1. Background

Budget heading 07.20.04.06 is intended to cover grants for measures **promoting social dialogue at cross-industry and sectoral level** in accordance with Article 154 of the Treaty on the Functioning of the European Union (TFEU), and for developing European social dialogue in its different dimensions of **information exchange, consultation, negotiation and joint action**.

¹ Commission Implementing Decision C(2021)8457 final of 26 November 2021 on the adoption of the 2022-2023 work programme for prerogatives and specific powers conferred on the Commission in the social and employment field, serving as financing decision.

The measures should help the social partner organisations (representatives of management and labour) to contribute to addressing the overarching EU employment and social policy challenges as laid down in particular in:

- the Political Guidelines presented by President Ursula von der Leyen in “A Union that strives for more – My agenda for Europe” and the Commission Work Programme 2022;
- Commission Communications A Strong Social Europe for Just Transitions, The European Green Deal, the EU’s Digital Strategy and European Skills Agenda for sustainable competitiveness, social fairness and resilience;
- Objectives of the Recovery and Resilience Facility and corresponding national Recovery and Resilience plans;
- The joint proclamation of European Parliament, Council and Commission of November 2017 on the European Pillar of Social Rights as well as the related Commission Communication Establishing a European Pillar of Social Rights (COM(2017)0250) and the follow-up European Pillar of Social Rights Action Plan as well as the Porto Social Commitment and the Porto Declaration²;
- The Annual Sustainable Growth Strategy, the Joint Employment Report and the recommendations addressed to the Member States in the context of the European Semester; The budget heading can be used to finance actions involving representatives of the social partners from the Candidate Countries³.

Moreover, this call is responding to the challenge posed to social partner by the Covid crisis, which has a significant impact on their capacity to pursue social dialogue. To this end, the call includes additional activities for the strengthening of the capacity of national social partners, in association with EU cross-industry social partners, and for EU cross-industry social partners to support national social partners.

2. Objectives – Themes and priorities – Activities that can be funded – Expected impact

Definitions used in the context of this call:

a) “Social partner organisation” is either an organisation representing workers – often also referred to as “trade union” – or an organisation representing employers. They engage in some form of “social dialogue”, discussing and often negotiating such issues as wages, working conditions, training, etc.

b) European-level social partner organisations (or “European-level social partners”): either organisations that are consulted in accordance with Article 154 TFEU (an up-to-date list can be found [here](#)) or other European social partner organisations fulfilling the definition of social partner organisations representing workers (also referred to as trade union) or employers at regional, national or European level that are engaged in “social dialogue” i.e. the discussion and negotiation of wages, working conditions, training, etc. that are not included in this list, but which: (1) demonstrate that they represent several national social partners (fulfilling as well the definition above); (2) have a mandate of these organisations to engage in social dialogue at European level

³ Where reference is made to the Candidate Countries in this call for proposals, it concerns the Candidate Countries at the time of the deadline for the submission of applications of this call for proposals: https://ec.europa.eu/neighbourhood-enlargement/enlargement-policy/negotiations-status_en.

on their behalf; and (3) are involved in the preparation and functioning of European social dialogue at sector level.

Objectives (expected outcome)

This call aims at contributing to the promotion of social dialogue at cross-industry and sectoral level, developing European social dialogue, and building and strengthening the capacity of national social partners, in particular following the Covid crisis.

Themes and priorities (scope)

This call will be used to finance consultations, meetings, negotiations and other actions, as outlined in the European Commission's Communication on *The European social dialogue, a force for innovation and change* (COM(2002)341), the Communication on *Partnership for change in an enlarged Europe – Enhancing the contribution of European social dialogue* (COM(2004)557) and the Commission Staff Working Document on the *Functioning and potential of European sectoral social dialogue* (SEC(2010)964).

European social dialogue refers to discussions, consultations, negotiations and joint actions involving organisations representing either side of industry (employers or workers).

