## 1. Background

"Any new legislation is only as good as its implementation"<sup>3</sup>. The European Commission is committed to a uniform and better "implementation and enforcement of EU law" in the European Union (EU)<sup>4</sup>. As national courts act as EU courts when applying EU law<sup>5</sup>, the work of judges and of justice practitioners involved in the application of EU law is essential to the well-functioning of the EU area of justice. In this context, training justice practitioners on EU law is a fundamental tool to improve the correct and uniform application of EU law, mutual trust in cross-border judicial proceedings, and the respect of the rule of law in the EU. In particular, newly / to be appointed justice professionals should understand early in their career the role they are to play as European justice practitioners. Moreover, the post-pandemic situation will likely trigger a high level of litigations in courts in all branches of law, as it occurred after the 2008 financial crisis, and the effective functioning of courts became a key component of the recovery policy. Practitioners must be aware of the possibilities EU law offers and trust each other to make cross-border proceedings more efficient.

## 2. Objectives — Themes and priorities — Activities that can be funded — Expected impact

### **JUST-2022-JTRA - Call for proposals for action grants to support transnational projects on training of justice professionals covering civil law, criminal law or fundamental rights**

<sup>3</sup> President Ursula von der Leyen, Mission letters to Commissioners, 1 December 2019.

<sup>4</sup> 2020 European Commission Work Programme.

<sup>5</sup> Article 19 of the Treaty on the EU.

### Objectives (expected outcome)

In line with the Commission Communication 'Ensuring justice in the EU — a European judicial training strategy for 2021-2024'<sup>6</sup>, the objective of the call is to contribute to the effective and coherent application of EU law in the areas of civil law, criminal law and fundamental rights, as enshrined in the EU Charter of Fundamental Rights, and the rule of law related issues, by helping to address the training needs of justice professionals in these fields.

The 2022 priorities will concentrate funding on training activities and tools for training providers, as described below, in order to support cross-border training activities:

- 1) for justice professionals, and/or
- 2) for multipliers, such as judicial trainers or EU law court coordinators, where there are guarantees that the multipliers will pass on their knowledge to justice professionals in a systematic way, and/or
- 3) for cross-professional training, in order to stimulate discussions across judicial professions about the application of EU law and contribute to a European judicial culture across professional boundaries on precisely identified topics of relevance to the concerned professions.

### Themes and priorities (scope)

The activities may cover EU civil, criminal and fundamental rights law, legal systems of the Member States, and the rule of law.

### **Judicial training principles**

Training should be designed and planned in cooperation with training providers of justice professions, justice professions' associations or bodies, or judicial authorities. Training should primarily be delivered by justice professionals who have been previously trained for this purpose, involving non-judicial experts only where relevant, using active and modern adult learning techniques.

### **Training needs assessment**

An **evidenced-based training needs assessment** for the topic of the training activity is always required.

### **Gender mainstreaming**

The assessment of the training needs should include a gender equality analysis. Findings from this gender analysis should inform the design of the project. Likewise, when designing the training content, the applicant shall take into account, as relevant, the differences in situations and conditions for women and men (or girls and boys) that are subject to a legal process<sup>7</sup>, and of their differing needs, which could have an impact on the application of the law.

### **Non-legal skills and knowledge**

The multidisciplinary competencies, judgecraft, professional skills, topics like conduct, resilience, unconscious bias, case and courtroom management, leadership,

---

<sup>6</sup> COM(2020) 713 final, adopted on 2 December 2020.

<sup>7</sup> The situations in which women and men, girls and boys find themselves in front of the law could be different because of their sex, and also be impacted by gender stereotyping. Ensuring that professional in the legal system have sufficient knowledge about on gender equality issues is of the essence for fair trials.

- The scope and application of the EU Charter of Fundamental Rights,

Including the case law of the CJEU and the interplay between the Charter and the European Convention on Human Rights; Training on this topic can be general on the application of the Charter and CJEU case law, or focussed on certain areas of EU law;

The identification of abusive litigations (“SLAPP<sup>9</sup>”) and use of the available tools to address them (including the ECHR case law regarding article 10 of the European Convention on Human Rights);

- Child-friendly justice, in line with the EU Strategy on the rights of the child<sup>10</sup>. Children can be victims, witness, suspects, accused, perpetrators or parties, either in criminal, administrative or civil proceedings. Particular attention should be paid to children with specific vulnerabilities. Applicants shall take into consideration the EU legal and policy framework<sup>11</sup>, as well as the international<sup>12</sup> and European standards in the field<sup>13</sup>;

Training on this topic can be general on child-friendly justice, or focussed on certain areas of EU law or certain topics (e.g. access to justice, legal representation and legal aid, hearing of the child, child-friendly communication and proceedings, including evidence taking or use of non-custodial measures for children in contact with the justice system,...);

- Hate crimes and hate speech, including training to develop the necessary skills for their investigation, prosecution and sanctioning, and to ensuring a fair and adequate treatment of victims;

#### *Proposals outside of these priority topics*

Since the assessment of European judicial training needs cannot be solely conducted at EU level and is mainly done nationally and even locally, the above policy priorities are indications of possible topics of supported projects. Proposals not in line with these priority topics may still be awarded grants if the applicants justify by a convincing evidence-based training needs' assessment that reaching the objectives of such proposals will contribute to the effective and coherent application of EU law. Such proposals might be awarded grants if they allow the justice professionals to keep pace with the development of EU law and/or to face the newly emerging challenges.

