NOTICE TO STAKEHOLDERS

WITHDRAWAL OF THE UNITED KINGDOM AND EU RULES IN THE FIELD OF AVIATION SECURITY AND MARITIME SECURITY

On 1 February 2020, the United Kingdom has withdrawn from the European Union and has become a “third country”. The Withdrawal Agreement provided for a transition period which ended on 31 December 2020. The Withdrawal Agreement provided also for separation provisions which have become applicable at the end of the transition period. During the transition period, the European Union and the United Kingdom negotiated a Trade and Cooperation Agreement, which was signed on 30 December 2020 and applied provisionally from 1 January 2021 until its entry into force on 1 May 2021.

The Trade and Cooperation agreement has created a relationship which in terms of market access conditions is very different from the United Kingdom’s participation in the internal market, in the EU Customs Union, and in the VAT and excise duty area.

Therefore, all interested parties, and especially economic operators, are reminded of the legal situation applicable after the end of the transition period.

After the end of the transition period, the EU rules in the field of aviation security and maritime security no longer apply in the United Kingdom. The Trade and Cooperation Agreement has brought about no changes in this respect. This has in particular the following consequences:

1 REV 3 clarifies the situation following the conclusion of the Trade and Cooperation Agreement between the Union and the United Kingdom as well as the security regime of air cargo and mail delivered by surface transport to an EU airport for loading on board of an aircraft.

2 A third country is a country not member of the EU. However, for the purposes of EU aviation security regime, Iceland, Norway, Liechtenstein and Switzerland are considered as part of the Union.

4 OJ L 149, 30.4.2021, p. 10

5 In particular, a free trade agreement does not provide for internal market concepts (in the area of goods and services) such as mutual recognition, the “country of origin principle”, and harmonisation. Nor does a free trade agreement remove customs formalities and controls, including those concerning the origin of goods and their input, as well as prohibitions and restrictions for imports and exports.
1. **AVIATION SECURITY**

Regulation (EC) No 300/2008\(^6\) lays down common rules and basic standards on aviation security and procedures to monitor the implementation of the common rules and standards. Regulation (EU) No 2015/1998\(^7\) lays down detailed measures for the implementation of the common basic security standards as set out in Article 4 and the Annex to Regulation (EU) No 300/2008.

Regulation (EU) 2019/413\(^8\) amends Regulation (EU) 2015/1998 as regards third countries recognised as applying security standards equivalent to the common basic standards on civil aviation security. Under this legal framework, the United Kingdom has been listed as a third country that will be, as of the end of the transition period, recognised by the EU as applying security standards equivalent to the common basic, standards on civil aviation security, regarding aircraft security, passengers and their cabin baggage, hold baggage, cargo and mail, as described below.

1.1. **Aircraft security, passengers, cabin baggage, hold baggage**

Regulation (EC) No 300/2008 requires an aircraft security check/aircraft security search,\(^9\) the screening of transfer and transit passengers and their cabin baggage,\(^10\) and the screening of transfer hold baggage,\(^11\) unless the aircraft arrives form a third country ‘listed’ by the Commission.

The United Kingdom has been listed in attachments 3-B, 4-B, and 5-A of the Annex to Commission Implementing Regulation (EU) 2015/1998.\(^12\)

Consequently, as of the end of the transition period, aircraft, passengers and their cabin baggage, hold baggage, on flights originating from the United Kingdom may be exempted from further searches or screening procedures when transferring in the EU.

---

\(^12\) Regulation (EU) 2019/413.
1.2. Cargo and mail, supplies

The United Kingdom has been listed in attachment 6-Fi of the Annex to Regulation (EU) 2015/1998. By virtue of that listing, air cargo and air mail which has been secured in accordance with the secure supply chain of the United Kingdom, is recognised by the European Union. This applies in respect of:

(a) cargo and mail arriving by air during transit and transfer operations at EU airports; and

(b) the surface carriage of secure air cargo and mail delivered to an EU airport for loading on board of an aircraft, provided it is transported under the same air waybill\(^\text{13}\), in accordance with the *Air Cargo Road Feeder Service* model; and

(c) secure cargo and mail delivered by UK-approved Regulated Agents and Known Consignors, provided that the receiving EU Regulated Agent or air carrier at the Union airport are able to verify the active status of the delivering entity, and all the security controls as set out in point 6.3.2 of the Annex to Implementing Regulation (EU) 2015/1998 are applied.

1.2.1. ACC3 designation of air carriers and RA3 and KC3 designation of entities and operators part of the supply chain of an ACC3

In accordance with Chapter 6.8.1 of the Annex to Regulation (EU) 2015/1998, air carriers - no matter if established in the EU, in the United Kingdom, or in another third country - that transport air cargo and mail from an airport located in a third country into the EU have to be designated by the appropriate authority of an EU Member State as "Air Cargo or Mail Carrier operating into the European Union from a Third Country Airport" (ACC3) and ensure implementation of certain security measures.

