0. Introduction

This is a call for proposals for EU action grants in the field of Transport under the Connecting Europe Facility (CEF).

The regulatory framework for this EU Funding Programme is set out in:

- Regulation 2018/1046 ([EU Financial Regulation](#))
- the basic act (CEF Regulation [2021/1153](#)¹).

The call is launched in accordance with the 2021-2027 Work Programme² and will be managed by the European Climate, Infrastructure and Environment Executive Agency (CINEA) ('Agency').

The call covers the following topics:

- CEF-T-2021-COREGEN-IWWP-STUDIES - Inland waterways and ports – studies
- CEF-T-2021-COREGEN-IWWP-WORKS - Inland waterways and ports – works or mixed
- CEF-T-2021-COREGEN-MARP-STUDIES - Maritime ports – studies
- CEF-T-2021-COREGEN-MARP-WORKS - Maritime ports – works or mixed
- CEF-T-2021-COREGEN-RAIL-STUDIES - Rail – studies
- CEF-T-2021-COREGEN-RAIL-WORKS - Rail – works or mixed
- CEF-T-2021-COREGEN-ROADS-STUDIES - Roads, rail-road terminals and multimodal logistics platforms
- CEF-T-2021-COREGEN-ROADS-WORKS - Roads, rail-road terminals and multimodal logistic platforms

Each project application under the call must address only one of these topics. Applicants wishing to apply for more than one topic, must submit a separate proposal under each topic.

We invite you to read the call documentation carefully, and in particular this Call Document, the Model Grant Agreement, the [EU Funding & Tenders Portal Online Manual](#) and the [EU Grants AGA – Annotated Grant Agreement](#).

These documents provide clarifications and answers to questions you may have when preparing your application:

- the [Call Document](#) outlines the:

¹ Regulation (EU) 2021/1153 of the European Parliament and of the Council of 7 July 2021 establishing the Connecting Europe Facility (OJ L 249, 14.7.2021, p. 38–81).

² COMMISSION IMPLEMENTING DECISION C(2021) 5763 final of 5.8.2021 on the financing of the Connecting Europe Facility - Transport sector and the adoption of the work programme for 2021-2027.

- background, objectives, scope, activities that can be funded and the expected results (sections 1 and 2)
- timetable and available budget (sections 3 and 4)
- admissibility and eligibility conditions (including mandatory documents; sections 5 and 6)
- criteria for financial and operational capacity and exclusion (section 7)
- evaluation and award procedure (section 8)
- award criteria (section 9)
- legal and financial set-up of the Grant Agreements (section 10)
- how to submit an application (section 11)
- the Online Manual outlines the:
 - procedures to register and submit proposals online via the EU Funding & Tenders Portal ('Portal')
 - recommendations for the preparation of the application
- the AGA — Annotated Grant Agreement contains:
 - detailed annotations on all the provisions in the Grant Agreement you will have to sign in order to obtain the grant (*including cost eligibility, payment schedule, accessory obligations, etc*).

You are also encouraged to visit the [CINEA website](#) to consult the list of projects funded previously.

1. Background

This call resorts under the Connecting Europe Facility 2021-2027 – multiannual work programme for the transport sector. The programme has the general objective to build, develop, modernise and complete the trans-European networks, taking into account the Union long-term decarbonisation commitments, and thus to contribute to smart, sustainable and inclusive growth and to enhance territorial, social and economic cohesion. It shall contribute to the development of projects of common interest relating to efficient, interconnected, and multimodal networks and infrastructure for sustainable, smart, interoperable, inclusive, accessible, resilient, safe and secure mobility. It shall contribute to more sustainable modal composition of the transport system, in order to meet EU climate neutrality and zero pollution ambitions by 2050.

CEF contributes to the EU goal of climate-related spending and decarbonising transport. In accordance with the European Green Deal, CEF 2021-2027 will target a contribution of 60% of its overall financial envelope to co-financing Actions supporting climate objectives and moving fast towards zero-emission mobility. A methodology to track climate expenditures against the targets set has been developed by the Commission and will be applied to all Actions under CEF.

The implementation of the multiannual work programme aims at contributing to the completion of the Trans-European Networks - Transport (TEN-T), thereby further enhancing sustainable and smart mobility. It is expected that granting of support on the basis of this multiannual work programme will contribute to the timely and efficient development of the TEN-T Core Network, support the realisation of a robust

and resource-efficient European transport system and address climate change in accordance with the European Green Deal.

The granted support will directly contribute, inter alia, to the achievement of important transport policy objectives, such as establishing major interoperable transport axes interconnecting national networks and facilitating the functioning of the internal market, the optimal use of existing infrastructure capacities, improving the safety and reliability of the network, fostering cohesion and cross-border mobility, enhancing accessibility of peripheral areas of the Union, enhancing an integrated multimodal approach aiming at shifting a considerable part of transport that currently takes place by road towards more sustainable transport modes, increasing the capacity and performance of rail, inland waterways and short sea shipping infrastructure, contributing to a more balanced modal distribution, and reducing the negative environmental impacts of transport, in particular as regards GHG emissions.

2. Objectives – Themes and priorities – Activities that can be funded

CEF-T-2021-COREGEN-IWWP-STUDIES: Inland waterways and ports – studies

Objective: The objective is to develop inland waterways transport infrastructure projects on the Core Network of the TEN-T.

Scope: Studies on inland waterways related to:

- upgrade of waterways and related infrastructure such as locks and weirs/dams in order to achieve stable or improved navigation conditions, performance and/or more capacity for the passage of vessels or to ensure good navigation status;
- creation of new waterways and related infrastructure (locks, weirs/dams, bridges);
- construction/lifting/upgrading of locks and movable bridges, to improve the passage of vessels and convoys;
- automation of waterway infrastructure (e.g. locks, weirs/dams, bridges) to improve its operation and monitoring;
- increasing of under-bridge clearance;
- ensuring year-round navigability e.g. by means of hydrological services, ice-breaking facilities and capital dredging;
- waterside infrastructure including the creation and/or upgrade of infrastructure for mooring and waterborne operations along a waterway;
- interconnection between inland waterways and maritime transport.

Studies on inland ports related to:

- access, including safe access through navigational aids, of inland ports to inland waterways;

- basic and water-side infrastructure in inland ports, including shore-side electricity supply;
- port reception facilities for oil and other waste (including residues from exhaust gas cleaning systems) and infrastructure for degassing vessels to meet environmental requirements;
- providing or improving road/rail access and connections within inland ports;
- ensuring year-round navigability by means of e.g. hydrological services, ice-breaking facilities and dredging of the port and port approaches.

