

INTERNAL SECURITY FUND POLICE (2014-2020)

CALL FOR PROPOSALS – HOME/2014/ISFP/AG/CYBR

FIGHTING CYBERCRIME AND CHILD SEXUAL ABUSE

1. INTRODUCTION – BACKGROUND

The Internal Security Fund Police (ISF Police) aims at supporting actions addressing internal security challenges, in line with the relevant strategic objectives set by the EU Internal Security Strategy (ISS) adopted in 2010, namely:

- disrupting international crime networks;
- preventing terrorism and addressing radicalisation and recruitment;
- raising the levels of security for citizens and businesses in cyberspace;
- increasing Europe's resilience to crises and disasters.

Legal basis of ISF Police are the following regulations:

- Regulation (EU) No 513/2014 of the European Parliament and of the Council of 16 April 2014 establishing the Instrument for financial support for police cooperation, preventing and combating crime, and crisis management (OJ L 150 of 20 May 2014);
- Regulation (EU) No 514/2014 of the European Parliament and of the Council of 16 April 2014 laying down general provisions on the Asylum, Migration and Integration Fund and on the instrument for financial support for police cooperation, preventing and combating crime, and crisis management (OJ L 150 of 20 May 2014).

In conformity with Regulation (EU) No 514/2014 Article 6.2, in order to implement the ISF Police, the Commission has adopted, on 8 August 2014, the 2014 Annual Work Programme for Union Actions, which includes this Call for Proposals.

2. OBJECTIVES AND PRIORITIES

The ISF Police Regulation sets out two specific objectives, respectively:

- (i) crime prevention, combating cross-border, serious and organised crime including terrorism, and reinforcing coordination and cooperation between law enforcement authorities and other national authorities of Member States, including with Europol or other relevant Union bodies, and with relevant third countries and international organisations;
- (ii) enhancing the capacity of Member States and the Union for managing effectively security-related risks and crises, and preparing for and protecting people and critical infrastructure against terrorist attacks and other security-related incidents.

In this context, the present Call for Proposals aims at funding projects on fighting cybercrime and child sexual abuse.

Over the last four years, a number of measures have been put into place to contribute to the European fight against cybercrime. The EU has adopted two Directives, on combating

child sexual abuse and exploitation,¹ and on attacks against information systems,² which harmonize the criminal law of Member States and facilitate cooperation between law enforcement authorities. The Cybersecurity Strategy for the European Union, adopted in February 2013, has set out necessary steps to ensure cybersecurity and more effectively fight cybercrime³. Furthermore, the Commission launched the European Cybercrime Centre (EC3) at Europol in early 2013. The EC3 is becoming a focal point for cybercrime-related issues and has been cooperating with Member States and third States on a number of very successful investigations. Finally, the Commission and the United States have cooperated to initiate 'A Global Alliance against Child Sexual Abuse Online in 2012',⁴ which brings together 54 countries dedicated to improve victim identification, to prosecute perpetrators more successfully, to increase awareness and to reduce the amount of child sexual abuse images available online.

Project applications submitted under the present Call for Proposals must address at least one of the **following priorities**:

1) Creating Public-Private Partnerships (PPPs) to fight cybercrime. PPPs shall satisfy all the following requirements:

- involve both key actors from the private sector (ICT companies, companies and bodies conducting their activities in cyberspace) and law enforcement agencies (involvement of judiciary and other authorities involved in the fight against cybercrime would be an asset);
- focus on operational cooperation to investigate specific occurrences of cybercrime, prevent future crimes and protect actual and potential victims. The activities to be developed under the PPPs will concentrate primarily on reporting crime, facilitating investigations, and taking remedial action;
- ensure ownership of the common endeavour by private actors inter alia by securing substantial financial and operational contributions to the PPP from private actors, including information for the future sustainability of the project;
- adopt agreements regulating competition and liability issues;
- put in place elements to develop a relationship of trust among participating bodies;
- set up a framework to ensure full compliance of activities with due process and data protection requirements;
- include precise plans to ensure the self-sustainability of the PPP in the mid and long term and its eventual expansion;
- include roadmaps to interact and exchange information with PPPs, public and private actors of other countries or with a transnational dimension.

