0. Introduction

This is a call for proposals for EU action grants in the fields of Environment and Climate action under the Programme for Environment and Climate Action (LIFE).

The regulatory framework for this EU Funding Programme is set out in:

- Regulation 2018/1046 (EU Financial Regulation)
- the basic act (LIFE Regulation 2021/783).

The call is launched in accordance with the 2021-2024 Multiannual Work Programme and will be managed by the European Climate, Infrastructure and Environment Executive Agency (CINEA) ("Agency").

---

2 Commission Implementing Decision C(2021)4997 final of 9 July 2021 on the financing of the LIFE Programme and the adoption of the work programme for the years 2021 to 2024.
The call covers the following topics:

- **LIFE-2021-TA-PP-NAT-SNAP** — Technical Assistance preparation of SNAPs
- **LIFE-2021-TA-PP-ENV-SIP** — Technical Assistance preparation of ENV SIPs
- **LIFE-2021-TA-PP-CLIMA-SIP** — Technical Assistance preparation of CLIMA SIPs

Each project application under the call must address only one of these topics. Applicants wishing to apply for more than one topic, must submit a separate proposal under each topic.

We invite you to read the call documentation carefully, and in particular this Call Document, the Model Grant Agreement, the EU Funding & Tenders Portal Online Manual and the EU Grants AGA — Annotated Grant Agreement.

These documents provide clarifications and answers to questions you may have when preparing your application:

- the **Call Document** outlines the:
  - background, objectives, scope, activities that can be funded and the expected results (sections 1 and 2)
  - timetable and available budget (sections 3 and 4)
  - admissibility and eligibility conditions (including mandatory documents; sections 5 and 6)
  - criteria for financial and operational capacity and exclusion (section 7)
  - evaluation and award procedure (section 8)
  - award criteria (section 9)
  - legal and financial set-up of the Grant Agreements (section 10)
  - how to submit an application (section 11)
- the **Online Manual** outlines the:
  - procedures to register and submit proposals online via the EU Funding & Tenders Portal ("Portal")
  - recommendations for the preparation of the application
- the **AGA — Annotated Grant Agreement** contains:
  - detailed annotations on all the provisions in the Grant Agreement you will have to sign in order to obtain the grant (including cost eligibility, payment schedule, accessory obligations, etc).

You are also encouraged to visit the **LIFE database** to consult the list of projects funded previously. For the Clean Energy Transition sub-programme, projects funded previously (under the Horizon 2020 programme) can be found on the **CORDIS website**.
1. Background

What is the LIFE Programme?

The LIFE Programme is the EU Programme for Environment and Climate Action. As such, it is one of the key contributors to the European Green Deal\(^3\) which aims to:

- transform the EU into a fair and prosperous society, with a modern, resource-efficient and competitive economy where there are no net emissions of greenhouse gases in 2050 and where economic growth is decoupled from resource use and
- protect, conserve and enhance the EU's natural capital, and protect the health and well-being of citizens from environment and climate related risks and impacts.

The LIFE Programme will contribute to these priorities through its four sub-programmes in particular by:

- boosting and integrating the implementation of the EU's policy objectives for halting and reversing loss of wildlife habitats and species across all sectors
- supporting the transition to a circular economy and protecting and improving the quality of EU's natural resources, including air, soil and water among others
- supporting implementation of the 2030 energy and climate policy framework, the EU's climate neutrality objective by 2050, and the new EU strategy on adaptation to climate change and
- building capacity, stimulating investments and supporting implementation of policies focused on energy efficiency and small-scale renewables.

The LIFE Programme is structured in two fields and four sub-programmes (described in more detail below):

Environment:

- sub-programme Nature and Biodiversity
- sub-programme Circular Economy and Quality of Life

Climate Action:

- sub-programme Climate Change Mitigation and Adaptation
- sub-programme Clean Energy Transition.

---

\(^3\) Communication from the Commission to the European Parliament, the European Council, the Council, the European Economic and Social Committee and the Committee of the Regions: The European Green Deal (COM (2019)640 final).
Nature and Biodiversity

The specific objectives of the sub-programme ‘Nature and Biodiversity’ are the following:

- to develop, demonstrate, promote and stimulate scale up of innovative techniques, methods and approaches (including nature-based solutions and ecosystem approach) for reaching the objectives of the EU legislation and policy on nature and biodiversity, and to contribute to the knowledge base and to the application of best practices, including through the support of the Natura 2000
- to support the development, implementation, monitoring and enforcement of EU legislation and policy on nature and biodiversity, including by improving governance at all levels, in particular through enhancing capacities of public and private actors and the involvement of civil society, also taking into due consideration the possible contributions provided by citizen science
- to catalyse the large-scale deployment of successful solutions/approaches for implementing EU legislation and policy on nature and biodiversity, by replicating results, integrating related objectives into other policies and into public and private sector practices, mobilising investment and improving access to finance.

Circular Economy and Quality of Life

The specific objectives of the sub-programme ‘Circular Economy and Quality of Life’ are:

- to develop, demonstrate and promote innovative techniques, methods and approaches for reaching the objectives of the EU legislation and policy on environment, and to contribute to the knowledge base and, where relevant, to the application of best practices
- to support the development, implementation, monitoring and enforcement of the EU legislation and policy on environment, including by improving governance at all levels, in particular through enhancing capacities of public and private actors and the involvement of civil society
- to catalyse the large-scale deployment of successful technical and policy-related solutions for implementing the EU legislation and policy on environment, by replicating results, integrating related objectives into other policies and into public and private sector practices, mobilising investment and improving access to finance.

This sub-programme aims at facilitating the transition toward a sustainable, circular, toxic-free, energy-efficient and climate-resilient economy and at protecting, restoring and improving the quality of the environment.

It will contribute to the EU priorities by:

- reducing resource consumption and facilitating the transition toward a sustainable, circular, toxic-free, energy-efficient and climate-resilient economy
- developing circular systems, in line with the new Circular Economy Action Plan and reflecting its focus on sustainable products, material and energy intensive sectors and circular business models for value retention
- bringing down waste generation in line with the Waste Framework Directive 2019/1004\(^4\) and the reduction of hazardous waste in view of the EU’s commitment under the Basel Convention\(^5\).