Water-side infrastructure development projects shall mean infrastructure that enhances the navigability capacity in the meaning of Articles 15 and 16 of the Regulation (EU) No 1315/2013 or improves the multimodal connection of waterborne transport operations. This excludes infrastructure that does not directly benefit waterborne transport operations.

Support will not be given to infrastructure dedicated to cruise ships, except as regards shore-side electricity supply.

Hinterland connections to the inland ports are covered by the respective transport mode priorities but may be part of a single Action (for instance an Action improving the rail access both within and outside the port area).

In accordance with Article 9(2)(a)(i) of the CEF Regulation, Actions addressing the Core Network may include related elements on the Comprehensive Network, when necessary to optimize the investment. These elements may form up to 10% of the total eligible costs of the Action and shall be presented as a separate work package.

Facilities and infrastructure supported under CEF must be accessible for use by all operators on a non-discriminatory basis.

The foreseen duration of the action should be 2-3 years maximum.

CEF-T-2021-COREGEN-IWWP-WORKS: Inland waterways and ports – works or mixed

Objective: The objective is to develop inland waterways transport infrastructure projects on the Core Network of the TEN-T.

Scope: Works on inland waterways, with the possibility to include studies, related to:

- upgrade of waterways and related infrastructure such as locks and weirs/dams in order to achieve stable or improved navigation conditions, performance and/or more capacity for the passage of vessels or to ensure good navigation status;
- creation of new waterways and related infrastructure (locks, weirs/dams, bridges);
- construction/lifting/upgrading of locks and movable bridges, to improve the passage of vessels and convoys;

- automation of waterway infrastructure (e.g. locks, weirs/dams, bridges) to improve its operation and monitoring;
- increasing of under-bridge clearance;
- ensuring year-round navigability e.g. by means of hydrological services, ice-breaking facilities and capital dredging;
- waterside infrastructure including the creation and/or upgrade of infrastructure for mooring and waterborne operations along a waterway;
- interconnection between inland waterways and maritime transport.

Works on inland ports, with the possibility to include studies, related to:

- access, including safe access through navigational aids, of inland ports to inland waterways;
- basic and water-side infrastructure in inland ports, including shore-side electricity supply;
- port reception facilities for oil and other waste (including residues from exhaust gas cleaning systems) and infrastructure for degassing vessels to meet environmental requirements;
- providing or improving road/rail access and connections within inland ports;
- ensuring year-round navigability by means of e.g. hydrological services, ice-breaking facilities and dredging of the port and port approaches.

Water-side infrastructure development projects shall mean infrastructure that enhances the navigability capacity in the meaning of Articles 15 and 16 of the Regulation (EU) No 1315/2013 or improves the multimodal connection of waterborne transport operations. This excludes infrastructure that does not directly benefit waterborne transport operations.

Support will not be given to infrastructure dedicated to cruise ships, except as regards shore-side electricity supply.

Hinterland connections to the inland ports are covered by the respective transport mode priorities but may be part of a single Action (for instance an Action improving the rail access both within and outside the port area).

In accordance with Article 9(2)(a)(i) of the CEF Regulation, Actions addressing the Core Network may include related elements on the Comprehensive Network, when necessary to optimize the investment. These elements may form up to 10% of the total eligible costs of the Action and shall be presented as a separate work package.

Facilities and infrastructure supported under CEF must be accessible for use by all operators on a non-discriminatory basis.

The foreseen duration of the action should be 4-5 years maximum.

CEF-T-2021-COREGEN-MARP-STUDIES: Maritime ports – studies

Objective: The objective is to develop infrastructure projects in maritime ports on the Core Network of the TEN-T.

Scope: Studies in core maritime ports related to:

- port access aiming at providing safe maritime access in the form of breakwaters, access channels, fairways, locks and navigational aids;
- basic port infrastructure, with a priority on:
 - development of zero or low-emission multimodal solutions, or;
 - development of ports' capacities and facilities in relation with offshore wind farms, or;
 - improving connectivity of remote, insular or outermost regions³ or of Member States with no land border with another Member State;
- shore-side electricity supply;
- port reception facilities for oil and other waste (including residues from exhaust gas cleaning systems) to meet environmental requirements;
- ensuring year-round navigability by means of capital dredging and ice-breaking facilities;
- providing or improving road/rail access and connections within maritime ports.

Support will not be given to studies related to infrastructure dedicated for cruise ships, except as regards shore-side electricity supply.

Hinterland connections to the maritime ports are covered by the respective transport mode priorities but may be part of a single Action (for instance an Action improving the rail access both within and outside the port area).

The basic infrastructure for development of zero or low-emission multimodal solutions could include basic infrastructure for improving the interconnection between the maritime transport and inland waterways.

In accordance with Article 9(2)(a)(i) of the CEF Regulation, Actions addressing the Core Network may include related elements on the Comprehensive Network, when necessary to optimize the investment. These elements may form up to 10% of the total eligible costs of the Action and shall be presented as a separate work package.

Facilities and infrastructure supported under CEF must be accessible for use by all operators on a non-discriminatory basis.

The foreseen duration of the action should be 2-3 years maximum.

³ As defined in Article 349 TFEU.

CEF-T-2021-COREGEN-MARP-WORKS: Maritime ports – works or mixed

Objective: The objective is to develop infrastructure projects in maritime ports on the Core Network of the TEN-T.

Scope: Works on core maritime ports, with the possibility to include studies, related to:

- port access aiming at providing safe maritime access in the form of breakwaters, access channels, fairways, locks and navigational aids;
- basic port infrastructure, with a priority on:
 - development of zero or low-emission multimodal solutions, or;
 - development of ports' capacities and facilities in relation with offshore wind farms, or;
 - improving connectivity of remote, insular or outermost regions⁴ or of Member States with no land border with another Member State;
- shore-side electricity supply;
- port reception facilities for oil and other waste (including residues from exhaust gas cleaning systems) to meet environmental requirements;
- ensuring year-round navigability by means of capital dredging and ice-breaking facilities;
- providing or improving road/rail access and connections within maritime ports.

Support will not be given to infrastructure dedicated for cruise ships, except as regards shore-side electricity supply.

Hinterland connections to the maritime ports are covered by the respective transport mode priorities but may be part of a single Action (for instance an Action improving the rail access both within and outside the port area).

The basic infrastructure for development of zero or low-emission multimodal solutions could include basic infrastructure for improving the interconnection between the maritime transport and inland waterways.

