Disclaimer

This document is aimed at informing potential applicants for Horizon Europe funding. It serves only as an example. The actual Web forms and templates, provided in the online submission system under the Funding and Tenders Portal, might differ from this example.

Structure of the Proposal

The proposal contains two parts:

- **Part A** of the proposal is generated by the IT system. It is based on the information entered by the participants through the submission system in the Funding & Tenders Portal. The participants can update the information in the submission system at any time before final submission.
- **Part B** of the proposal is the narrative part that includes three sections that each correspond to an evaluation criterion. Part B needs to be uploaded as a PDF document following the templates downloaded by the applicants in the submission system for the specific call or topic. The templates for a specific call may slightly differ from the example provided in this document.

The electronic submission system is an online wizard that guides you step-by-step through the preparation of your proposal. The submission process consists of 6 steps:

- Step 1: Logging in the Portal
- Step 2: Select the call, topic and type of action in the Portal
- Step 3: Create a draft proposal: Title, acronym, summary, main organisation and contact details
- Step 4: Manage your parties and contact details: add your partner organisations and contact details.
- Step 5: Edit and complete web forms for proposal part A and upload proposal part B
- Step 6: Submit the proposal

- Instructions and footnotes in green will not appear in the text generated by the IT system.
- For options [in square brackets]: the option that applies will be automatically shown in the IT system (Part A) or included in the template of Part B offered by the IT system or you must select the appropriate value from a predefined list.
- For fields in [grey in square brackets] (even if they are part of an option as specified in the previous item): enter the appropriate data in the IT system.
- Data in coloured fields will be prefilled by the IT tool.

1 – General information

Section 1 provides basic data on the proposal. It can be filled in by contacts of the coordinator. Other participants may view this section only. Read-only parts are marked in blue.

Topic	Type of action
Call	Type of Model Grant Agreement
Acronym	Acronym is mandatory
Proposal title	Max 200 characters (with spaces). Must be understandable for non-specialists in your field. <i>Note that for technical reasons, the following characters are not accepted in the Proposal Title and will be removed: < > " &</i>
Duration in months	Estimated duration of the project in full months.
Fixed keywords	<i>Note that for this call, applicants have to select minimum 3 and maximum 6 fixed keywords.</i>
Free keywords	Enter any words you think give extra detail of the scope of your proposal (max 200 characters with spaces).

Abstract

The abstract should provide the reader with a clear understanding of the objectives of the proposal, how they will be achieved, and their relevance to the Work Programme. This summary will be used as the short description of the proposal in the evaluation process and in communications to the programme management committees and other interested parties. It must therefore be short and precise and should not contain confidential information. Use plain typed text, avoiding formulas and other special characters. If the proposal is written in a language other than English, please include an English version of this abstract in the Part B (technical description) of the proposal.

Has this proposal (or a very similar one) been submitted in the past 2 years in response to a call for proposals under any EU programme, including the current call? <i>A 'similar' proposal or contract is one that differs from the current one in minor ways, and in which some of the present consortium members are involved.</i>	<input type="radio"/> Yes	<input type="radio"/> No
Please give the proposal reference or contract number	XXXXX-X	

Declarations

These declarations can be filled in by any coordinator contact(s). All declarations are mandatory.