Activities that can be funded (scope)

Actions that address the following themes will be particularly welcome:

- the employment, social and economic challenges as identified in the European Pillar of Social Rights Action Plan and other key Commission documents, such as the Communications “The European Green Deal” and “A stronger Social Europe for just transitions”;
- activities – based on cooperation between EU-level cross-industry and national social partners to strengthen the capacity of the latter, if they are heavily impacted by the consequences of the COVID-19 crisis, which has created extraordinary challenges for social dialogue.
- the adaptation of social dialogue, in particular collective bargaining, to changes in employment and work related challenges, such as:
 - tackling the employment, social and economic consequences of the COVID-19 crisis, and the particular role of social partners in this respect
 - modernisation of the labour market, job creation and job matching, youth employment; employment in SMEs;
 - new forms of work including platform work;
 - quality of work, working conditions and health and safety at work;
 - anticipation, preparation and management of change and restructuring;
 - digitalisation (including artificial intelligence);
 - transition to a climate-neutral economy;
 - (intra-EU) labour mobility migration and modernisation of social protection systems;
- building and strengthening the capacity of social partner organisations.

The following categories of actions are targeted:

- a) measures to prepare European social dialogue, such as preparatory surveys, meetings and conferences;
- b) measures regarded as part of social dialogue within the meaning of Articles 154 and 155 TFEU, such as negotiations, preparatory meetings for negotiations or activities relating to the implementation of negotiated agreements and other negotiated outcomes;
- c) measures to disseminate, promote, monitor and evaluate European social dialogue activities and outcomes, e.g. through European or national events, peer learning or reviews, studies and (paper or electronic) publications (including the translation);
- d) measures to improve the coordination, functioning and effectiveness of European social dialogue, including through the identification and development of joint approaches by the social dialogue committees, such as the exchange of good practice and related joint training events;
- e) measures by social partners which contribute to the employment and social and economic dimensions of the Europe 2020 Strategy, including the monitoring and analysis of its impact on labour markets;
- f) measures to support the European social partners and social dialogue committees in their contribution to **impact assessment** of the employment and social dimensions of EU initiatives.
- g) measures to maintain, develop and improve the capacity of national social partners, together with EU cross-industry social partners, specifically following the Covid crisis, including the exchange of good practices between a national social partner and an EU cross-industry social partner;
- h) measures related to technical assistance provided by EU cross-industry social partners for the coordination and support of the Covid related activities of national social partners, such as those applying for an action under point g).

Projects proposed **jointly** by employers' and workers' organisations, which aim at implementing (parts of) the **work programme of European social dialogue committees**, as well as measures to foster the implementation of European social dialogue outcomes, reinforce their impact and visibility, and support follow-up and reporting are a **high priority**.

Strengthening **synergies** and exchanges between European sectoral social dialogue committees and/or between the sectoral committees and the cross-industry level, including through projects developing a **multi-sectoral approach** on themes of common interest, is also considered a priority.

Actions are expected to contribute to the **priorities and activities of European social dialogue**. In that context and in line with the **Statement of the Presidency of the Council, the European Commission and the European social partners on "a new start for social dialogue"**, particular emphasis is put on the following objectives :

- strengthening the **involvement of social partners in the European Semester** and enhancing their **contribution to EU policy making**;
- further developing and strengthening the membership of European social partner organisations;

- building and reinforcing the **capacity** of national (cross-industry and/or sectoral) social partners to engage in national social dialogue and to participate in and contribute to European social dialogue, in particular in those Member States where social dialogue is underdeveloped e.g. through information and training seminars aiming at developing legal expertise or organisational/administrative skills, or at expanding membership and representativeness.

Measures that aim mainly at improving expertise in the field of industrial relations through analysis and research and by promoting the exchange of information and experience among relevant actors, are **not** covered by this call for proposals. This type of actions can be funded under a separate call for proposals.

Activities funded under this call for proposals should pay adequate attention to gender equality and avoid discrimination.

Access for people with disabilities shall be guaranteed.

Expected impact

Proposals are expected to contribute to the promotion of social dialogue at cross-industry and sectoral level in accordance with Article 154 of the Treaty on the Functioning of the European Union (TFEU), and to the development of European social dialogue in its different dimensions of information exchange, consultation, negotiation and joint action. Their impact can also consist in a strengthened capacity of national social partners following the Covid crisis.

This budget might be increased by maximum 20%.

The Commission expects to fund between 35 and 60 proposals.

- In case of consortia, the coordinator must be a social partner organisation at European, national or regional level or an international organisation.
- If a social partner organisation representing workers is the coordinator, the participation of at least one social partner organisation representing employers is mandatory.

Other entities may participate in other consortium roles, such as associated partners, subcontractors, third parties giving in-kind contributions, etc. (see *section 13*).

