressure at their external borders, Member States shall increase their operational support in
cooperation with Italy and Greece in the area of international protection through relevant activities coordinated by EASO, Frontex and other relevant Agencies, in particular by providing, as appropriate, national experts for the following support activities:

(a) the screening of the third-country nationals arriving in Italy and Greece, including their clear identification, fingerprinting and registration, and, where applicable, the registration of their application for international protection and, upon request by Italy or Greece, their initial processing;

(b) the provision to applicants or potential applicants that could be subject to relocation pursuant to this Decision of information and specific assistance that they may need;

(c) the preparation and organisation of return operations for third-country nationals who either did not apply for international protection or whose right to remain on the territory has ceased.

2. In addition to the support provided under paragraph 1, and for the purpose of facilitating the implementation of all steps of the relocation procedure, specific support shall be provided as appropriate to Italy and to Greece through relevant activities coordinated by EASO, Frontex and other relevant Agencies.

ARTICLE 8 COMPLEMENTARY MEASURES TO BE TAKEN BY ITALY AND GREECE

1. Italy and Greece, shall, bearing in mind the obligations set out in Article 8(1) of Decision (EU) 2015/1523, and by 26 October 2015, notify to the Council and the Commission an updated roadmap taking into account the need to ensure appropriate implementation of this Decision.

2. Should this Decision be amended for the benefit of another Member State in accordance with Article 1(2) and Article 4(3), that Member State shall, on the date of entry into force of the relevant Council amending decision, present a roadmap to the Council and the Commission which shall include adequate measures in the area of asylum, first reception and return, enhancing the capacity, quality and efficiency of its systems in these areas as well as measures to ensure appropriate implementation of this Decision. That Member State shall fully implement that roadmap.

3. If Italy or Greece does not comply with the obligations referred to in paragraph 1, the Commission may decide, having given the Member State concerned the opportunity to present its views, to suspend the application of this Decision with regard to that Member State for a period of up to 3 months. The Commission may decide once to extend such suspension for a further period of up to 3 months. Such suspension shall not affect the transfers of applicants that are pending following approval of the Member State of relocation pursuant to Article 5(4).

ARTICLE 9 FURTHER EMERGENCY SITUATIONS

In the event of an emergency situation characterised by a sudden inflow of nationals of third countries in a Member State, the Council, on a proposal from the Commission and after consulting the European Parliament, may adopt provisional measures for the benefit of the Member State concerned, pursuant to Article 78(3) TFEU. Such measures may include, where appropriate, a suspension of the participation of that Member State in the relocation as provided for in this Decision, as well as possible compensatory measures for Italy and for Greece.
ARTICLE 10 FINANCIAL SUPPORT

1. For each person relocated pursuant to this Decision:

   (a) the Member State of relocation shall receive a lump sum of EUR 6,000;

   (b) Italy or Greece shall receive a lump sum of at least EUR 500.

2. This financial support shall be implemented by applying the procedures laid down in Article 18 of Regulation (EU) No 516/2014. By way of exception from the pre-financing arrangements set out in that Regulation, Member States shall, in 2016, be paid a pre-financing amount of 50% of their total allocation pursuant to this Decision.

ARTICLE 11 COOPERATION WITH ASSOCIATED STATES

1. With the assistance of the Commission, bilateral arrangements may be made between, Italy and, respectively Iceland, Liechtenstein, Norway and Switzerland, and between Greece and, respectively, Iceland, Liechtenstein, Norway and Switzerland, on the relocation of applicants from the territory of Italy and of Greece to the territory of those latter States. The core elements of this Decision, in particular those relating to the relocation procedure and the rights and obligations of applicants, shall be duly taken into account in those arrangements.

2. In case such bilateral arrangements are made, Italy or Greece shall notify to the Council and the Commission the number of applicants who are to be relocated to the associated States. The Council shall accordingly adapt, on a proposal from the Commission, the allocations of Member States by reducing them in proportion.

ARTICLE 12 REPORTING

On the basis of the information provided by the Member States and by the relevant agencies, the Commission shall report to the Council every 6 months on the implementation of this Decision.

On the basis of the information provided by Italy and by Greece, the Commission shall also report to the Council every 6 months on the implementation of the roadmaps referred to in Article 8.

ARTICLE 13 ENTRY INTO FORCE

1. This Decision shall enter into force on the day following that of its publication in the Official Journal of the European Union.