1) We declare to have the explicit consent of all applicants on their participation and on the content of this proposal.	<input type="checkbox"/>
2) We confirm that the information contained in this proposal is correct and complete and that none of the project activities have started before the proposal was submitted (unless explicitly authorised in the call conditions).	<input type="checkbox"/>
3) We declare: <ul style="list-style-type: none"> – to be fully compliant with the eligibility criteria set out in the call – not to be subject to any exclusion grounds under the EU Financial Regulation 2018/1046 – to have the financial and operational capacity to carry out the proposed project. 	<input type="checkbox"/>
4) We acknowledge that all communication will be made through the Funding & Tenders Portal electronic exchange system and that access and use of this system is subject to the Funding & Tenders Portal Terms & Conditions .	<input type="checkbox"/>
5) We have read, understood and accepted the Funding & Tenders Portal Terms & Conditions and Privacy Statement that set out the conditions of use of the Portal and the scope, purposes, retention periods, etc. for the processing of personal data of all data subjects whose data we communicate for the purpose of the application, evaluation, award and subsequent management of our grant, prizes and contracts (including financial transactions and audits).	<input type="checkbox"/>
6) We declare that the proposal complies with ethical principles (including the highest standards of research integrity as set out in the ALLEA European Code of Conduct for Research Integrity , as well as applicable international and national law, including the Charter of Fundamental Rights of the European Union and the European Convention on Human Rights and its Supplementary Protocols. Appropriate procedures, policies and structures are in place to foster responsible research practices, to prevent questionable research practices and research misconduct, and to handle allegations of breaches of the principles and standards in the Code of Conduct.	<input type="checkbox"/>
7) We declare that the proposal has an exclusive focus on civil applications (activities intended to be used in military application or aiming to serve military purposes cannot be funded). If the project involves dual-use items in the sense of Regulation 2021/821 , or other items for which authorisation is required, we confirm that we will comply with the applicable regulatory framework (e.g. obtain export/import licences before these items are used).	<input type="checkbox"/>
8) We confirm that the activities proposed do not <ul style="list-style-type: none"> – aim at human cloning for reproductive purposes; – intend to modify the genetic heritage of human beings which could make such changes heritable (with the exception of research relating to cancer treatment of the gonads, which may be financed), or – intend to create human embryos solely for the purpose of research or for the purpose of stem cell procurement, including by means of somatic cell nuclear transfer. – lead to the destruction of human embryos (for example, for obtaining stem cells) These activities are excluded from funding.	<input type="checkbox"/>
9) We confirm that for activities carried out outside the Union, the same activities would have been allowed in at least one EU Member State.	<input type="checkbox"/>
10) <i>[Additional option for LUMP SUM Grants: For Lump Sum Grants with a detailed budget table: We understand and accept that the EU lump sum grants must be reliable proxies for the actual costs of a project and confirm that the detailed budget for the proposal has been established in accordance with our usual cost accounting practices and in compliance with the basic eligibility conditions for EU actual cost grants (see AGA — Annotated Grant Agreement, art 6) and exclude costs that are ineligible under the Programme. Coordinator contacts have the rights to:

- add, delete, edit and re-order partners in the consortium
- add, delete, edit and re-order contact points for those organisations
- edit all sections of the administrative forms
- upload, delete, view and download Part B and Annexes (when required for the call)
- submit the proposal

Participant contacts may:

- view all the information in this screen, but not edit it
- edit only the section for their organisation in the administrative forms (including budget)
- view the entire administrative forms
- view/download the Part B and other Annexes

You can manage the list of organisations and access rights of persons at Step 4 of the submission process. You may identify and give access to as many contact persons of the selected organisations as you wish. The identification is based upon the e-mail address of the person. When you add a contact person, you will be prompted to supply the contact details: name, e-mail, phone.

Person in charge of the proposal (main contact person): Each organisation needs to have one main contact person identified; the main contact person will have to fill in full contact details in the administrative form. The 'Main Contact Person' for the coordinating organisation (Participant no. 1) will become the primary contact person for the Services. Other contact persons may also be identified and may receive read-only or full access rights. Contact persons with full access rights of the coordinator (Participant no. 1) will be called 'Coordinator contacts' in the Funding & Tenders Portal, while for the other participants 'Participant Contacts'; contact persons with read-only rights will be called 'Team Members'. Other contact persons are listed with basic details in the administrative form.

Access rights: The main contact person and contact persons of the coordinator with full access rights have the same level of rights: they can manage the list of participants and contacts, edit any part of the administrative part of the proposal and upload any attachments (eg. Part B - technical description), and submit the proposal. Contact persons with read-only rights can only view/download the information. Participant contacts with full access rights can only edit their section of the administrative form and view all proposal data.