Specific cases

Exceptional funding — Entities from other countries (not listed above) are exceptionally eligible to participate and receive funding, if the granting authority considers their participation essential for the implementation of the action. Natural persons — Natural persons are NOT eligible (with the exception of self-employed persons, i.e. sole traders, where the company does not have legal personality separate from that of the natural person): NOT APPLICABLE.

International organisations — International organisations are eligible and, they undertake to comply with their obligations under the grant agreement. The rules on eligible countries do not apply to them.

Entities without legal personality (including social partner organisations) — Entities which do not have legal personality under their national law may exceptionally participate, provided that their representatives have the capacity to undertake legal obligations on their behalf, and offer guarantees for the protection of the EU financial interests equivalent to that offered by legal persons⁴.

EU bodies — EU bodies (with the exception of the European Commission Joint Research Centre) can NOT be part of the consortium.

Associations and interest groupings — Entities composed of members may participate as 'sole beneficiaries' or 'beneficiaries without legal personality'⁵.  Please note that if the action will be implemented by the members, they should also participate (either as beneficiaries or as affiliated entities, otherwise their costs will NOT be eligible).

Social partner organisations — These include notably the European social partner organisations that are consulted in accordance with Article 154 TFEU (for the list, see [List of consulted organisations](#)) as well as other European-level social partner organisations that are not included in this list, but who are for example involved in the preparation and launch of European social dialogue at sector level. Social partner organisations without legal personality are eligible provided that the conditions for entities without legal personality (*see above*) are met.

Countries currently negotiating association agreements — Beneficiaries from countries with ongoing negotiations (*see list above*) may participate in the call and can sign grants if the negotiations are concluded before grant signature (with retroactive effect, if provided in the agreement): **NOT APPLICABLE**.

7. Financial and operational capacity and exclusion

Financial capacity

Applicants must have **stable and sufficient resources** to successfully implement the projects and contribute their share. Organisations participating in several projects must have sufficient capacity to implement all these projects.

The financial capacity check will be carried out on the basis of the documents you will be requested to upload in the [Participant Register](#) during grant preparation (*e.g. profit and loss account and balance sheet, business plan, audit report produced by an approved external auditor, certifying the accounts for the last closed financial year, etc.*). The analysis will be based on neutral financial indicators, but will also take into account other aspects, such as dependency on EU funding and deficit and revenue in previous years.

The check will normally be done for all beneficiaries, except:

- public bodies (entities established as public body under national law, including local, regional or national authorities) or international organisations
- if the individual requested grant amount is not more than EUR 60 000.

If needed, it may also be done for affiliated entities.

If we consider that one or more participants' financial capacity is not satisfactory, we may require:

- further information,
- an enhanced financial responsibility regime, i.e. joint and several responsibility for all beneficiaries or joint and several liability of affiliated entities (*see below, section 10*),
- prefinancing paid in instalments,
- (one or more) prefinancing guarantees (*see below, section 10*),

or

- propose no prefinancing,
- request that the participants are replaced or, if needed, reject the entire proposal.

For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

Operational capacity

Applicants must have the **know-how, qualifications** and **resources** to successfully implement the projects and contribute their share (including sufficient experience in projects of comparable size and nature).

This capacity will be assessed on the basis of the competence and experience of the applicants and their project teams, including operational resources (human, technical and other) or, exceptionally, the measures proposed to obtain it by the time the task implementation starts.

Applicants will have to show their capacity via the following information:

- general profiles (qualifications and experiences) of the staff responsible for managing and implementing the project (CVs of the proposed the persons who will perform the main tasks, notably project manager and key personnel),
- description of the consortium participants,
- list of previous projects (key projects relating to the subject of the call in the last 3 years),
- C1 level of English, French or German for the project manager of the coordinator. For the project manager of the coordinator: a minimum of 2 years of professional experience in the field of social dialogue and/or industrial relations; the CV must include a specific section on experience in social dialogue and industrial relations, showing clearly that the requirement of minimum two years of experience, and the language requirements are met.

Additional supporting documents may be requested, if needed to confirm the operational capacity of any applicant.