- improving waste management with respect to collection and storage of waste, recovery options and end-of-life disposal, including in islands where waste management has to face specific challenges

- reducing emissions of pollutants to air and ensuring clean air for EU citizens in line with the EU legislation and the objectives of the Zero Pollution Action Plan

- achieving and maintaining a good status of the EU water bodies

- ensuring clean surface water and ground-water, in sufficient quantities for human and other species, including by increasing efficiency of water use

- reducing production, use and emissions of hazardous chemicals as well as reducing the exposure of humans and the environment to those chemicals

- promoting the development, commercialisation and uptake of safe and sustainable-by-design substances, materials and products

- diminishing exposure to harmful noise levels

- protecting the quality of EU soil, preventing soil degradation through sustainable practices of soil and land management, remediating from soil pollution and enhancing the capacity to improve water quality through reduced nitrate leakage and to reduce emissions through carbon storage.

**Climate Change Mitigation and Adaptation**

The specific objectives of the sub-programme ‘Climate Change Mitigation and Adaptation’ are:

- to develop, demonstrate and promote innovative techniques, methods and approaches for reaching the objectives of the EU legislation and policy on climate action and to contribute to the knowledge base and to the application of best practice

- to support the development, implementation, monitoring and enforcement of the EU legislation and policy on climate action, including by improving governance at all levels, in particular through enhancing capacities of public and private actors and the involvement of civil society

- to catalyse the large-scale deployment of successful technical and policy-related solutions for implementing the EU legislation and policy on climate action by replicating results, integrating related objectives into other policies and into public and private sector practices, mobilising investment and improving access to finance.

This sub-programme will contribute to the transformation of the EU into a climate-neutral and -resilient society, by supporting the implementation of the EU’s climate policy and preparing the EU for the climate action challenges in the coming years and decades.

---

\(^5\) Basel Convention on the control of transboundary movements of hazardous wastes and their disposal.
Clean Energy Transition

The specific objectives of the sub-programme ‘Clean Energy Transition’ are the following:

- to develop, demonstrate and promote innovative techniques, methods and approaches for reaching the objectives of the EU legislation and policy on the transition to sustainable renewable energy and increased energy efficiency, and to contribute to the knowledge base and to the application of best practice

- to support the development, implementation, monitoring and enforcement of the EU legislation and policy on the transition to sustainable renewable energy or increased energy efficiency, including by improving governance at all levels, in particular through enhancing capacities of public and private actors and the involvement of civil society

- to catalyse the large-scale deployment of successful technical and policy-related solutions for implementing the EU legislation on the transition to renewable energy or increased energy efficiency by replicating results, integrating related objectives into other policies and into public and private sector practices, mobilising investment and improving access to finance.

This sub-programme aims at facilitating the transition toward an energy-efficient, renewable energy-based, climate-neutral and -resilient economy by funding coordination and support actions across Europe. These actions, of high EU added-value, aim at breaking market barriers that hamper the socio-economic transition to sustainable energy, typically engaging multiple small and medium-size stakeholders, multiple actors including local and regional public authorities and non-profit organisations, and involving consumers.

The sub-programme will contribute to the implementation of the energy-related actions of the Green Deal, including the ‘Renovation wave’ initiative for the building sector, and will give due consideration to territories not connected to the European grids such as the EU outermost regions. It will contribute to the Just Transition objectives by accompanying the territories and the groups of citizens negatively affected by the transition from fossil fuels to clean energy, by building capacity of actors and fostering clean energy investments, mainly in energy efficiency and locally available, sustainable, renewable energy sources. Activities related to biofuels will not be included.

2. Type of action — Objectives — Themes and priorities — Activities that can be funded — Expected impact

Type of action

The topics under this call for proposals concern LIFE Technical Assistance Project Grants (TA PP).

Technical Assistance Projects (TA) may include the following activities:

- preparation of Strategic Integrated Projects (SIPs) and Strategic Nature and Projects (SNAPs) (TA-PP)

- preparation for facilitating the up-scaling and replication of results from other projects funded by the LIFE Programme, its predecessor programmes or other EU funding programmes (TA-R). TA-R is not the subject of this call
- capacity building of Member States authorities with low effective participation to the LIFE Programme, with a view to improve the National Contact Points services across the EU and to increase the overall quality of proposals submitted (TA-CAP). TA-CAP is not the subject of this call

**LIFE-2021-TA-PP-NAT-SNAP — Technical Assistance preparation of SNAPs**

**Objectives**

The objective is the preparation of Strategic Nature Projects (SNAPs).

SNAPs projects

(1) aim at the implementation of:

- Prioritised Action Frameworks (PAF) and/or
- Other plans or strategies adopted at international, national, regional or multiregional level by nature and biodiversity authorities, that implement EU nature and/or biodiversity policy or legislation,

(2) at large territorial scale

(3) with the involvement of all concerned stakeholders

(4) and include a coordination mechanism for funding supporting complementary measures necessary for the full implementation of the targeted PAF (or other eligible strategy).

Therefore the main objective of the TA-PP project is the submission of a full proposal for a SNAP.

The SNAP proposal prepared in the framework of TA-PP project has to be of good quality and has to be eligible for LIFE funding. If failure to submit eligible and quality SNAP proposal is due to the poor performance, negligence or mistake of the beneficiary of the TA-PP project, the granting authority reserves the right to recover any pre-financing and to declare all TA-PP project costs ineligible.

The coordinating beneficiary should submit a full SNAP proposal in the framework of a dedicated LIFE call for SNAPs before the end of the TA-PP project. Please keep in mind that the submission process for a SNAPs consists of two phases – concept note and full proposal.

Applicants should ensure that the targeted Prioritized Action Framework (PAF), the targeted plan or strategy will be eligible for a SNAP. Please note that, inter alia, the PAF, the plan or strategy should be likely to be adopted by the submission date of the full proposal for the SNAP, which by default will be before the end date of the Technical Assistance project.

**Scope — Activities that can be funded**

The overall objective of a TA-PP-NAT-SNAP project is writing a SNAP proposal, so all activities of the TA-PP project must contribute to this goal.
As a general principle, all activities included in the Technical Assistance project must be new and additional to the work undertaken by the applicant prior to the project.

In general, and amongst others, the activities:

- should not be research;
- should not include statutory responsibilities of the competent authority;
- should be completed within the duration of the project;
- should be clearly related to the objective(s) of the project and the corresponding SNAP.

