

**CALL FOR PROPOSALS CONCERNING PROJECTS OF COMMON INTEREST UNDER THE CONNECTING  
EUROPE FACILITY IN THE FIELD OF TRANS-EUROPEAN  
TELECOMMUNICATION NETWORKS**

**CEF TELECOM CALLS 2016**

**CEF-TC-2016-3: Automated Translation**

**1. CALL CONTEXT**

The general context for this call for proposals is defined in Section 3.7 of the 2016 CEF Telecom work programme<sup>1</sup> as published on the call page on the Innovation and Networks Executive Agency (INEA) website<sup>2</sup>.

**2. BACKGROUND AND RATIONALE**

The background and rationale for this call for proposals are defined in Section 3.7.1 of the 2016 work programme.

**3. PRIORITIES**

The priority outcomes of this call for proposals are defined in Section 3.7.2.2 of the 2016 work programme, namely to contribute to only one of the following objectives:

- to stimulate the language resources collection for specific domains of interest to specific pan-European public services (CEF Digital Service Infrastructures (DSIs) or other public sector services relevant to the CEF DSIs or to the Digital Single Market in general) in order to improve the quality and coverage of automated translation offered by CEF Automated Translation platform. The projects should

build on the results and awareness raised through the Language Resources Coordination mechanism<sup>3</sup> of the 2014 work programme<sup>4</sup> and other earlier studies; or

- to integrate, use and extend the Automated Translation platform in other relevant multilingual, cross-border European digital services, including:
  - CEF DSIs or other public services of direct importance to and/or connecting with the CEF DSIs
  - projects aimed to foster the adoption of the multilingual best practice and architectures in public services (for example, by adapting the architecture of such services in order to benefit from the Automated Translation Building Block)
  - projects benefitting from Automated Translation which promote the emergence of the Digital Single Market (e.g. in areas such as cross-border eCommerce).

Applications should be submitted by consortia which include early adopters and operators of DSIs and relevant solution/service providers.

Use of eDelivery is envisaged for the purpose of secure handling and transmission of confidential content to and from Automated Translation platform, and, if necessary, for secure transmission of language resources for Automated Translation.

For the purpose of document delivery, applications should deploy an eDelivery Access Point (see section 3.4 of the work programme), or use an eDelivery Access Point through a service provider. An eDelivery Access Point is an implementation of the e-SENS AS4 Profile<sup>5</sup>. If the deployment of eDelivery is included in the proposal, support will be given to activities aiming to use, deploy and/or operate access points for one year. The Core Service Platform of the eDelivery DSI, set up under the 2014 work programme, will make available a testing platform to ensure that the deployment of eDelivery in this sector complies with the technical specifications defined by the eDelivery DSI.

#### **4. RESULTS EXPECTED FROM THE FINANCIAL ASSISTANCE**

The benefits and expected outcomes of this call for proposals are defined in Section 3.7.2.4 of the 2016 work programme. This call will contribute in particular to:

- enabling the Digital Single Market by lowering language barriers;
- supporting the effective roll-out and wider acceptance of pan-European Digital Service Infrastructures (DSIs); and
- realising a significant potential for savings in translation costs in the public sector and ensuring a higher level of security.

## 9. SELECTION CRITERIA

The operational and financial capacity of applicants and designated affiliated entities will be assessed as specified below.

### 9.1 Financial capacity

Applicants must have stable and sufficient sources of funding to maintain their activity throughout the period during which the action is being carried out and to participate in its funding.

Applicants' financial capacity will be assessed on the basis of the following supporting documents to be submitted with the application:

- Low value grants ( $\leq$  €60,000):
  - a declaration on their honour.
- Grants  $>$  €60,000:
  - the completed Financial Capacity Check form;
  - the profit and loss account, the balance sheet for the last financial year for which the accounts were closed;
  - for newly created entities and/or applicants that do not have financial data available for the last financial year, the applicant must provide a letter of support from a third party (another company such as the parent company or from another applicant in the same proposal). The letter of support must also be accompanied by the Financial Capacity Check form completed by the party providing support, including the relevant annexes (financial statements for the last year) and showing a 'satisfactory' or 'good' ratio analysis.
- Grants  $\geq$  €750,000:
  - the completed Financial Capacity Check form
  - the profit and loss account, the balance sheet for the last financial year for which the accounts were closed;
  - an audit report produced by an approved external auditor certifying the accounts for the last financial year available
  - for newly created entities and/or applicants that do not have certified financial data available for the last financial year, the applicant must provide a letter of support from a third party (another company such as the parent company or from another applicant in the same proposal). The letter of support must also be accompanied by the Financial Capacity Check form completed by the party providing support, including the relevant annexes (financial statements for the last year) and showing a 'satisfactory' or 'good' ratio analysis.