In accordance with Article 9(2)(a)(i) of the CEF Regulation, Actions addressing the Core Network may include related elements on the Comprehensive Network, when necessary to optimize the investment. These elements may form up to 10% of the total eligible costs of the Action and shall be presented as a separate work package.

Facilities and infrastructure supported under CEF must be accessible for use by all operators on a non-discriminatory basis.

The foreseen duration of the action should be 4-5 years maximum.

⁴ As defined in Article 349 TFEU.

CEF-T-2021-COREGEN-RAIL-STUDIES: Rail – studies

Objective: The objective is to develop rail transport infrastructure projects on the Core Network of the TEN-T.

Scope: Studies related to:

- construction/upgrading of cross-border and missing links;
- capacity and performance upgrade of existing lines, including removal of level-crossings and upgrades necessary for 740 meters long trains and upgrades necessary to facilitate international rail passenger and freight transport;
- capacity increase in nodes, including as regards a better articulation of long-distance and local traffic;
- interconnections between rail and other modes of transport, in particular inland waterway and maritime transport and actions aimed at the integration of the rail and air networks to make the feeder network for long-haul flights more sustainable. Actions located exclusively within the perimeter of inland ports and maritime ports shall be submitted under those priorities respectively;
- connections of freight terminals to the TEN-T Network;
- electrification of line tracks and upgrade of electrification systems.

Support will not be given to railway stations, except for railway infrastructure components. If the Action includes such components, they shall be presented as a separate work package. Neither shall support be given to activities related to the Class B systems. Actions shall comply with the provisions of Directive 2016/797 on the interoperability of the rail system (Directive 2016/797 of the European Parliament and of the Council of 11 May 2016 on the interoperability of the rail system within the European Union which replaces Directive 2008/57/EC as of 31 October 2020 (*OJ L 138, 26.5.2016, p. 44*)) and with the related Technical Specifications for Interoperability. Where relevant, Actions shall also be compatible with the alignment of operating procedures across borders in order to ensure the most effective use of the supported infrastructure.

In accordance with Article 9(2)(a)(i) of the CEF Regulation, Actions addressing the Core Network may include related elements on the Comprehensive Network, when necessary to optimize the investment. These elements may form up to 10% of the total eligible costs of the Action and shall be presented as a separate work package.

Facilities and infrastructure supported under CEF must be accessible for use by all operators on a non-discriminatory basis.

The foreseen duration of the action should be 2-3 years maximum.

CEF-T-2021-COREGEN-RAIL-WORKS: Rail – works or mixed

Objective: The objective is to develop rail transport infrastructure projects on the Core Network of the TEN-T.

Scope: Works, with the possibility to include studies, related to:

- construction/upgrading of cross-border and missing links;
- capacity and performance upgrade of existing lines, including removal of level-crossings and upgrades necessary for 740 meters long trains and upgrades necessary to facilitate international rail passenger and freight transport;
- capacity increase in nodes, including as regards a better articulation of long-distance and local traffic;
- interconnections between rail and other modes of transport, in particular inland waterway and maritime transport and actions aimed at the integration of the rail and air networks to make the feeder network for long-haul flights more sustainable. Actions located exclusively within the perimeter of inland ports and maritime ports shall be submitted under those priorities respectively;
- connections of freight terminals to the TEN-T Network;
- electrification of line tracks and upgrade of electrification systems.

Support will not be given to railway stations, except for railway infrastructure components. If the Action includes such components, they shall be presented as a separate work package. Neither shall support be given to activities related to the Class B systems. Actions shall comply with the provisions of Directive 2016/797 on the interoperability of the rail system (Directive 2016/797 of the European Parliament and of the Council of 11 May 2016 on the interoperability of the rail system within the European Union which replaces Directive 2008/57/EC as of 31 October 2020 (*OJ L 138, 26.5.2016, p. 44*)) and with the related Technical Specifications for Interoperability. Where relevant, Actions shall also be compatible with the alignment of operating procedures across borders in order to ensure the most effective use of the supported infrastructure.

In accordance with Article 9(2)(a)(i) of the CEF Regulation, Actions addressing the Core Network may include related elements on the Comprehensive Network, when necessary to optimize the investment. These elements may form up to 10% of the total eligible costs of the Action and shall be presented as a separate work package.

Facilities and infrastructure supported under CEF must be accessible for use by all operators on a non-discriminatory basis.

The foreseen duration of the action should be 4-5 years maximum.

CEF-T-2021-COREGEN-ROADS-STUDIES: Roads, rail-road terminals and multimodal logistics platforms – studies

Objective: The objective is to develop road infrastructure projects, rail-road terminals and multimodal logistics platforms on the Core Network of the TEN-T.

Scope: Studies on roads, rail-road terminals and multimodal logistics platforms related to:

- pre-identified road links as stipulated in Section 1 of Part III of the Annex of the CEF Regulation, in particular cross-border links on the Core Network;
- components of the Core road Networks located in Member States which do not have a land border with another Member State as stipulated in Section 3 of Part III of the Annex of the CEF Regulation;
- improving road connections to maritime and inland ports and rail-road terminals as listed in Annex II of Regulation (EU) No 1315/2013 as long as the actions do not aim at increasing road transport capacity, but address a significant bottleneck;
- construction or upgrade of rail-road terminals as listed in Annex II of Regulation (EU) No 1315/2013, combined transport transshipment points and other publicly accessible multimodal logistics platforms located on the TEN-T Network, including connecting or siding tracks, power connections, safe and secure truck waiting areas, adaptations for 740 m train length, clean transshipment equipment for intermodal loading units, including specific equipment for rolling motorways and the transportation of semi-trailers by rail, and ICT equipment and applications.

Support will not be given to buildings, storage and warehouse facilities. Actions addressing roads shall be compliant with Directive (EU) 2019/1936 (Directive 2019/1936 of the European Parliament and of the Council of 23 October 2019 amending Directive 2008/96/EC on road infrastructure safety management (*OJ L 305, 26.11.2019, p. 1*)) and Directive (EU) 2004/54/EC (Directive 2004/54/EC of the European Parliament and of the Council of 29 April 2004 on minimum safety requirements for tunnels in the Trans-European Road Network (*OJ L 167, 30.4.2004, p. 39–91*)).

In accordance with Article 9(2)(a)(i) of the CEF Regulation, Actions addressing the Core Network may include related elements on the Comprehensive Network, when necessary to optimize the investment. These elements may form up to 10% of the total eligible costs of the Action and shall be presented as a separate work package.

Facilities and infrastructure supported under CEF must be accessible for use by all operators on a non-discriminatory basis.