Activities may include (this is not an exhaustive list):

- recruitment of new personnel and training for writing a SNAP proposal;
- contracting external assistance for writing a SNAP proposal;
- information collection for the preparation of a SNAP proposal (e.g. on sources of funding);
- networking, consultation and coordination work for preparing, writing and implementing the SNAP;
- coordination with stakeholders to be involved in the Strategic Nature Project;
- developing financing plans where such plans are not already part of the targeted PAF, action plan or strategy;
- mapping of the actions complementary to SNAP and their potential sources of funding;
- writing of the SNAP full proposal or concept note and full proposal itself.

**Expected impact**

A proposal for a Technical Assistance project is expected to support the applicant during preparation of an eligible SNAP proposal of good quality that targets an eligible PAF, plan or strategy. The proposals must also demonstrate that the proposed action is of Union interest by making a contribution to the achievement of one of the general objectives of the LIFE Programme set out in Article 3 of the LIFE regulation.

**Funding rate**

Technical Assistance Project (TA-PP) — 60% funding rate

**Additional conditions**

n/a
LIFE-2021-TA-PP-ENV-SIP — Technical Assistance preparation of ENV SIPs

Objectives

The objective is the preparation of ENV Strategic Integrated Projects (SIPs).

ENV SIPs projects

(1) aim at the implementation of:

- National or Regional Circular Economy Action Plans, Strategies, Roadmaps or similar
- National and regional Waste Management Plans (WMPs) pursuant to Article 28 of the Waste Framework Directive and/or Waste Prevention Programmes as requested by article 29 of the Waste Framework Directive;
- Air quality plans pursuant to the Ambient Air Quality Directive or National Air Pollution Control Programmes (NAPCP) pursuant to the National Emission Ceilings Directive.

(2) at large territorial scale

(3) with the involvement of all concerned stakeholders

(4) and include a coordination mechanism for funding supporting complementary measures necessary for the full implementation of the targeted plan or strategy.

Therefore the main objective of the TA-PP project is the submission of a full proposal for an ENV SIP.

The ENV SIP proposal prepared in the framework of TA-PP project has to be of good quality and has to be eligible for LIFE funding. If failure to submit eligible and quality ENV SIP proposal is due to the poor performance, negligence or mistake of the beneficiary of the TA-PP project, the granting authority reserves the right to recover any pre-financing and to declare all TA-PP project costs ineligible.

The coordinating beneficiary should submit a full ENV SIP proposal in the framework of a dedicated LIFE call for ENV SIP before the end of the TA-PP project. Please keep in mind that the submission process for a ENV SIP consists of two phases – concept note and full proposal.

Applicants should ensure that the targeted plan or strategy will be eligible for a ENV SIP. Please note that, inter alia, the plan or strategy should be likely to be adopted by the submission date of the full proposal for the ENV SIP, which by default will be before the end date of the Technical Assistance project.
**Scope — Activities that can be funded**

The overall objective of a TA-PP-ENV-SIP project is writing a SIP proposal, so all activities must contribute to this goal.

As a general principle, all activities included in the Technical Assistance project must be new and additional to the work undertaken by the applicant prior to the project.

In general, and amongst others, the activities:

- should not be research;
- should not include statutory responsibilities of the competent authority;
- should be completed within the duration of the project;
- should be clearly related to the objective(s) of the project and the corresponding SIP.

Activities may include (this is not an exhaustive list):

- recruitment of new personnel and training for writing a SIP proposal;
- contracting external assistance for writing a SIP proposal;
- information collection for the preparation of a SIP proposal (e.g. on sources of funding)
- networking, consultation and coordination work for preparing, writing and implementing the SIP;
- coordination with stakeholders to be involved in the Strategic Integrated Project;
- developing financing plans where such plans are not already part of the targeted strategy or plan;
- mapping of the actions complementary to SIP and their potential sources of funding
- writing of the SIP proposal full proposal or concept note and full proposal itself.

**Expected impact**

A proposal for a Technical Assistance project is expected to support the applicant during preparation of an eligible SIP proposal of good quality that targets an eligible strategy or plan. The proposals must also demonstrate that the proposed action is of Union interest by making a contribution to the achievement of one of the general objectives of the LIFE Programme set out in Article 3 of the LIFE regulation.

**Funding rate**

Technical Assistance Project (TA PP) — max. 60% funding rate
**Objectives**

The objective is the preparation of CLIMA Strategic Integrated Projects (SIPs).

CLIMA SIPs projects

1. aim at the implementation of:
   - National Energy and Climate Plans (NECP, Regulation on the governance of the energy union and climate action (EU)2018/1999);
   - National Energy Efficiency Action Plans’ (NEEAP);
   - National or regional adaptation strategies or action plans;
   - Urban or community-based action plans pioneering the transition to a climate neutral and/or climate resilient society;
   - National, regional or industry-/sector-specific greenhouse gas mitigation strategies or economy roadmaps contributing to climate neutrality.

2. at large territorial scale

3. with the involvement of all concerned stakeholders

4. and include a coordination mechanism for funding supporting complementary measures necessary for the full implementation of the targeted plan or strategy.

Therefore the main objective of the TA-PP project is the submission of a full proposal for a CLIMA SIP.

The CLIMA SIP proposal prepared in the framework of TA-PP project has to be of good quality and has to be eligible for LIFE funding. If failure to submit eligible and quality CLIMA SIP proposal is due to the poor performance, negligence or mistake of the beneficiary of the TA-PP project, the granting authority reserves the right to recover any pre-financing and to declare all TA-PP project costs ineligible.

The coordinating beneficiary should submit a full CLIMA SIP proposal in the framework of a dedicated LIFE call for CLIMA SIP before the end of the TA-PP project. Please keep in mind that the submission process for a CLIMA SIP consists of two phases – concept note and full proposal.

Applicants should ensure that the targeted plan or strategy will be eligible for a CLIMA SIP. Please note that, inter alia, the plan or strategy should be likely to be adopted by the submission date of the full proposal for the CLIMA SIP, which by default will be before the end date of the Technical Assistance project.
Scope — Activities that can be funded

The overall objective of a TA-PP-CLIMA-SIP project is writing a SIP proposal under the sub-programme Climate Change Mitigation and Adaptation, so all activities must contribute to this goal.

As a general principle, all activities included in the Technical Assistance project must be new and additional to the work undertaken by the applicant prior to the project.