2. It shall apply until 26 September 2017.

3. It shall apply to persons arriving on the territory of Italy and Greece from 25 September 2015 until 26 September 2017, as well as to applicants having arrived on the territory of those Member States from 24 March 2015 onwards.

Done at Brussels, 22 September 2015.

COUNCIL DECISION (EU) 2016/1754 OF 29 SEPTEMBER 2016
AMENDING DECISION (EU) 2015/1601 ESTABLISHING
PROVISIONAL MEASURES IN THE AREA OF INTERNATIONAL
PROTECTION FOR THE BENEFIT OF ITALY AND GREECE

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 78(3) thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the European Parliament (1),

Whereas:

(1) On the basis of Article 78(3) of the Treaty on the Functioning of the European Union (TFEU), the Council adopted two Decisions establishing provisional measures in the area of international protection for the benefit of Italy and Greece. Under Council Decision (EU) 2015/1523 (2), 40 000 applicants for international protection are to be relocated from Italy and Greece to the territory of other Member States, unless, pursuant to Article 4(3) of that Decision, by that date the Commission makes a proposal to allocate them to a particular beneficiary Member State confronted with an emergency situation characterised by a sudden inflow of persons.

(2) In accordance with Article 1(2) of Decision (EU) 2015/1601 (3), 120 000 applicants for international protection are to be relocated from Italy and Greece to other Member States. Under Council Decision (EU) 2015/1601 (4), 54 000 applicants are to be relocated from Italy and Greece to the territory of other Member States, unless, pursuant to Article 4(3) of that Decision, by that date the Commission makes a proposal to allocate them to a particular beneficiary Member State confronted with an emergency situation characterised by a sudden inflow of persons.

(3) Article 1(2) of Decision (EU) 2015/1601 provides that the Commission is to keep under constant review the situation regarding massive inflows of third country nationals into Member States. The Commission is to submit, as appropriate, proposals to amend that Decision in order to take into account the evolution of the situation on the ground and its impact upon the relocation mechanism, as well as the evolving pressure on Member States, in particular frontline Member States.

(4) With the aim of ending irregular migration from Turkey to the EU, on 18 March 2016 (5), the EU and Turkey agreed on a number of action points, including to resettle, for every Syrian readmitted by Turkey from Greek islands, another Syrian from Turkey to the Member States, within the framework of the existing commitments. Resettlement under that mechanism will take place, in the first instance, by honouring the commitments taken by Member States in the conclusions of Representatives of the Governments of Member States meeting within the Council on 20 July 2015. Any further need for resettlement is to be carried out through a similar

(1) Not yet published in the Official Journal.
(4) EU-Turkey Statement of 18 March 2016.
voluntary arrangement up to a limit of an additional 54,000 persons by allowing for any resettlement commitment undertaken in the framework of that arrangement to be offset against non-allocated places under Decision (EU) 2015/1601.

(5) Resettlement, humanitarian admission or other forms of legal admission from Turkey under national and multilateral schemes can be expected to relieve the migratory pressure on Member States which are beneficiaries of relocation under Decision (EU) 2015/1601 by providing a legal and safe pathway to enter the Union and by discouraging irregular entries. Therefore, the solidarity efforts of Member States consisting in voluntarily admitting to their territory Syrian nationals present in Turkey who are in clear need of international protection should be taken into account in relation to the 54,000 applicants for international protection referred to above. The number of persons so admitted from Turkey by a Member State should be deducted from the number of persons to be relocated to that Member State under Decision (EU) 2015/1601 in relation to those 54,000 applicants.

(6) Mechanisms for admission may include resettlement, humanitarian admission or other legal pathways for admission of Syrian nationals present in Turkey who are in clear need of international protection, such as humanitarian visa programmes, humanitarian transfer, family reunification programmes, private sponsorship projects, scholarship programmes, labour mobility schemes, and others.

(7) The commitments that Member States undertook as part of the resettlement scheme agreed in the Conclusions of the Representatives of the Governments of the Member States meeting within the Council of 20 July 2015 should not be affected by this Decision and should not count towards meeting the obligations under Decision (EU) 2015/1601. Therefore, a Member State which chooses to meet its obligations under Decision (EU) 2015/1601 by admitting Syrians present in Turkey through resettlement, should not be able to count that effort as constituting part of its commitment under the 20 July 2015 resettlement scheme.

(8) To ensure a proper monitoring of the situation, a Member State should, once it chooses to use this option, report on a monthly basis to the Commission on Syrians present in Turkey admitted to its territory under the option provided for in this amendment specifying under which scheme, national or multilateral, the person has been admitted and the form of legal admission.

