

CALL FOR PROPOSALS CONCERNING PROJECTS OF COMMON INTEREST UNDER THE CONNECTING EUROPE FACILITY IN THE FIELD OF TRANS-EUROPEAN TELECOMMUNICATION NETWORKS

CEF TELECOM CALLS 2017

CEF-TC-2017-3: eTranslation

1. BACKGROUND AND RATIONALE

The general context for this call for proposals is defined in section 3.6 of the 2017 CEF Telecom Work Programme¹ as published on the call page on the Innovation and Networks Executive Agency (INEA) website.² The background and rationale for this call for proposals are defined in section 3.6.1 of the 2017 Work Programme.

2. PRIORITIES & OBJECTIVES

2.1 Priority outcomes

The priority outcomes of this call for proposals are defined in section 3.6.2.2 of the 2017 Work Programme, namely to complement and extend the coverage of generic services funded under the 2016 Work Programme. Proposals must address at least one of the two following objectives:

1. Language resource projects: projects aiming to facilitate language resource identification, processing and collection in the Member States (e.g. anonymization, aggregation, alignment, conversion, provision of metadata, negotiations for re-use, dissemination, best practices).

Priority will be given to:

- language resources, in particular parallel corpora, in EU/CEF languages³ for which data is currently not available in the CEF Automated Translation Core Service Platform in sufficient quantity (i.e. Icelandic, Croatian, Norwegian and Irish);
 - language resources in domains relevant for the CEF Digital Service Infrastructures (DSIs), taking into account the demand for addressing a specific language or DSI;
 - generic language resources in all EU/CEF languages, to improve the overall quality of eTranslation for a broader set of text styles and to extend its lexical coverage.
2. Integration projects: reference implementations and showcases for making online services multilingual with existing technology. Proposals must work on existing systems (CEF DSIs and/or national online services and portals related to CEF services). They must use eTranslation⁴ (alone or in combination with other/commercial machine translation systems). Application of language technologies other than machine translation (e.g. for terminology extraction, semantic interoperability) is encouraged, where appropriate.

The reference implementations and showcases are expected to become fully functional and integrated within the duration of the project.

All proposals must address at least two different EU/CEF languages.

All actions selected under this call will include mandatory interoperability tests to confirm compliance with the CEF Automated Translation Core Service Platform and/or to conform to the policies and requirements defined by the CEF Automated Translation DSI.

Use of eDelivery is encouraged for the purpose of secure handling and transmission of confidential content to and from the CEF Automated Translation platform, and, if necessary, for secure transmission of language resources.

For the purpose of document delivery, applications should deploy an eDelivery Access Point (see section 3.3 of the Work Programme), or use an eDelivery Access Point through a service provider. An eDelivery Access Point is an implementation of the e-SENS AS4 Profile (developed by e-SENS and now maintained by CEF).⁵ If the deployment of eDelivery is included in the proposal, support will be given to activities aiming to use, deploy and/or operate access points for one year. The Core Service Platform of the eDelivery DSI, set up under the 2014 Work Programme, will make available a testing platform to ensure that the deployment of eDelivery in this sector complies with the technical specifications defined by the eDelivery DSI.

2.2 Results expected from the financial assistance

The benefits and expected outcomes of this call for proposals are defined in sections 3.6.2.4 and 3.6.2.5 of the 2017 Work Programme. In general, this call will help to:

- enable the Digital Single Market by lowering language barriers;

³ The 24 official languages of the EU are: Bulgarian, Croatian, Czech, Danish, Dutch, English, Estonian, Finnish, French, German, Greek, Hungarian, Irish, Italian, Latvian, Lithuanian, Maltese, Polish, Portuguese, Romanian, Slovak, Slovene, Spanish and Swedish. EU/CEF languages are all above plus Icelandic and Norwegian (two varieties Bokmål and Nynorsk).

- support the effective roll-out and wider take-up of pan-European DSIs; and
- achieve a significant potential for savings in translation costs in the public sector and ensure a higher level of security.

Specifically, this call will contribute to:

- improving the translation capabilities of the CEF eTranslation service in specific domains and languages
- increasing the number of pages translated by CEF eTranslation
- a deeper involvement of Member States in language resources detection, collection and processing
- increasing the number of CEF DSIs and online services related to CEF DSIs using CEF eTranslation
- integration of automated translation technology other than machine translation alone in existing public online services.