Access rights can be revoked by the Coordinating Organisation contacts. The person who created the proposal cannot be deleted.

Invitation: All contacts will receive an e-mail and a notification to the Portal about the invitation to the proposal upon saving the data at Step 4 of the submission process.

Organisation data

The section shows the administrative data of the participating organisation as registered and/or validated in the central registry of organisations of the European Commission, linked to the given PIC number. Data in blue is read-only, modification is not possible in the proposal forms. For more information on how to modify this information, please visit the [online manual](#) on the participant register.

Links with other participants

Please indicate if there are dependencies with other participants of the proposal.

Two participants (legal entities) are dependent on each other where there is a controlling relationship between them:

* A legal entity is under the same direct or indirect control as another legal entity; or

* A legal entity directly or indirectly controls another legal entity; or

* A legal entity is directly or indirectly controlled by another legal entity. Control:

Legal entity A controls legal entity B if:

* A, directly or indirectly, holds more than 50% of the nominal value of the issued share capital or a majority of the voting rights of the shareholders or associates of B, or

* A, directly or indirectly, holds in fact or in law the decision-making powers in B.

The following relationships between legal entities shall not in themselves be deemed to constitute controlling relationships:

(a) the same public investment corporation, institutional investor or venture-capital company has a direct or indirect holding of more than 50 % of the nominal value of the issued share capital or a majority of voting rights of the shareholders or associates;

(b) the legal entities concerned are owned or supervised by the same public body.

¹ Career stages as defined in Frascati 2015 manual:

Category A – Top grade researcher: the single highest grade/post at which research is normally conducted. Example: 'Full professor' or 'Director of research'.

Category B – Senior researcher: Researchers working in positions not as senior as top position but more senior than newly qualified doctoral graduates (ISCED level 8). Examples: 'associate professor' or 'senior researcher' or 'principal investigator'.

Category C – Recognised researcher: the first grade/post into which a newly qualified doctoral graduate would normally be recruited. Examples: 'assistant professor', 'investigator' or 'post-doctoral fellow'.

Category D – First stage researcher: Either doctoral students at the ISCED level 8 who are engaged as researchers, or researchers working in posts that do not normally require a doctorate degree. Examples: 'PhD students' or 'junior researchers' (without a PhD).

Please specify: (Maximum number of characters allowed: 1000)		

I confirm that I have taken into account all ethics issues above and that, if any ethics issues apply, I will complete the ethics self-assessment as described in the guidelines [‘How to Complete your Ethics Self-Assessment’](#).

ETHICS SELF-ASSESSMENT

If you have entered any issues in the ethics issue table, you must perform an ethics self-assessment in accordance with the guidelines "[How to Complete your Ethics Self-Assessment](#)" and complete the table below.

Ethical dimension of the objectives, methodology and likely impact

Explain in detail the identified issues in relation to:

- objectives of the activities (e.g. study of vulnerable populations, etc.)
- methodology (e.g. clinical trials, involvement of children, protection of personal data, etc.)
- the potential impact of the activities (e.g. environmental damage, stigmatisation of particular social groups, political or financial adverse consequences, misuse, etc.)

Compliance with ethical principles and relevant legislations

Describe how the issue(s) identified in the ethics issues table above will be addressed in order to adhere to the ethical principles and what will be done to ensure that the activities are compliant with the EU/national legal and ethical requirements of the country or countries where the tasks are to be carried out. It is reminded that for **activities performed in a non-EU countries**, they should also be allowed in at least one EU Member State.

Security issues table

Please go through the table and indicate which elements concern your proposal by answering YES or NO.

If you answer YES to any of the questions:

- indicate in the adjacent box at which page in your full proposal further information relating to that security issue can be found, and
- provide additional information on this security issue in the Security self-assessment section below.