(9) Since the objectives of this Decision cannot be sufficiently achieved by the Member States but can rather, by reason of the scale and effects of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union (TEU). In accordance with the principle of proportionality, as set out in that Article, this Decision does not go beyond what is necessary in order to achieve those objectives.

(10) This Decision respects the fundamental rights and observes the principles recognised by the Charter of Fundamental Rights of the European Union.

(11) In accordance with Articles 1 and 2 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, and without prejudice to Article 4 of that Protocol, the United Kingdom is not taking part in the adoption of this Deci-
sion and is not bound by it or subject to its application.

(12) In accordance with Articles 1 and 2 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the TEU and to the TFEU, and without prejudice to Articles 4 and 4a of that Protocol, Ireland is not taking part in the adoption of this Decision and is not bound by it or subject to its application.

(13) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Decision and is not bound by it or subject to its application.

(14) In view of the urgency of the situation, this Decision should enter into force on the day following that of its publication in the Official Journal of the European Union, HAS ADOPTED THIS DECISION:

ARTICLE 1

In Article 4 of Decision (EU) 2015/1601, the following paragraph is inserted:

‘3a. In relation to the relocation of applicants referred to in point (c) of paragraph 1, Member States may choose to meet their obligation by admitting to their territory Syrian nationals present in Turkey under national or multilateral legal admission schemes for persons in clear need of international protection, other than the resettlement scheme which was the subject of the Conclusions of the Representatives of the Governments of the Member States meeting within the Council of 20 July 2015. The number of persons so admitted by a Member State shall lead to a corresponding reduction of the obligation of the respective Member State.

Article 10 shall apply mutatis mutandis for every such legal admission leading to a reduction of the relocation obligation.

Member States, which choose to use the option provided in this paragraph, shall report monthly to the Commission on the number of persons legally admitted for the purposes of this paragraph, indicating the type of scheme under which the admission has taken place and the form of legal admission used.’

COMMISSION DELEGATED REGULATION (EU) 2015/1973
OF 8 JULY 2015 SUPPLEMENTING REGULATION
(EU) NO 514/2014 OF THE EUROPEAN PARLIAMENT
AND OF THE COUNCIL WITH SPECIFIC PROVISIONS ON
THE REPORTING OF IRREGULARITIES CONCERNING THE ASYLUM,
MIGRATION AND INTEGRATION FUND AND THE INSTRUMENT
FOR FINANCIAL SUPPORT FOR POLICE COOPERATION,
PREVENTING AND COMBATING CRIME, AND CRISIS MANAGEMENT

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management (1), and in particular Article 5(5) thereof,

Whereas:

(1) The purpose of this Regulation is to determine which irregularities Member States should report to the Commission. In order to allow the Commission to perform its tasks concerning the protection of the financial interests of the Union, in particular to allow the Commission to perform risk analysis, it should also be established which data are to be provided.

(2) Financial interests of the Union should be protected in the same way irrespective of the fund used to deliver the objectives for which it was established. To that end Regulation

(3) The definition of ‘irregularity’ used for the purposes of this Regulation should be that of Article 1(2) of Council Regulation (EC, Euratom) No 2988/95 (8). For the purposes of that definition, ‘economic operator’ should mean any natural or legal persons or other entity taking part in the implementation of assistance from the fund, with the exception of a Member State exercising its prerogatives as a public authority.

(4) To enable a coherent application of the reporting requirements across the Member States it is necessary to define the term ‘suspected fraud’, taking into account the definition of fraud contained in the Convention drawn up on the basis of Article K.3 of the Treaty on European Union, on the protection of the European Communities’ financial interests (9), and the term ‘primary administrative or judicial finding’.

(5) Regulations (EU) No 1303/2013 and (EU) No 223/2014 determine the reporting threshold below which irregularities do not need to be reported to the Commission and cases for which there is no need for reporting. In order to simplify and to align the provisions, and to strike a balance between the administrative burden on Member States and the common interest in the provision of accurate data for the purpose of analysis in the Union’s fight against fraud, it is necessary to apply the same reporting threshold and the same derogations for the reporting of irregularities under Regulations (EU) No 1306/2013 and (EU) No 514/2014.

(6) In order to ensure consistency of reporting it is necessary to establish criteria for determining when irregularities are to be initially reported and the data to be provided in such initial reports.