2) Supporting an integrated EU approach to prevent and fight cybercrime by building capability of law enforcement authorities:

Projects should build on scientific material available in the domain and in particular exploit, where possible, publicly available material resulting from relevant projects supported by

¹ Directive 2011/93/EU of 13 December 2011 on combating the sexual abuse and sexual exploitation of children and child pornography, and replacing Council Framework Decision 2004/68/JHA, L 335/1 of 17 December 2011.

² Directive 2013/40/EU of 12 August 2013 on attacks against information systems and replacing Council Framework Decision 2005/222/JHA, L 218/8 of 14 August 2013.

the European Commission (e.g. under the ISEC programme⁵ and Safer Internet Programme⁶) as well as from any other relevant project. Applications should demonstrate that projects do not duplicate existing work or products and include evidence of user needs. The tools developed under this priority shall be made available for their use to law enforcement authorities, as well as to the European Cybercrime Centre at Europol, at little or no cost. Law enforcement authorities should be involved in the full development cycle of the project deliverables. The applications should clearly demonstrate how this will be implemented.

3) Prevention and fight against child sexual abuse online, including the 'Global Alliance against Child Sexual Abuse Online':

Projects should build on scientific material available in the domain and in particular exploit, where possible, publicly available material resulting from relevant projects supported by the European Commission (e.g. under the ISEC programme and Safer Internet Programme) as well as from any other relevant project. Applications should demonstrate that projects do not duplicate existing work or products and include evidence of user need. End user involvement including regular feedback on products etc. is strongly encouraged.

To meet the priorities mentioned above, projects should achieve one or more of the following **outcomes**:

Under the priority "Creating Public-Private Partnerships (PPPs) to fight cybercrime":

- Establishment of PPPs between key actors from the private sector and law enforcement agencies focusing on operational cooperation to investigate specific occurrences of cybercrime, prevent future crimes and protect actual and potential victims, in particular the reporting of crimes, facilitating investigations, and taking remedial action. The PPPs should become self-sustainable, implying common ownership of all partners, with an agreed, appropriate framework to ensure a relationship of trust among participating bodies. The PPP should set up a framework to regulate competition and liability issues and ensure full compliance of activities with due process and data protection requirements.

Under the priority "Supporting an integrated EU approach to prevent and fight cybercrime by building capability of law enforcement authorities":

- Identification and development of good practices related to investigative techniques and establishment of standards for the gathering and provision of digital evidence;
- Development of innovative digital investigative and forensic tools to support the law enforcement agencies in combating cybercrime;
- Development of tools to identify new threats as they emerge, to monitor their evolution and share information between relevant partners;
- Improving the efficiency of 24/7 (permanent) law enforcement contact points for cybercrime;
- Establishment of national cybercrime centres of excellence to promote cybercrime investigation training, research and education. The national centres should cooperate as closely as possible with existing ISEC-funded projects, as well as with the European Cybercrime Centre at Europol, and should avoid duplicating each other's work. The centres should create a network and share products and work.

⁶ <http://ec.europa.eu/digital-agenda/self-regulation-better-internet-kids>

Under the priority "Prevention and fight against child sexual abuse online, including the 'Global Alliance against Child Sexual Abuse Online':

- Increased accountability of registrars of domain names;
- Ensuring accuracy of information on website ownership;
- Initiatives addressing the problem of travelling sex offenders;
- Identification of best practices and methods to improve the removal or blocking of access to web pages with child sexual abuse content;
- Improved accuracy and decreased processing time for identifying victims of child sexual abuse, including the creation of databases for the exchange of evidence and other information between relevant actors;
- Initiatives for victim assistance;
- Development of tools and actions to facilitate the coordination of the Global Alliance against child sexual abuse online or otherwise support its work.

