² Regulation (EU) 2021/695 of the European Parliament and of the Council of 28 April 2021 establishing Horizon Europe – the Framework Programme for Research and Innovation, laying down its rules for participation and dissemination, and repealing Regulations (EU) No 1290/2013 and (EU) No 1291/2013, for the period 2021-2027 OJ L 170/1 of 12.05.2021.

³ Commission Implementing Decision C(2022) 701 of 7 February 2022 on the financing of the European Innovation Council component of the Specific Programme implementing Horizon Europe – the Framework Programme for Research and Innovation (2021-2027) and on the adoption of the Work Programme for 2022.

1. Background

The second edition of European Innovation Procurement awards follows the success of the first edition, which brought to spotlight the frontrunners of the public and private innovation procurement. This second edition aims to build upon the established grounds, targeting even more practices and recognising the effort and talent in the area.

2. Objectives – Themes and priorities – Activities– Expected results

The COVID-19 pandemic has changed the global context and created an opportunity for the EU to redefine and affirm its role as a leader to achieve the necessary transformations ahead. Innovation procurement should play a key role to supporting the European priorities set up in the Green Deal⁴ and to securing the European technological sovereignty.

Innovation procurement boosts the process of transforming research results and ideas into innovative solutions. It represents an untapped potential to stimulate the demand for innovation. By using innovation procurement, the public and private sectors can provide state-of-the-art services and goods to the society and, at the same time, offer new growth and commercialisation opportunities for suppliers of disruptive solutions, particularly start-ups and SMEs.

Objectives

The European Innovation Procurement Awards aim to recognise public and private buyers, natural persons and those legal entities supporting these practices across Europe in their efforts to promote and stimulate innovation procurement and the innovative ways the solutions are procured.

The Awards also aims to demonstrate how innovation procurement positively transforms the economy by not only creating new and sustainable markets, but also by tackling societal challenges such as climate change.

These Awards complement other EIC initiatives aimed at supporting and fostering innovation procurement in the European Union.

Expected results

The awards aim to:

- ✦ Stimulate the innovation procurement uptake;
- ✦ Acknowledge and support the efforts done by procurers, and natural persons or legal entities supporting them to deliver better services and/or to bring products to the market in an innovative way; and
- ✦ Build a diverse European community of public and private buyers to share, work together and inspire each other in the design of innovative procurement processes, and particularly in the delivery of public services.

⁴ Communication from the Commission on the Green Deal issued on 11.12.2019 (COM(2019) 640 final)

The awards will feature the following three categories:

- **Innovation procurement strategy award:** to reward holistic and dedicated strategy and/or action plan that trigger sustainable innovation procurement practices.
- **Facing societal challenges award:** to reward those innovative procurement practises aimed to face covid-19 pandemic and/or its consequences during the recovery phase.
- **Procurement leadership award:** to reward the outstanding individual(s) and/or legal entities (s) that create strong role models; who empower others to succeed in the use and further deployment of innovation procurement; or develop, support and promote the establishment of new innovative procurement practices within the innovation ecosystem.

Both winner (ranked 1st) and runner-up (ranked 2nd) in each category will be given the opportunity to **showcase** their experimentation and gain **inspiration** from experiences of other procurers – for example, to learn about new approaches through the exchange of good practices, initiatives, ideas, and innovations.

3. Available budget

Each of the three categories will reward one winner (ranked 1st) with EUR 75 000 and one runner-up (ranked 2nd) with EUR 25 000.

Applicants will also be refused if it turns out that¹⁰:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information
- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

8. Evaluation and award procedure

Applications will be subject to a formal evaluation by a **jury**.

If there are more than 60 applications in one category, there will be a pre-selection phase in that category to select the best 60 applications to pass to the jury review. Otherwise, all eligible applications will pass directly to jury review.

The pre-selection panel and jury usually have a different composition, but jury members may participate in the pre-selection panel.

The pre-selection panel/jury will evaluate each application against the award criteria between July and October 2022.

For applications with the same score, the pre-selection panel/jury will determine a **priority order** according to the following approach: The score for the criterion No 1 will be given a weight of 2 and the score for criterion No 2 will be given a weight of 1.5. If two or more applications still tie for any rank or category, the prize will be equally divided and awarded to all applications with the same score.

In addition, up to the 6 best applications in each category will be invited for a hearing with the jury in Brussels in October. This hearing may be also organized remotely.

On the basis of the evaluation by the jury (and after the mandatory checks: *ethics review, security scrutiny, legal entity validation, non-exclusion, double funding and plagiarism, etc*), the awarding authority will decide on the award of the prize.

¹⁰ See Article 141(1) EU Financial Regulation [2018/1046](#).

All applications will be informed about the evaluation result (**evaluation result letter**). Successful applications will be awarded the prize; the not successful ones will be rejected.

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications are deemed to have been accessed (and received) 10 days after sending and that deadlines will be counted from then (see also [Funding & Tenders Portal Terms and Conditions](#)).

9. Award criteria

If admissible and eligible, the applications will be evaluated and ranked against the following **award criteria**. (*Applicants are expected to provide in the Application Form part B clear, measurable and demonstrable results via examples, KPIs, etc*) :

- **Award criterion 1: Transformation:** stimulating the conversion of procurement practices towards innovation procurement with the aim to ensure a sustainable and inclusive growth.
- This conversion refers to the shift into (a) buying the process of innovation (research and development services); (b) buying the outcomes of innovation; or (c) the establishment of innovation procurement friendly frameworks which include tools to measure results of support actions.
- **Award criterion 2: Uptake:** the innovative procurement practise is replicable and scalable, and, therefore, contributes to providing, more efficient and effective solutions.

- **Award criterion 4: Societal impact:** practices with a demonstrated positive quantitative and qualitative impact on society, with special emphasis to achieving the green deal and digital transformation priorities.

Societal impact	6	10
Overall (pass) scores	24	40

Maximum points: 40 points.