Exclusion

Applicants that are subject to an **EU exclusion decision** or in one of the following **exclusion situations** that bar them from receiving EU funding can NOT participate⁸:

- bankruptcy, winding up, affairs administered by the courts, arrangement with creditors, suspended business activities or other similar procedures (including procedures for persons with unlimited liability for the applicant's debts)
- in breach of social security or tax obligations (including if done by persons with unlimited liability for the applicant's debts)

8 See Article 136 and 141 EU Financial Regulation 2018/1046.

- guilty of grave professional misconduct⁹ (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- committed fraud, corruption, links to a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- shown significant deficiencies in complying with main obligations under an EU procurement contract, grant agreement, prize, expert contract, or similar (including if done by persons having powers of representation, decisionmaking- or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- guilty of irregularities within the meaning of Article 1(2) of Regulation No [2988/95](#) (including if done by persons having powers of representation, decisionmaking- or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin or created another entity with this purpose (including if done by persons having powers of representation, decisionmaking- or control, beneficial owners or persons who are essential for the award/implementation of the grant).

Applicants will also be refused if it turns out that:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information
- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

8. Evaluation and award procedure

The proposals will have to follow the **standard submission and evaluation procedure** (one-stage submission + one-step evaluation).

An **evaluation committee** will assess all applications. Proposals will first be checked for formal requirements (admissibility and eligibility, *see sections 5 and 6*). Proposals found admissible and eligible will be evaluated against the operational capacity and award criteria (*see sections 7 and 9*) and then ranked according to their total scores.

⁹ Professional misconduct includes: violation of ethical standards of the profession, wrongful conduct with impact on professional credibility, false declarations/misrepresentation of information, participation in a cartel or other agreement distorting competition, violation of IPR, attempting to influence decision-making processes or obtain confidential information from public authorities to gain advantage.

All proposals will be informed about the evaluation result (**evaluation result letter**). Successful proposals will be invited for grant preparation; the other ones will be put on the reserve list or rejected.

 No commitment for funding — Invitation to grant preparation does NOT constitute a formal commitment for funding. We will still need to make various legal checks before grant award: *legal entity validation, financial capacity, exclusion check, etc.*

Grant preparation will involve a dialogue in order to fine-tune technical or financial aspects of the project and may require extra information from your side. It may also include adjustments to the proposal to address recommendations of the evaluation committee or other concerns. Compliance will be a pre-condition for signing the grant.

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications which have not been opened within 10 days after sending are considered to have been accessed and that deadlines will be counted from opening/access (see also [Funding & Tenders Portal Terms and Conditions](#)). Please also be aware that for complaints submitted electronically, there may be character limitations.

Overall (pass) scores	60	100

Maximum points: 100 points.

Individual thresholds per criterion: 15/30, 10/25 and 8/20 points.

Overall threshold: 60 points.

Proposals that pass the individual thresholds AND the overall threshold will be considered for funding — within the limits of the available call budget. Other proposals will be rejected.

10. Legal and financial set-up of the Grant Agreements

If you pass evaluation, your project will be invited for grant preparation, where you will be asked to prepare the Grant Agreement together with the EU Project Officer.

This Grant Agreement will set the framework for your grant and its terms and conditions, in particular concerning deliverables, reporting and payments.

The Model Grant Agreement that will be used (and all other relevant templates and guidance documents) can be found on [Portal Reference Documents](#).

Starting date and project duration

The project starting date and duration will be fixed in the Grant Agreement (*Data Sheet, point 1*). Normally the starting date will be after grant signature. Retroactive application can be granted exceptionally for duly justified reasons but never earlier than the proposal submission date.

Project duration: normally **between 12 and 24 months**

Milestones and deliverables

The milestones and deliverables for each project will be managed through the Portal Grant Management System and will be reflected in Annex 1 of the Grant Agreement.

Form of grant, funding rate and maximum grant amount

The grant parameters (*maximum grant amount, funding rate, total eligible costs, etc*) will be fixed in the Grant Agreement (*Data Sheet, point 3 and art 5*).

Project budget: *see section 6 above*. The grant awarded may be lower than the amount requested.

The grant will be a budget-based mixed actual cost grant (actual costs, with unit cost and flat-rate elements). This means that it will reimburse ONLY certain types of costs

(eligible costs) and ONLY costs you *actually* incurred for your project (NOT the *budgeted* costs).

The costs will be reimbursed at the funding rate fixed in the Grant Agreement at 90%.

