PILOT PROJECT ON RESETTLEMENT

CALL FOR PROPOSALS

2011
I. INTRODUCTION

The Pilot Project to create a network of contact and discussion between targeted municipalities on experiences and best practices in resettlement and integration of refugees was created at the initiative of the European Parliament to benefit local and regional authorities/municipalities involved in resettlement, Member States, NGOs and refugees.

The main objective of the pilot project is to establish contact and discussion between targeted municipalities and local/regional authorities of Member States who have just started resettlement programmes, or want to participate in a near future; and those Member States which are experienced in resettlement, together with UNHCR and NGOs, to share experiences and best practices in resettlement and integration of refugees.

More Information

For a glossary of terms and definitions used in this call for proposals see the Guide for Applicants - section I

II. SCOPE OF THE CALL

This call for proposals aims at selecting proposals to be co-funded by the European Commission.

1. Who may apply?

The call for proposals is open to national, regional and local authorities, non-governmental organisations (NGOs), public or private bodies, university departments, research centres and international organisations.

1) Actions should be implemented through the coordination of a partnership. Since these actions are trans-national, the partnership must include at least four organisations (the applicant and three partners).

2) Applicants and partners must be registered\(^1\) in any EU Member State except Denmark.

3) The applicant and partners must be from at least two different EU Member States\(^2\).

4) Proposals must be submitted by a legal person, i.e. the co-ordinator, who carries out the project with at least three other distinct legal entities.

5) The call for proposals is open to organisations working on a non-profit basis and with proven experience and expertise in the fields covered, taking into account their respective competences.

\(^1\) Not applicable for international organisations.

\(^2\) An international organisation shall be deemed to be established in a Member State other than any Member State in which another partner is established.
Actions may include associated partners from Denmark as well as third countries, but the cost of their participation must be financed entirely by non-EU resources.

If you apply for a grant…

- Verify that a partnership of at least four organisations (applicant + three partners) is established.
- Verify that all participating organisations (applicant and partners) are distinct, and that they come from at least two different EU Member States (exceptions defined in points 2) and 3) above).
- Verify that all participating organisations (applicant and partners) are non-profit organisations.
- Verify that the project budget does not include any costs for organisations established in Denmark or non-EU countries.

2. Priorities and specific objectives

As defined in the Work Programme 2011 of the Pilot Project on Resettlement, the Pilot Project has its priority to establish contacts and a discussion network between municipalities and other local and regional authorities of those Member States which have just started a resettlement programme or want to participate in a near future, and of those Member States which are experienced in resettlement, together with UNHCR and NGOs experienced in best practices in the resettlement and integration of refugees.

In this view the Pilot Project will pursue the following three specific objectives. Proposals must address at least one of the specific objectives.

Specific objective 1: Creation of a cooperation network

The creation of a cooperation network, including a steering board, composed of municipalities and other local and regional authorities in Member States which already implement resettlement programmes, which are in the preparatory phase of their national resettlement programmes, or which do not yet participate in resettlement programmes, but wish to make part of the network, aiming for future participation in such programmes.

Specific objective 2: Organisation of meetings

The organisation of meetings between the representatives of the entities mentioned above, along with UNHCR, NGOs active in the field and resettled refugees, to exchange best practices and define the activities to develop together, including visits, exchanges of experiences, trainings, thematic meetings focusing on issues such as: housing, education, employment, etc. When necessary, contacts should be established with national authorities, the European Commission and the European Asylum Support Office (EASO).

Specific objective 3: Exchange of information

The development of means to collect, exchange and disseminate information from the various stakeholders on: procedures, monitoring prior to resettlement, information collected on refugees to be resettled (including cultural, health and educational issues, food), resettlement-related infrastructure,
human resources, accommodation, reception, actions taken after the resettlement to promote integration of refugees, including community participation in this process, any kind of economic, legal or educational aid provided to resettled refugees and the receiving communities, the role of resettled refugees in facilitating the integration of newly arrived resettled refugees, cooperation with NGOs and any other relevant issue.

If you apply for a grant…

- Verify that your proposal responds to the priority of the call.
- Verify that the proposal addresses at least one of the specific objectives defined in the call.

3. Duration and start date

The initial duration of a proposed action must not exceed 18 months. Co-financed actions will have to start as soon as possible after the conclusion of a grant agreement.

A grant may be awarded for an action which has already started only where the applicant can demonstrate the need to start the action before a grant agreement is concluded. In such cases, expenditure eligible for financing may not have been incurred prior to the date of submission of the grant request, following publication of the call.

4. Budget and financial provisions

In 2011, the indicative budget available for this programme is 1.500.000,00 €.

Actions are funded in the form of co-financing. The EU’s financial contribution may not exceed 90% of the total eligible cost of the action; the remaining 10% must be financed by the partnership or other sources. The necessary co-financing by the applicant, by partners and/or by other third parties shall be confirmed before a grant agreement with the Commission is concluded.

The requested EU co-financing must be at least 350.000 € for all applicants.
The requested EU co-financing will not exceed 1.000.000 € if the applicant is a National Authority (such as ministries or national agencies) or the UNHCR; and 750.000 € for other applicants.

Details of the cost of a proposed action must be provided in the Budget Form. Costs must be necessary and clearly related to the action.

The co-financing of an action under this call for proposals cannot include funds obtained from another programme financed from the budget of the European Union.

Where the application concerns grants for an action for which the amount exceeds EUR 500 000, an audit report produced by an approved external auditor shall be submitted. That report shall certify the accounts for the last financial year available. The thresholds shall apply to each participating organisation (applicant or partner).

Should a project be selected for funding, a grant agreement will be concluded between the applicant organisation and the European Commission. This agreement is a standard agreement, and its terms and conditions may not be altered or subject to negotiation. If the successful applicant is an international organisation, a contribution agreement or any other specific contract agreed between the international organisation concerned and the European Commission will be used instead of the standard grant...
agreement, provided that the international organisation in question offers the guarantees specified in article 53d (1) of the Financial Regulation.

For additional information on financial aspects of grants and a model standard grant agreement see the Guide for Applicants – sections II and IV (3).
