Key facts and figures

CEF Energy funding per Sector

€ million (number of actions)

There are 10 CEF Energy Actions implemented in Greece corresponding to a total actual co-funding of €42.3 million¹ in Greece.

These Actions address the implementation of 9 Projects of Common Interest as shown in the map below.

¹ In the cases where the countries in which the Action is located are different from the countries where the beneficiaries are established, the actual CEF funding per location is estimated by equally splitting the total funding of an Action between the countries in which the Action is located. In all other cases, the actual CEF funding per location country corresponds to the funding allocated to the beneficiaries of that country.