#### **Target group**

This call supports training of members of the judiciary and judicial staff, meaning judges, prosecutors, court and prosecution offices' staff, other justice professionals associated with the judiciary, such as lawyers in private practice, notaries, bailiffs, insolvency practitioners and mediators, as well as court interpreters and translators, prison and probation staff. Non-justice professionals cannot participate in the training

activities as participants unless there is a duly justified exception acknowledged at the moment of the grant award.

Each project should describe the planned participants' selection process. When identifying its target group (planned participants), the applicant shall consider gender balance, striving for gender parity among participants if possible.

### ***Distribution of financial support between different topics***

When deciding on the allocation of grants, a fair balance between topics and/or target audience shall be sought. Moreover, priority will be given to projects that do not duplicate existing training material or on-going projects but that act in complementarity and/or that innovate.

### ***Activities that can be funded (scope)***

Each project should include training activities that are tailored to the daily professional needs, practical, interactive and accessible to all learners, including practitioners with disabilities, whatever the face-to-face, blended<sup>15</sup>, hybrid<sup>16</sup> or online format(s) of the activities.

The gender equality perspective should be taken into account when designing the 'format' of the training course, to ensure that it is accessible to women and men on equal terms, and both women and men are able to participate in the training activities. <sup>17</sup>.

Training activities must include participants from different participating countries. For face-to-face or hybrid activities – when they can resume, travel and accommodation costs of the participants should be planned.

While the health situation is expected to improve from 2022, all projects should plan the possible disruption of travel and face-to-face activities, so that such disruption does not hinder reaching the project's objectives and implementing its activities.

This call may support training activities such as:

- cross-border initial training activities (online, face-to-face activities or exchanges), covering as many Member States as possible, to create a common European judicial culture from the moment of entering a justice profession;
- interactive, practice-oriented, cross-border continuous training activities;
- multilateral exchanges between justice professionals;
- joint study visits to EU courts or justice related institutions for justice professionals from as many different Member States as possible;
- training activities related to enhancing the use of remote hearings and use of video testimonies;

---

<sup>15</sup> Mixing the face-to-face and online formats.

<sup>16</sup> Simultaneously face-to-face and online.

<sup>17</sup> For the format, the applicant shall take into account the social roles of males and females in the society, in order to make the training course easily accessible for everyone. For example, as in the society women are often attributed a role of the principal children caregiver, a training course lasting until 18.30 or the one lasting 5 days in a row outside of the place where they live, may render it more difficult for women to participate.

- creation of training materials, whether for in person learning, blended learning or e-learning, ready-to-use either by trainers or by practitioners for self-learning, in combination with the organisation of training activities, including the creation of 'Capsule' e-training (short, up to date, tightly focused) to address justice professionals' immediate needs in the context of a concrete case;
- update and/or translation of existing training material possibly combined with adaptation to national settings, in combination with the organisation of cross-border training activities;
- creation of tools or activities for training providers (for example: train-the-trainers on active and modern adult learning techniques, train-the-trainers on online training skills and tools, tools to support the organisation of cross-border training, training on how to give training online, etc. ) including to facilitate their cooperation at EU-level;
- evaluation of the training activities on the basis of the participants' satisfaction, increased competence and, where possible, impact on their performance.

These training activities will be funded only when there is no equivalent activity which is already covered by the operating grant of the European Judicial Training Network (EJTN).

Training activities can take place in the context of initial training (pre-service or induction period – for example training activities to familiarise newly appointed justice professionals with EU legislation and judicial cooperation instruments) or continuous training of the participants (for example more specialised training activities for practicing justice professionals).

### ***Training methodology***

The planned training methodology should be described in details, for face-to-face or blended activities as for e-learning ones. It should mix training formats and use state of the art learning methods adapted to justice practitioners' learning needs. Learning by doing should be the basic principle of the used methodology. Discussions and networking among the participants in small groups should be part of the learning experience, including for online activities. The potential of modern techniques, such as virtual face-to-face training and extended reality solutions, could be further explored thanks to this call's financial support.

Planned training activities should be of easy linguistic access (for example, by providing interpretation in the languages of all participants, national breakout groups, translation of training materials or linguistic programme components) to attract also justice professionals to cross-border training activities that are reluctant to participate in an activity in a foreign language and therefore have not been reached by previous cross-border training activities.

