## **7.3 Eligible Actions**

### General eligibility criteria

Only projects which can be qualified as projects of common interest as defined in Article 7 of the TEN-T Guidelines may receive Union financial assistance.

Only Actions addressing the priority "Rail Freight Noise" are eligible under this call.

Projects have to comply with the following provisions of Article 7 of the TEN-T guidelines:

### Cost-Benefit Analysis

Pursuant to Article 10 of the CEF Regulation and in view of assessing the socio-economic and financial viability of the proposed Actions, all proposals for works or including both studies and works must be accompanied by a Cost-Benefit Analysis (CBA).

Proposals addressing the priority "Rail Freight Noise" do not have to be accompanied by a CBA, as the amount of the financial assistance to be granted, taking the form of unit contribution, is determined in advance by the Commission, based on an overarching CBA included in the impact assessment carried out by the European Union Agency for Railways (ERA) as part of its recommendation on the amendment of Commission Regulation (EU) No

1304/2014 on the technical specification for interoperability relating to the subsystem ‘rolling stock — noise’ (NOI TSI)<sup>5</sup>.

## **8. SELECTION CRITERIA**

The selection criteria are detailed in section 2.3.2 of the annual work programme. The operational and financial capacity of applicants will be assessed as specified below.

The need to demonstrate financial and operational capacity **does not** apply to applicants which are:

- a Member State,
- a neighbouring/third country,

- international organisation<sup>6</sup>,
- a European Economic Interest Grouping (EEIG) established in line with Council Regulation (EEC) 2137/85 of 25 July 1985, in which at least one member is a public body, or
- a Joint Undertaking in line with eligibility criteria established under Article 187 of the Treaty on the Functioning of the European Union.

The requirement to demonstrate operational and financial capacity also applies to affiliated entities **only where**, according to the proposal, the affiliated entity(ies) will be the only one(s) implementing the proposed Action.

### **8.1 Financial capacity**

The applicant(s) must have stable and sufficient sources of funding to maintain the proposed activities throughout the period during which the Action is being carried out and to participate in its funding.

Together with the application, applicant(s) must provide their financial statements certified by an external auditor for the last financial year for which the accounts have been closed.

If an applicant has been operating for less than one financial year, the financial statements may be replaced by a letter of support obtained from a third party (e.g. the applicant's parent company) or by another applicant of the proposed Action, accompanied by the financial statements of the party providing the support. The template for such letter of support is available in the form to be completed for the financial capacity check.

### **8.2 Operational capacity**

and information attesting to that capacity, such as:

- description of the profile of the people primarily responsible for managing and implementing the operation (e.g. accompanied by curriculum vitae);
- the organisations' activity reports for at least the last year;
- a list of previous Actions and activities performed in the field of TEN-T infrastructure Actions of the same kind;
- an inventory of the technical equipment, tools or facilities and patents at the disposal of the applicant and relevant for the Action.

If compliant with the abovementioned requirements, the information submitted by applicants who benefited from TEN-T support as from 2004 or CEF support as from 2014 may be taken into account in the evaluation of these applicants' operational capacity.

## **9. AWARD CRITERIA**

Proposals failing to comply with the admissibility and/or eligibility criteria will not be further evaluated.

The award criteria are outlined in Section 2.3.3 of the annual work programme. For the purpose of the evaluation these criteria are specified as follows:

**Relevance:** This refers to the contribution of the proposed Action to the TEN-T priorities as laid out in the TEN-T Guidelines, the funding priorities as laid down in the CEF Regulation and specific priorities and objectives described in the annual work programme and addressed by the call for proposals.

In addition, the following aspects will be assessed under the relevance criterion:

- the European added value as defined in point (d) of Article 3 of the TEN-T Guidelines;
- contribution to innovation, sustainable transport and decarbonisation.

**Maturity:** This refers to the state of preparation of the proposed Action and the readiness to start the implementation of the proposed activities. This will be determined by the degree of financial maturity and completion of preparatory steps as well as the conditions required for the start of the proposed Action. Proposed Actions that have received political commitments, completed a number of administrative procedures and committed financial resources, as well as proposed Actions which involve the final steps of implementation, can be considered as demonstrating strong maturity. Maturity will also be evidenced by low uncertainty/risks about the start of the Action. In particular the maturity of the Action in the project development will be assessed. Proposed Actions should be ready to start, at the latest, within eighteen months after the closure of the call.

When assessing the maturity of the proposed Actions particular attention shall be given to a balanced planning of the activities and budget spread over the duration of Action, in particular the planning of the number of wagons to be retrofitted per year.

**Impact:** This refers to the expected effect of the EU financial support on the financial viability of an economically and socially desirable investment. This assessment will be based on the information included in the application.

**Quality:** This refers to the soundness of the proposed Action. This will be determined by the coherence between the objectives of the proposed Action, the proposed activities, the planned resources, and the appropriateness of the project management processes. Under this criterion, the capacity for the Action to be completed in accordance with the proposed timeline, implementation plans and the technical specifications will be assessed. In particular, the soundness of the implementation plan proposed will be assessed. Other aspects related to the quality of the proposed Action include the soundness of control procedures, quality management and risk management during the implementation of the proposed Action; plans for monitoring, evaluation and internal/external audit of the proposed Action, and publicity regarding the financial support from the CEF. Additionally, the completeness and clarity of the information provided by the applicant(s) will also be taken into account during the assessment of this criterion.

Applicants are requested to answer to all the applicable questions in the application forms in order to provide relevant information for assessing the above blocks of award criteria.

Each block of award criteria will be given a score on a scale from 0 (insufficient) to 5 (excellent). A proposal must obtain at least 3 points for each block of award criteria to be recommended for funding.