In line with Article 7 of the CEF Regulation, only actions contributing to "projects of common interest" as identified in the Telecom Guidelines¹⁴ shall be eligible for support through EU financial aid in the form of grants.

Please note that failure to comply with any of the eligibility criteria indicated above will lead to the rejection of the application.

7. SELECTION CRITERIA

The selection criteria are referred to in Annex 2 of the Work Programme. The financial and operational capacity of applicants and designated affiliated entities will be assessed as specified below.

The requirement to demonstrate financial and operational capacity also applies to designated affiliated entities **only where**, according to the proposal, the affiliated entity(ies) will be the only one(s) implementing the proposed Action.

The letter of support must also be accompanied by the Financial Capacity Check form completed by the party providing support, including the relevant annexes (financial statements for the last year) and showing a 'satisfactory' or 'good' ratio analysis.

In the event of an application grouping several applicants (consortium), the above thresholds apply by applicant.

7.2 Operational capacity

Applicants must have the professional competencies and appropriate qualifications necessary to complete the proposed Action for which the grant is sought. To assess this capacity, applicants must provide the following documents:

- description of the profiles of the people primarily responsible for managing and implementing the action (e.g. accompanied by a *curriculum vitae*);

- a list of previous actions and activities carried out in equivalent actions in related fields

If compliant with the above-mentioned requirements, information submitted by applicants who have benefited from CEF Telecom support since 2014 may be taken into account in the evaluation of their operational capacity.

8. AWARD CRITERIA

Proposals will be evaluated against the following award criteria, which are defined in Annex 2 of the 2017 Work Programme. These three criteria are **Relevance**, **Quality and efficiency of the implementation** and **Impact** and are described below:

Relevance

- Alignment with the objectives and activities required for the deployment of the Digital Service Infrastructure described in Chapter 3 of the Work Programme and priorities set in section 2 of the call text.
- Alignment and synergies with relevant policies, strategies and activities at European and national level.

Quality and efficiency of the implementation

- Maturity of the proposed solution (e.g. in terms of contribution towards interoperability, connectivity, sustainable deployment, operation, upgrading of trans-European digital service infrastructures, use of common building blocks, coordination at European level) and/or integration with existing components of the DSI.
- Coherence and effectiveness of the work plan, including appropriateness of the allocation of tasks and resources.
- Quality and relevant experience of the individual participants and, if more than one beneficiary, of the consortium as a whole (including complementarity, balance).
- Extent to which the proposal demonstrates support from national authorities, industry and NGOs (when relevant).
- Appropriate attention to security, privacy, inclusiveness and accessibility (when relevant).

Impact and sustainability

- Quality of the approach to facilitate wider deployment and take-up of the proposed Actions.
- Capability to survive, develop and scale up without European Union funding after the end of the project with a view to achieving long-term sustainability, where appropriate through funding sources other than CEF.

A score will be applied to each of the three award criteria on a scale from 0 (insufficient) to 5 (excellent). The threshold for individual criteria is 3. The overall threshold, applying to the sum of the three individual scores, is 10. Only proposals with a score on or above these thresholds (individual and overall) may be recommended for funding.

Ranking list

At the end of the evaluation by independent experts, all evaluated proposals will be ranked, according to the scores obtained for each of the award criteria as indicated above.

If necessary, a priority order for proposals which have obtained the same score within a ranked list will be determined. The following approach will be applied successively for every group of *ex aequo* proposals¹⁶ requiring prioritisation, starting with the highest scored group, and continuing in descending order:

¹⁶ Proposals with the same overall score

- i. Proposals submitted by organisations established in an eligible country which is not otherwise covered by more highly-ranked proposals, will be considered to have the highest priority (geographical coverage).
- ii. The proposals identified under (i), if any, will themselves be prioritised according to the scores they have been awarded for the Relevance criterion. When these scores are equal, priority will be based on scores for the Impact and Sustainability criterion.

If a distinction still cannot be made, further prioritisation may be done by considering how to enhance the quality of the project portfolio through synergies between proposals, or other factors related to the objectives of the call or to the CEF Work Programme in general. These factors will be documented in the evaluation report.