For more information on potential security issues and how to address them, see the guidance [How to handle security-sensitive projects](#) and the programme-specific guidelines [Classification of information in Horizon Europe projects](#).

² According to the Commission Decision (EU, Euratom) 2015/444 of 13 March 2015 on the security rules for protecting EU classified information, "European Union classified information (EUCI) means any information or material designated by an EU security classification, the unauthorised disclosure of which could cause varying degrees of prejudice to the interests of the European Union or of one or more of the Member States".

³ Classified background information is information that is already classified by a country and/or international organisation and/or the EU and is going to be used by the project. In this case, the project must have in advance the authorisation from the originator of the classified information, which is the entity (EU institution, EU Member State, third state or international organisation) under whose authority the classified information has been generated.

⁴ EU classified foreground information is information (documents/deliverables/materials) planned to be generated by the project and that needs to be protected from unauthorised disclosure. The originator of the EUCI generated by the project is the European Commission.

Project full proposal – Technical description (Part B)

Version 1.4
18 March 2024

Structure of the Proposal

The proposal contains two parts:

- **Part A** of the proposal is generated by the IT system. It is based on the information entered by participants within the submission system in the Funding & Tenders Portal. Participants can update the information in the submission system at any time before final submission of the proposal.
- **Part B** of the proposal is the narrative part that includes different sections covering the different evaluation criteria. Part B needs to be uploaded as a PDF document using the templates that can be downloaded in the submission system for the specific call or topic.

The electronic submission system is an online step-by-step guide through the preparation of your proposal. The submission process consists of 6 steps:

- Step 1: Logging in the Portal
- Step 2: Select the call, topic and type of action in the Portal
- Step 3: Create a draft proposal: Title, acronym, summary, main organisation and contact details
- Step 4: Manage your parties and contact details: add your partner organisations and contact details.
- Step 5: Edit and complete web forms for proposal part A and upload proposal part B
- Step 6: Submit the proposal

Proposal template Part B: technical description

The structure of this template must be followed when preparing your proposal. It has been designed to ensure that the important aspects of your planned work are presented in a way that will enable the experts to make an effective assessment against the evaluation criteria.

Please be aware that proposals will be evaluated as they were submitted, rather than on their potential if certain changes were to be made. This means that only proposals that successfully address all the required aspects will have a chance of being funded. There will be no possibility for significant changes to content, budget and consortium composition during grant preparation.

 **Maximum page limit:** The maximum page limit is 50 pages (including the cover page). At the time of submission, you can remove the text on the structure of the proposal, the history of changes, the technical description, the table of content and the instructions (including the list of annexes). Please keep the headings.

If you attempt to upload a proposal longer than the specified limit before the deadline, you will receive an automatic warning and will be advised to shorten and re-upload the proposal. After the deadline, excess pages (in over-long proposals/applications) will be automatically made invisible and will not be taken into consideration by the experts. The proposal is a self-contained document. Experts will be instructed to ignore hyperlinks to information that is specifically designed to expand the proposal.

 The following formatting conditions apply.

The reference font for the body text of proposals is Times New Roman (Windows platforms), Times/Times New Roman (Apple platforms) or Nimbus Roman No. 9 L (Linux distributions).

The use of a different font for the body text is not advised and is subject to the cumulative conditions that the font is legible and that its use does not significantly shorten the representation of the proposal in number of pages compared to using the reference font (for example with a view to bypass the page limit).

The minimum font size allowed is 11 points. Standard character spacing and a minimum of single line spacing is to be used. This applies to the body text, including text in tables.

Text elements other than the body text, such as headers, foot/end notes, captions, formula's, may deviate, but must be legible.

The page size is A4, and all margins (top, bottom, left, right) should be at least 15 mm (not including any footers or headers).

Guidance on the use of generative AI tools for the preparation of the proposal

When considering the use of generative artificial intelligence (AI) tools for the preparation of the proposal, it is imperative to exercise caution and careful consideration. The AI-generated content should be thoroughly reviewed and validated by the applicants to ensure its appropriateness and accuracy, as well as its compliance with intellectual property regulations. Applicants are fully responsible for the content of the proposal (even those parts produced by the AI tool) and must be transparent in disclosing which AI tools were used and how they were utilized.