## **10. FINAL SELECTION PROCESS**

During the final selection process, the Commission will in particular take into account the following aspects, as appropriate:

- The contribution of the proposed Action to the balanced development of the network,
- The complementarity of the proposed Action with other Union funded projects, in view of optimising the impact of investments already made in the region/country/global project,
- The comparative Union added value of the proposed Action in relation to other proposed Actions,
- Any identified/identifiable risks of double-funding from other Union sources,
- Budgetary constraints.

In exceptional and duly justified cases, and on the basis of the above-mentioned aspects, the Commission may recommend for funding a proposal that has obtained less than 3 points in one or more blocks of award criteria. In the same way, it may decide to not recommend for funding a proposal that has obtained at least 3 points for each block of award criteria.

## **11. COMPLIANCE WITH EU LAW**

In accordance with Article 23 of the CEF Regulation, only Actions in conformity with EU law and which are in line with the relevant EU policies, in particular, in the areas of

interoperability, environmental protection<sup>7</sup>, competition and public procurement, shall be financed.

## **12. FINANCIAL PROVISIONS**

### **12.1 General principles**

#### *12.1.1 Non-cumulative award*

An action may only receive one grant from the EU budget

Under no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate in the grant application the sources and amounts of Union funding received or applied for the same action or part of the action or for its (the applicant's) functioning during the same financial year as well as any other funding received or applied for the same action.

In that respect, any proposed Action or part thereof that receive or have already received EU funding under the CEF or other EU Programmes (i.e. TEN-T, Marco Polo II, Cohesion Fund, FP7, Horizon 2020, ESIF, etc.) will not be funded under this call.

#### *12.1.2 No profit principle*

For projects generating income, the no-profit principle applies, as defined in Article 192 of the Financial Regulation.

#### *12.1.3 Non-retroactivity*

A grant may be awarded for an action which has already begun only where the applicant can demonstrate in the grant application the need to start the action before the grant agreement is signed.

In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

### **12.2 Funding form**

#### *12.2.1 Unit contributions*

Grants to be awarded further to this call for proposals will take the form of unit contributions, as provided in Article 125(1)(c) of the Financial Regulation. Unit contributions are authorised by the Commission decision adopted on 3 September 2018<sup>8</sup>, which is available on the call page for information of applicants:

a) Per S-type wagon: EUR 250

<sup>7</sup> In particular, but not limited to: the EIA (Directive 2011/92/EU of the European Parliament and of the Council on the assessment of the effects of certain public and private projects on the environment, OJ L 26, 28 January 2012), SEA (Directive 2001/42/EC on the assessment of the effects of certain plans and programmes on the environment, OJ L 197, 21 July 2001), Habitats (Directive 92/43/EEC on the conservation of natural habitats and of wild fauna and flora, OJ L206, 22.7.1992, p.7) and Birds Directives (Directive 2009/147/EC of the European Parliament and of the Council of 30 November 2009 on the conservation of wild birds, OJ L 20, 26 January 2010, p.7), as well as the Water Framework Directive (Directive 2000/60/EC of the European Parliament and of the Council establishing a framework for Community action in the field of water policy, OJ L 327, 22 December 2000, p.1)

<sup>8</sup> Ares(2018)4510586.

b) Per SS-type wagon: EUR 600

The Commission reserves the right to award a grant of less than the amount requested by the applicant.

The wagon retrofitting related tasks will be eligible, at the earliest, from the last date on which an application is submitted and, at the latest, to the date of completion of the Action, which should be 31 December 2023 at the latest.

#### *12.2.2 Payment arrangements*

A single pre-financing payment corresponding to 40% of the maximum grant amount awarded will be made within 30 days after the last party signs the grant agreement. No interim payment may be made.

In the event that the beneficiary's financial capacity is not satisfactory, the pre-financing payment(s) may be subject to the receipt of a financial guarantee for up to the same amount as the pre-financing payment to be made.

The financial guarantee, in euro, shall be provided by an approved bank or financial institution established in one of the EU Member States. When the beneficiary is established in a third country, INEA may agree that a bank or financial institution established in a third country may provide the guarantee if the bank or financial institution is considered to offer equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts will not be accepted as financial guarantees.

The guarantee may be replaced by a joint or several guarantees provided by third parties or by a joint guarantee of the beneficiaries of an Action that are parties to the same grant agreement. The guarantee will be released when the pre-financing is cleared against the interim payment, if applicable, and/or the balance of payment(s) made, in accordance with the conditions laid down in the grant agreement.

In the event that the beneficiary's financial capacity is not satisfactory, a limited joint and several financial liability for recoveries may be applied in accordance with the terms and conditions of the model grant agreement.

The final amount of the grant to be awarded to the beneficiary is established after completion of the Action, upon approval of the request for payment including, where applicable, the supporting documents as described in the model grant agreement.

For multi-beneficiary Actions, a coordinator must be designated. The coordinator will be the contact point for INEA and will have, *inter alia*, the responsibility for receiving the payment(s) and coordinating the reporting exercise(s). It is strongly recommended that beneficiaries sign an internal cooperation agreement regarding their operation and coordination, including all internal aspects related to the management of the beneficiaries and the implementation of the proposed Action. Such internal cooperation agreements shall not undermine, under any circumstances, the terms and conditions of the model grant agreement.

### **13. MODEL GRANT AGREEMENT**

Applicant(s) will be invited to sign the grant agreement if a proposal is selected for funding. The standard model grant agreement is not negotiable and will be signed in English.

Submitting an application implies the acceptance of the terms and conditions of the model grant agreement, available on the call page. Applicants are invited to carefully read this

document and its annexes before submitting an application.
