1. Background

Cities are faced with some of the most severe societal and sustainability challenges, but do also have the means to develop and apply effective innovative solutions. They are the place where ideas, people, public and private actors meet and interact to improve the quality of citizens’ lives. They are the natural playground where breakthrough innovation

---

1 For ease of reference and consistency on the Funding & Tenders Portal, the terms ‘call’, ‘project’ and ‘participant’ are used as equivalent to ‘contest’, ‘application’ or ‘contestants/applicants’.
3 Commission Implementing Decision C(2021) 1510 of 17 March 2021 concerning the adoption of the work programme for 2021 and the financing decision for the implementation of the Horizon Europe programme.
can flourish. They provide ground to experiment new technologies and products in a real environment, their interaction with people and their added-value.

With their capacity to connect people, places, public and private actors, urban areas can substantially enhance innovation in Europe and improve the quality of citizens’ lives. New approaches to undertake and deploy innovative practices are gaining support, making the shift from traditional top-down schemes to more open and bottom-up practices. Cities increasingly act as platforms for experimentation, engaging citizens at all levels of governance and stages of innovation, from problem definition, to solution testing and application.

2. Objectives — Themes and priorities — Activities– Expected results

Objectives

Every year, the European Union recognises cities with inclusive innovation ecosystems by awarding the recognition prize European Capital of Innovation Awards. The awards identify urban ecosystems that connect citizens, the public sector, academia, and business, and successfully translate their results into improved wellbeing of their citizens, while boosting game-changing innovation. The award is part of the European Union’s efforts to raise awareness about the benefits of urban innovation 'with' and 'for' citizens, supporting cities in addressing relevant societal challenges, and strengthening their urban resilience.

Expected results

The European Capital of Innovation Awards aim to champion inspiring cases of municipality-enabled innovation flourishing in cities. The Awards are a prestigious recognition for city administrators who are courageous enough to open up their governance practices to experimentation, to boost innovation by all means, to be a role model for other cities, and to push the boundaries of technology for the benefit of their citizens.

In addition to the monetary reward, the prize brings high visibility in the form of renewed public interest and increased media coverage.

The Awards will raise the profile of city teams that have developed and implemented innovative policies; enhanced citizens’ role in finding local solutions and participating in the decision-making process; facilitated the city’s attractiveness towards investors, industry, top class talents and entrepreneurial individuals; supported the growth of highly innovative start-ups and SMEs; helped the city to open up connections with others and cooperate with them, thus inspiring and helping identify best practices to be replicated across Europe.

The Awards will feature two categories:

A) European Capital of Innovation 2021 category:

- **1 winner:** the winner will be named the European Capital of Innovation 2021 and will receive a prize of one million EUR. The prize is dedicated to recognise the winning city’s innovative practices, raise its international profile, and enhance its capacity as a widely recognised role model city for urban innovation.

- **2 runners-up cities:** top two cities (ranked 2nd and 3rd) with the most disruptive innovation practices that lead to outstanding impact will be awarded each a prize of 100 000 EUR.
B) European Rising Innovative City 2021 category:

- **1 winner**: the winner will be named the **European Rising Innovative City 2021** and will receive a **prize of 500 000 EUR**. The prize is dedicated to **recognise** the winning city's innovative practices, **raise its international profile**, and enhance its capacity as a widely recognised **role model city** for urban innovation.

- **2 runners-up cities**: top two cities (ranked 2\(^{nd}\) and 3\(^{rd}\)) with the most disruptive innovation practices that lead to outstanding impact will be awarded a **prize of 50 000 EUR**.

3. Available budget

1 First prize for the European Capital of Innovation category of EUR 1 000 000 and 2 runner-up prizes of EUR 100 000.

1 First prize European Rising Innovative City of EUR 500 000 and 2 runner-up prizes of EUR 50 000.

they were previously involved in the preparation of the call and this entails a
distortion of competition that cannot be remedied otherwise (conflict of interest).

8. Evaluation and award procedure

Applications will be subject to a formal evaluation by a jury.

If there are more than 60 applications in one category, there will be a pre-selection
phase in that category to select the best 60 applications to pass to the jury review.

The pre-selection panel and jury usually have a different composition, but jury members
may participate in the pre-selection panel.

The pre-selection panel/jury will evaluate each application against the award criteria.

For applications with the same score, the pre-selection panel/jury will determine a
priority order according to the following approach: the score for the criterion No 3 will
be given a weight of 2 and the score for criterion No 1 will be given a weight of 1.5. If
two or more applications still tie for any rank or category, the prize will be equally
divided and awarded to all applications with the same score.

In addition, up to the 10 best ranked applications in each category will be invited for a
hearing in Brussels. This hearing may take place remotely.

On the basis of the evaluation by the jury (and after the mandatory checks: ethics
review, security scrutiny, legal entity validation, non-exclusion, double funding and
plagiarism, etc), the awarding authority will decide on the award of the prize.