Applications should notably take into account handbooks and guidelines on judicial training such as:

- The Advice for training providers of DG Justice and Consumers<sup>18</sup> of the Commission;
- The good practices<sup>19</sup> identified by the EU pilot project on European Judicial ;
- The EJTN Handbook on Judicial Training Methodology in Europe<sup>20</sup>;
- The EJTN Distance Learning Handbook 2020<sup>21</sup>;
- The EJTN Guidelines for Evaluation of Judicial Training Practices<sup>22</sup>;
- The EJTN Paper on 'Practicalities for level 2 and level 3 of Kirkpatrick's model'<sup>23</sup>.

### **Duration**

The project duration shall not exceed 36 months.

### **Dissemination strategy**

The funded projects should have an effective strategy which guarantees that the training developed can be taken up by other training providers and/or made accessible to other justice practitioners. The sustainability is one of the evaluation criteria of the projects' applications.

Good quality self-standing training material could be further advertised on the European Training Platform<sup>24</sup>, subject to agreement of the European Commission.

### **Expected impact**

- Increased knowledge of EU civil law, criminal law and fundamental rights instruments among justice professionals and the methods to implement them;
- Increased knowledge of the European standards on the rule of law among justice professionals;
- Improved mutual trust between justice professionals in cross-border judicial cooperation;
- Increased ability to use e-justice and digital tools;
- Increased knowledge among justice professionals on crime victims' rights, including encountering victims in a gender-sensitive, victim-centred and trauma-informed manner;

EU bodies — EU bodies (with the exception of the European Commission Joint Research Centre) can NOT be part of the consortium.

Associations and interest groupings — Entities composed of members (like for instance networks) may participate as 'sole beneficiaries' or 'beneficiaries without legal personality'<sup>26</sup>.  Please note that if the action will be implemented by the members, they should also participate (either as beneficiaries or as affiliated entities, otherwise their costs will NOT be eligible).

Countries currently negotiating association agreements — Beneficiaries from countries with ongoing negotiations (*see list above*) may participate in the call and can sign grants if the negotiations are concluded before grant signature (with retroactive effect, if provided in the agreement).

EU restrictive measures — Special rules apply for certain entities (*e.g. entities subject to [EU restrictive measures](#) under Article 29 of the Treaty on the European Union (TEU) and Article 215 of the Treaty on the Functioning of the EU (TFEU)*<sup>27</sup> and entities covered by Commission Guidelines No [2013/C 205/05](#)<sup>28</sup>). Such entities are not eligible to participate in any capacity, including as beneficiaries, affiliated entities, associated partners, subcontractors or recipients of financial support to third parties (if any).

 For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

<sup>25</sup> See Article 197(2)(c) EU Financial Regulation [2018/1046](#).

<sup>26</sup> For the definitions, see Articles 187(2) and 197(2)(c) EU Financial Regulation [2018/1046](#).

<sup>27</sup> Please note that the EU Official Journal contains the official list and, in case of conflict, its content prevails over that of the [EU Sanctions Map](#).

<sup>28</sup> Commission guidelines No [2013/C 205/05](#) on the eligibility of Israeli entities and their activities in the territories occupied by Israel since June 1967 for grants, prizes and financial instruments funded by the EU from 2014 onwards (OJEU C 205 of 19.07.2013, pp. 9-11).

### Consortium composition

Proposals must be submitted by a consortium of at least 2 applicants (beneficiaries; not affiliated entities), which complies with the following conditions: the applications must involve minimum 2 entities (beneficiaries, not affiliated entities) from different eligible countries.

The consortium must include at least one public body, private non-profit organisation or international organisation as beneficiary or affiliated entity.

### Eligible activities

Eligible activities are the ones set out in section 2 above.

Projects should take into account the results of projects supported by other EU funding programmes. The complementarities must be described in the project proposals (Part B of the Application Form).

Projects must comply with EU policy interests and priorities (*such as environment, social, security, industrial and trade policy, etc*).

Financial support to third parties is not allowed.

### Geographic location (target countries)

Proposals must relate to activities taking place in the eligible countries (*see above*).

### Duration

Projects should normally range between 12 and 36 months (extensions are possible, if duly justified and through an amendment).

### Project budget

Project budgets (maximum grant amount) are expected to range the EU grant applied for cannot be lower than € 75 000. There is no upper limit.

### Ethics and EU values

Projects must comply with:

- highest ethical standards
- EU values based on Article 2 of the Treaty on the European Union and Article 21 of the EU Charter of Fundamental Rights and
- other applicable EU, international and national law (including the General Data Protection Regulation [2016/679](#)).