(7) In order for the data provided to the Commission to be accurate, follow-up reporting is necessary. Member States should, therefore, provide the Commission with up-to-date information on any significant progress in the administrative and legal procedures or proceedings related to each initial report.

---

(9) OJ C 316, 27.11.1995, p. 49.

Parliament and of the Council (11) the Commission and the Member States should, in relation to the information provided pursuant to this Regulation, prevent any unauthorised disclosure of, or access to, personal data. In addition, this Regulation should specify the purposes for which the Commission and the Member States may process that data.

(9) The United Kingdom and Ireland are bound by Regulation (EU) No 514/2014 and are as a consequence bound by this Regulation.

(10) Denmark is not bound by Regulation (EU) No 514/2014, nor by this Regulation.

(11) As payments have already been made for the funds concerned and irregularities could occur, the provisions of this Regulation should apply immediately. This Regulation should therefore enter into force on the day following that of its publication in the Official Journal of the European Union,

HAS ADOPTED THIS REGULATION:

ARTICLE 1 SUBJECT MATTER

This Regulation determines which irregularities are to be reported and establishes which data are to be provided by Member States to the Commission

ARTICLE 2 DEFINITIONS

For the purposes of this Regulation, the following definitions shall apply:

(a) ‘suspected fraud’ means an irregularity that gives rise to the initiation of administrative or judicial proceedings at national level in order to establish the presence of intentional behaviour, in particular fraud, as referred to in Article 1(1)(a) of the Convention drawn up on the basis of Article K.3 of the Treaty on European Union, on the protection of the European Communities’ financial interests;

(b) ‘primary administrative or judicial finding’ means a first written assessment by a competent authority, either administrative or judicial, concluding on the basis of specific facts that an irregularity has been committed, without prejudice to the possibility that this conclusion may subsequently have to be revised or withdrawn as a result of developments in the course of the administrative or judicial procedure.

(o) the nature of the irregular expenditure;

(p) the suspension of payments, where applicable, and the possibility of recovery of amounts paid.

3. By way of derogation from paragraph 1, the Member States shall not report to the Commission irregularities in relation to the following:

(b) cases brought to the attention of the responsible authority or the audit authority by the beneficiary voluntarily and before detection by either authority, whether before or after the payment of the public contribution;

(c) cases which are detected and corrected by the responsible authority, or the audit authority, before inclusion of the expenditure concerned in a statement of expenditure submitted to the Commission.

In all other cases, in particular, those preceding a bankruptcy or in cases of suspected fraud, the detected irregularities and the associated preventive and corrective measures shall be reported to the Commission.

4. Where national provisions provide for the confidentiality of investigations, communication of the information shall be subject to the authorisation of the competent tribunal, court or other body in accordance with national rules.

**ARTICLE 4 FOLLOW-UP REPORTING**

1. Where some of the information referred to in Article 3(2), in particular information con-
cerning the practices employed in committing the irregularity and the manner in which it was discovered, is not available or needs to be rectified, Member States shall provide the missing or correct information in follow-up reports of irregularities to the Commission.

2. Member States shall keep the Commission informed on the initiation, conclusion or abandonment of any procedures or proceedings for imposing administrative measures, administrative penalties, or criminal penalties with regard to the reported irregularities, as well as the outcome of those procedures or proceedings. With regard to irregularities for which penalties have been imposed, Member States shall also indicate:

(a) whether the penalties are of an administrative or a criminal nature;

(b) whether the penalties result from a breach of Union or national law and details of the penalties;

(c) whether fraud was established.

3. At the Commission’s written request the Member State shall provide information in relation to a specific irregularity or group of irregularities.

ARTICLE 5 USE AND PROCESSING OF INFORMATION

1. The Commission may use any information provided by Member States in accordance with this Regulation to perform risk analysis, using information technology support, and may, on the basis of the information obtained, produce reports and develop systems serving to identify risks more effectively.

2. Information provided under this Regulation shall be covered by professional confidentiality and protected in the same way as it would be protected by the national legislation of the Member State that provided it and by the provisions applicable to the Union’s institutions. Member States and the Commission shall take all necessary precautions to ensure that the information remains confidential.

3. The information referred to in paragraph 2 may not, in particular, be disclosed to persons other than those in the Member States or within the Union’s institutions whose duties require that they have access to it, unless the Member State providing it has given its express consent.

4. The information referred to in paragraph 2 may not be used for any purposes other than the protection of the Union’s financial interests unless the authorities that have provided it have given their express consent.