Any actions under this Call for Proposals shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union. Applications should pay appropriate attention to the effects of the project on individual rights and freedoms, as well as to possible remedies.

8. SELECTION CRITERIA

8.1. Financial capacity

Applicants must have stable and sufficient sources of funding to maintain their activity throughout the period during which the action is being carried out and to participate in its funding.

Financial capacity will be assessed on the basis of the following values and ratios:

1. The Applicant and Co-applicants should show positive results for the following values:
 - net result (profit/loss)
 - their share of grant requested/operating income
 - their share of grant requested/assets
 - own funds
 - gross operating profit/loss.
2. The Applicant and Co-applicants will be assessed against the following ratios:
 - general liquidity: current assets/current liabilities

 - indebtedness: own funds/(own funds + long-term liabilities)
 - profitability: gross operating profit/operating income
 - self-financing capacity: net result + amortisation + depreciation.

In case of low financial capacity, the Commission may decide the following:

- request further documents;
- request budget modifications / reallocations of costs.

In case of insufficient financial capacity, the Commission may decide the following:

- request a change of Co-applicant;
- reject the application.

Supporting documents: The Applicants' financial capacity will be assessed on the basis of a Declaration of Honour to be provided by the Applicant (Annex 1) and each Co-applicant (Annex 2) which must be printed out, signed by the authorised signatory and

For newly created entities, the business plan including the starting financial statement may replace the above documents.

In addition, for Applicants and Co-applicants applying for grants \geq EUR 750.000, an audit report produced by an approved external auditor certifying the accounts for the last financial year available must be provided.

The financial capacity assessment is not applicable to public bodies and international organisations. Therefore they do not need to submit any supporting documents for financial capacity.

8.2. Operational capacity

This capacity shall be assessed based on the experience of the Applicants and each Co-applicant or, as an alternative, on the relevant experience of their directly involved employees.

Supporting documents: The Applicants' operational capacity will be assessed on the basis of a Declaration of Honour to be provided by the Applicant (Annex 1) and each Co-applicant (Annex 2), which must be printed out, signed by the authorised signatory and included (as a scanned document) in the Application Package, as well as the following supporting documents to be submitted with the application:

- or, where the Applicant or Co-applicant have not carried out any relevant project, the curriculum vitae and/or description of the profile of the people primarily responsible for managing and implementing the project activities (Annex 6).

This assessment is not applicable to public bodies and international organisations. Therefore they do not need to submit any supporting documents for operational capacity.

9. AWARD CRITERIA

Eligible applications will be assessed on the basis of the following criteria:

- Conformity: applications will be assessed on the extent to which they match the priorities and expected outcomes as identified in this call for proposals (section 2 above) and in the relevant EU strategic documents and/or action plans, and on whether the expected impact will be significant on the selected priority(ies) (30 points)
- Quality of the proposed action: applications will be assessed with regards to the appropriateness of their design and planned implementation, taking into account the envisaged activities, methodology, organisation of work and strategy for project management, evaluation and dissemination (20 points)

- Cost-effectiveness: applications will be assessed with regards to whether the costs of the proposed action are adequate to the activities and proportionate to the expected results (30 points)
- European added value: the project activities, outcomes and impact should have a broad EU relevance; applications will be assessed on whether a suitable number of countries is involved in the project activities and on whether the expected impact will concern a significant number of countries (20 points).

Applications that pass the threshold of 65 points will be considered for funding within the limits of the available budget. The European Commission will then prepare a so-called "award decision" listing the projects proposed for award.

10. LEGAL COMMITMENTS

A Commission award decision does not represent a legal or financial commitment. The award of each grant is subject to the conclusion of a Grant Agreement in writing.

In the event a grant is awarded by the Commission, a Grant Agreement, drawn up in euro and detailing the conditions and level of funding, will be sent to the Coordinator, as well as instructions on how to formalise the obligations of the parties.

