

2017 CEF Blending Calls Rail Interoperability

*CEF Transport Blending Info Day
27 February 2017*

Piotr Glinka (INEA)

Budget, Objectives, Co-Funding:

BUDGET:

€50 million (MAP general envelope)

SPECIFIC OBJECTIVES:

- 1) Interoperability (IOP) of the rail system as set out in Directives (UE) 2016/797 and 2008/57/EC: focus on TAF and TAP TSI
- 2) Railway system compliance with IOP, Safety Dir. and TEN-T Guidelines: focus on TSIs other than TAF/TAP

CO-FUNDING:

Max 40% of the eligible costs

Interoperability of the rail system

Focus on TAF/TAP TSI, supporting e.g.:

- quality **management of data** for TAP
- **TAP implementation** by SMEs
- stakeholders to develop a common **Telematics Reference Files**
- IMs/RUs to develop an **unique Train ID** compliant with TAP/TAF
- IMs, Wag.-keepers, RUs, etc. for implementation of **TAP/TAF compliant databases and/or tools**
- IMs/RUs for **TAP/TAF compliance** of the systems' functions, e.g. El. Consignment Note, Train Running Info, Path Request, Service Disruption, Train Preparation, intermodal info, etc.

Compliance with IOP and Safety Directives and TEN-T Guidelines

Focus on TSIs other than TAP/TAF, supporting e.g.:

- **reduction of rail fixed equipment diversity** ensuring its TSI-compliance (primarily for infra and energy subsystems)
- development of a **location-specific risk model to quantify the safety benefit from investments** made in upgrading rail infra
- **compliance of RUs (sub)systems** with IOP and Safety Directives (operation and traffic management, rolling stock and wagons)
- development of **IOP registers**, in particular for all existing infrastructure.

Application (1/2)

- Can address elements of more than one Specific Objective
- Works only
- Scope in 1 or more Member States - OK!
- Cannot address ERTMS (dedicated Priority)
- Priority: proposals demonstrating high EU-added value

Application (2/2)

"Ideal" proposal for Rail IOP:

- clear definition of scope, incl. identification of deliverables per activity
- justification of costs
- ref. to TSIs, other applicable law, call objectives
- > 1 Spec. obj.: group activities per a Spec. obj.
- demonstration of EU added value, e.g.:
 - Foresee feedback to ERA
 - Knowledge sharing with Rail stakeholders