9. COMPLIANCE WITH EU LAW

In accordance with Article 23 of the CEF Regulation, only actions in conformity with EU law, in particular in the area of public procurement, and which are in line with the relevant EU policies in the area of telecommunications infrastructure shall be financed.

10. FINANCIAL PROVISIONS

10.1 General principles

10.1.1 Other sources of financing

Pursuant to Article 129 of the Financial Regulation, an action may only receive one grant from the EU budget. Under no circumstances will the same costs be financed twice by the EU budget.

To ensure this, applicants must indicate in the application the sources and amounts of EU funding received or applied for the same action or part of the action, as well as any other funding received or applied for the same action.

In this respect, any proposed Action or part(s) thereof that receives or has received EU funding under the CEF or other EU Programmes (e.g. European Structural and Investment Funds (ESIF), Horizon 2020, etc.) will not be funded under this call.

10.1.2 Non-profit principle

In accordance with Article 125 of the Financial Regulation, grants shall not have the purpose or effect of producing a profit within the framework of the action. Where a profit is made, the Commission/INEA will be entitled to recover the percentage of the profit corresponding to the EU contribution to the eligible costs actually incurred by the beneficiary to carry out the action.¹⁷

¹⁷ In the meaning of Article 125 of the Financial Regulation, profit is defined as a surplus of the receipts over the eligible costs incurred by the beneficiary, when the request is made for payment of the balance.

10.1.3 Non-retroactivity

Pursuant to Article 130 of the Financial Regulation, no grants may be awarded retrospectively for actions already completed. A grant may be awarded for an action which has already begun provided that the applicant(s) can demonstrate the need for starting the action prior to the signature of the grant agreement.

10.2 Form of the grant

10.2.1 Reimbursement of costs actually incurred

Grants to be awarded further to this call for proposals will take the form of reimbursement of a specified proportion of the eligible costs actually incurred.¹⁸

Co-funding rate

In line with Article 10(4) of the CEF Regulation, the EU financial assistance to be granted under this call for proposals shall not exceed 75% of the total eligible costs of the action.

The Commission reserves the right to award a grant of less than the amount requested by the applicant.

10.2.2 Eligible costs

Eligible costs are costs actually incurred by the beneficiary of a grant, which meet all the criteria laid down in Article 126(2) of the Financial Regulation.

The beneficiary's internal accounting and auditing procedures must permit direct reconciliation of the costs and revenue declared in respect of the action with the corresponding accounting statements and supporting documents.

The same criteria apply to the costs incurred by designated affiliated entities and implementing bodies.

Eligible costs may take the form of direct costs, (those specific costs that are directly linked to the implementation of the action and can therefore be attributed directly to it) and indirect costs (those costs which are not specific costs directly linked to the implementation of the action and can therefore not be attributed directly to it). Indirect costs are eligible for flat rate funding fixed at 7% of total direct eligible costs (minus subcontracting costs).

Applicants' attention is drawn to points (3) to (8) of Article 8 of the CEF Regulation concerning the eligibility of costs. The full costs of purchase of equipment and infrastructure which are treated as capital expenditure are eligible under this call.

Costs may be eligible at the earliest from the date on which an application is submitted.¹⁹

¹⁸ Notwithstanding the form of grant, personnel costs may be declared on the basis of average costs calculated in accordance with the beneficiary's usual costs accounting practices, in compliance with the conditions laid down in Commission Implementing Decision C(2016)478 on the reimbursement of personnel costs of beneficiaries of the Connecting Europe Facility.

¹⁹ The date when the proposal was last submitted in the TENtec eSubmission module will be considered as the submission date of the proposal.

VAT

In line with the first subparagraph of Article 8(7) of the CEF Regulation and Article 126(3)(c) of the Financial Regulation, VAT paid by beneficiaries of grants awarded following this call for proposals is eligible except:

- deductible VAT (VAT paid by the beneficiary for the implementation of taxed activities or exempt activities with right of deduction);
- VAT paid for the implementation of activities engaged in as a public authority by the beneficiary where it is a Member State, regional or local government authority of a Member State or another body governed by public law of a Member State.

Financial support to third parties

The applications may not envisage provision of financial support to third parties.

Detailed information on eligible and ineligible costs is included in Article II.19 of the model grant agreement, which is available on the call webpage.