In general, and amongst others, the activities:

- should not be research;
- should not include statutory responsibilities of the competent authority;
- should be completed within the duration of the project;
- should be clearly related to the objective(s) of the project and the corresponding SIP.

Activities may include (this is not an exhaustive list):

- recruitment of new personnel and training for writing a SIP proposal;
- contracting external assistance for writing a SIP proposal;
- information collection for the preparation of a SIP proposal (e.g. on sources of funding);
- networking, consultation and coordination work for preparing, writing and implementing the SIP;
- coordination with stakeholders to be involved in the Strategic Integrated Project;
- developing financing plans where such plans are not already part of the targeted strategy or plan;
- mapping of the actions complementary to SIP and their potential sources of funding;
- writing of the SIP proposal full proposal or concept note and full proposal itself.

Expected impact

A proposal for a Technical Assistance project is expected to support the applicant during preparation of an eligible SIP proposal of good quality that targets an eligible strategy or plan. The proposals must also demonstrate that the proposed action is of Union interest by making a contribution to the achievement of one of the general objectives of the LIFE Programme set out in Article 3 of the LIFE regulation.

Funding rate

Technical Assistance Project (TA PP) — max. 60% funding rate
Additional conditions

3. Available budget

The available call budget is **EUR 807.882**.

Specific budget information per topic can be found in the table below.

<table>
<thead>
<tr>
<th>Topic</th>
<th>Topic budget</th>
<th>max. EU contribution</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 — Technical Assistance preparation of NAT SNAPs</td>
<td>EUR 170.053</td>
<td>EUR 70.000</td>
</tr>
<tr>
<td>2 — Technical Assistance preparation of ENV SIPs</td>
<td>EUR 287.829</td>
<td>EUR 70.000</td>
</tr>
<tr>
<td>3 — Technical Assistance preparation of CLIMA SIPs</td>
<td>EUR 350.000</td>
<td>EUR 70.000</td>
</tr>
</tbody>
</table>

We reserve the right not to award all available funds or to redistribute them between the call priorities, depending on the proposals received and the results of the evaluation.

4. Timetable and deadlines

<table>

</tr>
</tbody>
</table>

5. Admissibility and documents

Proposals must be submitted before the call deadline *(see timetable section 4)*.

Proposals must be submitted **electronically** via the Funding & Tenders Portal Electronic Submission System (accessible via the Topic page in the **Search Funding & Tenders** section). Paper submissions are NOT possible.
Proposals (including annexes and supporting documents) must be submitted using the forms provided inside the Submission System (⚠️ NOT the documents available on the Topic page — they are only for information).

**Project acronym** — Your project acronym must include the word LIFE.

Proposals must be **complete** and contain all the requested information and all required annexes and supporting documents:

- Application Form Part A — contains administrative information about the participants (future coordinator, beneficiaries and affiliated entities) and the summarised budget for the project *(to be filled in directly online)*

- Application Form Part B — contains the technical description of the project *(to be downloaded from the Portal Submission System, completed and then assembled and re-uploaded)*

- Part C *(to be filled in directly online)* containing additional project data

- **mandatory annexes and supporting documents** *(to be uploaded)*:
  - for single stage:
    - detailed budget table *(mandatory excel template available in the Submission System)*
    - CVs of core project team: *(not applicable)*
    - activity reports of last year: *(not applicable)*
    - list of previous projects: *(not applicable)*
    - letters of support *(optional)*
    - other annexes *(optional)*.

Please note that the amounts entered into the summarised budget table (filled in directly online) must correspond to the amounts calculated in the detailed budget table. In case of discrepancies, the amounts in the online summarised budget table will prevail.

At proposal submission, you will have to confirm that you have the **mandate to act** for all applicants. Moreover you will have to confirm that the information in the application is correct and complete and that the participants comply with the conditions for receiving EU funding (especially eligibility, financial and operational capacity, exclusion, etc). Before signing the grant, each beneficiary and affiliated entity will have to confirm this again by signing a declaration of honour (DoH). Proposals without full support will be rejected.

Your application must be **readable, accessible and printable**.

Proposals are limited to maximum **30 pages** (Part B). Evaluators will not consider any additional pages.

You may be asked at a later stage for further documents *(for legal entity validation, financial capacity check, bank account validation, etc)*.

ℹ️ For more information about the submission process (including IT aspects), consult the [Online Manual](#).
6. Eligibility

Eligible participants (eligible countries)

In order to be eligible, the applicants (beneficiaries and affiliated entities) must:

- be legal entities (public or private bodies)
- be established in one of the eligible countries, i.e.:
  - EU Member States (including overseas countries and territories (OCTs))
  - non-EU countries:
    - listed EEA countries and countries associated to the LIFE Programme (associated countries) or countries which are in ongoing negotiations for an association agreement and where the agreement enters into force before grant signature
- the coordinator must be established in an eligible country.

Beneficiaries and affiliated entities must register in the Participant Register — before submitting the proposal — and will have to be validated by the Central Validation Service (REA Validation). For the validation, they will be requested to upload documents showing legal status and origin.

Other entities may participate in other consortium roles, such as associated partners, subcontractors, third parties giving in-kind contributions, etc (see section 13).

Specific cases

Exceptional funding — Entities from other countries (not listed above) are exceptionally eligible, if the granting authority considers their participation essential for the implementation of the action (see work programme).

Natural persons — Natural persons are NOT eligible (with the exception of self-employed persons, i.e. sole traders, where the company does not have legal personality separate from that of the natural person).

International organisations — International organisations are eligible. The rules on eligible countries do not apply to them.

Entities without legal personality — Entities which do not have legal personality under their national law may exceptionally participate, provided that their representatives have the capacity to undertake legal obligations on their behalf, and offer guarantees for the protection of the EU financial interests equivalent to that offered by legal persons.

EU bodies — EU bodies (with the exception of the European Commission Joint Research Centre) can NOT be part of the consortium.

Associations and interest groupings — Entities composed of members may participate as ‘sole beneficiaries’ or ‘beneficiaries without legal personality’.

Please note that

---

6 See Article 197(2)(c) EU Financial Regulation 2018/1046.
7 For the definitions, see Articles 187(2) and 197(2)(c) EU Financial Regulation 2018/1046.
if the action will be implemented by the members, they should also participate (either as beneficiaries or as affiliated entities, otherwise their costs will NOT be eligible).

