Disclaimer
This document is aimed at informing applicants for EU funding. It serves only as an example. The actual web forms and templates are provided in the Funding & Tenders Portal Submission System (and may contain certain differences). The applications (including annexes and supporting documents) must be prepared and submitted online via the Portal.
IMPORTANT NOTICE

What is the Application Form?
The Application Form is the template for EU grants applications; it must be submitted via the EU Funding & Tenders Portal before the call deadline.

The Form consists of 2 parts:
• Part A contains structured administrative information
• Part B is a narrative technical description of the project.

Part A is generated by the IT system. It is based on the information which you enter into the Portal Submission System screens.

Part B needs to be uploaded as PDF (+ annexes) in the Submission System. The templates to use are available there.

How to prepare and submit it?
The Application Form must be prepared by the consortium and submitted by a representative. Once submitted, you will receive a confirmation.

Character and page limits:
• page limit normally 70 pages (unless otherwise provided in the Call document)
• supporting documents can be provided as an annex and do not count towards the page limit
• minimum font size — Arial 9 points
• page size: A4
• margins (top, bottom, left and right): at least 15 mm (not including headers & footers).

Please abide by the formatting rules. They are NOT a target! Keep your text as concise as possible. Do not use hyperlinks to show information that is an essential part of your application.

⚠️ If you attempt to upload an application that exceeds the specified limit, you will receive an automatic warning asking you to shorten and re-upload your application. For applications that are not shortened, the excess pages will be made invisible and thus disregarded by the evaluators.

⚠️ Please do NOT delete any instructions in the document. The overall page limit has been raised to ensure equal treatment of all applicants.

⚠️ This document is tagged. Be careful not to delete the tags; they are needed for the processing.

Explain how the activities are complementary to other activities carried out by other organisations. Illustrate the European dimension of the activities: trans-national dimension of the project; impact/interest for a number of EU countries; possibility to use the results in other countries; potential to develop mutual trust/cross-border
cooperation among EU countries, etc.

Which countries will benefit from the project (directly and indirectly)? Where will the activities take place?

Do not repeat the information provided in section 5, but provide the details that are required for a complete understanding of the activities to be implemented, and demonstrate coherence and consistency of the project design.

Insert text

Financial support to third parties (if applicable)
If financial support to third parties is allowed in the Call document, set out the conditions for managing this. Define the objectives and results to be obtained with financial support. Include also the complete list of activities that are eligible for financial support, the types of entity or categories of persons which may receive financial support, the criteria for selecting these entities and the criteria for determining the amount of financial support for each third party as well as the maximum amount which may be given. Critical risks and risk management strategy

Describe critical risks, uncertainties or difficulties related to the implementation of your project, and your measures/strategy for addressing them.

Indicate for each risk (in the description) the impact and the likelihood that the risk will materialise (high, medium, low), even after taking into account the mitigating measures.

Note: Uncertainties and unexpected events occur in all organisations, even if very well-run. The risk analysis will help you to predict issues that could delay or hinder project activities. A good risk management strategy is essential for good project management.

5. WORK PLAN, WORK PACKAGES, ACTIVITIES, RESOURCES AND TIMING

5.1 Work plan

**Work plan**

*Provide a brief description of the overall structure of the work plan (list of work packages or graphical presentation (Pert chart or similar)).*

**Insert text**

5.2 Work packages, activities, resources and timing

**WORK PACKAGES**

**Work packages**

*This section concerns a detailed description of the project activities. Group your activities into work packages. A work package means a major sub-division of the project. For each work package, enter an objective (expected outcome) and list the activities, milestones and deliverables that belong to it. The grouping should be logical and guided by identifiable outputs. Projects should normally have a minimum of 2 work packages. WP1 should cover the management and coordination activities (meetings, coordination, project monitoring and evaluation, financial management, progress reports, etc) and all the activities which are cross-cutting and therefore difficult to assign to another specific work package (do not try splitting these activities across different work packages). WP2 and further WPs should be used for the other project activities. You can create as many work packages as needed by copying WP1.*

Work packages covering financial support to third parties (only allowed if authorised in the Call document) must describe the conditions for implementing the support (for grants: max amounts per third party; criteria for calculating the exact amounts, types of activity that qualify (closed list), persons/categories of persons to be supported and criteria and procedures for giving support; for prizes: eligibility and award criteria, amount of the prize and payment arrangements).

⚠️ Enter each activity/milestone/output/deliverable only once (under one work package).