Specifically, applicants are required to:

- Verify the accuracy, validity, and appropriateness of the content and any citations generated by the AI tool and correct any errors or inconsistencies.
- Provide a list of sources used to generate content and citations, including those generated by the AI tool. Double-check citations to ensure they are accurate and properly referenced.
- Be conscious of the potential for plagiarism where the AI tool may have reproduced substantial text from other sources. Check the original sources to be sure you are not plagiarizing someone else's work.
- Acknowledge the limitations of the AI tool in the proposal preparation, including the potential for bias, errors, and gaps in knowledge.

The structure of the part B is shown below in the left column, you can see the related evaluation criteria in the right column.

2 Affiliated entity(ies), if any. Please explain the link with the coordinator and the role in the project.		

Which EIC topic do you want to apply for?

- 1. EIC Accelerator Open
- 2. EIC Accelerator Challenges 2024:
 - 2.1 Human Centric Generative AI made in Europe
 - 2.2 Enabling virtual worlds and augmented interaction in high-impact applications to support the realisation of Industry 5.0
 - 2.3 Enabling the smart edge and quantum technology components
 - 2.4 Food from precision fermentation and algae
 - 2.5 Monoclonal antibody-based therapeutics for new variants of emerging viruses
 - 2.6 Renewable energy sources and their whole value chain including materials development and recycling of components

In case you opt for an EIC Challenge, describe how your application fits within the scope of the Challenge and how it will meet the expected outcomes and impacts.

Executive Summary – approx. 2 pages

Prepare an executive summary of maximum 2 pages.

Part 1 – Business case

1. Company description – approx. 3 pages

- Explain the core mission and vision of your company.
- Explain who are the key partners and their expected contributions (e.g. a first lead customer, a university, potential user groups, partners for clinical trials, etc.).
- Describe the key assets of your company (e.g. offices, laboratories, access to production facilities).
- Highlight the top 3 to 5 clients or sell side partners and their share of revenues (if applicable), the top 3 to 5 suppliers and share of cost of goods sold (COGS) or operational expenses (OPEX), and the top 3 to 5 advisors (business, scientific, other) their role and their OPEX cost.

2. The problem/opportunity – approx. 3 pages

- Describe the problem you have identified and explain why it is a problem and for whom.
- Describe the unsatisfied need of potential customers.

3. The innovation: Solution/Product or Services (USP) – approx. 9 pages

- Explain in simple terms and with graphs if needed, how your solution works, its main features and what key areas are still subject to improvements/innovation.
- Value proposition: explain what is unique and has breakthrough potential; how this addresses the problem; how it is better than existing solutions; and why now is the right time to bring it to the market.
- Development stage: describe your technological achievements so far; specify which Technology Readiness Level this has attained; and describe to what extent your solution has been validated/certified and by whom. Please explain using a case study¹ (test, pilot, PoC, etc.). For health companies, explain the specifics of what clinical trials you have conducted, if any, and to what level.
- IP strategy: explain your strategy to protect your intellectual property. List your key patents including their registration number and their status, mention key relevant scientific publications. Specify patents from others for which you have secured the right of use. Explain if you are combining patents and trade secrets. Explain how you ensure your freedom to operate and provide supporting documents in the mandatory annex “Results of the freedom to operate Analysis”.

4. Market analysis and competition analysis – approx. 5 pages

- Describe the targeted market - Total Addressable Market (TAM); Serviceable Available Market (SAM); Serviceable Obtainable Market (SOM); and market growth (Compounded Annual Growth Rate (CAGR)).
- Willingness to pay: explain why there is a willingness to pay from your targeted market customers. List POCs run with users and clients.
- Competitors and threats: who are your competitors? what are their limitations compared to what is offered by your expected solution?