Countries currently negotiating association agreements — Beneficiaries from countries with ongoing negotiations (see above) may participate in the call and can sign grants if the negotiations are concluded before grant signature (with retroactive effect, if provided in the agreement).

EU restrictive measures — Special rules apply for certain entities (e.g. entities subject to EU restrictive measures under Article 29 of the Treaty on the European Union (TEU) and Article 215 of the Treaty on the Functioning of the EU (TFEU) and entities covered by Commission Guidelines No 2013/C 205/05). Such entities are not eligible to participate in any capacity, including as beneficiaries, affiliated entities, associated partners, subcontractors or recipients of financial support to third parties (if any).

For more information, see Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment.

The identity of the applicant (and compliance with general eligibility conditions) will be verified through the documents provided in the Participant Register during legal entity validation (copy of the resolution, decision or other official document establishing the entity, etc).

**Consortium composition**

TA-PP projects are designed to support authorities responsible for the implementation of the plan/strategy/action plan targeted by the SNAPs or SIPs to prepare their SNAPs and SIPs applications.

The national authority responsible for the plan/strategy/action plan should in principle be the coordinator of the TA-PP project. In well justified cases it may participate not as coordinator, but it should in any case be part of the TA-PP project consortium.

**Eligible activities**

Eligible activities are the ones set out in section 2 above.

The following activities are not considered as eligible for funding under this call:

In general and amongst others:

- research;
- statutory responsibilities of the competent authority;
- activities outside the duration of the project;

---

8 Please note that the EU Official Journal contains the official list and, in case of conflict, its content prevails over that of the EU Sanctions Map.
9 Commission guidelines No 2013/C 205/05 on the eligibility of Israeli entities and their activities in the territories occupied by Israel since June 1967 for grants, prizes and financial instruments funded by the EU from 2014 onwards (OJEU C 205 of 19.07.2013, pp. 9-11).
activities which are not clearly related to the objective(s) of the project and the corresponding SIP.

Projects must comply with EU policy interests and priorities (such as environment, social, security, industrial and trade policy, etc.).

Financial support to third parties is not allowed.

**Geographic location (target countries)**

Proposals must relate to activities taking place in the eligible countries (see above). Projects with activities outside the EU must be necessary to achieve EU environmental and climate objectives and ensure the effectiveness of interventions carried within the EU (e.g. actions aimed at the conservation of migratory birds in wintering areas, actions implemented on a trans boundary river, or projects aimed to address environmental problems that cannot be solved successfully or efficiently unless actions are carried out also in non-EU countries).

### 7. Financial and operational capacity and exclusion

**Financial capacity**

Applicants must have stable and sufficient resources to successfully implement the projects and contribute their share. Organisations participating in several projects must have sufficient capacity to implement all these projects.

The financial capacity check will be carried out on the basis of the documents you will be requested to upload in the Participant Register during grant preparation (e.g. profit and loss account and balance sheet, business plan, audit report produced by an approved external auditor, certifying the accounts for the last closed financial year, etc.). The analysis will be based on neutral financial indicators, but will also take into account other aspects, such as dependency on EU funding and deficit and revenue in previous years.

The check will normally be done for all coordinators except:

- public bodies (entities established as public body under national law, including local, regional or national authorities) or international organisations
- if the project requested grant amount is not more than EUR 60 000.

If needed, it may also be done for affiliated entities.

If we consider that your financial capacity is not satisfactory, we may require:

- further information
- an enhanced financial responsibility regime, i.e. joint and several responsibility for all beneficiaries or joint and several liability of affiliated entities (see below, section 10)
- prefinancing paid in instalments
- (one or more) prefinancing guarantees (see below, section 10)

or
— propose no prefinancing
— request that you are replaced or, if needed, reject the entire proposal.

For more information, see Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment.

**Operational capacity**

Applicants must have the **know-how, qualifications** and **resources** to successfully implement the projects and contribute their share (including sufficient experience in projects of comparable size and nature).

This capacity will be assessed together with the ‘Resources’ award criterion, on the basis of the competence and experience of the applicants and their project teams, including operational resources (human, technical and other) or, exceptionally, the measures proposed to obtain it by the time the task implementation starts.

If the evaluation of the award criterion is positive, the applicants are considered to have sufficient operational capacity.

Applicants will have to show their capacity via the following:

— general profiles (qualifications and experiences) of the staff responsible for managing and implementing the project
— description of the consortium participants (and previous projects, if any).

Additional supporting documents may be requested, if needed to confirm the operational capacity of any applicant.

**Exclusion**

Applicants which are subject to an **EU exclusion decision** or in one of the following **exclusion situations** that bar them from receiving EU funding can NOT participate:

— bankruptcy, winding up, affairs administered by the courts, arrangement with creditors, suspended business activities or other similar procedures (including procedures for persons with unlimited liability for the applicant’s debts)
— in breach of social security or tax obligations (including if done by persons with unlimited liability for the applicant’s debts)
— guilty of grave professional misconduct (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
— committed fraud, corruption, links to a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking (including if done by persons having powers of

---

10 See Articles 136 and 141 of EU Financial Regulation 2018/1046.
11 Professional misconduct includes: violation of ethical standards of the profession, wrongful conduct with impact on professional credibility, false declarations/misrepresentation of information, participation in a cartel or other agreement distorting competition, violation of IPR, attempting to influence decision-making processes or obtain confidential information from public authorities to gain advantage.
representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)

- shown significant deficiencies in complying with main obligations under an EU procurement contract, grant agreement, prize, expert contract, or similar (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)

- guilty of irregularities within the meaning of Article 1(2) of Regulation No 2988/95 (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)

- created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin or created another entity with this purpose (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant).

Applicants will also be refused if it turns out that\textsuperscript{12}:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information

- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

8. Evaluation and award procedure

The proposals will have to follow the standard submission and evaluation procedure (one-stage submission + one-step evaluation).

An evaluation committee will assess all applications. Proposals will first be checked for formal requirements (admissibility, and eligibility, see sections 5 and 6). Proposals found admissible and eligible will be evaluated (for each topic) against the operational capacity and award criteria (see sections 7 and 9) and then ranked according to their scores.

For proposals with the same score (within a topic or budget envelope) a priority order will be determined according to the following approach:

Successively for every group of \textit{ex aequo} proposals, starting with the highest scored group, and continuing in descending order, the \textit{ex aequo} proposals will be prioritised according to the scores they have been awarded for the award criterion ‘Impact’. If these scores are equal, priority will be based on their scores for the criterion ‘Relevance’, then ‘Quality’, then ‘Resources’.