The foreseen duration of the action should be 2-3 years maximum.

CEF-T-2021-COREGEN-ROADS-WORKS: Roads, rail-road terminals and multimodal logistics platforms – works or mixed

Objective: The objective is to develop road infrastructure projects, rail-road terminals and multimodal logistics platforms on the Core Network of the TEN-T.

Scope: Works on roads, rail-road terminals and multimodal logistics platforms, with the possibility to include studies, related to:

- pre-identified road links as stipulated in Section 1 of Part III of the Annex of the CEF Regulation, in particular cross-border links on the Core Network;
- components of the Core road Networks located in Member States which do not have a land border with another Member State as stipulated in Section 3 of Part III of the Annex of the CEF Regulation;
- improving road connections to maritime and inland ports and rail-road terminals as listed in Annex II of Regulation (EU) No 1315/2013 as long as the actions do not aim at increasing road transport capacity, but address a significant bottleneck;
- construction or upgrade of rail-road terminals as listed in Annex II of Regulation (EU) No 1315/2013, combined transport transshipment points and other publicly accessible multimodal logistics platforms located on the TEN-T Network, including connecting or siding tracks, power connections, safe and secure truck waiting areas, adaptations for 740 m train length, clean transshipment equipment for intermodal loading units, including specific equipment for rolling motorways and the transportation of semi-trailers by rail, and ICT equipment and applications.

Support will not be given to buildings, storage and warehouse facilities. Actions addressing roads shall be compliant with Directive (EU) 2019/1936 (Directive 2019/1936 of the European Parliament and of the Council of 23 October 2019 amending Directive 2008/96/EC on road infrastructure safety management (*OJ L 305, 26.11.2019, p. 1*)) and Directive (EU) 2004/54/EC (Directive 2004/54/EC of the European Parliament and of the Council of 29 April 2004 on minimum safety requirements for tunnels in the Trans-European Road Network (*OJ L 167, 30.4.2004, p. 39–91*)).

In accordance with Article 9(2)(a)(i) of the CEF Regulation, Actions addressing the Core Network may include related elements on the Comprehensive Network, when necessary to optimize the investment. These elements may form up to 10% of the total eligible costs of the Action and shall be presented as a separate work package.

Facilities and infrastructure supported under CEF must be accessible for use by all operators on a non-discriminatory basis.

The foreseen duration of the action should be 4-5 years maximum.

3. Available budget

The available call budget is **EUR 1.620.000.000**.

We reserve the right not to award all available funds or to redistribute them between the call topics, depending on the proposals received and the results of the evaluation.

4. Timetable and deadlines

Timetable and deadlines (indicative)	
Call opening:	16 September 2021
<u>Deadline for submission:</u>	<u>19 January 2022 – 17:00:00 CET</u> (Brussels)
Evaluation:	January -May 2022
Information on evaluation results:	June 2022
GA signature:	September/October 2022

5. Admissibility and documents

Proposals must be submitted before the **call deadline** (see *timetable section 4*).

Proposals must be submitted **electronically** via the Funding & Tenders Portal Electronic Submission System (accessible via the Topic page in the [Search Funding & Tenders](#) section). Paper submissions are NOT possible.

Proposals (including annexes and supporting documents) must be submitted using the forms provided *inside* the Submission System (⚠ NOT the documents available on the Topic page – they are only for information).

Proposals must be **complete** and contain all the requested information and all required annexes and supporting documents:

- Application Form Part A – contains administrative information about the participants (future coordinator, beneficiaries and affiliated entities) and the summarised budget for the project (*to be filled in directly online*)
- Application Form Part B – contains the technical description of the project (*to be downloaded from the Portal Submission System, completed and then assembled and re-uploaded*)
- **mandatory annexes and supporting documents** (*to be uploaded*):
 - detailed budget table per WP (*template available in the Submission System*)
 - activity reports of last year
 - list of previous projects (key projects for the last 4 years) (*template available in Part B*)

- timetable/Gantt chart
- agreement by the concerned Member States (letters of support)
- environmental compliance file (for works and for studies with physical interventions)
- (simplified) cost-benefit analysis (CBA) (only for 'Works Actions, not for studies; simplified CBA for 'Works' Actions with a total eligible of less than 10 million EUR)

Please note that the amounts entered into the summarised budget table (filled in directly online) must correspond to the amounts calculated in the detailed budget table. In case of discrepancies, the amounts in the online summarised budget table will prevail.

At proposal submission, you will have to confirm that you have the **mandate to act** for all applicants. Moreover you will have to confirm that the information in the application is correct and complete and that the participants comply with the conditions for receiving EU funding (especially eligibility, financial and operational capacity, exclusion, etc). Before signing the grant, each beneficiary and affiliated entity will have to confirm this again by signing a declaration of honour (DoH). Proposals without full support will be rejected.

Your application must be **readable, accessible and printable**.

Proposals are limited to maximum **120 pages** (Part B). Evaluators will not consider any additional pages.

You may be asked at a later stage for further documents (*for legal entity validation, financial capacity check, bank account validation, etc.*).

 For more information about the submission process (including IT aspects), consult the [Online Manual](#).

6. Eligibility

Eligible participants (eligible countries)

In order to be eligible, the applicants (beneficiaries and affiliated entities) must:

- be legal entities (public or private bodies)
- be established in one of the eligible countries, i.e.:
 - EU Member States (including overseas countries and territories (OCTs))
 - third countries associated to the CEF (list [none]).

Beneficiaries and affiliated entities must register in the [Participant Register](#) — before submitting the proposal — and will have to be validated by the Central Validation Service (REA Validation). For the validation, they will be requested to upload documents showing legal status and origin.

Other entities may participate in other consortium roles, such as associated partners, subcontractors, third parties giving in-kind contributions, etc (*see section 13*).

Specific cases

Exceptional funding — Entities from other countries (not listed above) are exceptionally eligible for projects of common interest in the field of transport, energy and digital and for cross-border projects in the field of renewable energy, if the

granting authority considers their participation essential for the implementation of the action.

Natural persons — Natural persons are NOT eligible (with the exception of self-employed persons, i.e. sole traders, where the company does not have legal personality separate from that of the natural person).

International organisations — International organisations are eligible. The rules on eligible countries do not apply to them.

Entities without legal personality — Entities which do not have legal personality under their national law may exceptionally participate, provided that their representatives have the capacity to undertake legal obligations on their behalf, and offer guarantees for the protection of the EU financial interests equivalent to that offered by legal persons⁵.