¹ You should explain who it was for, how much they were paid, what is the environment in which the case study was performed (background, context, and physical environment), what was the problem, what metrics were associated with the problem, what did the solution bring to solve this, how did the metrics evolve with the solution, and if/how is the client looking to deploy it internally.

5. Marketing and sales plan – approx. 4 pages

- Business model: what will be your business model, including the revenue model: key activities, resources, customer relationship, channels, revenues, scalability, geographical market.
- Describe your Go-to-Market Plan with milestones. What are the existing key barriers preventing market entry, and how can you overcome these barriers?
- Commercialisation strategy: what is your marketing approach and pricing policy? (upload any letters of intent as a separated annex, if relevant).
- Describe the potential for scaling up (turnover, licensing).

6. Team and management – approx. 2 pages

- Present your team, including: the track record of the founders and key managers; available skills and experience; how you plan to ensure gender balance among your team members, including those in executive positions (at least CEO, CSO and CTO); missing skills identified (target recruitment); recruitment plans, and employee retention plans designed to address the identified missing skills.

Team Member (Name and Surname)	Gender (man/woman/non binary)	Founder (Y/N)	Position - department	Key competences	Commitment (from 1% to 100%)

- Governance: describe your board of directors, consultants and advisors, and explain their added value and defined role in the project.
- Do you have an Employee Stock Ownership Plan (ESOP) in place to incentivise key non-founding members of your team?
- Detail your capitalization table.

Name	Type (founder, investor, other)	% fully diluted
TOTAL		100%

7. Risks – approx. 2 pages

- Describe the financial risks and those risks linked to the technology, the market, the competition, the team²; and outline their likelihood, their expected effects and planned mitigation methods.
- Legal and regulatory requirements to be fulfilled: describe the strategy for regulatory approvals and compliance; and what applicable EU legislation or standard might affect your project or, conversely, be affected by your projects?

² Use this space to describe risks not directly linked to the project implementation, already requested in section 9, table 3.1.e

8. Financial Plan – approx. 2 pages

Describe your main hypothesis supporting figures in the mandatory annex “Financial plan and equity needed”, e.g. the projection of your turnover, the important capex and the main elements of your costs of goods sold. Use this space to comment on the figures shown in the excel table.

Part 2 – EIC Specific information**9. Implementation Plan** – approx. 12 pages, including tables**Work plan and resources**

Please provide the following:

- i. Brief presentation of the overall structure of the work plan. The work plan should be a narrative presenting the logical sequence of the work packages corresponding to the key project deliverables.
- ii. Timing of the different work packages and their components (Gantt chart or similar).
- iii. Detailed work description, including:
 - List of **work packages** (table 3.1a) for the **grant component**, up to TRL 8 activities.

WP Number	Type of WP	WP title	Objectives of the WP	Lead participant	PM (Persons/ Month)	Start month	End month	Targeted TRL

- Description of each work package (table 3.1b) for **both the grant and investment components**.
 - **For each work package:**

Work package number	
----------------------------	--

Work package title**Objectives**

Description of work: Breakdown the work package into tasks and describe them. **For grant work packages**, you will be requested to indicate (i) all the activities to be carried out per task and quantify them (e.g. number of protocols, test, measurements, etc. (ii) the estimated distribution of the effort³ among the tasks in terms of percentage (Example, task 1.1 15%, task 1.2 50%, task 1.3 35%) and (iii) who will do this work and why it is needed for the project (e.g. the number and level of qualification of **person-months for personnel, as well as the requested equipment, consumables, meetings, etc.**), including the involvement of other participants (subcontractors, etc.). Provide enough detail to justify the resources requested. Deliverables and milestones linked to each WP are listed respectively in table 3.1c and 3.1d, therefore no need to repeat the information here.

- **For Grant Work Packages:** a list of **deliverables⁴** (table 3.1c);

Only include those deliverables that you consider essential for effective project monitoring.