⚠️ Ensure consistence with the detailed budget table/calculator (if applicable). *(n/a for prefixed Lump Sum Grants)*
Objectives
List the specific objectives to which the work package is linked.

Activities and division of work (WP description)
Provide a concise overview of the work (planned tasks). There should be a limited number of tasks per work package: the definition of tasks should enable the lead beneficiary to monitor the overall progress of the work package. Be specific and give a short name and number for each task.
Show who is participating in each task: Coordinator (COO), Beneficiaries (BEN), Affiliated Entities (AE), Associated Partners (AP), indicating in bold the task leader. In monobeneficiary projects the ‘COO’ and ‘BEN’ are the same.
Add information on other participants’ involvement in the project e.g. subcontractors, in-kind contributions.

Note:
In-kind contributions: In-kind contributions for free are cost-neutral, i.e. cannot be declared as cost. Please indicate the in-kind contributions that are provided in the context of this work package.
The Coordinator remains fully responsible for the coordination tasks, even if they are delegated to someone else. Coordinator tasks cannot be subcontracted.
If there is subcontracting, please also complete the table below.

Milestones and deliverables (outputs/outcomes)
Milestones are control points in the project that help to chart progress (e.g. completion of a key deliverable allowing the next phase of the work to begin). Use them only for major outputs in complex projects, otherwise leave the section empty. Please limit the number of milestones by work package.
Means of verification are how you intend to prove that a milestone has been reached. If appropriate, you can also refer to indicators.
Deliverables are project outputs which are submitted to show project progress (any format). Refer only to major outputs. Do not include minor sub-items, internal working papers, meeting minutes, etc. Limit the number of deliverables to max 10-15 for the entire project. You may be asked to further reduce the number during grant preparation.
For deliverables such as meetings, events, seminars, trainings, workshops, webinars, conferences, etc., enter each deliverable separately and provide the following in the 'Description' field: invitation, agenda, signed presence list, target group, number of estimated participants, duration of the event, report of the event, training material package, presentations, evaluation report, feedback questionnaire.
For deliverables such as manuals, toolkits, guides, reports, leaflets, brochures, training materials etc., add in the 'Description' field: format (electronic or printed), language(s), approximate number of pages and estimated number of copies of publications (if any).
For each deliverable you will have to indicate a due month by when you commit to upload it in the Portal. The due month of the deliverable cannot be outside the duration of the work package and must be in line with the timeline provided below. Month 1 marks the start of the project and all deadlines should be related to this starting date.
The labels used mean:
Public — fully open (automatically posted online on the Project Results platforms)
Sensitive — limited under the conditions of the Grant Agreement
EU classified — RESTREINT-UE/EU-RESTRICTED, CONFIDENTIEL-UE/EU-CONFIDENTIAL, SECRET-UE/EU-SECRET under Decision 2015/444. For items classified under other rules (e.g. national or international organisation), please select the equivalent EU classification level.

### Subcontracting *(n/a for prefixed Lump Sum Grants)*

**Subcontracting**

Give details on subcontracted project tasks (if any) and explain the reasons why (as opposed to direct implementation by the Beneficiaries/Affiliated Entities).
**Subcontracting** — Subcontracting means the implementation of ‘action tasks’, i.e. specific tasks which are part of the EU grant and are described in Annex 1 of the Grant Agreement.

**Note:** Subcontracting concerns the outsourcing of a part of the project to a party outside the consortium. It is not simply about purchasing goods or services. We normally expect that the participants have sufficient operational capacity to implement the project activities themselves. Subcontracting should therefore be exceptional. Include only subcontracts that comply with the rules (i.e. best value for money and no conflict of interest; no subcontracting of coordinator tasks).

<table>
<thead>
<tr>
<th>Work Package No</th>
<th>Subcontract No (continuous numbering linked to WP)</th>
<th>Subcontract Name (subcontracted action tasks)</th>
<th>Description (including task number and BEN/AE to which it is linked)</th>

</tr>
</tbody>
</table>

**Other issues:**
If subcontracting for the project goes beyond 30% of the total eligible costs, give specific reasons.

**Events and trainings**

**Events and trainings (including performances, residencies, exhibitions, workshops, conferences, etc. both face to face and virtual events are to be included).**

This table is to be completed for events organised by the applicants as part of the activities in the work packages above. Complete the table below with realistic estimates in terms of the number of attendees / participants / audience size. This data will be used in part to assess the success of the implementation of the project. Use your risk assessment to explain your mitigating measures.