You can apply for a higher project funding rate (95%) if your project is a “priority action”, i.e. concerns:

- social dialogue actions involving negotiations in accordance with Articles 154 and 155 TFEU,
- meetings to prepare for negotiations of agreements in accordance with Articles 154 and 155 TFEU or joint social partner actions relating to the implementation of the agreements resulting from these negotiations, or
- actions to maintain, develop and improve the capacity of national social partners, together with EU cross-industry social partners, specifically following the Covid crisis, as well as measures related to technical assistance provided by EU cross-industry social partners for the coordination and support of these Covid related activities of national social partners.

Grants may NOT produce a profit (i.e. surplus of revenues + EU grant over costs). For-profit organisations must declare their revenues and, if there is a profit, we will deduct it from the final grant amount (*see art 22.3*).

Moreover, please be aware that the final grant amount may be reduced in case of non-compliance with the Grant Agreement (*e.g. improper implementation, breach of obligations, etc.*).

Reporting and payment arrangements

The reporting and payment arrangements are fixed in the Grant Agreement (*Data Sheet, point 4 and art 21 and 22*).

Payment of the grant is generally made in **prefinancing** instalments and a final payment (of the balance). The aim of the prefinancing is to provide the beneficiaries with a float. The prefinancing remains the property of the EU until the payment of the balance. The frequency and size of prefinancing will depend upon the project duration but may be adjusted in case of risk:

- **actions of 12 months** : one prefinancing payment of 70% paid within 30 days from the entry into force of the grant agreement or after receiving the financial guarantee (if required), whichever is the latest
- **actions between 12 to 24 months:** prefinancing payments linked to annual reporting periods will be made as follows:
 - 40% from the entry into force of the grant agreement or after receiving the financial guarantee (if required), whichever is the latest
 - 40% after receiving an additional prefinancing report. Where the consumption of the previous prefinancing is less than 70%, the amount of the new prefinancing payment will be reduced by the difference between the 70% ceiling and the amount used
- **actions between 24 to 36 months:** prefinancing payments linked to annual reporting periods will be made as follows:

- 30% from the entry into force of the grant agreement or after receiving the financial guarantee (if required), whichever is the latest
- a second and third prefinancing of 40% and 20% after receiving additional prefinancing reports. Where the consumption of the previous prefinancing is less than 70%, the amount of the new prefinancing payment will be reduced by the difference between the 70% ceiling and the amount used.

There will be no **interim payments**.

Payment of the balance: At the end of the project, we will calculate your final grant amount. If the total of earlier payments is higher than the final grant amount, we will ask you (your coordinator) to pay back the difference (recovery).

All payments will be made to the coordinator.

 Please be aware that payments will be automatically lowered if one of your consortium members has outstanding debts towards the EU (granting authority or other EU bodies). Such debts will be offset by us — in line with the conditions set out in the Grant Agreement (*see art 22*).

Please note that you are responsible for keeping records on all the work done and the costs declared.

Prefinancing guarantees

If a prefinancing guarantee is required, it will be fixed in the Grant Agreement (*Data Sheet, point 4*). The amount will be set during grant preparation and it will normally be equal to the prefinancing for your grant.

The guarantee should be in euro and issued by an approved bank/financial institution established in an EU Member State. If you are established in a non-EU country and would like to provide a guarantee from a bank/financial institution in your country, please contact us (this may be exceptionally accepted, if it offers equivalent security).

Amounts blocked in bank accounts will NOT be accepted as financial guarantees.

Prefinancing guarantees are formally NOT linked to individual consortium members, which means that you are free to organise how to provide the guarantee amount (*by one or several beneficiaries, for the overall amount or several guarantees for partial amounts, by the beneficiary concerned or by another beneficiary, etc*). It is however important that the requested amount is covered and that the guarantee(s) are sent to us in time to make the prefinancing (scanned copy via Portal AND original by post).

If agreed with us, the bank guarantee may be replaced by a guarantee from a third party.

The guarantee will be released at the end of the grant, in accordance with the conditions laid down in the Grant Agreement.

Certificates

Depending on the type of action, size of grant amount and type of beneficiaries, you may be requested to submit different certificates. The types, schedules and thresholds for each certificate are fixed in the grant agreement (*Data Sheet, point 4 and art 24*).

Liability regime for recoveries

The liability regime for recoveries will be fixed in the Grant Agreement (*Data Sheet point 4.4 and art 22*).

For beneficiaries, it is limited joint and several liability with individual ceilings — *each beneficiary up to their maximum grant amount*.

In addition, the granting authority may require joint and several liability of affiliated entities (with their beneficiary).