1							
2							
3							
...							

Deliverable numbers in order of delivery dates.

Please use the numbering convention <WP number>. <number of deliverables within that WP>.

(For example, deliverable 4.2 would be the second deliverable from work package 4).

Types of deliverables

Use one of the following codes:

- R: Document, report (excluding the periodic and final reports)
- DEM: Demonstrator, pilot, prototype, plan designs
- DEC: Websites, patent filing, press & media activity, videos, etc.
- DATA: Data sets, microdata, etc.
- DMP: Data management plan
- ETHICS: Deliverables related to ethics issues.
- SECURITY: Deliverables related to security issues

³ The effort shouldn't be expressed solely in terms of persons/month or estimated costs, but the overall efforts put by the company for each task as a quota/percentage of a given work package.

⁴ You must include a data management plan (DMP) and a 'plan for dissemination and exploitation including communication activities related to innovation activities' as distinct deliverables within the first 6 months of the project. The DMP will evolve during the lifetime of the project in order to present the status of the project's reflections on data management. A template for such a plan is available in the [Online Manual](#) on the Funding & Tenders Portal.

OTHER: Software, technical diagram, algorithms, models, etc.

Dissemination level:

Use one of the following codes:

PU – public, fully open (deliverables flagged as public will be automatically published on the corresponding project overview on the EU CORDIS website)

SEN – Sensitive, limited under the conditions of the Grant Agreement

Classified R-UE/EU-R – EU RESTRICTED under the Commission Decision No2015/444

Classified C-UE/EU-C – EU CONFIDENTIAL under the Commission Decision No2015/444

Classified S-UE/EU-S – EU SECRET under the Commission Decision No2015/444

Delivery date

Measured in months from the project start date (month 1)

- a list of **milestones** (table 3.1d) for **both grant and investment components**;

Means of verification

Show how you will confirm that the milestone has been attained. Refer to indicators if appropriate. For example: an existing laboratory prototype; software released and validated by a user group; field survey complete and data quality validated. Please also how the milestone will contribute to achieving the objective of the WP (including achievement of a specific TRL level).

ONLY FOR GRANT WORK PACKAGES:

- a list of **critical risks**, relating to project implementation, that may hinder the achievement of the project's key objectives. Detail any risk mitigation measures. You will be able to update the list of critical risks and mitigation measures as the project progresses (table 3.1e);

Description of risk (indicate level of (i) likelihood, and (ii) severity: Low/Medium/High)	Work package(s) involved	Proposed risk-mitigation measures

Definition of critical risk

A critical risk is a plausible event or issue that could have a strong negative impact on the ability of the project to achieve its objectives.

Level of likelihood to occur: low/medium/high

Assessment of the probability that the risk will materialise, even after taking account of the mitigating measures put in place.

Level of severity: low/medium/high

The relative seriousness of the risk and the significance of its effect.

- ii. A table showing the description and justifications of **subcontracting costs** (table 3.1g). Please note that core tasks of the project should not be subcontracted.

	Cost (€)	Description of tasks and justification of the best value for money principle (i.e. criteria and/or procedure used for the selection of the subcontractors)
Subcontracting		

- iii. A table showing the justifications for '**purchase costs**' (table 3.1h) where those costs exceed 15% of the personnel costs (according to the budget table in proposal part A). Please list cost items starting with the highest cost, with the remaining costs not exceeding 15% of personnel costs.

	Cost (€)	Justification
Travel and subsistence		
Equipment		
Other goods, works and services		
Remaining purchase costs (<15% of pers. Costs)		
Total		

- iv. If applicable, a table showing justifications for 'other costs categories' (table 3.1i).

	Cost (€)	Justification
Internally invoiced goods and services		
...		

- v. If applicable, a table showing **in-kind contributions** from third parties (table 3.1j, non-financial resources made available free of charge by third parties). Please note that in-kind contributions provided by third parties free of charge are declared as eligible direct costs in the corresponding cost category (i.e. personnel costs or purchase costs for equipment).

