CONNECTING EUROPE FACILITY (CEF) – Energy grants

(State of play: June 2019)

IRELAND

Key facts and figures

There are 6 CEF Energy Actions implemented in Ireland corresponding to a total actual co-funding of €8.7 million¹ in Ireland.

These Actions address the implementation of 3 Projects of Common Interest as shown in the map below.

CEF Energy funding per Sector

€ million (number of actions)

¹ In the cases where the countries in which the Action is located are different from the countries where the beneficiaries are established, the actual CEF funding per location is estimated by equally splitting the total funding of an Action between the countries in which the Action is located. In all other cases, the actual CEF funding per location country corresponds to the funding allocated to the beneficiaries of that country.