Provisions concerning the project implementation

Communication, dissemination and visibility of funding: *see Model Grant Agreement (art 17 and Annex 5)*:

11. How to submit an application

All proposals must be submitted directly online via the Funding & Tenders Portal Electronic Submission System. Paper applications are NOT accepted.

Submission is a 2-step process:

a) create a user account and register your organisation

To use the Submission System (the only way to apply), all participants need to [create an EULogin user account](#).

Once you have an EULogin account, you can [register your organisation](#) in the Participant Register. When your registration is finalised, you will receive a 9-digit participant identification code (PIC).

b) submit the proposal

Access the Electronic Submission System via the Topic page in the [Search Funding & Tenders](#) section (or, for calls sent by invitation to submit a proposal, through the link provided in the invitation letter).

Submit your proposal in 3 parts, as follows:

- Part A includes administrative information about the applicant organisations (coordinator, beneficiaries, affiliated entities and associated partners) and the summarised budget for the proposal. Fill it in directly online
- Part B (description of the action) covers the technical content of the proposal. Download the mandatory word template from the Submission System, fill it in and upload it as a PDF file
- Annexes (*see section 5*). Upload them as separate PDF files.

The proposal must keep to the **page limits** (*see section 5*); excess pages will be disregarded.

Documents must be uploaded to the **right category** in the Submission System otherwise the proposal might be considered incomplete and thus inadmissible.

The proposal must be submitted **before the call deadline** (*see section 4*). After this deadline, the system is closed and proposals can no longer be submitted.

Once the proposal is submitted, you will receive a **confirmation e-mail** (with date and time of your application). If you do not receive this confirmation e-mail, it means your proposal has NOT been submitted. If you believe this is due to a fault in the Submission System, you should immediately file a complaint via the [IT Helpdesk webform](#), explaining the circumstances and attaching a copy of the proposal (and, if possible, screenshots to show what happened).

Details on processes and procedures are described in the [Online Manual](#). The Online Manual also contains the links to FAQs and detailed instructions regarding the Portal Electronic Exchange System.

12. Help

As far as possible, ***please try to find the answers you need yourself***, in this and the other documentation (we have limited resources for handling direct enquiries):

- [Online Manual](#)
- FAQs on the Topic page (for call-specific questions in open calls; not applicable for actions by invitation)
- [Portal FAQ](#) (for general questions).

Please also consult the Topic page regularly, since we will use it to publish call updates.

Contact

For individual questions on the Portal Submission System and / or any uploading queries, please contact the [IT Helpdesk](#).

Non-IT related questions directly related to the text and content of the Call for proposals should be sent to the following email address:

- **[call-specific questions](mailto:EMPL-VP-SOCIAL-DIALOGUE@ec.europa.eu)** : EMPL-VP-SOCIAL-DIALOGUE@ec.europa.eu

Questions on submission must:

- be sent at the latest 7 days before the submission deadline (*see section 3*).
- indicate clearly the reference of the call and topic to which your question relates (*see cover page*).

13. Important

IMPORTANT

- **Don't wait until the end** — Complete your application sufficiently in advance of the deadline to avoid any last minute **technical problems**. Problems due to last minute submissions (*e.g. congestion, etc*) will be entirely at your risk. Call deadlines can NOT be extended.
- **Consult** the Portal Topic page regularly. We will use it to publish updates and additional information on the call (call and topic updates).
- **Funding & Tenders Portal Electronic Exchange System** — By submitting the application, all participants **accept** to use the electronic exchange system in accordance with the [Portal Terms & Conditions](#).
- **Registration** — Before submitting the application, all beneficiaries, affiliated entities and associated partners must be registered in the [Participant Register](#). The participant identification code (PIC) (one per participant) is mandatory for the Application Form.
- **Consortium roles**— When setting up your consortium, you should think of organisations that help you reach objectives and solve problems.

The roles should be attributed according to the level of participation in the project. Main participants should participate as **beneficiaries** or **affiliated entities**; other entities can participate as associated partners, subcontractors, third parties giving in-kind contributions. **Associated partners** and third parties giving in-kind contributions should bear their own costs (they will not become formal recipients of EU funding). **Subcontracting** should normally constitute a limited part and must be performed by third parties (not by one of the beneficiaries/affiliated entities). Subcontracting going beyond 30% of the total eligible costs must be justified in the application.