10.3 Payment arrangements

Actions will be eligible to receive a pre-financing of up to 50% of the maximum grant amount awarded that will be made within 30 days after the last party signs the grant agreement. No interim payment will be made.

In the event that the beneficiary's financial capacity is not satisfactory, the pre-financing payment may be subject to the receipt of a financial guarantee for up to the same amount as the pre-financing payment to be made.

The financial guarantee, in euro, must be provided by an approved bank or financial institution established in one of the EU Member States. When the beneficiary is established in a third country, INEA may agree that a bank or financial institution established in that third country may provide the guarantee if the bank or financial institution is considered to offer equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts will not be accepted as financial guarantees.

The guarantee may be replaced by a joint or several guarantees provided by third parties or by a joint guarantee of the beneficiaries of an action that are parties to the same grant agreement. The guarantee will be released when the pre-financing is cleared against the interim payment, if applicable, and/or the balance of payment(s) made, in accordance with the conditions laid down in the grant agreement.

The final amount of the grant to be awarded to the beneficiary is established after completion of the action, upon approval of the request for payment including, where applicable, the supporting documents as described in the model grant agreement.

10.4 Indicative duration

The indicative duration of an action proposed under this call is 24 months.

11. GRANT AGREEMENT

Applicant(s) will be invited by INEA to sign a grant agreement drawn up in euro and detailing the conditions and level of CEF funding, if the proposal is selected for funding. The standard model grant agreement, available on the call page, is not negotiable and will be signed in English.

Submitting an application implies the acceptance of the terms and conditions of the model grant agreement. Applicants are recommended to carefully read this document and its annexes before submitting an application.

A coordinator must be designated for multi-beneficiary actions. The coordinator will be the contact point for INEA and will have, *inter alia*, the responsibility for receiving the payment(s) and coordinating the reporting exercise(s). It is strongly recommended that beneficiaries sign an internal cooperation agreement regarding their operation and coordination, including all internal aspects related to the management of the beneficiaries and the implementation of the action.

12. PROCEDURE FOR SUBMISSION OF PROPOSALS

Proposals must be submitted using the application forms provided on the call webpage at the link above. Applicants are strongly encouraged to submit their applications in English.

Proposals must be signed by the applicant(s) or its duly authorized representative and must be perfectly legible so that there can be no doubt as to words and figures.

The applicant(s) specified in application form part A will automatically be considered as the beneficiary(ies) if the proposal is selected for funding. If applicants designate affiliated entities within the meaning of Article 122 of the Financial Regulation to support the implementation of the submitted action, information on these affiliated entities must be encoded in application form part A, and any relevant supporting documents must be provided.

Applicants who already received CEF funding under the 2016-3 Automated Translation (eTranslation) call and who plan to apply again under this call must clearly explain in the relevant section of application form part D of their proposal (notably section 1 and 2.1) how their proposed Action will differ from the action funded under the previous call.

For multi-applicant proposals, a coordinating applicant must be designated.

12.2 Submission process

Proposals must be submitted electronically using the TENtec eSubmission module, accessible via the following link: <https://webgate.ec.europa.eu/tentec/grant/esubmission> before the call deadline: **Tuesday, 28 November 2017 at 17:00.00 Brussels time** (see also section 5 on Admissibility requirements).

Application form part A is automatically generated by the eSubmission module. Application form parts B, C and D must be downloaded from the call webpage at the link above and duly completed. Once final, these must be uploaded into the TENtec eSubmission module. The same applies to any other annexes or supporting documents accompanying the proposal.

Applicants' attention is drawn to the fact that for application form part A, only the information encoded in the TENtec eSubmission module will be taken into account for the evaluation (notwithstanding the requirement to upload signed versions of application forms part A2.2 and A2.3). For the other forms and documents, only the last version uploaded in the TENtec eSubmission module will be taken into account for the evaluation.

Any parts of the application that require signatures of applicants or relevant authorities must be scanned and uploaded into the TENtec eSubmission module. Applicants must be able to provide the original documents and send them to the Commission/INEA services upon request.

Advanced electronic signatures based on a qualified certificate²⁰ as defined by the eIDAS Regulation²¹ and which comply with the signature formats specified in Commission Implementing Decision 2015/1506 will be accepted. If a document is e-signed, a printable version of the document must be uploaded in the TENtec eSubmission module.