In the event of an application grouping several applicants (consortium), the above thresholds apply by applicant.

The requirement for applicants to demonstrate their financial capacity **does not** apply to Member States, public bodies established in the EU/EEA countries (Norway and Iceland), third countries, international organisations, European Economic Interest Groupings (EEIG)<sup>13</sup> which are at least

---

<sup>13</sup> Established in line with Council Regulation (EEC)<sup>o</sup> No 2137/85 of 25 July 1985

50% owned by public body(ies), Joint Undertakings and affiliated entities unless the applicant relies fully on them for implementing the action.

## **9.2 Operational capacity**

Applicants must have the operational and technical competencies and capacities required to complete the proposed action for which the grant is awarded. They must provide the appropriate documents attesting to that capacity (e.g. organisation activity reports, proof of experience in carrying out equivalent actions in related fields). Information submitted by applicants who benefited from CEF Telecom support as from 2014 may be taken into account in the evaluation of these applicants' operational capacity.

The requirement to demonstrate operational capacity **does not** apply to Member States, public bodies established in the EU/EEA countries (Norway and Iceland), third countries, international organisations, European Economic Interest Groupings (EEIG) which are at least 50% owned by public body(ies), Joint Undertakings and affiliated entities unless the applicant relies fully on them for implementing the action.

## **10. AWARD CRITERIA**

The award criteria are defined in Annex 2 of the 2016 work programme.

The proposals will be evaluated on the basis of the following three criteria **Relevance, Quality and efficiency of the implementation** and **Impact** as described below:

### **Relevance**

- Alignment with the objectives and activities required for the deployment of the Digital Service Infrastructure described in Chapter 3 of the work programme and priorities set in Section 3 of the call text.
- Alignment and synergies with relevant policies, strategies and activities at European and national level.

### **Quality and efficiency of the implementation**

- Maturity of the proposed solution (e.g. in terms of contribution towards interoperability, connectivity, sustainable deployment, operation, upgrading of trans-European digital service infrastructures, use of common building blocks, coordination at European level) and/or integration with existing components of the DSI.
- Coherence and effectiveness of the work plan, including appropriateness of the allocation of tasks and resources.
- Quality and relevant experience of the individual participants and, if more than one beneficiary, of the consortium as a whole (including complementarity, balance).
- Extent to which the proposal demonstrates support from national authorities, industry and NGOs (when relevant).
- Appropriate attention to security, privacy, inclusiveness and accessibility (when relevant).

## **Impact and sustainability**

- Quality of the approach to facilitate wider deployment and take-up of the proposed actions.
- Capability to survive, develop and scale up without European Union funding after the end of the project with a view to achieving long-term sustainability, where appropriate through funding sources other than CEF.

A score will be applied to each of the three award criteria on a scale from 0 (insufficient) to 5 (excellent). The threshold for individual criteria is 3. The overall threshold, applying to the sum of the three individual scores, is 10.

At the end of the evaluation by independent experts, all evaluated proposals will be ranked, according to the scores obtained for each of the award criteria as indicated above.

If necessary, a priority order for proposals which have obtained the same score within a ranked list will be determined. The following approach will be applied successively for every group of *ex aequo* proposals<sup>14</sup> requiring prioritisation, starting with the highest scored group, and continuing in descending order:

- i. Proposals submitted by organisations established in an eligible country which is not otherwise covered by more highly-ranked proposals, will be considered to have the highest priority (geographical coverage).
- ii. The proposals identified under (i), if any, will themselves be prioritised according to the scores they have been awarded for the Relevance criterion. When these scores are equal, priority will be based on scores for the Impact and Sustainability criterion.

If a distinction still cannot be made, a further prioritisation may be done by considering how to enhance the quality of the project portfolio through synergies between proposals, or other factors related to the objectives of the call or to CEF in general. These factors will be documented.

## **11. COMPLIANCE WITH EU LAW**

In accordance with Article 23 of the CEF Regulation, only actions in conformity with EU law and which are in line with the relevant EU policies in the area of telecommunications infrastructure will be financed.

## **12. FINANCIAL PROVISIONS**

### **12.1 General principles**

#### *12.1.1 Other sources of financing*

Pursuant to Article 129 of the Financial Regulation, no EU financial aid will be awarded to actions receiving funds from other sources of EU financing. Under no circumstances will the same

---

<sup>14</sup> Proposals with the same overall score

costs be financed twice by the EU budget.

