

2012-IT-91132-P

Ronco-Canepa combi-terminal extension and renewal of the ancillary intermodal infrastructure

Programme:

- **TEN-T Projects**

The Action concerns the land reclamation of the sea basin between the Canepa and Ronco piers and the building up and revamping of port infrastructures ancillary to the new terminal, in particular a new rail connection. The Action aims at creating a new multipurpose terminal, built and equipped with higher technical and operational standards, in order to respond to the new market requirements.

On the long term, the main expected result is a significant expansion of the port supply.

The action is closed.

EU contribution: €1,253,030