EU bodies — EU bodies (with the exception of the European Commission Joint Research Centre) can NOT be part of the consortium.

Countries currently negotiating association agreements — Beneficiaries from countries with ongoing negotiations (*see above*) may participate in the call and can sign grants if the negotiations are concluded before grant signature (with retroactive effect, if provided in the agreement).

EU restrictive measures — Special rules apply for certain entities (*e.g. entities subject to [EU restrictive measures](#) under Article 29 of the Treaty on the European Union (TEU) and Article 215 of the Treaty on the Functioning of the EU (TFEU)*⁶ and entities covered by Commission Guidelines No [2013/C 205/05](#)⁷). Such entities are not eligible to participate in any capacity, including as beneficiaries, affiliated entities, associated partners, subcontractors or recipients of financial support to third parties (if any).

 For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

[Consortium composition](#)

N/A

[Eligible activities](#)

Eligible activities are the ones set out in section 2 above.

Applications may include activities relating to the mitigation of environmental impact and the preservation of biodiversity, notably as regards on-site reforestation or specific infrastructure components allowing for the continuity of the natural habitat or the safe crossing of animals. Activities relating to the mitigation of environmental impact may include noise protection barriers.

Projects should take into account the results of projects supported by other EU funding programmes. The complementarities must be described in the project proposals (Part B of the Application Form).

⁵ See Article 197(2)(c) EU Financial Regulation [2018/1046](#).

⁶ Please note that the EU Official Journal contains the official list and, in case of conflict, its content prevails over that of the [EU Sanctions Map](#).

⁷ Commission guidelines No [2013/C 205/05](#) on the eligibility of Israeli entities and their activities in the territories occupied by Israel since June 1967 for grants, prizes and financial instruments funded by the EU from 2014 onwards (OJEU C 205 of 19.07.2013, pp. 9-11).

Financial support to third parties is not allowed.

Geographic location

Proposals must relate to activities taking place in the eligible countries (*see above*).

7. Financial and operational capacity and exclusion

Financial capacity

Applicants must have **stable and sufficient resources** to successfully implement the projects and contribute their share. Organisations participating in several projects must have sufficient capacity to implement all these projects.

The financial capacity check will be carried out on the basis of the documents you will be requested to upload in the [Participant Register](#) during grant preparation (*e.g. profit and loss account and balance sheet, business plan, audit report produced by an approved external auditor, certifying the accounts for the last closed financial year, etc*). The analysis will be based on neutral financial indicators, but will also take into account other aspects, such as dependency on EU funding and deficit and revenue in previous years.

The check will normally be done for all beneficiaries, except:

- public bodies (entities established as public body under national law, including local, regional or national authorities) or international organisations
- if the individual requested grant amount is not more than EUR 60 000.

If needed, it may also be done for affiliated entities.

If we consider that your financial capacity is not satisfactory, we may require:

- further information
- an enhanced financial responsibility regime, i.e. joint and several responsibility for all beneficiaries or joint and several liability of affiliated entities (*see below, section 10*)
- prefinancing paid in instalments
- (one or more) prefinancing guarantees (*see below, section 10*)

or

- propose no prefinancing
- request that you are replaced or, if needed, reject the entire proposal.

 For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

Operational capacity

Applicants must have the **know-how, qualifications** and **resources** to successfully implement the projects and contribute their share (including sufficient experience in projects of comparable size and nature).

This capacity will be assessed together with the 'Quality' award criterion, on the basis of the competence and experience of the applicants and their project teams, including operational resources (human, technical and other) or, exceptionally, the measures proposed to obtain it by the time the task implementation starts.

If the evaluation of the award criterion is positive, the applicants are considered to have sufficient operational capacity.

Applicants will have to show their capacity via the following information:

- description of the consortium participants, if applicable
- applicants' activity reports of last year
- list of previous projects (key projects for the last 4 years).

Additional supporting documents may be requested, if needed to confirm the operational capacity of any applicant.

Public bodies, Member State organisations and international organisations are exempted from the operational capacity check.

Exclusion

Applicants which are subject to an **EU exclusion decision** or in one of the following **exclusion situations** that bar them from receiving EU funding can NOT participate⁸:

- bankruptcy, winding up, affairs administered by the courts, arrangement with creditors, suspended business activities or other similar procedures (including procedures for persons with unlimited liability for the applicant's debts)
- in breach of social security or tax obligations (including if done by persons with unlimited liability for the applicant's debts)
- guilty of grave professional misconduct⁹ (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- committed fraud, corruption, links to a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- shown significant deficiencies in complying with main obligations under an EU procurement contract, grant agreement, prize, expert contract, or similar (including if done by persons having powers of representation, decisionmaking- or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- guilty of irregularities within the meaning of Article 1(2) of Regulation No [2988/95](#) (including if done by persons having powers of representation,

⁸ See Articles 136 and 141 of EU Financial Regulation [2018/1046](#).

⁹ Professional misconduct includes: violation of ethical standards of the profession, wrongful conduct with impact on professional credibility, false declarations/misrepresentation of information, participation in a cartel or other agreement distorting competition, violation of IPR, attempting to influence decision-making processes or obtain confidential information from public authorities to gain advantage.

decisionmaking- or control, beneficial owners or persons who are essential for the award/implementation of the grant)

- created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin or created another entity with this purpose (including if done by persons having powers of representation, decisionmaking- or control, beneficial owners or persons who are essential for the award/implementation of the grant).

Applicants will also be refused if it turns out that¹⁰:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information
- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

8. Evaluation and award procedure

The proposals will have to follow the **standard submission and evaluation procedure** (one-stage submission + one-step evaluation).

An **evaluation committee** (assisted by independent outside experts) will assess all applications. Proposals will first be checked for formal requirements (admissibility, and eligibility, *see sections 5 and 6*). Proposals found admissible and eligible will be evaluated against the operational capacity and award criteria (3 phases: individual evaluation, consensus phase and panel review) and then ranked according to their scores (*see sections 7 and 9*).

For proposals with the same score a **priority order** will be determined according to the following approach:

1. Score obtained under the 'Priority and urgency' criterion
2. Score obtained under the 'Maturity' criterion
3. Score obtained under the 'Catalytic effect' criterion
4. Score obtained under the 'Impact' criterion
5. Score obtained under the 'Quality' criterion.

All proposals will be informed about the evaluation result (**evaluation result letter**). Successful proposals will be invited for grant preparation; the other ones will be put on the reserve list or rejected.

