## CONNECTING EUROPE FACILITY (CEF) – Energy grants

(State of play: June 2019)

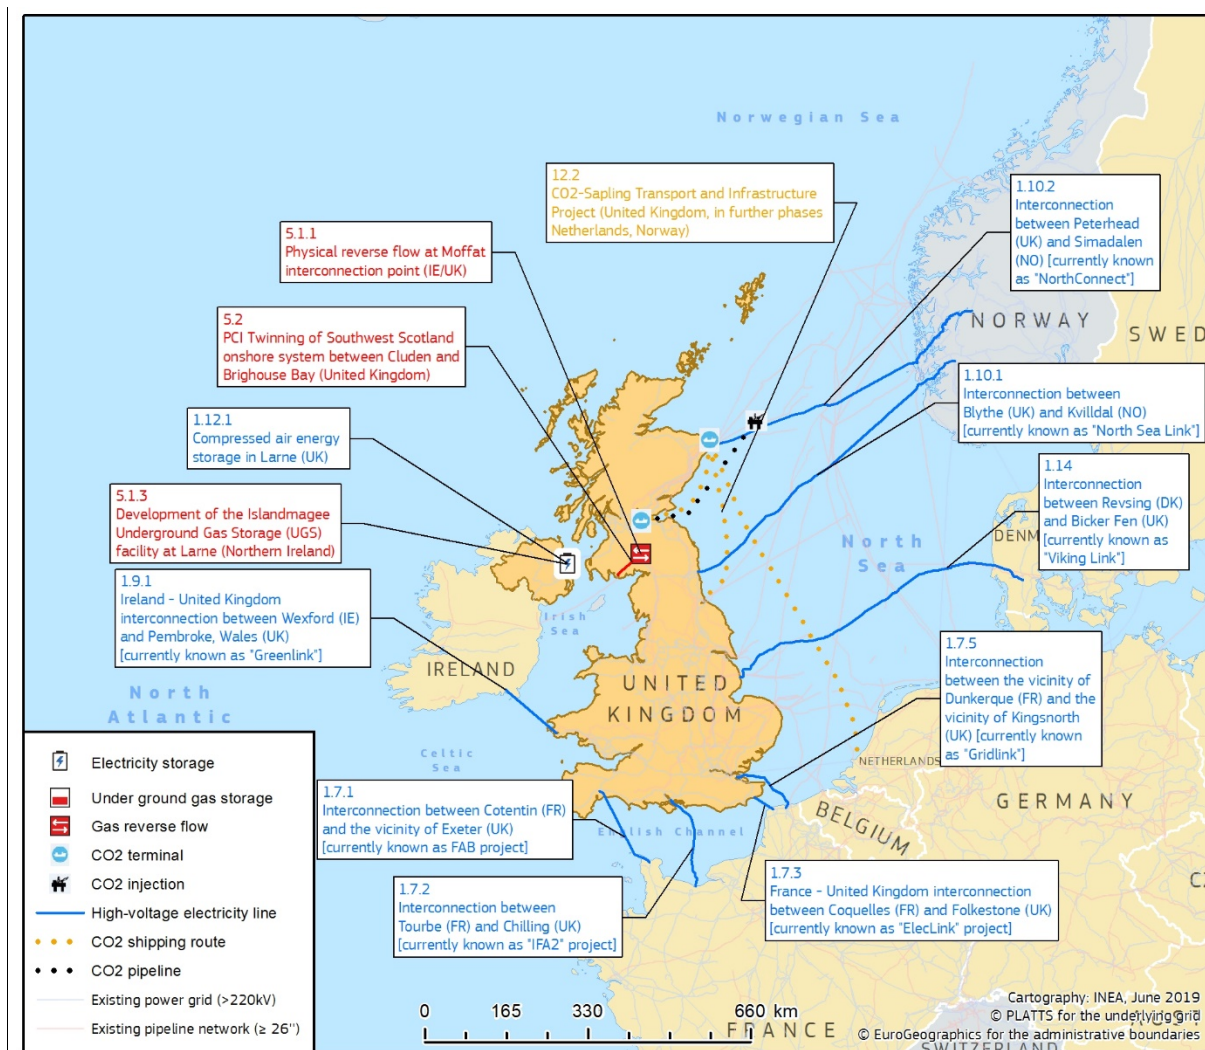

### UNITED KINGDOM Key facts and figures

#### CEF Energy funding per Sector € million (number of actions)

There are 22 CEF Energy Actions implemented in the UK corresponding to a total actual co-funding of €93.2 million<sup>1</sup> in the UK.

These Actions address the implementation of 13 Projects of Common Interest as shown in the map below.

<sup>1</sup> In the cases where the countries in which the Action is located are different from the countries where the beneficiaries are established, the actual CEF funding per location is estimated by equally splitting the total funding of an Action between the countries in which the Action is located. In all other cases, the actual CEF funding per location country corresponds to the funding allocated to the beneficiaries of that country.