Projects must seek to promote gender equality and non-discrimination mainstreaming in accordance with the [Gender Mainstreaming Toolkit](#). Project activities should contribute to the equal empowerment of women and men in all their diversity, ensuring that that they achieve their full potential and enjoy the same rights (*see [Non-discrimination mainstreaming instruments, case studies and ways forward](#)*). They should also seek to reduce levels of discrimination suffered by particular groups (as well as those at risk of multiple discrimination) and to improve equality outcomes for individuals<sup>29</sup>. Proposals should integrate gender and non-discrimination considerations in proposals and target a gender-balanced representation in project teams and

<sup>29</sup> [Non-discrimination mainstreaming– instruments, case studies and way forwards](#)

activities. It is also important that individual data collected by the beneficiaries are broken down by sex ([sex-disaggregated data](#)), disability or age whenever possible.

Applicants must show in their application that they respect ethical principles and EU values based on Article 2 of the Treaty on the European Union and Article of the 21 EU Charter of Fundamental Rights.

Participants with activities involving children must moreover have a child protection policy covering the four areas described in the [Keeping Children Safe Child Safeguarding Standards](#). This policy must be available online and transparent to everyone who comes in contact with the organisation. It must include clear information about the recruitment of staff (including trainees and volunteers) and include background checks (vetting). It must also include clear procedures and rules to staff, including reporting rules, and continuous training.

## 7. Financial and operational capacity and exclusion

### Financial capacity

Applicants must have **stable and sufficient resources** to successfully implement the projects and contribute their share. Organisations participating in several projects must have sufficient capacity to implement all these projects.

The financial capacity check will be carried out on the basis of the documents you will be requested to upload in the [Participant Register](#) during grant preparation (*e.g. profit and loss account and balance sheet, business plan, audit report produced by an approved external auditor, certifying the accounts for the last closed financial year, etc*). The analysis will be based on neutral financial indicators, but will also take into account other aspects, such as dependency on EU funding and deficit and revenue in previous years.

The check will normally be done for all beneficiaries, except:

- public bodies (entities established as public body under national law, including local, regional or national authorities) or international organisations
- if the individual requested grant amount is not more than EUR 60 000.

If needed, it may also be done for affiliated entities.

If we consider that your financial capacity is not satisfactory, we may require:

- further information
  - an enhanced financial responsibility regime, i.e. joint and several responsibility for all beneficiaries or joint and several liability of affiliated entities (*see below, section 10*)
  - prefinancing paid in instalments
  - (one or more) prefinancing guarantees (*see below, section 10*)
- or
- propose no prefinancing
  - request that you are replaced or, if needed, reject the entire proposal.

 For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

### Operational capacity

Applicants must have the **know-how, qualifications** and **resources** to successfully implement the projects and contribute their share (including sufficient experience in projects of comparable size and nature).

This capacity will be assessed together with the 'Quality' award criterion, on the basis of the competence and experience of the applicants and their project teams, including operational resources (human, technical and other) or, exceptionally, the measures proposed to obtain it by the time the task implementation starts.

If the evaluation of the award criterion is positive, the applicants are considered to have sufficient operational capacity.

Applicants will have to show their capacity via the following information:

- general profiles (qualifications and experiences) of the staff responsible for managing and implementing the project
- description of the consortium participants
- applicants' activity reports of last year (if applicable)
- list of previous projects (key projects for the last 4 years).

Additional supporting documents may be requested, if needed to confirm the operational capacity of any applicant.

Public bodies, Member State organisations and international organisations are exempted from the operational capacity check.

### Exclusion

Applicants which are subject to an **EU exclusion decision** or in one of the following **exclusion situations** that bar them from receiving EU funding can NOT participate<sup>30</sup>:

- bankruptcy, winding up, affairs administered by the courts, arrangement with creditors, suspended business activities or other similar procedures (including procedures for persons with unlimited liability for the applicant's debts)
- in breach of social security or tax obligations (including if done by persons with unlimited liability for the applicant's debts)
- guilty of grave professional misconduct<sup>31</sup> (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- committed fraud, corruption, links to a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- shown significant deficiencies in complying with main obligations under an EU procurement contract, grant agreement, prize, expert contract, or similar (including if done by persons having powers of representation, decisionmaking

---

<sup>30</sup> See Articles 136 and 141 of EU Financial Regulation [2018/1046](#).

<sup>31</sup> Professional misconduct includes: violation of ethical standards of the profession, wrongful conduct with impact on professional credibility, false declarations/misrepresentation of information, participation in a cartel or other agreement distorting competition, violation of IPR, attempting to influence decision-making processes or obtain confidential information from public authorities to gain advantage.

or control, beneficial owners or persons who are essential for the award/implementation of the grant)

- guilty of irregularities within the meaning of Article 1(2) of Regulation No [2988/95](#) (including if done by persons having powers of representation, decisionmaking or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin or created another entity with this purpose (including if done by persons having powers of representation, decisionmaking or control, beneficial owners or persons who are essential for the award/implementation of the grant).

Applicants will also be refused if it turns out that<sup>32</sup>:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information
- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

## 8. Evaluation and award procedure

The proposals will have to follow the **standard submission and evaluation procedure** (one-stage submission + one-step evaluation).