Third party name	Category	Cost (€)	Justification

10. How EU support takes the company to the next value point – approx. 3 pages

- Explain why you have not been able to raise sufficient investment to carry out the project, and why you need the support of the EIC.
- Are you in discussion currently, or planning to start a discussion, with private or public investors? If so, please explain.
- What is your overall funding strategy for the future?
- Elaborate on how the EIC funding will benefit the development of your innovation and scalability of your business.
- Which exit strategy do you foresee including the timeline and expected return on investment? Explain the assumptions behind this.
- Are there any financing issues that could compromise the ability of a project partner to exploit the innovation?

11. The EIC funding request – approx. 1 page

Please explain:

- which type of EIC funding are you requesting (i.e. grant only, blended, equity only).
- If you are requesting **investment only**, please provide the number of the previous grant received under H2020 SME Instrument/EIC Accelerator Pilot or HE EIC Accelerator.
- Companies submitting a **grant only proposal** must provide detailed information on the activities and evidence that they have (or are in the process of obtaining) sufficient financial means (e.g. revenue flow, existing investors or shareholders) to finance the deployment and scaling up of your innovation.
- Companies submitting a **blended finance or equity only proposal** must explain if they are a subsidiary of another company (parent or holding) which is established in the territory of a Member State or Associated Country and itself eligible for EIC Accelerator support, and if the intended investment should in their view take place in the parent company or holding.

12. Broad impacts – approx. 2 pages

- Describe the societal, economic, environmental and/or climate impact of your proposal.
- Describe your company's potential to create jobs each year for the next 5 years, including indirect jobs if applicable.
- Explain how your proposal contributes to the UN Sustainable Development Goals.
- Explain whether and how your proposal contributes to the development of technologies that are of strategic importance to Europe.

Declarations

These declarations are without prejudice to the [Declaration of Honour](#) that selected applicants are requested to sign before entering into any legal commitment.

1. By applying to the EIC Accelerator Programme, you and your company declare that natural persons and Ultimate Beneficial Owners are not listed on sanctions lists and moreover undertake not to do business with customers, or make funds or economic resources available to, or for the benefit of (directly or indirectly) any natural or legal person designated under EU sanctions EU Sanctions Map.
2. Moreover, you and your company declare that entities subject to EU restrictive measures under Article 29 of the Treaty on the European Union (TEU) and Article 215 of the Treaty on the Functioning of the EU (TFEU) as well as Article 75 TFEU will not participate in any capacity in the action, including as beneficiaries, affiliated entities, associated partners, third parties giving in-kind contributions, subcontractors or recipients of financial support to third parties (if any) - <http://www.sanctionsmap.eu>.
3. In addition, you and your company undertake not to enter into consultations with a view to adopt remedial measures if one of the company's business partners is designated under EU sanctions or makes funds or economic resources available to, or for the benefit of, directly or indirectly, a person subject to EU sanctions.

ANNEXES TO PROPOSAL PART B

Please upload the following documents. The annexes must be uploaded as separate documents in the submission system. For some of them, standard templates are published in the Horizon Europe Funding & Tenders portal:

Mandatory

- **Pitch deck.** There is no pre-defined template nor limit of slides, however, please keep in mind that you will have 10 minutes to present this pitch deck if you are invited to the face-to-face interviews. The pitch deck should be provided in PDF file format.
- **Video:** You must upload a video pitch of up to three minutes. You may decide to reuse or update the video pitch submitted with your short proposal.
- **Lump Sum.** Please use the template for the lump sum detailed budget breakdown
- **Financial plan and equity needed (both for grant only and blended finance proposals).** Please use the template provided.
- **Results of the freedom to operate (FTO) analysis.** If you do not have one, please upload a note of maximum 2 pages outlining your freedom to operate and providing as much information as possible on this issue. In cases where the FTO is not relevant (e.g. software), please upload a simple statement.
