THE INTERNAL SECURITY FUND (ISF) was set up for the period 2014-20, with a total of EUR 3.8 billion for the seven years. The Fund promotes the implementation of the Internal Security Strategy, law enforcement cooperation and the management of the Union’s external borders. The ISF is composed of two instruments, ISF Borders and Visa and ISF Police.

ACHIEVING THE KEY OBJECTIVES
The ISF Police component of the Internal Security Fund contributes to ensuring a high level of security in the EU. Within this general objective, the Funds’ activities focus on two specific objectives:

- Fight against crime: combating cross-border, serious and organised crime including terrorism, and reinforcing coordination and cooperation between law enforcement authorities and other national authorities of EU States, including with EUROPOL and other relevant EU bodies, and with relevant non-EU and international organisations;
- Managing risk and crisis: enhancing the capacity of EU States and the Union for managing effectively security-related risk and crisis, and preparing for protecting people and critical infrastructure against terrorist attacks and other security related incidents.

For the 2014-20 period, 1.4 billion EUR is available for funding actions under the ISF Police instrument, of which EUR 938 million will be channeled through shared management and EUR 462 million through direct management.

Concrete actions to be funded through this instrument include a wide range of initiatives, such as setting up and running IT systems, acquisition of operational equipment, promoting and developing training schemes and ensuring administrative and operational coordination and cooperation.

THE FUND’S BENEFICIARIES
All EU States except Denmark and the United Kingdom participate in ISF Police. Examples of beneficiaries are state and federal authorities, local public bodies, non-governmental organisations and private and public law companies.