All proposals will be informed about the evaluation result (evaluation result letter). Successful proposals will be invited for grant preparation; the other ones will be put on the reserve list or rejected.

\textsuperscript{12} See Article 141 EU Financial Regulation 2018/1046.
No commitment for funding — Invitation to grant preparation does NOT constitute a formal commitment for funding. We will still need to make various legal checks before grant award: legal entity validation, financial capacity, exclusion check, etc.

Grant preparation will involve a dialogue in order to fine-tune technical or financial aspects of the project and may require extra information from your side. It may also include adjustments to the proposal to address recommendations of the evaluation committee or other concerns. Compliance will be a pre-condition for signing the grant.

If you believe that the evaluation procedure was flawed, you can submit a complaint (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications which have not been opened within 10 days after sending are considered to have been accessed and that deadlines will be counted from opening/access (see also Funding & Tenders Portal Terms and Conditions). Please also be aware that for complaints submitted electronically, there may be character limitations.

9. Award criteria

The award criteria for this call are as follows:

For single stage:

**1. Relevance** (0-20 points)
- Extent to which the proposal is in line with the description included in the call for proposals, including, where relevant, its specific priorities
- Concept and methodology: soundness of the overall intervention logic
- Extent to which the proposal offers co-benefits and promotes synergies with other policy areas relevant for achieving environment and climate policy objectives *(n/a for TA-PP)*

**3. Quality** (0-20 points)
- Clarity, relevance and feasibility of the work plan
- Identification and mobilisation of the relevant stakeholders

**4. Resources** (0-20 points)
- Composition of the project team - in terms of expertise, skills and responsibilities and appropriateness of the management structure
- Appropriateness of the budget and resources and their consistency with the work plan
- Transparency of the budget, i.e. the cost items should be sufficiently described
- Extent to which the project environmental impact is considered and mitigated, including through the use of green procurement. The use of recognised methods for the calculation of the project environmental footprint *(e.g. PEF or OEF methods or similar ones such as PEFCRs/OEFSRs)* or environmental management systems *(e.g. EMAS)* would be an asset
- Value for money of the proposal
Maximum points: 60 points.

Individual thresholds per criterion: 10 points.

Overall threshold: 35 points.

Proposals that pass the individual thresholds AND the overall threshold will be considered for funding — within the limits of the available call budget. Other proposals will be rejected.

10. Legal and financial set-up of the Grant Agreements

If you pass evaluation, your project will be invited for grant preparation, where you will be asked to prepare the Grant Agreement together with the EU Project Officer.

This Grant Agreement will set the framework for your grant and its terms and conditions, in particular concerning deliverables, reporting and payments.

The Model Grant Agreement that will be used (and all other relevant templates and guidance documents) can be found on Portal Reference Documents.

Starting date and project duration

The project starting date and duration will be fixed in the Grant Agreement (Data Sheet, point 1). Normally the starting date will be after grant signature. Retroactive application can be granted exceptionally for duly justified reasons — but never earlier than the proposal submission date.

Project duration: The duration of a Technical Assistance project should not exceed two years. It is expected that a Technical Assistance project aims to prepare a proposal for a SIP or SNAP for the submission deadline which is following the start date of the Technical Assistance project or the submission deadline one year later. Therefore, the reasonable end date of a Technical Assistance project is the next (or the one after the next) submission deadline for the full proposal (stage II) for SIPS/SNAPS. Since the exact submission date for SIP and SNAP proposals is not known yet at the time of submission of a TA project proposal, it is suggested to add two or three months as a safety margin to the expected project duration. (extensions are possible, if duly justified and through an amendment).
**Milestones and deliverables**

The milestones and deliverables for each project will be managed through the Portal Grant Management System and will be reflected in Annex 1 of the Grant Agreement.

**Form of grant, funding rate and maximum grant amount**

The grant parameters (maximum grant amount, funding rate, total eligible costs, etc.) will be fixed in the Grant Agreement (Data Sheet, point 3 and art 5).

Project budget (maximum grant amount): see section 3 above. The grant awarded may be lower than the amount requested.

The grant will be a budget-based mixed actual cost grant (actual costs, with unit cost and flat-rate elements). This means that it will reimburse ONLY certain types of costs (eligible costs) and costs that were actually incurred for your project (NOT the budgeted costs). For unit costs and flat-rates, you can charge the amounts calculated as explained in the Grant Agreement (see art 6 and Annex 2 and 2a).

The costs will be reimbursed at the funding rate fixed in the Grant Agreement (max. 60%).

Grants may NOT produce a profit (i.e. surplus of revenues + EU grant over costs). For-profit organisations must declare their revenues and, if there is a profit, we will deduct it from the final grant amount (see art 22.3).

Moreover, please be aware that the final grant amount may be reduced in case of non-compliance with the Grant Agreement (e.g. improper implementation, breach of obligations, etc).

**Budget categories and cost eligibility rules**

The budget categories and cost eligibility rules are fixed in the Grant Agreement (Data Sheet, point 3, art 6 and Annex 2).

**Budget categories for this call:**

- A. Personnel costs
  - A.1 Employees, A.2 Natural persons under direct contract, A.3 Seconded persons
  - A.4 SME owners and natural person beneficiaries
- B. Subcontracting costs
- C. Purchase costs
  - C.1 Travel and subsistence
  - C.2 Equipment
  - C.3 Other goods, works and services
- E. Indirect costs

**Specific cost eligibility conditions for this call:**

- personnel costs:
- SME owner/natural person unit cost\(^{13}\): Yes
- travel and subsistence unit cost\(^{14}\): No (only actual costs)
- equipment costs: depreciation
- other cost categories:
  - costs for financial support to third parties: not allowed
  - land purchase costs: not allowed n/a for TA-PP
- indirect cost flat-rate: 7% of the eligible direct costs (categories A-D, except volunteers costs and exempted specific cost categories (land purchase), if any)
- VAT: non-deductible VAT is eligible (but please note that since 2013 VAT paid by beneficiaries that are public bodies acting as public authority is NOT eligible)
- other:
  - in-kind contributions for free are allowed, but cost-neutral, i.e. they cannot be declared as cost
  - kick off meeting: costs for kickoff meeting organised by the granting authority are not eligible for TA-PP
  - common information and dissemination activities are not eligible for TA-PP
  - other ineligible costs: Yes
    - land purchase costs are not eligible
    - infrastructure costs are not eligible

**Reporting and payment arrangements**

The reporting and payment arrangements are fixed in the Grant Agreement (*Data Sheet, point 4 and art 21 and 22*).

