1. Background

Facing fast-paced developing technologies and science, it is crucial to involve women and girls in the design, development and up-take of innovative solutions. Achieving gender equality and diversity benefits not only individuals, but also increases the performance of business, research and innovation.

Nevertheless, women continue to face multiple barriers, in bringing new ideas to the market and raising capital for their companies. This negatively affects the success rate of women-founded businesses and perpetuates the lack of awareness about the systemic nature of gender inequality. Hence, women's efforts and contributions to science and innovation should be encouraged and supported.

The European Commission put in place a Gender Equality Strategy 2020-2025⁵, which sets out the Commission's broader commitment to equality across all EU policies.

As outlined in the New European Innovation Agenda⁶, supporting women innovators strengthens the European research and innovation system and creates gender-equal working environments where all talents can thrive. By integrating a gender dimension in projects, research quality is improved as well as the production of the knowledge, technologies and innovations.

2. Objectives – Themes and priorities – Activities– Expected results

Objectives

The European Prize for Women Innovators celebrates the women entrepreneurs behind Europe's game-changing innovations, so that they may inspire other women and girls realise their full potential as the EU's future scientists, innovators, and tech leaders.

This prize supports a culture within research and innovation organisations and companies allowing women to become the innovators and entrepreneurs of tomorrow.

The prize is awarded every year to women from across the EU and countries associated to Horizon Europe, who have transformed their ideas into disruptive innovations to benefit people and the planet.

As for the previous edition, the 2025 European Prize for Women Innovators is organised jointly by the Agency and the European Institute of Innovation & Technology (EIT).

The prize has three categories, two funded by the EIC (the Women Innovators and the Rising Innovators categories) and one by the EIT (the EIT Women Leadership category). These Rules of Contest apply to both the EIC and EIT prize categories.

For applications with the same score, the pre-selection panel/jury will determine a **priority order** according to the following approach: the score for the criterion No 2 will be given a weight of 2 and the score for criterion No 3 will be given a weight of 1.5. If two or more applications still tie for any rank or category, the prize will be equally divided and awarded to all applications with the same score.

Up to 6 best ranked applications in each category will be invited for an interview with the jury in Brussels. This hearing may take place remotely.

All applications will be informed about the evaluation result (**evaluation result letter**). Successful applications will be awarded the prize; the not successful ones will be rejected.

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications are deemed to have been accessed (and received) 10 days after sending and that deadlines will be counted from then (see also [Funding & Tenders Portal Terms and Conditions](#)).
