

In accordance with the Wifi4EU legal basis, the voucher winners are selected on a **'first-come, first-served' basis**, determined by the date and time of the submission of their application (i.e. the moment they clicked the "Apply" button in the Portal as registered by the European Commission servers), while ensuring a **geographical balance** overall. In this call, each participating country was guaranteed a minimum of 15 vouchers (provided they had sufficient applicants) capped to a number of vouchers corresponding to 8% of the indicative call budget. In the list below, the **last winning municipality** from each country is highlighted for reference, i.e. all municipalities below this indication were unsuccessful in this call.

2. WiFi4EU-2018-1 call - full list of applications (alphabetical order by Member State)