After grant signature, you will normally receive a **prefinancing** to start working on the project (float of normally 60% of the maximum grant amount; exceptionally less or no prefinancing). The prefinancing will be paid 30 days from entry into force/financial guarantee (if required) — whichever is the latest.

There will be no **interim payments**.

**Payment of the balance**: At the end of the project, we will calculate your final grant amount. If the total of earlier payments is higher than the final grant amount, we will ask you (your coordinator) to pay back the difference (recovery).

All payments will be made to the coordinator.

---

\(^{13}\) Commission **Decision** of 20 October 2020 authorising the use of unit costs for the personnel costs of the owners of small and medium-sized enterprises and beneficiaries that are natural persons not receiving a salary for the work carried out by themselves under an action or work programme (C(2020)7715).

\(^{14}\) Commission **Decision** of 12 January 2021 authorising the use of unit costs for travel, accommodation and subsistence costs under an action or work programme under the 2021-2027 multi-annual financial framework (C(2021)35).
Please be aware that payments will be automatically lowered if one of your consortium members has outstanding debts towards the EU (granting authority or other EU bodies). Such debts will be offset by us — in line with the conditions set out in the Grant Agreement (see art 22).

Please also note that you are responsible for keeping records on all the work done and the costs declared. The Grant Agreement contains additional record-keeping rules (Data Sheet, point 3 and art 20).

**Prefinancing guarantees**

If a prefinancing guarantee is required, it will be fixed in the Grant Agreement (Data Sheet, point 4). The amount will be set during grant preparation and it will normally be equal or lower than the prefinancing for your grant.

The guarantee should be in euro and issued by an approved bank/financial institution established in an EU Member State. If you are established in a non-EU country and would like to provide a guarantee from a bank/financial institution in your country, please contact us (this may be exceptionally accepted, if it offers equivalent security).

Amounts blocked in bank accounts will NOT be accepted as financial guarantees.

Prefinancing guarantees are formally NOT linked to individual consortium members, which means that you are free to organise how to provide the guarantee amount (by one or several beneficiaries, for the overall amount or several guarantees for partial amounts, by the beneficiary concerned or by another beneficiary, etc). It is however important that the requested amount is covered and that the guarantee(s) are sent to us in time to make the prefinancing (scanned copy via Portal AND original by post).

If agreed with us, the bank guarantee may be replaced by a guarantee from a third party.

The guarantee will be released at the end of the grant, in accordance with the conditions laid down in the Grant Agreement.

**Certificates**

Depending on the type of action, size of grant amount and type of beneficiaries, you may be requested to submit different certificates. The types, schedules and thresholds for each certificate are fixed in the Grant Agreement (Data Sheet, point 4 and art 24).

**Liability regime for recoveries**

The liability regime for recoveries will be fixed in the Grant Agreement (Data Sheet point 4.4 and art 22).

For beneficiaries, it is one of the following:

- limited joint and several liability with individual ceilings — each beneficiary up to their maximum grant amount
- unconditional joint and several liability — each beneficiary up to the maximum grant amount for the action

or
— individual financial responsibility — *each beneficiary only for their own debts.*

In addition, the granting authority may require joint and several liability of affiliated entities (with their beneficiary).

**Provisions concerning the project implementation**

IPR rules: *see Model Grant Agreement (art 16 and Annex 5)*:

— rights of use on results: Yes

Communication, dissemination and visibility of funding: *see Model Grant Agreement (art 17 and Annex 5):*

— communication and dissemination plan: No *(n/a for TA-PP)*

— additional communication and dissemination activities: No *(n/a for TA-PP)*

— special logos: Yes

Specific rules for carrying out the action: *see Model Grant Agreement (art 18 and Annex 5):*

— durability: No

— specific rules for blending operations: No

**Other specificities**

n/a

**Non-compliance and breach of contract**

The Grant Agreement (chapter 5) provides for the measures we may take in case of breach of contract (and other non-compliance issues).

ℹ️ For more information, see [AGA — Annotated Grant Agreement](#).

### 11. How to submit an application

All proposals must be submitted directly online via the Funding & Tenders Portal Electronic Submission System. Paper applications are NOT accepted.

Submission is a **2-step process:**

a) **create a user account and register your organisation**

To use the Submission System (the only way to apply), all participants need to [create an EU Login user account](#).

Once you have an EULogin account, you can [register your organisation](#) in the Participant Register. When your registration is finalised, you will receive a 9-digit participant identification code (PIC).
b) **submit the proposal**

Access the Electronic Submission System via the Topic page in the [Search Funding & Tenders](#) section (or, for calls sent by invitation to submit a proposal, through the link provided in the invitation letter).

Submit your proposal in 4 parts, as follows:

- Part A includes administrative information about the applicant organisations (future coordinator, beneficiaries, affiliated entities and associated partners) and the summarised budget for the proposal. Fill it in directly online.
- Part B (description of the action) covers the technical content of the proposal. Download the mandatory word template from the Submission System, fill it in and upload it as a PDF file.
- Part C containing additional project data. To be filled in directly online.
- Annexes (see section 5). Upload them as PDF file (single or multiple depending on the slots). Excel upload is sometimes possible, depending on the file type.

The proposal must keep to the **page limits** (see section 5); excess pages will be disregarded.

Documents must be uploaded to the **right category** in the Submission System otherwise the proposal might be considered incomplete and thus inadmissible.

The proposal must be submitted **before the call deadline** (see section 4). After this deadline, the system is closed and proposals can no longer be submitted.

Once the proposal is submitted, you will receive a **confirmation e-mail** (with date and time of your application). If you do not receive this confirmation e-mail, it means your proposal has **NOT** been submitted. If you believe this is due to a fault in the Submission System, you should immediately file a complaint via the IT Helpdesk webform, explaining the circumstances and attaching a copy of the proposal (and, if possible, screenshots to show what happened).

Details on processes and procedures are described in the [Online Manual](#). The Online Manual also contains the links to FAQs and detailed instructions regarding the Portal Electronic Exchange System.