An **evaluation committee** (assisted by independent outside experts) will assess all applications. Proposals will first be checked for formal requirements (admissibility, and eligibility, *see sections 5 and 6*). Proposals found admissible and eligible will be evaluated against the operational capacity and award criteria (*see sections 7 and 9*) and then ranked according to their scores.

For proposals with the same score a **priority order** will be determined according to the following approach:

Successively for every group of *ex aequo* proposals, starting with the highest scored group, and continuing in descending order:

- 1) The *ex aequo* proposals within the same topic will be prioritised according to the scores they have been awarded for the award criterion 'Relevance'. When these scores are equal, priority will be based on their scores for the criterion 'Quality'. When these scores are equal, priority will be based on their scores for the criterion 'Impact'.

All proposals will be informed about the evaluation result (**evaluation result letter**). Successful proposals will be invited for grant preparation; the other ones will be put on the reserve list or rejected.

 No commitment for funding — Invitation to grant preparation does NOT constitute a formal commitment for funding. We will still need to make various legal checks before grant award: *legal entity validation, financial capacity, exclusion check, etc.*

---

<sup>32</sup> See Article 141 EU Financial Regulation [2018/1046](#).

**Grant preparation** will involve a dialogue in order to fine-tune technical or financial aspects of the project and may require extra information from your side. It may also include adjustments to the proposal to address recommendations of the evaluation committee or other concerns. Compliance will be a pre-condition for signing the grant.

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications which have not been opened within 10 days after sending are considered to have been accessed and that deadlines will be counted from opening/access (see also [Funding & Tenders Portal Terms and Conditions](#)). Please also be aware that for complaints submitted electronically, there may be character limitations.

## 9. Award criteria

The **award criteria** for this call are as follows:

- **Relevance:** extent to which the proposal matches the priorities and objectives of the call; clearly defined needs and robust needs assessment; clearly defined target group, with gender perspective being appropriately taken into account; contribution to the EU strategic and legislative context; European/transnational dimension; impact/interest for a number of countries (EU or eligible non-EU countries); possibility to use the results in other countries (potential for transfer of good practices); potential to develop mutual trust/cross-border cooperation (40 points)
- **Quality:** clarity and consistency of project; logical links between the identified problems, needs and solutions proposed (logical frame concept); methodology for implementing the project with gender perspective being appropriately taken into account (organisation of work, timetable, allocation of resources and distribution of tasks between partners, risks and risk management, monitoring and evaluation); ethical issues are addressed; feasibility of the project within the proposed time frame; financial feasibility (sufficient/appropriate budget for proper implementation; cost-effectiveness (best value for money) (40 points)
- **Impact:** ambition and expected long-term impact of results on target groups/general public; appropriate dissemination strategy for ensuring sustainability and long-term impact; potential for a positive multiplier effect; sustainability of results after EU funding ends (20 points).

Award criteria	Minimum pass score	Maximum score
Relevance	25	40
Quality	n/a	40
Impact	n/a	20
<b>Overall (pass) scores</b>	<b>70</b>	<b>100</b>

Maximum points: 100 points.

Individual threshold for the criterion 'Relevance': 25/40 points.

Overall threshold: 70 points.

Proposals that pass the individual threshold for the criterion 'Relevance' AND the overall threshold will be considered for funding — within the limits of the available call budget. Other proposals will be rejected.

## **10. Legal and financial set-up of the Grant Agreements**

If you pass evaluation, your project will be invited for grant preparation, where you will be asked to prepare the Grant Agreement together with the EU Project Officer.

This Grant Agreement will set the framework for your grant and its terms and conditions, in particular concerning deliverables, reporting and payments.

The Model Grant Agreement that will be used (and all other relevant templates and guidance documents) can be found on [Portal Reference Documents](#).

### Starting date and project duration

The project starting date and duration will be fixed in the Grant Agreement (*Data Sheet, point 1*). Normally the starting date will be after grant signature. The action should start within 6 months following the Grant Agreement signature, except in duly justified cases. Retroactive application can be granted exceptionally for duly justified reasons — but never earlier than the proposal submission date.

Project duration: between 12 and 36 months (extensions are possible, if duly justified and through an amendment).

### Milestones and deliverables

The milestones and deliverables for each project will be managed through the Portal Grant Management System and will be reflected in Annex 1 of the Grant Agreement.

Beneficiaries will have to ask attendees in events to participate in the EU Survey on Justice, Rights and Values. This survey allows the granting authority to closely monitor training, mutual learning and awareness-raising events. The beneficiaries will receive a weblink to the survey, to be forwarded to the attendees. They will have access to the survey results for their project and can use it for their project evaluation. The granting authority will aggregate the results of all the projects financed under the Justice programme.

### Form of grant, funding rate and maximum grant amount

The grant parameters (*maximum grant amount, funding rate, total eligible costs, etc*) will be fixed in the Grant Agreement (*Data Sheet, point 3 and art 5*).

Project budget (maximum grant amount): *see section 6 above*. The grant awarded may be lower than the amount requested.

