4. MULTI-ANNUAL ACTION PLAN

Multi-annual action plan

This section concerns the overview of the activities you are planning for the years covered by the EU framework partnership and how they will be implemented.

Milestones are control points in the project that help to chart progress. Use them only for major outputs in complicated projects. Otherwise leave the section on milestones empty.

Deliverables are project outputs which are submitted to show project progress (any format). Refer only to major outputs. Do not include minor sub-items, internal working papers, meeting minutes, etc. Limit the number of deliverables to max 10-15 for the entire project. You may be asked to further reduce the number before signature of the Framework Partnership Agreement.

Group your activities into standard activities (which you repeat each year) and ad hoc activities (which will be implemented only in certain years).

1 Include only the part of your activities which is eligible under the framework partnership.

Multi-annual budget estimate

Give a rough estimate of your overall costs and income for the duration of the EU framework partnership.

Etamik

Divide your global yearly budget into general costs and costs of specific activities. For the specific activities, distinguish between activities that are eligible under the framework partnership and those that are not.

Specify regular income from other sources and estimated income generated by the activities. (No need for a balance of costs and income, since these are only rough estimates and they don't include the EU operating grants and the beneficiary's own contribution).