 No commitment for funding — Invitation to grant preparation does NOT constitute a formal commitment for funding. We will still need to make various legal checks before grant award: *legal entity validation, financial capacity, exclusion check, etc.*

Grant preparation will involve a dialogue in order to fine-tune technical or financial aspects of the project and may require extra information from your side. It may also include adjustments to the proposal to address recommendations of the evaluation committee or other concerns. Compliance will be a pre-condition for signing the grant.

¹⁰ See Article 141 EU Financial Regulation [2018/1046](#).

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications which have not been opened within 10 days after sending are considered to have been accessed and that deadlines will be counted from opening/access (see also [Funding & Tenders Portal Terms and Conditions](#)). Please also be aware that for complaints submitted electronically, there may be character limitations.

9. Award criteria

The **award criteria** for this call are as follows:

- **Priority and urgency:** evaluating the correspondence of the proposal with the sectoral policy objectives and priorities, measuring its EU added-value and where applicable assessing the possible synergies with other sectors; (5 points)
- **Maturity:** assessing the maturity of the action in the project development. The criterion will measure, among others: i) the readiness/ability of the project to start by the proposed start date and to complete by the proposed end date, ii) the status of the contracting procedures and of the necessary permits, and iii) information on the financial availability needed to complement the CEF investment; (5 points)
- **Quality:** evaluating the soundness of the implementation plan proposed, both from the technical and financial point of view, the architecture and design approach, the organisational structures put in place (or foreseen) for the implementation, the risk analysis, the control procedures and quality management and the communication strategy of the applicant. Moreover, when applicable, it will also assess the information related to the maintenance strategy proposed for the completed project; (5 points)
- **Impact:** assessing, when applicable, the economic, social and environmental impact, including the climate impact, and other relevant externalities. This criterion may be substantiated by a Cost Benefit Analysis (CBA) or, in the absence of such tools, other forecast of end-user take-up, in which case the evaluation will look at the soundness, comprehensiveness, and transparency of the analysis as well as proposed means to monitor its impact. Moreover, when applicable, the criterion will assess, among others, the innovation and digitalisation, safety and interoperability and accessibility aspects of the proposal, as well as its cross-border dimension, effect/contribution to the network territorial accessibility; (5 points)
- **Catalytic effect:** evaluating the financial gap (for instance the need to overcome financial obstacles generated by insufficient commercial viability, high upfront costs or the lack of market finance), the capacity to mobilise different investments sources, the capacity to trigger important overall investments with limited EU support and when appropriate the extent to which externalities justify the CEF financial support. It shall assess the catalytic effect of the EU financial support and determine whenever possible the actual co-funding rate to be granted. (5 points)

Award criteria	Minimum pass score	Maximum score
Priority and urgency	3	5
Maturity	3	5
Quality	3	5
Impact	3	5
Catalytic effect	3	5
Overall (pass) scores	15	25

Maximum points: 25 points.

Individual thresholds per criterion: 3/5, 3/5, 3/5, 3/5 and 3/5 points.

Overall threshold: 15 points.

10. Legal and financial set-up of the Grant Agreements

If you pass evaluation, your project will be invited for grant preparation, where you will be asked to prepare the Grant Agreement together with the EU Project Officer.

This Grant Agreement will set the framework for your grant and its terms and conditions, in particular concerning deliverables, reporting and payments.

The Model Grant Agreement that will be used (and all other relevant templates and guidance documents) can be found on [Portal Reference Documents](#).

Starting and end dates

The starting date shall not be earlier than 1st January 2021 and the end date shall not be later than 31 December 2026. During implementation, in duly justified cases, the end date may be postponed through an amendment of the grant agreement.

Milestones and deliverables

The milestones and deliverables for each project will be managed through the Portal Grant Management System and will be reflected in Annex 1 of the Grant Agreement.

Beneficiaries will also be invited to provide and update information regarding network allocation and output indicators.

Form of grant, funding rate and maximum grant amount

The grant parameters (*maximum grant amount, funding rate, total eligible costs, etc*) will be fixed in the Grant Agreement (*Data Sheet, point 3 and art 5*).

Project budget (maximum grant amount): projects of any budget are admitted. In order to ensure efficiency in EU funding interventions, applicants are strongly encouraged to submit applications for projects with a total requested EU contribution to the eligible costs of no less than €1,000,000. Where possible, related projects should be grouped and submitted as one proposal.

The grant awarded may be lower than the amount requested.

The costs will be reimbursed at the funding rates fixed in the Grant Agreement (**50%** for the costs of studies, **70%** for the costs of works in outermost regions (not applicable for inland waterways), **50%** for the other costs categories ('project funding rate') for Actions supporting inland waterways and **30%** for the other costs categories ('project funding rate') for Actions supporting the other transport modes.

You can apply for a higher project funding rate if your project concerns:

- cross-border links: 50% (not applicable for roads and maritime ports)
- cross-border links with integrated management: 55% (not applicable for roads and maritime ports)
- railway links between cohesion countries: 85%
- railway links between cohesion countries with integrated management: 90%

Grants may NOT produce a profit (i.e. surplus of revenues + EU grant over costs). For-profit organisations must declare their revenues and, if there is a profit, we will deduct it from the final grant amount (*see art 22.3*).

Moreover, please be aware that the final grant amount may be reduced in case of non-compliance with the Grant Agreement (*e.g. improper implementation, breach of obligations, etc*).

Budget categories and cost eligibility rules

The budget categories and cost eligibility rules are fixed in the Grant Agreement (*Data Sheet, point 3, art 6 and Annex 2*).

 Please be aware that project management costs (including related tasks, such as consortium-internal progress meetings, project reporting etc) should not exceed 10% of total costs for the project. Costs exceeding this limit will be rejected during grant preparation.

Budget categories for this call:

- A. Personnel costs
 - A.1 Employees,
 - A.2 Natural persons under direct contract,
 - A.3 Seconded persons
 - A.4 SME owners and natural person beneficiaries
- B. Subcontracting costs
- C. Purchase costs
 - C.1 Travel and subsistence
 - C.2 Equipment
 - C.3 Other goods, works and services
- D. Other cost categories
 - D.1 Financial support to third parties

- D.2 Studies
- D.3 Synergetic elements
- D.4 Work in outermost regions
- E. Indirect costs

Specific cost eligibility conditions for this call:

- personnel costs:
 - average personnel costs (unit cost according to usual cost accounting practices): Yes
 - SME owner/natural person unit cost¹¹ : Yes
- subcontracting costs:
 - country restrictions for subcontracting costs: yes, subcontracted work must be performed in the eligible countries or target countries
- travel and subsistence unit cost¹²: No (only actual costs)
- equipment costs: full cost
- other cost categories:
 - costs for financial support to third parties: not allowed
 - studies: yes
 - synergetic elements: yes (only for 'Works' Actions, not for 'Studies')
 - work in outermost regions: yes
 - land purchases: no
- indirect cost flat-rate: 0% of the eligible direct costs (categories A-D, except volunteers costs and exempted specific cost categories, if any)
- VAT: VAT is NOT eligible
- other:
 - in-kind contributions for free are allowed, but cost-neutral, i.e. they cannot be declared as cost
 - project websites: communication costs for presenting the project on the participants' websites or social media accounts are eligible; costs for *separate* project websites are not eligible
 - eligible cost country restrictions: yes, only costs for activities carried out in eligible countries or target countries are eligible

Reporting and payment arrangements

The reporting and payment arrangements are fixed in the Grant Agreement (*Data Sheet, point 4 and art 21 and 22*).