The grant will be a budget-based mixed actual cost grant (actual costs, with unit cost and flat-rate elements). This means that it will reimburse ONLY certain types of costs (eligible costs) and costs that were *actually* incurred for your project (NOT the *budgeted* costs). For unit costs and flat-rates, you can charge the amounts calculated as explained in the Grant Agreement (*see art 6 and Annex 2 and 2a*).

The costs will be reimbursed at the funding rate fixed in the Grant Agreement (90%).

Grants may NOT produce a profit (i.e. surplus of revenues + EU grant over costs). For-profit organisations must declare their revenues and, if there is a profit, we will deduct it from the final grant amount (*see art 22.3*).

Moreover, please be aware that the final grant amount may be reduced in case of non-compliance with the Grant Agreement (*e.g. improper implementation, breach of obligations, etc*).

### Budget categories and cost eligibility rules

The budget categories and cost eligibility rules are fixed in the Grant Agreement (*Data Sheet, point 3, art 6 and Annex 2*).

#### *Budget categories for this call:*

- Personnel costs
  - A.1 Employees, A.2 Natural persons under direct contract, A.3 Seconded persons
  - A.4 SME owners and natural person beneficiaries
- B. Subcontracting costs
- C. Purchase costs
  - C.1 Travel and subsistence
  - C.2 Equipment
  - C.3 Other goods, works and services
- D. Other cost categories – not applicable
- E. Indirect costs

#### *Specific cost eligibility conditions for this call:*

- personnel costs:
  - SME owner/natural person unit cost<sup>33</sup>: Yes
  - volunteers unit cost<sup>34</sup>: No
- travel and subsistence unit cost<sup>35</sup>: Yes
- equipment costs: depreciation
- other cost categories:
  - costs for financial support to third parties: not allowed
- indirect cost flat-rate: 7% of the eligible direct costs (categories A-D, except volunteers costs and exempted specific cost categories, if any)
- VAT: non-deductible VAT is eligible (but please note that since 2013 VAT paid by beneficiaries that are public bodies acting as public authority is NOT eligible)
- other:
  - in-kind contributions for free are allowed, but cost-neutral, i.e. they cannot be declared as cost

---

<sup>33</sup> Commission [Decision](#) of 20 October 2020 authorising the use of unit costs for the personnel costs of the owners of small and medium-sized enterprises and beneficiaries that are natural persons not receiving a salary for the work carried out by themselves under an action or work programme (C(2020)7715).

<sup>34</sup> Commission [Decision](#) of 10 April 2019 authorising the use of unit costs for declaring personnel costs for the work carried out by volunteers under an action or a work programme (C(2019)2646).

<sup>35</sup> Commission [Decision](#) of 12 January 2021 authorising the use of unit costs for travel, accommodation and subsistence costs under an action or work programme under the 2021-2027 multi-annual financial framework (C(2021)35).

- kick off meeting: costs for kickoff meeting organised by the granting authority are eligible (travel costs for maximum 2 persons, return ticket to Brussels and accommodation for one night) only if the meeting takes place after the project starting date set out in the Grant Agreement; the starting date can be changed through an amendment, if needed
- project websites: communication costs for presenting the project on the participants' websites or social media accounts are eligible; costs for *separate* project websites are not eligible
- other ineligible costs: No

The reporting and payment arrangements are fixed in the Grant Agreement (*Data Sheet, point 4 and art 21 and 22*).

After grant signature, you will normally receive a **prefinancing** to start working on the project (float of normally **65%** of the maximum grant amount; exceptionally less or no pre-financing). The pre-financing will be paid 30 days from entry into force/financial guarantee (if required)— whichever is the latest.

There may also be **additional prefinancing payments**, especially in case of a weak financial capacity.

There will be no **interim payments**.

For projects with duration of 24 months or more, you will be expected to submit one progress report not linked to payments after 12 months.

**Payment of the balance:** At the end of the project, we will calculate your final grant amount. If the total of earlier payments is higher than the final grant amount, we will ask you (your coordinator) to pay back the difference (recovery).

All payments will be made to the coordinator.

 Please be aware that payments will be automatically lowered if one of your consortium members has outstanding debts towards the EU (granting authority or other EU bodies). Such debts will be offset by us — in line with the conditions set out in the Grant Agreement (*see art 22*).

Please also note that you are responsible for keeping records on all the work done and the costs declared.

### Prefinancing guarantees

If a prefinancing guarantee is required, it will be fixed in the Grant Agreement (*Data Sheet, point 4*). The amount will be set during grant preparation and it will normally be equal or lower than the prefinancing for your grant.

The guarantee should be in euro and issued by an approved bank/financial institution established in an EU Member State. If you are established in a non-EU country and would like to provide a guarantee from a bank/financial institution in your country, please contact us (this may be exceptionally accepted, if it offers equivalent security).

Amounts blocked in bank accounts will NOT be accepted as financial guarantees.

