²According to the Commission Decision (EU, Euratom) 2015/444 of 13 March 2015 on the security rules for protecting EU classified information, "European Union classified information (EUCI) means any information or material designated by an EU security classification, the unauthorised disclosure of which could cause varying degrees of prejudice to the interests of the European Union or of one or more of the Member States".

³Classified background information is information that is already classified by a country and/or international organisation and/or the EU and is going to be used by the project. In this case, the project must have in advance the authorisation from the originator of the classified information, which is the entity (EU institution, EU Member State, third state or international organisation) under whose authority the classified information has been generated.

⁴EU classified foreground information is information (documents/deliverables/materials) planned to be generated by the project and that needs to be protected from unauthorised disclosure. The originator of the EUCI generated by the project is the European Commission.

Please delete all text highlighted in grey in this template.

Proposal summary (identical to the abstract from the online proposal submission forms, section 1).

The abstract (summary) should, at a glance, provide the reader with a clear understanding of the objectives of the research proposal and how they will be achieved. The abstract will be used as the short description of your research proposal in the evaluation process and in communications to contact in particular potential independent external experts and/or to inform the Commission and/or the programme management committees and/or relevant national funding agencies (provided you give permission to do so where requested in the online proposal submission forms, section 1). It must therefore be short and precise and should not contain confidential information.

Please use plain typed text, avoiding formulae and other special characters. The abstract must be written in English. There is a limit of 2000 characters (spaces and line breaks included).

Do NOT split the sections and/or references in Part B1 and do NOT upload them as separate documents. The peer reviewers will only receive one single document for evaluation at Step 1. Hence, Part B1 should contain all elements as explained in this template. If some parts of Part B1 are uploaded in the submission system as separate attachments, the peer reviewers will not have access to them.

¹ Instructions for completing Part B1 can be found in the 'Information for Applicants to the Synergy Grant 2024 Call'.

Section a: Extended Synopsis of the scientific proposal (max. 5 pages, references do not count towards the page limit)

[The Extended Synopsis should give a concise presentation of the scientific proposal, with particular attention to the ground-breaking nature of the research project, which will allow evaluation panels to assess, in Step 1 of the evaluation, the feasibility of the outlined scientific approach. Describe the proposed work in the context of the state of the art of the field. It is important that the extended synopsis contains minimum information relevant to the evaluation criteria, since the **step 1 panel will have access only to part B1.**

References to literature should also be included. Please use a reference style that is commonly used in your discipline such as American Chemical Society (ACS) style, American Medical Association (AMA) style, Modern Language Association (MLA) style, etc. and that allows the evaluators to easily retrieve each reference.

Please respect the following formatting constraints: Times New Roman, Arial or similar, at least font size 11, margin sizes (2.0 cm side and 1.5 cm top and bottom), single line spacing.]

(Note: Describe the resources needed according to the indications in the *Information for Applicants to the Synergy Grant 2024 call, section 2.3 The research proposal*.)

Each PI is required to fill in their budget breakdown using the following budget table and the declaration of their level of commitment to the project. Depending on the number of PIs you may delete unneeded columns. All eligible costs requested should be included in the budget. In case you have team members belonging to partner organisations (i.e. not Host Institutions) please include their amounts under a PI's budget.

In addition to the budget table, please **describe and fully justify** the amount of funding considered necessary to fulfil the objectives throughout the duration of the project. The project cost estimation should be as accurate as possible. Mathematical mistakes may reflect poorly on the credibility of the budget table and the proposal overall. The evaluation panels assess the estimated costs and the justification carefully; unjustified budgets will be consequently reduced.

Please specify if you will use third parties giving in-kind contributions to the action. Specify the cost items covered by the 'Other personnel costs' category if applicable. Please also specify the cost items covered by the 'Other additional direct costs' category if applicable.

Please use integer euro values only throughout the table and fill in the 'Requested EU contribution' field as well. In case you are requesting additional funding (up to EUR 4 million) above the normal EUR 10 million, **include these top-up costs in the common budget table** as well and justify your request in the second table at the end. **The Total Eligible Costs and the Requested EU contribution amounts in the table MUST match those presented in the online proposal submission form, section 3 – Budget.)**

Each PI must specify their commitment to the project and how much time each one of them is willing to devote to the proposed project. Please note that each PI is expected to devote at least 30% of their working time to the ERC project.

⁸ The maximum award is reduced pro rata temporis for projects of a shorter duration than 72 months (e.g. for a project of 60 months duration the maximum requested EU contribution allowed is EUR 8 333 333). Additional funding to cover major one-off costs is not subject to pro-rata temporis reduction for projects of shorter duration (e.g. with additional funding it is possible to request a maximum EU contribution of EUR 12 333 333 million for a project of 60 months duration).