All applications will be informed about the evaluation result (evaluation result letter).
Successful applications will be awarded the prize; the not successful ones will be
rejected.

If you believe that the evaluation procedure was flawed, you can submit a complaint
(following the deadlines and procedures set out in the evaluation result letter). Please
note that notifications are deemed to have been accessed (and received) 10 days after
sending and that deadlines will be counted from then (see also Funding & Tenders Portal
Terms and Conditions).

9. Award criteria

If admissible and eligible, the applications will be evaluated and ranked against the
following award criteria:

- award criterion 1: Experimenting – innovative concepts, processes, tools, and
governance models proving the city's commitment to act as a test-bed for
innovative practices, while ensuring the mainstreaming of these practices into the
ordinary urban development process.

- award criterion 2: Escalating – accelerating the growth of highly innovative
start-ups and SMEs by establishing an innovation friendly legal framework,
creating an environment that stimulates growth, private and public investments,
resources and talents; and driving innovation demand through efficient innovation
public procurement. The city is expected to provide details on concrete results of
the showcased initiatives.

- award criterion 3: Ecosystem building – unlocking the city’s potential as local
innovation ecosystem facilitators by fostering synergies among different
innovation ecosystem players, from public, industry, civil society, citizens to
academia, to contribute to the development of an innovation ecosystem within the
city.

– **award criterion 4: Expanding** – acting as a role model for other cities by supporting the dissemination and replication of tested solutions that boost the local innovation ecosystem; by promoting mutual learning, knowledge transfer and capacity building; and by enhancing cooperation and synergies between cities that are front-runners in driving the local innovation ecosystem, and those that are still exploring and testing their role as innovation enablers.

– **award criterion 5: City innovative vision** – applicants should demonstrate their long-term strategic vision/plan, highlighting the innovative initiatives that have positively contributed to the transformation of the city and which will further support the development of a robust and sustainable innovation ecosystem.

Additional communication, dissemination and exploitation obligations

Following the announcement of shortlisted cities, all shortlisted cities will be invited to provide pictures and a one-minute video displaying the city's innovative practices in an attractive way. The European Commission and the Agency will use those videos and pictures at the award ceremony and other relevant occasions to promote the prize and the shortlisted/awarded cities.

11. How to submit an application

All applications must be submitted directly online via the Funding & Tenders Portal Electronic Submission System. Paper applications are NOT accepted.

You can access the Portal here, or by clicking 'Apply now' on the official prize webpage.

Submission is a 2-step process:

---

a) create a user account and register your organisation

To use the Submission System (the only way to apply), all participants need to create an EULogin user account.

Once you have an EULogin account, you can register your organisation in the Participant Register. When your registration is finalised, you will receive a 9-digit participant identification code (PIC).

b) submit the application

Access the Electronic Submission System via the Topic page in the Search Funding & Tenders section.

Submit your application in 3 parts, as follows:

- Part A includes administrative information about the applicant organisations. Fill it in directly online.
- Part B (description of the action) covers the technical content of the application. Download the mandatory word template from the Submission System, fill it in and upload it as a PDF file.
- Annexes (if any; see section 5). Upload them as PDF files.

The application must keep to the page limits (see section 5); excess pages will be disregarded.

Documents must be uploaded to the right category in the Submission System otherwise the application might be considered incomplete and thus inadmissible.

The application must be submitted before the call deadline (see section 4). After this deadline, the system is closed and applications can no longer be submitted.

Once the application is submitted, you will receive a confirmation e-mail (with date and time of your application). If you do not receive this confirmation e-mail, it means your application has NOT been submitted. If you believe this is due to a fault in the Submission System, you should immediately file a complaint via the IT Helpdesk webform, explaining the circumstances and attaching a copy of the application (and, if possible, screenshots to show what happened).

Details on processes and procedures are described in the Online Manual. The Online Manual also contains the links to FAQs and detailed instructions regarding the Portal Electronic Exchange System.

12. Help

Additional information can be found:

- Online Manual
- eic.ec.europa.eu
- FAQs on the Topic page (for call-specific questions in open calls; not applicable for actions by invitation)

Please also consult the Topic page regularly, since we will use it to publish call updates.
Contact

For individual questions on the Portal Submission System, please contact the IT Helpdesk.

Non-IT related questions should be sent to the following email address: EISMEA-ICAPITAL@ec.europa.eu

Please indicate clearly the reference of the call and topic to which your question relates (see cover page).
13. Important

**IMPORTANT**

- **Don’t wait until the end** — Complete your application sufficiently in advance of the deadline to avoid any last minute **technical problems**. Problems due to last minute submissions (*e.g.* congestion, etc.) will be entirely at your risk. Call deadlines can **NOT** be extended.

All applicants will be jointly responsible and must all fulfil and respect the conditions set out in these Rules of Contest.

- **No double funding** — There is a strict prohibition of double funding from the EU budget. Applications that have already received an EU prize cannot receive a second prize for the same activities.