Prefinancing guarantees are formally NOT linked to individual consortium members, which means that you are free to organise how to provide the guarantee amount (*by one or several beneficiaries, for the overall amount or several guarantees for partial amounts, by the beneficiary concerned or by another beneficiary, etc*). It is however

important that the requested amount is covered and that the guarantee(s) are sent to us in time to make the prefinancing (scanned copy via Portal AND original by post).

If agreed with us, the bank guarantee may be replaced by a guarantee from a third party.

The guarantee will be released at the end of the grant, in accordance with the conditions laid down in the Grant Agreement.

### Certificates

Depending on the type of action, size of grant amount and type of beneficiaries, you may be requested to submit different certificates. The types, schedules and thresholds for each certificate are fixed in the Grant Agreement (*Data Sheet, point 4 and art 24*).

### Liability regime for recoveries

The liability regime for recoveries will be fixed in the Grant Agreement (*Data Sheet point 4.4 and art 22*).

For beneficiaries, it is limited joint and several liability with individual ceilings — *each beneficiary up to their maximum grant amount*.

In addition, the granting authority may require joint and several liability of affiliated entities (with their beneficiary).

### Provisions concerning the project implementation

IPR rules: *see Model Grant Agreement (art 16 and Annex 5)*:

- rights of use on results: Yes

Communication, dissemination and visibility of funding: *see Model Grant Agreement (art 17 and Annex 5)*:

- additional communication and dissemination activities: Yes

### Other specificities

n/a

### Non-compliance and breach of contract

The Grant Agreement (chapter 5) provides for the measures we may take in case of breach of contract (and other non-compliance issues).

For more information, see [AGA – Annotated Grant Agreement](#).

## **11. How to submit an application**

All proposals must be submitted directly online via the Funding & Tenders Portal Electronic Submission System. Paper applications are NOT accepted.

Submission is a **2-step process**:

### **a) create a user account and register your organisation**

To use the Submission System (the only way to apply), all participants need to [create an EU Login user account](#).

Once you have an EULogin account, you can [register your organisation](#) in the Participant Register. When your registration is finalised, you will receive a 9-digit participant identification code (PIC).

## b) **submit the proposal**

Access the Electronic Submission System via the Topic page in the [Search Funding & Tenders](#) section (or, for calls sent by invitation to submit a proposal, through the link provided in the invitation letter).

Submit your proposal in 4 parts, as follows:

- Part A includes administrative information about the applicant organisations (future coordinator, beneficiaries, affiliated entities and associated partners) and the summarised budget for the proposal. Fill it in directly online
- Part B (description of the action) covers the technical content of the proposal. Download the mandatory word template from the Submission System, fill it in and upload it as a PDF file
- Part C containing additional project data. To be filled in directly online.
- Annexes (*see section 5*). Upload them as PDF file (single or multiple depending on the slots). Excel upload is sometimes possible, depending on the file type.

The proposal must keep to the **page limits** (*see section 5*); excess pages will be disregarded.

Documents must be uploaded to the **right category** in the Submission System otherwise the proposal might be considered incomplete and thus inadmissible.

The proposal must be submitted **before the call deadline** (*see section 4*). After this deadline, the system is closed and proposals can no longer be submitted.

Once the proposal is submitted, you will receive a **confirmation e-mail** (with date and time of your application). If you do not receive this confirmation e-mail, it means your proposal has NOT been submitted. If you believe this is due to a fault in the Submission System, you should immediately file a complaint via the [IT Helpdesk webform](#), explaining the circumstances and attaching a copy of the proposal (and, if possible, screenshots to show what happened).

Details on processes and procedures are described in the [Online Manual](#). The Online Manual also contains the links to FAQs and detailed instructions regarding the Portal Electronic Exchange System.

## **12. Help**

As far as possible, ***please try to find the answers you need yourself***, in this and the other documentation (we have limited resources for handling direct enquiries):

- [Online Manual](#)
- FAQs on the Topic page (for call-specific questions in open calls)
- [Portal FAQ](#) (for general questions).

Please also consult the Topic page regularly, since we will use it to publish call updates. (For invitations, we will contact you directly in case of a call update).

## 13. Important

### IMPORTANT

- **Don't wait until the end** — Complete your application sufficiently in advance of the deadline to avoid any last minute **technical problems**. Problems due to last minute submissions (*e.g. congestion, etc*) will be entirely at your risk. Call deadlines can NOT be extended.
- **Consult** the Portal Topic page regularly. We will use it to publish updates and additional information on the call (call and topic updates).
- **Funding & Tenders Portal Electronic Exchange System** — By submitting the application, all participants **accept** to use the electronic exchange system in accordance with the [Portal Terms & Conditions](#).
- **Registration** — Before submitting the application, all beneficiaries, affiliated entities and associated partners must be registered in the [Participant Register](#). The participant identification code (PIC) (one per participant) is mandatory for the Application Form.
- **Consortium roles** — When setting up your consortium, you should think of organisations that help you reach objectives and solve problems.