Please note that the award of a grant does not establish any entitlement for subsequent years.

11. FINANCIAL PROVISIONS

11.1. General Principles

a) Non-cumulative award

An action may only receive one grant from the EU budget.

In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action (Application Form, section 2.1 and 2.2).

b) Non-retroactivity

No grant may be awarded retrospectively for actions already completed. A grant may be awarded for an action which has already begun only where the Applicant can demonstrate the need to start the action before the Grant Agreement is signed. In any case, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) Co-financing

Co-financing means that the resources which are necessary to carry out the action may not be entirely provided by the EU grant.

Co-financing of the action may take the form of:

- the Beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

d) Balanced budget

The Budget Estimate of the action is to be attached to the Application Form. It must have revenue and expenditure in balance and must be drawn up in euro.

Beneficiaries with general accounts in a currency other than the euro shall convert costs incurred in another currency into euro at the average of the daily exchange rates published in the C series of Official Journal of the European Union, determined over the corresponding reporting period.¹¹ Where no daily euro exchange rate is published in the Official Journal of the European Union for the currency in question, conversion shall be made at the average of the monthly accounting rates established by the Commission and published on its website (http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/inforeuro_en.cfm), determined over the corresponding reporting period.

Beneficiaries with general accounts in euro shall convert costs incurred in another currency into euro according to their usual accounting practices.

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the Beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retain the documentation for the event of an audit. Detailed information on subcontracting is provided in the Guide for Applicants.

e) Financial support to third parties

The applications may not envisage provision of financial support to third parties.

f) Non-profit rule

EU grants may not have the purpose or effect of producing a profit within the framework of the action. Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the Beneficiary, when the request is made for payment of the balance. In this respect, where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the Beneficiary to carry out the action.

11.2. Maximum amount requested

The EU grant is limited to a maximum co-funding rate of 90% of the total eligible costs of the action.

Consequently, part of the total eligible expenses entered in the Budget Estimate must be financed from sources other than the EU grant (see section 11.1.c).

The Commission reserves the right to reduce the estimated costs in the Budget Estimate, if they are deemed as ineligible.

11.3. Payment arrangements

A pre-financing payment corresponding to 80% of the EU grant amount will be transferred to the Coordinator after the signature of the Grant Agreement by both parties and in accordance with its terms.

The Commission will establish the amount of the final payment to be made to the Coordinator on the basis of the calculation of the final grant amount. If the total of earlier payments is higher than the final grant amount, the Beneficiaries will be required to reimburse the amount paid in excess by the Commission through a recovery order.

12. PROCEDURE FOR THE SUBMISSION OF APPLICATIONS

Applications must be submitted electronically via the PRIAMOS system in accordance with the formal requirements set out under section 5 and by the deadline set out under section 3, after which the system will not accept any application.

No modification to the application is allowed once the deadline for submission has elapsed. However, if there is a need to clarify certain aspects or for the correction of clerical mistakes, the Commission may contact the Applicant during the evaluation process.

¹¹ For further guidance on exchange rate please consult the Guide for Applicants.

Failure to respond by the deadline set may lead to rejection of the application. Applicants must take the necessary steps to ensure that they can respond rapidly until the end of the selection process.

Applicants are requested to log in at the PRIAMOS system at http://ec.europa.eu/dgs/home-affairs/financing/fundings/priamos-section/index_en.htm and follow the procedure for submitting an application.

Note that if an Applicant wants to submit more than one application under the same Call for Proposals, a different Application Form must be downloaded for each application, so that each application has its unique application number.

Please note that although the PRIAMOS system is able to deal with many applications at the same time, it is advisable NOT to wait until the last moment to register in the system and submit an application.

Applications submitted via the PRIAMOS system shall not be sent by regular mail or by e-mail. Applications that are not submitted via PRIAMOS shall not be considered for evaluation.

Applications must be submitted using the forms and templates provided. If the forms or templates are altered, the application may be rejected.