- **Coordinator** — In multi-beneficiary grants, the beneficiaries participate as consortium (group of beneficiaries). They will have to choose a coordinator, who will take care of the project management and coordination and will represent the consortium towards the granting authority. In mono-beneficiary grants, the single beneficiary will automatically be coordinator.
- **Affiliated entities** — Applicants may participate with affiliated entities (i.e. entities linked to a beneficiary which participate in the action with similar rights and obligations as the beneficiaries, but do not sign the grant and therefore do not become beneficiaries themselves). They will get a part of the grant money and must therefore comply with all the call conditions and be validated (just like beneficiaries); but they do not count towards the minimum eligibility criteria for consortium composition (if any).
- **Associated partners** — Applicants may participate with associated partners (i.e. partner organisations which participate in the action but without the right to get grant money). They participate without funding and therefore do not need to be validated.
- **Consortium agreement** — For practical and legal reasons it is recommended to set up internal arrangements that allow you to deal with exceptional or unforeseen circumstances (in all cases, even if not mandatory under the Grant Agreement). The consortium agreement also gives you the possibility to redistribute the grant money according to your own consortium-internal principles and parameters (for instance, one beneficiary can reattribute its grant money to another beneficiary). The consortium agreement thus allows you to customise the EU grant to the needs inside your consortium and can also help to protect you in case of disputes.

- **Balanced project budget** Grant applications must ensure a balanced project budget and sufficient other resources to implement the project successfully (*e.g. own contributions, income generated by the action, financial contributions from third parties, etc*). You may be requested to lower your estimated costs, if they are ineligible (including excessive).
- **No-profit rule** Grants may NOT give a profit (i.e. surplus of revenues + EU grant over costs). This will be checked by us at the end of the project.
- **No double funding—** There is a strict prohibition of double funding from the EU budget (except under EU Synergies actions). Outside such Synergies actions, any given action may receive only ONE grant from the EU budget and cost items may under NO circumstances declared to two different EU actions.
- **Completed/ongoing projects —** Proposals for projects that have already been completed will be rejected; proposals for projects that have already started will be assessed on a case-by-case basis (in this case, no costs can be reimbursed for activities that took place before the project starting date/proposal submission).
- **Combination with EU operating grants—** Combination with EU operating grants is possible, if the project remains outside the operating grant work programme and you make sure that cost items are clearly separated in your accounting and NOT declared twice (see [AGA — Annotated Model Grant Agreement, art 6.2.E](#)).
- **Multiple proposals —** Applicants may submit more than one proposal for *different* projects under the same call (and be awarded a funding for them).

Organisations may participate in several proposals.

BUT: if there are several proposals for *very similar* projects, only one application will be accepted and evaluated; the applicants will be asked to withdraw one of them (or it will be rejected).

- **Resubmission —** Proposals may be changed and re-submitted until the deadline for submission.
- **Rejection —** By submitting the application, all applicants accept the call conditions set out in this Call Document (and the documents it refers to). Proposals that do not comply with all the call conditions will be **rejected**. This applies also to applicants: All applicants need to fulfil the criteria; if any one of them doesn't, they must be replaced or the entire proposal will be rejected.
- **Cancellation —** There may be circumstances which may require the cancellation of the call. In this case, you will be informed via a call or topic update. Please note that cancellations are without entitlement to compensation.
- **Language —** You can submit your proposal in any official EU language (project abstract/summary should however always be in English). For reasons of efficiency, we strongly advise you to use English for the entire application. If you need the call documentation in another official EU language, please submit a request within 10 days after call publication (for the contact information, see *section 12*).

- **Transparency** — In accordance with Article 38 of the [EU Financial Regulation](#), information about EU grants awarded is published each year on the [Europa website](#).

This includes:

- beneficiary names
- beneficiary addresses
- the purpose for which the grant was awarded
- the maximum amount awarded.

The publication can exceptionally be waived (on reasoned and duly substantiated request), if there is a risk that the disclosure could jeopardise your rights and freedoms under the EU Charter of Fundamental Rights or harm your commercial interests.

- **Data protection** — The submission of a proposal under this call involves the collection, use and processing of personal data. This data will be processed in accordance with the applicable legal framework. It will be processed solely for the purpose of evaluating your proposal, subsequent management of your grant and, if needed, programme monitoring, evaluation and communication. Details are explained in the [Funding & Tenders Portal Privacy Statement](#).