The roles should be attributed according to the level of participation in the project. Main participants should participate as **beneficiaries** or **affiliated entities**; other entities can participate as associated partners, subcontractors, third parties giving in-kind contributions. **Associated partners** and third parties giving in-kind contributions should bear their own costs (they will not become formal recipients of EU funding). **Subcontracting** should normally constitute a limited part and must be performed by third parties (not by one of the beneficiaries/affiliated entities). Subcontracting going beyond 30% of the total eligible costs must be justified in the application.

- **Coordinator** — In multi-beneficiary grants, the beneficiaries participate as consortium (group of beneficiaries). They will have to choose a coordinator, who will take care of the project management and coordination and will represent the consortium towards the granting authority. In mono-beneficiary grants, the single beneficiary will automatically be coordinator.
- **Affiliated entities** — Applicants may participate with affiliated entities (i.e. entities linked to a beneficiary which participate in the action with similar rights and obligations as the beneficiaries, but do not sign the grant and therefore do not become beneficiaries themselves). They will get a part of the grant money and must therefore comply with all the call conditions and be validated (just like beneficiaries); but they do not count towards the minimum eligibility criteria for consortium composition (if any).
- **Associated partners** — Applicants may participate with associated partners (i.e. partner organisations which participate in the action but without the right to get grant money). They participate without funding and therefore do not need to be validated.

- **Consortium agreement** — For practical and legal reasons it is recommended to set up internal arrangements that allow you to deal with exceptional or unforeseen circumstances (in all cases, even if not mandatory under the Grant Agreement). The consortium agreement also gives you the possibility to redistribute the grant money according to your own consortium-internal principles and parameters (for instance, one beneficiary can reattribute its grant money to another beneficiary). The consortium agreement thus allows you to customise the EU grant to the needs inside your consortium and can also help to protect you in case of disputes.
- **Balanced project budget** - Grant applications must ensure a balanced project budget and sufficient other resources to implement the project successfully (*e.g. own contributions, income generated by the action, financial contributions from third parties, etc*). You may be requested to lower your estimated costs, if they are ineligible (including excessive).
- **No-profit rule** — Grants may NOT give a profit (i.e. surplus of revenues + EU grant over costs). This will be checked by us at the end of the project.
- **No double funding** — There is a strict prohibition of double funding from the EU budget (except under EU Synergies actions). Outside such Synergies actions, any given action may receive only ONE grant from the EU budget and cost items may under NO circumstances declared to two different EU actions.
- **Completed/ongoing projects** — Proposals for projects that have already been completed will be rejected; proposals for projects that have already started will be assessed on a case-by-case basis (in this case, no costs can be reimbursed for activities that took place before the project starting date/proposal submission).
- **Combination with EU operating grants** — Combination with EU operating grants is possible, if the project remains outside the operating grant work programme and you make sure that cost items are clearly separated in your accounting and NOT declared twice (*see [AGA — Annotated Model Grant Agreement, art 6.2.E](#)*).
- **Multiple proposals** — Applicants may submit more than one proposal for *different* projects under the same call (and be awarded a funding for them).  
Organisations may participate in several proposals.  
BUT: if there are several proposals for *very similar* projects, only one application will be accepted and evaluated; the applicants will be asked to withdraw one of them (or it will be rejected).
- **Resubmission** — Proposals may be changed and re-submitted until the deadline for submission.
- **Rejection** — By submitting the application, all applicants accept the call conditions set out in this this Call Document (and the documents it refers to). Proposals that do not comply with all the call conditions will be **rejected**. This applies also to applicants: All applicants need to fulfil the criteria; if any one of them doesn't, they must be replaced or the entire proposal will be rejected.
- **Cancellation** — There may be circumstances which may require the cancellation of the call. In this case, you will be informed via a call or topic update. Please note that cancellations are without entitlement to compensation.
- **Language** — You can submit your proposal in any official EU language (project abstract/summary should however always be in English). For reasons of efficiency, we strongly advise you to use English for the entire application. If you need the call documentation in another official EU language, please submit a request within 10 days after call publication (for the contact information, *see section 12*).

- **Transparency** — In accordance with Article 38 of the [EU Financial Regulation](#), information about EU grants awarded is published each year on the [Europa website](#).

This includes:

- beneficiary names
- beneficiary addresses
- the purpose for which the grant was awarded
- the maximum amount awarded.

The publication can exceptionally be waived (on reasoned and duly substantiated request), if there is a risk that the disclosure could jeopardise your rights and freedoms under the EU Charter of Fundamental Rights or harm your commercial interests.

- **Data protection** — The submission of a proposal under this call involves the collection, use and processing of personal data. This data will be processed in accordance with Regulation [2018/1725](#). It will be processed solely for the purpose of evaluating your proposal, subsequent management of your grant and, if needed, programme monitoring, evaluation and communication. Details are explained in the [Funding & Tenders Portal Privacy Statement](#).