### 12. Help

As far as possible, **please try to find the answers you need yourself**, in this and the other documentation (we have limited resources for handling direct enquiries):

- [Online Manual](#)
- FAQs on the Topic page (for call-specific questions in open calls; not applicable for actions by invitation)
- Portal FAQ (for general questions).
- [SIP/SNAPs FAQ](#) (for SIP/SNAP-specific questions)
- [LIFE Info Days](#)
Please also consult the Topic page regularly, since we will use it to publish call updates. (For invitations, we will contact you directly in case of a call update).

Contact

For individual questions on the Portal Submission System, please contact the IT Helpdesk.

Non-IT related questions should be sent to the following email address: CINEA-LIFE-ENQUIRIES@ec.europa.eu.

⚠ Please:

- send your questions at the latest 7 days before the submission deadline (see section 4)
- indicate clearly the reference of the call and topic to which your question relates (see cover page).
13. Important

**IMPORTANT**

- **Don’t wait until the end** — Complete your application sufficiently in advance of the deadline to avoid any last minute technical problems. Problems due to last minute submissions (e.g. congestion, etc.) will be entirely at your risk. Call deadlines can NOT be extended.

- **Consult** the Portal Topic page regularly. We will use it to publish updates and additional information on the call (call and topic updates).

- **Funding & Tenders Portal Electronic Exchange System** — By submitting the application, all participants accept to use the electronic exchange system in accordance with the Portal Terms & Conditions.

- **Registration** — Before submitting the application, all beneficiaries, affiliated entities and associated partners must be registered in the Participant Register. The participant identification code (PIC) (one per participant) is mandatory for the Application Form.

- **Consortium roles** — When setting up your consortium, you should think of organisations that help you reach objectives and solve problems.

  The roles should be attributed according to the level of participation in the project. Main participants should participate as beneficiaries or affiliated entities; other entities can participate as associated partners, subcontractors, third parties giving in-kind contributions. Associated partners and third parties giving in-kind contributions should bear their own costs (they will not become formal recipients of EU funding). Subcontracting should normally constitute a limited part and must be performed by third parties (not by one of the beneficiaries/affiliated entities). Subcontracting going beyond 30% of the total eligible costs must be justified in the application.

- **Coordinator** — In multi-beneficiary grants, the beneficiaries participate as consortium (group of beneficiaries). They will have to choose a coordinator, who will take care of the project management and coordination and will represent the consortium towards the granting authority. In mono-beneficiary grants, the single beneficiary will automatically be coordinator.

- **Affiliated entities** — Applicants may participate with affiliated entities (i.e. entities linked to a beneficiary which participate in the action with similar rights and obligations as the beneficiaries, but do not sign the grant and therefore do not become beneficiaries themselves). They will get a part of the grant money and must therefore comply with all the call conditions and be validated (just like beneficiaries); but they do not count towards the minimum eligibility criteria for consortium composition (if any).

- **Associated partners** — Applicants may participate with associated partners (i.e. partner organisations which participate in the action but without the right to get grant money). They participate without funding and therefore do not need to be validated.

- **Consortium agreement** — For practical and legal reasons it is recommended to set up internal arrangements that allow you to deal with exceptional or unforeseen circumstances (in all cases, even if not mandatory under the Grant Agreement). The consortium agreement also gives you the possibility to redistribute the grant money according to your own consortium-internal principles and parameters (for instance, one beneficiary can reattribute its grant money to another beneficiary). The consortium agreement thus allows you to customise the EU grant to the needs inside your consortium and can also help to protect you in case of disputes.
Balanced project budget— Grant applications must ensure a balanced project budget and sufficient other resources to implement the project successfully (e.g. own contributions, income generated by the action, financial contributions from third parties, etc). You may be requested to lower your estimated costs, if they are ineligible (including excessive).

No-profit rule — Grants may NOT give a profit (i.e. surplus of revenues + EU grant over costs). This will be checked by us at the end of the project.

No double funding — There is a strict prohibition of double funding from the EU budget (except under EU Synergies actions). Outside such Synergies actions, any given action may receive only ONE grant from the EU budget and cost items may under NO circumstances declared to two different EU actions.

Completed/ongoing projects — Proposals for projects that have already been completed will be rejected; proposals for projects that have already started will be assessed on a case-by-case basis (in this case, no costs can be reimbursed for activities that took place before the project starting date/proposal submission).

Combination with EU operating grants — Combination with EU operating grants is possible, if the project remains outside the operating grant work programme and you make sure that cost items are clearly separated in your accounting and NOT declared twice (see AGA — Annotated Model Grant Agreement, art 6.2.E).

Multiple proposals — Applicants may submit more than one proposal for different projects under the same call (and be awarded a funding for them). Organisations may participate in several proposals. BUT: if there are several proposals for very similar projects, only one application will be accepted and evaluated; the applicants will be asked to withdraw one of them (or it will be rejected).

Resubmission — Proposals may be changed and re-submitted until the deadline for submission.

Rejection — By submitting the application, all applicants accept the call conditions set out in this this Call Document (and the documents it refers to). Proposals that do not comply with all the call conditions will be rejected. This applies also to applicants: All applicants need to fulfil the criteria; if any one of them doesn’t, they must be replaced or the entire proposal will be rejected.

Cancellation — There may be circumstances which may require the cancellation of the call. In this case, you will be informed via a call or topic update. Please note that cancellations are without entitlement to compensation.

Language — You can submit your proposal in any official EU language (project abstract/summary should however always be in English). For reasons of efficiency, we strongly advise you to use English for the entire application.
- **Transparency** — In accordance with Article 38 of the EU Financial Regulation, information about EU grants awarded is published each year on the Europa website.

  This includes:
  - beneficiary names
  - beneficiary addresses
  - the purpose for which the grant was awarded
  - the maximum amount awarded.

  The publication can exceptionally be waived (on reasoned and duly substantiated request), if there is a risk that the disclosure could jeopardise your rights and freedoms under the EU Charter of Fundamental Rights or harm your commercial interests.

- **Data protection** — The submission of a proposal under this call involves the collection, use and processing of personal data. This data will be processed in accordance with the applicable legal framework. It will be processed solely for the purpose of evaluating your proposal, subsequent management of your grant and, if needed, programme monitoring, evaluation and communication. Details are explained in the Funding & Tenders Portal Privacy Statement.
