RELOCATION AND RESETTLEMENT

6 SEPTEMBER 2017

RELOCATION

Under the emergency relocation scheme, adopted by the Council in September 2015, asylum seekers with a high chance of having their applications successfully processed are relocated from Greece and Italy, where they have arrived, to other Member States where they will have their asylum applications processed. If these applications are successful, the applicants will be granted refugee status with the right to reside in the Member State to which they are relocated. The EU budget provides financial support to the participating Member States. The tables below present the latest state of play of the implementation of the scheme.

27 695 people have been relocated since the launch of the scheme (*state of play as of 4 September 2017*).

RELOCATIONS FROM ITALY AND GREECE (OCTOBER 2015 - AUGUST 2017)

RESETTLEMENT

In May 2015 the Commission proposed a European Resettlement Scheme which was adopted by the Council in July 2015. To avoid displaced persons in need of protection having to resort to the criminal networks of smugglers and traffickers, the resettlement programme provides legal and safe pathways to enter the EU. The agreed scheme will see over 22,000 people in need of international protection resettled from outside of the EU to the EU Member States. This two year scheme is supported by the EU budget. In the EU-Turkey Statement from 18 March, it was agreed that for every Syrian national returned from the Greek islands another will be resettled to the EU directly from Turkey. This 1:1 mechanism aims to replace irregular flows of migrants travelling in dangerous conditions across the Aegean Sea by an orderly and legal resettlement process.

22 518 people have been resettled under both schemes so far (based on information made available by Member States and Associated Countries as of 4 September 2017).
