CEF Digital Service Infrastructures

The Connecting Europe Facility (CEF) supports trans-European networks and infrastructures which fill in the missing links of Europe's energy, transport and telecommunications sectors. A budget of €870 million is earmarked for trans-European digital services for 2014-2020.

Supported projects facilitate cross-border interaction between public administrations, businesses and citizens by deploying Digital Service Infrastructures (DSIs). The overall objective is to create a European ecosystem of interoperable digital services that make the Digital Single Market work in practice.

(indicative budget)

€77 million
FOR THE CALLS FOR PROPOSALS IN 2017

The 2017 calls will award €77 million in the form of grants for generic services. They will help European public administrations and businesses to support Member States' DSIs to operate with each other across borders. Please refer to the 2017 CEF Telecom Work Programme for the detailed objectives of each DSI and call area.

2017-1 CEF Telecom call open 17 February 2017 (indicative)

indicative budget

Business Registers Interconnection System (BRIS)	€2 million
Identification & eSignature	€7 million
Electronic Exchange of Social Security Information (EESSI)	€17 million
European e-Justice Portal	€1.5 million
Deadline 18 May 2017	

2017-2 CEF Telecom call open 4 May 2017 (indicative)

indicative budget

Cyber Security	€12 million
eDelivery	€0.5 million
eHealth	€9 million
eProcurement	€4 million
Deadline 21 September 2017	

2017-3 CEF Telecom call open 28 June 2017 (indicative)

indicative budget

eInvoicing	€10 million
eTranslation	€6 million
Europeana	€2 million
Public Open Data	€6 million
Deadline 28 November 2017	

How to apply

1. Identify the relevant call and area
2. Read the call documentation and prepare your proposal. *Please do not forget to obtain approval of the concerned Member State(s) for your proposal!* See call documents for more info
3. Submit your application online
4. You will be informed of the outcome of the evaluation in due time

INEA: Your gateway to EU funding under CEF Telecom

The Innovation and Networks Executive Agency (INEA) is responsible for the management of these calls for proposals. INEA works in partnership with the European Commission to turn policy into action. Since

2014 INEA has provided technical expertise and high quality programme implementation for infrastructure, research and innovation projects in the fields of transport, energy and telecommunications.

THE CALL PROCESS

Submitted proposals are assessed on the basis of the eligibility, selection and award criteria as set out in the CEF Telecom Work Programme. INEA carries out the evaluation of the eligible proposals, supported by independent experts. Once the selection of proposals recommended for funding is formally approved by the Commission, successful applicants are invited by INEA to prepare and sign individual grant agreements. INEA then works closely with the beneficiaries on the technical and financial project implementation.