¹¹ Commission [Decision](#) of 20 October 2020 authorising the use of unit costs for the personnel costs of the owners of small and medium-sized enterprises and beneficiaries that are natural persons not receiving a salary for the work carried out by themselves under an action or work programme (C(2020)7715).

¹² Commission [Decision](#) of 12 January 2021 authorising the use of unit costs for travel, accommodation and subsistence costs under an action or work programme under the 2021-2027 multi-annual financial framework (C(2021)35).

After grant signature, you will normally receive a **prefinancing** to start working on the project. The amount will be established based on the grant type or estimated project duration at the time of grant signature and will vary between 25% and 50%. The prefinancing will be paid 30 days from entry into force/financial guarantee (if required) – whichever is the latest.

There will be one or more **interim payments** (with detailed cost reporting).

In addition, you will be expected to submit one or more progress reports not linked to payments.

Payment of the balance: At the end of the project, we will calculate your final grant amount. If the total of earlier payments is higher than the final grant amount, we will ask you (your coordinator) to pay back the difference (recovery).

All payments will be made to the coordinator.

 Please be aware that payments will be automatically lowered if one of your consortium members has outstanding debts towards the EU (granting authority or other EU bodies). Such debts will be offset by us – in line with the conditions set out in the Grant Agreement (*see art 22*).

Please also note that you are responsible for keeping records on all the work done and the costs declared.

Prefinancing guarantees

If a prefinancing guarantee is required, it will be fixed in the Grant Agreement (*Data Sheet, point 4*). The amount will be set during grant preparation and it will normally be equal or lower than the prefinancing for your grant.

The guarantee should be in euro and issued by an approved bank/financial institution established in an EU Member State. If you are established in a non-EU country and would like to provide a guarantee from a bank/financial institution in your country, please contact us (this may be exceptionally accepted, if it offers equivalent security).

Amounts blocked in bank accounts will NOT be accepted as financial guarantees.

Prefinancing guarantees are formally NOT linked to individual consortium members, which means that you are free to organise how to provide the guarantee amount (*by one or several beneficiaries, for the overall amount or several guarantees for partial amounts, by the beneficiary concerned or by another beneficiary, etc*). It is however important that the requested amount is covered and that the guarantee(s) are sent to us in time to make the prefinancing (scanned copy via Portal AND original by post).

If agreed with us, the bank guarantee may be replaced by a guarantee from a third party.

The guarantee will be released at the end of the grant, in accordance with the conditions laid down in the Grant Agreement.

Certificates

Depending on the type of action, size of grant amount and type of beneficiaries, you may be requested to submit different certificates. The types, schedules and thresholds for each certificate are fixed in the Grant Agreement (*Data Sheet, point 4 and art 24*).

Liability regime for recoveries

The liability regime for recoveries will be fixed in the Grant Agreement (*Data Sheet point 4.4 and art 22*).

For beneficiaries, it is one of the following:

- limited joint and several liability with individual ceilings — *each beneficiary up to their maximum grant amount*
 - unconditional joint and several liability — *each beneficiary up to the maximum grant amount for the action*
- or
- individual financial responsibility — *each beneficiary only for their own debts.*

In addition, the granting authority may require joint and several liability of affiliated entities (with their beneficiary).

Provisions concerning the project implementation

Security rules: *see Model Grant Agreement (art 13 and Annex 5)*

IPR rules: *see Model Grant Agreement (art 16 and Annex 5):*

- rights of use on results: yes

Communication, dissemination and visibility of funding: *see Model Grant Agreement (art 17 and Annex 5):*

- communication and dissemination plan: no
- additional communication and dissemination activities: yes

Specific rules for carrying out the action: *see Model Grant Agreement (art 18 and Annex 5):*

- Member State information: Yes
- specific rules for digital infrastructure projects: No
- specific rules for ATM common projects: No
- durability: Yes
- specific rules for blending operations: No

Other specificities

n/a

Non-compliance and breach of contract

The Grant Agreement (chapter 5) provides for the measures we may take in case of breach of contract (and other non-compliance issues).

For more information, see [AGA – Annotated Grant Agreement](#).

11. How to submit an application

All proposals must be submitted directly online via the Funding & Tenders Portal

Electronic Submission System. Paper applications are NOT accepted.

Submission is a **2-step process**:

a) **create a user account and register your organisation**

To use the Submission System (the only way to apply), all participants need to [create an EU Login user account](#).

Once you have an EULogin account, you can [register your organisation](#) in the Participant Register. When your registration is finalised, you will receive a 9-digit participant identification code (PIC).

b) **submit the proposal**

Access the Electronic Submission System via the Topic page in the [Search Funding & Tenders](#) section (or, for calls sent by invitation to submit a proposal, through the link provided in the invitation letter).

Submit your proposal in 3 parts, as follows:

- Part A includes administrative information about the applicant organisations (future coordinator, beneficiaries, affiliated entities and associated partners) and the summarised budget for the proposal. Fill it in directly online
- Part B (description of the action) covers the technical content of the proposal. Download the mandatory word template from the Submission System, fill it in and upload it as a PDF file
- Annexes (*see section 5*). Upload them as PDF file (single or multiple depending on the slots). Any template made available in Excel has to be uploaded in this format.

The proposal must keep to the **page limit** (*see section 5*); excess pages will be disregarded.

Documents must be uploaded to the **right category** in the Submission System otherwise the proposal might be considered incomplete and thus inadmissible.

The proposal must be submitted **before the call deadline** (*see section 4*). After this deadline, the system is closed and proposals can no longer be submitted.

