1. Background

Cities are faced with some of the most severe societal and sustainability challenges, but do also have the means to develop and apply effective innovative solutions. They are the place where ideas, people, public and private actors meet and interact to improve the quality of citizens' lives. They are the natural playground where breakthrough innovations can flourish and nourish. They provide ground to experiment new technologies and products in a real environment, their interaction with people and their added-value.

With their capacity to connect people, places, public and private actors, cities can substantially boost innovation in Europe while ensuring a better future for all. New approaches to undertake and deploy innovative practices are gaining support, making the shift from traditional top-down schemes to more open and bottom-up practices.

2. Objectives – Themes and priorities – Activities– Expected results

Objectives

The traditional city innovation ecosystem is opening up to new models of innovation engaging citizens. An increasing number of cities are acting as test beds for innovation and run citizens-driven initiatives to find solutions for their relevant societal challenges.

The public domain is particularly challenged with finding effective ways to ensure the mainstreaming of these practices into the ordinary urban development process. Successful practices are particularly crucial to enhance the city's capacity to attract new resources, funds and talents to stimulate the growth of breakthrough innovations. Moreover, collaboration and strengthening synergies among innovation ecosystems boost cities' development and resilience to tackle urban challenges.

For this reason, the European Capital of Innovation Awards will recognize the cities' role as catalysers of the local innovation ecosystem and will stimulate new activities aimed at boosting game-changing innovation.

Expected results

The European Capital of Innovation Awards aim to **champion** inspiring cases of municipality-enabled innovation flourishing in cities. The Awards are a **prestigious recognition** for city administrators who are courageous enough to open up their governance practices to experimentation, to boost innovation by all means, to be a role model for other cities, and to push the boundaries of technology for the benefit of their citizens.

In addition to the monetary reward, the prize brings **high visibility** in the form of renewed public interest and increased media coverage.

A European prize to the most innovative cities ecosystems. The award will raise the profile of the cities that have developed and implemented innovative policies; established frameworks that boost breakthrough innovation; enhanced the city attractiveness towards investors, industry, enterprises and talents; helped to open up connections and strengthen links with other cities, promoting the replication of best practices in the innovation field; enhanced citizens' involvement in the decision-making process; and supported cities resilience.

The Awards will feature two categories:

A) European Capital of Innovation 2023 category:

- **1 winner:** the winner (ranked 1st) will be named the **European Capital of Innovation 2023** and will receive a **prize of EUR 1 million**. The prize is dedicated to **recognise** the winning city's innovative practices, **raise its international profile**, and enhance its capacity as a widely recognised **role model city** for urban innovation.
- **2 runners-up cities:** top two cities (ranked 2nd and 3rd) with the most disruptive innovation practices that lead to outstanding impact will be awarded each a **prize of EUR 100 000**.

B) European Rising Innovative City 2023 category:

- **1 winner:** the winner (ranked 1st) will be named the **European Rising Innovative City 2023** and will receive a **prize of EUR 500 000**. The prize is dedicated to **recognise** the winning city's innovative practices, **raise its international profile**, and enhance its capacity as a widely recognised **role model city** for urban innovation.
- **2 runners-up cities:** top two cities (ranked 2nd and 3rd) with the most disruptive innovation practices that lead to outstanding impact will be awarded each a **prize of EUR 50 000**.

3. Available budget

One first prize for the winner of the European Capital of Innovation category of EUR 1 000 000 (ranked 1st), and two runner-up prizes of EUR 100 000 each for the top two cities (ranked 2nd and 3rd).

One first prize for the winner of the European Rising Innovative City category of EUR 500 000 (ranked 1st), and two runner-up prizes of EUR 50 000 each for the top two cities and towns (ranked 2nd and 3rd).

8. Evaluation and award procedure

Applications will be subject to a formal evaluation by a **jury** in each category.

If there are more than 60 applications in one category, there will be a **pre-selection** phase in that category to select the best 60 applications to pass to the jury review. Otherwise, all eligible applications will pass directly to jury review.

The pre-selection panel and jury usually have a different composition, but jury members may participate in the pre-selection panel.

The pre-selection panel/jury will evaluate each application against the award criteria.

For applications with the same score, the pre-selection panel/jury will determine a **priority order** according to the following approach: the score for the criterion No 3 will be given a weight of 2 and the score for criterion No 1 will be given a weight of 1.5. If two or more applications still tie for any rank or category, the prize will be equally divided and awarded to all applications with the same score.

The 6 best ranked applications in each category will be invited for a hearing with the jury in Brussels. This hearing may take place remotely.

On the basis of the evaluation by the jury (and after the mandatory checks: *ethics review, security scrutiny, legal entity validation, non-exclusion, double funding and plagiarism, etc*), the awarding authority will decide on the award of the prize.

All applications will be informed about the evaluation result (**evaluation result letter**). Successful applications will be awarded the prize; the not successful ones will be rejected.

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications are deemed to have been accessed (and received) 10 days after sending and that deadlines will be counted from then (see also [Funding & Tenders Portal Terms and Conditions](#)).