This is not required if the third country is listed in Attachments 6-Fi or 6-Fii of the Annex to Regulation (EU) 2015/1998.

The United Kingdom has been listed in attachment 6-Fi of the Annex to Regulation (EU) 2015/1998.\(^\text{14}\)

Consequently, at the end of the transition period, the ACC3 designation will not be required for the carriage of cargo or mail on flights originating from the United Kingdom and the ground operators feeding the supply chain of air carriers flying cargo and mail from the United Kingdom into the EU are not required to be

\(^{13}\) In accordance with Recommended Practice 4.2 of ICAO Annex 9 to the Chicago Convention: *With respect to cargo moving by both air and surface transport under an air waybill, Contracting States should apply the same regulations and procedures and in the same manner as they are applied to cargo moving solely by air.*

\(^{14}\) Regulation (EU) 2019/413.
designated as "Third Country Regulated Agent" (RA3) and/or "Third Country Known Consignor" (KC3) nor be subject to the EU aviation security validation process.

1.2.2. Approvals of EU Aviation Security Validators

In accordance with Chapter 11.6 of the Annex to Regulation (EU) No 2015/1998 (point 11.6.4.2), natural and legal persons approved as EU aviation security validators by an EU Member State shall be recognised in all EU Member States.

Aviation security validators approved by the United Kingdom are no longer recognized in the EU as of the end of the transition period.

The EU aviation security validations performed before the end of the transition period, including the EU validation reports issued before that date remain valid for the purpose of the designation of air carriers, operators and entities they have validated.

1.2.3. Approval of Regulated Agents and Known Consignors in the EU

In accordance with Chapters 6.3 and 6.4 of the Annex to Regulation (EU) No 2015/1998, EU-based entities approved as Regulated Agents or Known Consignors by an EU Member State shall be recognised in all EU Member States and listed in the Union database on supply chain security.

Regulated Agents and Known Consignors approved by the appropriate authority of the United Kingdom are no longer listed in the Union database on supply chain security as of the end of the transition period.

1.2.4. Recognition of ACC3/KC3/RA3 designations by the United Kingdom

ACC3/KC3/RA3 designations granted by the appropriate authority of the United Kingdom will not be recognised by EU Member States as of the end of the transition period. As a result, all carriers and cargo operators in third countries that have been designated by the authority of the United Kingdom will be required to hold, as of the end of the transition period, the ACC3/KC3/RA3 status accorded by the appropriate authority of an EU Member State.

**Responsible Commission services are going to support Member State administrations in the process of reattributing the responsibility for the designation of air carriers, third country regulated agents and third country known consignors, currently designated by the United Kingdom by facilitating the administrative transition.**
1.2.5. **Regulated suppliers**

In accordance with Chapter 8.1.3 of the Annex to Regulation (EU) 2015/1998, regulated suppliers (some airport suppliers as well as inflight suppliers) have to be approved by the appropriate authority. According to Chapter 8.1.3.5 of Regulation (EU) 2015/1998, the approval of a regulated supplier by an EU Member State shall be recognised in all EU Member States.

Approvals by the appropriate authority of the United Kingdom will not longer be recognised by an EU Member State as of the end of the transition period.

2. **Maritime security**

Regulation (EC) No 725/2004 on enhancing ship and port facility security\(^{15}\) and Directive 2005/65/EC on enhancing port security\(^{16}\) set out the EU rules on maritime security.

- Article 6 of Regulation (EC) No 725/2004 requires the competent authority for maritime security of the Member State to request ships announcing their intention to enter a port to provide certain security information. According to Article 7(1),(2) of Regulation (EC) No 725/2004, Member States can request each other, for international scheduled services operated between them, to exempt these services from providing this mandatory security information. As of the end of the transition period, this possibility, as provided by Regulation (EC) No 725/2004, no longer exists for the United Kingdom. This means that, as of the end of the transition period, all scheduled services falling within the scope of Article 6 of Regulation (EC) No 725/2004, such as ferry links between the United Kingdom and EU Member States, will be subjected to the mandatory provision of security information set out therein.

- According to Article 16(2) of Directive 2005/65/EC, the personnel carrying out security inspections or handling confidential information (including the personnel of recognised security organisations, see Article 11 of Directive 2005/65/EC) requires a security vetting of the Member State of which the person concerned is a national. This means that United Kingdom personnel (thus holding a security clearance from the United Kingdom) can no longer carry out the security inspections referred to in this Directive. The same applies for inspections under Regulation (EC) No 725/2004 (for International Ship and Port Facility Security (ISPS) compliance), pursuant to Article 12 thereof.