Once the proposal is submitted, you will receive a **confirmation e-mail** (with date and time of your application). If you do not receive this confirmation e-mail, it means your proposal has NOT been submitted. If you believe this is due to a fault in the Submission System, you should immediately file a complaint via the [IT Helpdesk webform](#), explaining the circumstances and attaching a copy of the proposal (and, if possible, screenshots to show what happened).

Details on processes and procedures are described in the [Online Manual](#). The Online Manual also contains the links to FAQs and detailed instructions regarding the Portal Electronic Exchange System.

12. Help

As far as possible, ***please try to find the answers you need yourself***, in this and the other documentation (we have limited resources for handling direct enquiries):

- [Online Manual](#)
- FAQs on the Topic page (for call-specific questions in open calls; not applicable

for actions by invitation)

- [Portal FAQ](#) (for general questions)
- call information on the [CINEA website](#).

Please also consult the Topic page regularly, since we will use it to publish call updates.

Contact

For individual questions on the Portal Submission System, please contact the [IT Helpdesk](#).

Non-IT related questions should be sent to the following email address: CINEA-CEF-TRANSPORT-CALLS@ec.europa.eu.

Please indicate clearly the reference of the call and topic to which your question relates (*see cover page*).

13. Important

IMPORTANT

- **Don't wait until the end** — Complete your application sufficiently in advance of the deadline to avoid any last minute **technical problems**. Problems due to last minute submissions (*e.g. congestion, etc.*) will be entirely at your risk. Call deadlines can NOT be extended.
- **Consult** the Portal Topic page regularly. We will use it to publish updates and additional information on the call (call and topic updates).
- **Funding & Tenders Portal Electronic Exchange System** — By submitting the application, all participants **accept** to use the electronic exchange system in accordance with the [Portal Terms & Conditions](#).
- **Registration** — Before submitting the application, all beneficiaries, affiliated entities and associated partners must be registered in the [Participant Register](#). The participant identification code (PIC) (one per participant) is mandatory for the Application Form.
- **Consortium roles** — When setting up your consortium, you should think of organisations that help you reach objectives and solve problems.

The roles should be attributed according to the level of participation in the project. Main participants should participate as **beneficiaries** or **affiliated entities**; other entities can participate as associated partners, subcontractors, third parties giving in-kind contributions. **Associated partners** and third parties giving in-kind contributions should bear their own costs (they will not become formal recipients of EU funding).

- **Coordinator** — In multi-beneficiary grants, the beneficiaries participate as consortium (group of beneficiaries). They will have to choose a coordinator, who will take care of the project management and coordination and will represent the consortium towards the granting authority. In mono-beneficiary grants, the single beneficiary will automatically be coordinator.
- **Affiliated entities** — Applicants may participate with affiliated entities (i.e. entities linked to a beneficiary which participate in the action with similar rights and obligations as the beneficiaries, but do not sign the grant and therefore do not become beneficiaries themselves). They will get a part of the grant money and must therefore comply with all the call conditions and be validated (just like beneficiaries); but they do not count towards the minimum eligibility criteria for consortium composition (if any).
- **Associated partners** — Applicants may participate with associated partners (i.e. partner organisations which participate in the action but without the right to get grant money). They participate without funding and therefore do not need to be validated.
- **Consortium agreement** — For practical and legal reasons it is recommended to set up internal arrangements that allow you to deal with exceptional or unforeseen circumstances (in all cases, even if not mandatory under the Grant Agreement). The consortium agreement also gives you the possibility to redistribute the grant money according to your own consortium-internal principles and parameters (for instance, one beneficiary can reattribute its grant money to another beneficiary). The consortium agreement thus allows you to customise the EU grant to the needs inside your consortium and can also help to protect you in case of disputes.

- **Balanced project budget** — Grant applications must ensure a balanced project budget and sufficient other resources to implement the project successfully (*e.g. own contributions, income generated by the action, financial contributions from third parties, etc*). You may be requested to lower your estimated costs, if they are ineligible (including excessive).
- **No-profit rule** — Grants may NOT give a profit (i.e. surplus of revenues + EU grant over costs). This will be checked by us at the end of the project.
- **No double funding** — There is a strict prohibition of double funding from the EU budget (except under EU Synergies actions). Outside such Synergies actions, any given action may receive only ONE grant from the EU budget and cost items may under NO circumstances declared to two different EU actions.
- **Completed/ongoing projects** — Proposals for projects that have already been completed will be rejected; proposals for projects that have already started will be assessed on a case-by-case basis (in this case, no costs can be reimbursed for activities that took place before the project starting date/proposal submission).
- **Combination with EU operating grants** — Combination with EU operating grants is possible, if the project remains outside the operating grant work programme and you make sure that cost items are clearly separated in your accounting and NOT declared twice (see [AGA – Annotated Model Grant Agreement, art 6.2.E](#)).
- **Multiple proposals** — Applicants may submit more than one proposal for *different* projects under the same call (and be awarded a funding for them).

Organisations may participate in several proposals.

BUT: if there are several proposals for *very similar* projects, only one application will be accepted and evaluated; the applicants will be asked to withdraw one of them (or it will be rejected).

- **Resubmission** — Proposals may be changed and re-submitted until the deadline for submission.
- **Rejection** — By submitting the application, all applicants accept the call conditions set out in this Call Document (and the documents it refers to). Proposals that do not comply with all the call conditions will be **rejected**. This applies also to applicants: All applicants need to fulfil the criteria; if any one of them doesn't, they must be replaced or the entire proposal will be rejected.
- **Cancellation** — There may be circumstances which may require the cancellation of the call. In this case, you will be informed via a call or topic update. Please note that cancellations are without entitlement to compensation.
- **Language** — You can submit your proposal in any official EU language (project abstract/summary should however always be in English). For reasons of efficiency, we strongly advise you to use English for the entire application.

- **Transparency** — In accordance with Article 38 of the [EU Financial Regulation](#), information about EU grants awarded is published each year on the [Europa website](#).

This includes:

- beneficiary names
- beneficiary addresses
- the purpose for which the grant was awarded
- the maximum amount awarded.

The publication can exceptionally be waived (on reasoned and duly substantiated request), if there is a risk that the disclosure could jeopardise your rights and freedoms under the EU Charter of Fundamental Rights or harm your commercial interests.

- **Data protection** — The submission of a proposal under this call involves the collection, use and processing of personal data. This data will be processed in accordance with the applicable legal framework. It will be processed solely for the purpose of evaluating your proposal, subsequent management of your grant and, if needed, programme monitoring, evaluation and communication. Details are explained in the [Funding & Tenders Portal Privacy Statement](#).