#### *12.1.2 Non-profit principle*

In accordance with Article 125 of the Financial Regulation, grants shall not have the purpose or effect of producing a profit within the framework of the action. Where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the EU contribution to the eligible costs actually incurred by the beneficiary to carry out the action<sup>15</sup>.

#### *12.1.3 Non-retroactivity*

Pursuant to Article 130 of the Financial Regulation, no grants may be awarded retrospectively for actions already completed. A grant may be awarded for an action which has already begun provided that the applicant(s) can demonstrate the need for starting the action prior to the signature of the grant agreement.

### **12.2 Funding form**

Grants to be awarded further to this call for proposals will take the form of reimbursement of a specified proportion of the eligible costs actually incurred.

#### *12.2.1 Co-funding rates*

The maximum co-financing rates of EU financial assistance to be granted under this call for proposals will not exceed 75% of the eligible costs of the action.

The Commission reserves the right to award a grant of less than the amount requested by the applicant.

#### *12.2.2 Eligible costs*

Eligible costs are costs actually incurred by the beneficiary of a grant which meet all the criteria laid down in Article 126(2) of the Financial Regulation. They may take a form of direct costs, (those specific costs that are directly linked to the implementation of the action and can therefore be attributed directly to it) and indirect costs (those costs which are not specific costs directly linked to the implementation of the action and can therefore not be attributed directly to it). The same criteria apply to the costs incurred by affiliated entities and implementing bodies.

Costs may be eligible at the earliest from the date on which an application is submitted. The indicative duration of an action proposed under this call is 18 months.

The applicants' attention is drawn to points (3) to (8) of Article 8 of the CEF Regulation concerning the eligibility of costs. The full costs of purchase of equipment and infrastructure which are treated as capital expenditure are eligible under this call.

---

<sup>15</sup> In the meaning of Article 125 of the Financial Regulation, profit is defined as a surplus of the receipts over the eligible costs incurred by the beneficiary, when the request is made for payment of the balance.

Indirect costs are eligible for flat rate funding fixed at 7% of total direct eligible costs (minus subcontracting costs).

In line with the first subparagraph of Article 8(7) of the CEF Regulation and Article 126(3)(c) of the Financial Regulation, VAT paid by beneficiaries of grants awarded following this call for proposals is eligible except:

- deductible VAT (VAT paid by the beneficiary for the implementation of taxed activities or exempt activities with right of deduction);
- VAT paid for the implementation of activities engaged in as a public authority by the beneficiary where it is a Member State, regional or local government authority of a Member State or another body governed by public law of a Member State. Considering that beneficiaries that are public bodies of Member States are expected to carry out activities as public authorities (to exercise prerogatives of public powers), VAT paid by beneficiaries that are public bodies established in Member States is, in principle, ineligible.

Detailed information on eligible and ineligible costs is included in the model grant agreement, which is available on the call webpage.

### *12.3 Payment arrangements*

Actions will be eligible to receive a pre-financing of 50% of the maximum grant amount awarded that will be made within 30 days after the last party signs the grant agreement. No interim payment will be made.

In the event that the beneficiary's financial capacity is not satisfactory, the pre-financing payment may be subject to the receipt of a financial guarantee for up to the same amount as the pre-financing payment to be made.

The financial guarantee, in euro, should be provided by an approved bank or financial institution established in one of the EU Member States. When the beneficiary is established in a third country, INEA may agree that a bank or financial institution established in that third country may provide the guarantee if the bank or financial institution is considered to offer equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts will not be accepted as financial guarantees.

The guarantee may be replaced by a joint or several guarantees provided by third parties or by a joint guarantee of the beneficiaries of an action that are parties to the same grant agreement. The guarantee will be released when the pre-financing is cleared against the interim payment, if applicable, and/or the balance of payment(s) made, in accordance with the conditions laid down in the grant agreement.

The final amount of the grant to be awarded to the beneficiary is established after completion of the action, upon approval of the request for payment including, where applicable, the supporting documents as described in the model grant agreement.

A coordinator must be designated for multi-beneficiary actions. The coordinator will be the contact point for INEA and will have, *inter alia*, the responsibility for receiving the payment(s) and coordinating the reporting exercise(s). It is strongly recommended that beneficiaries sign an internal cooperation agreement regarding their operation and coordination, including all internal aspects related to the management of the beneficiaries and the implementation of the action.

### **13. PROCEDURE FOR SUBMISSION OF PROPOSALS**
